INTRODUCTION
This English Language Arts Core Curriculum (2005) is a standards-based document that provides an additional level of specificity to the learning standards for English language arts adopted by the New York State Board of Regents in 1996. It respects the tradition of local choice in New York State that empowers educators to select texts, identify products, and use a rich array of instructional strategies and activities to meet student learning needs. This core curriculum is designed to provide assistance, while allowing for creativity, in the development of local instructional materials. This revision of the core curriculum is in response to the federal No Child Left Behind (NCLB) mandate for specificity of performance indicators in grades 3–8. This created an opportunity for New York State not only to expand the level of specificity for prekindergarten–grade 12 but to present together material from both the Early Literacy Guidance: Prekindergarten–Grade 3 and the English Language Arts Resource Guide with Core Curriculum.

Educators are encouraged to use this core curriculum document to align local curricula to the grade-by-grade performance indicators as designated under New York State’s learning standards and key ideas. In addition to subject-specific knowledge and understandings, there are some crosscutting capabilities that are common to all fields and that contribute to successful participation in school, work, family, and community. Such essential skills have been articulated in the report of the U.S. Department of Labor’s Secretary’s Commission on Achieving Necessary Skills (SCANS) and are included in the Universal Foundation Skills found in the Regents-adopted Learning Standards for Career Development and Occupational Studies.

PHILOSOPHY
State Education Department staff and educators from across the State who collaborated in the development, review, and subsequent revision of this core curriculum did so on the basis of shared beliefs. These beliefs are reflected in the English Language Arts Core Curriculum, which

- Integrates with other State Education Department curriculum guidance materials, such as Preliminary Draft Framework for English Language Arts, Learning Standards for English Language Arts, English Language Arts Resource Guide with Core Curriculum, Early Literacy Guidance, Closing the Gap–Teacher to Teacher, Essential Elements of Learning, and the New York State Testing Program Grades 3–8
- Recognizes that English language arts learners must be exposed to regular and varied opportunities to read
- Guides students to read a minimum of 25 books or the equivalent, per year, across all content areas and all standards
- Guides students to write at least 1,000 words, per month, across all content areas and all standards
- Guides students to listen and to speak on a daily basis
- Recognizes that teachers in all content areas share responsibility for the development of reading, writing, listening, and speaking competencies
- Supports the recursive nature of language arts development across the continuum, from prekindergarten through grade 12
- Affirms that all students are able to achieve competency in the presence of skilled instruction, adequate time for learning, varied and/or specialized resources, and additional support as needed
- Recognizes that equity in and access to technology and other resources must be ensured at State, regional, and local levels and enhances the development of critical literacy competencies
- Reflects an understanding of the developmental needs of students as they work to achieve competency in language arts
- Focuses on students as active learners, responsible for and knowledgeable about their own learning
The State Education Department is proud of its tradition of involving New York State teachers in a variety of curriculum guidance initiatives related to each of the seven learning standard areas and State assessments. Over the years, thousands of New York’s teachers have worked with the Education Department to develop New York’s learning standards, resource guides with core curriculum, statewide professional development modules, test items, and scoring procedures for State assessments. More recently, teachers have played an important role in reviewing curriculum guidance materials and Regents examinations prior to statewide use.

The Education Department values teachers’ expert opinions in guiding this important work, encourages increased involvement, and has issued a Call for Expertise to solicit teacher/educator interest in state-level work. See www.emsc.nysed.gov/ciai/callela.htm

DEFINITIONS

Learning Standard
A learning standard is an established level or degree of quantity, value, or quality. New York State learning standards are defined as the knowledge, skills, and understandings that individuals can, and do, habitually demonstrate over time—as a consequence of instruction and experience.

New York State English Language Arts Learning Standards

**Standard 1:** Students will read, write, listen, and speak for information and understanding
As listeners and readers, students will collect data, facts, and ideas, discover relationships, concepts, and generalizations; and use knowledge generated from oral, written, and electronically produced texts. As speakers and writers, they will use oral and written language to acquire, interpret, apply, and transmit information.

**Standard 2:** Students will read, write, listen, and speak for literary response and expression
Students will read and listen to oral, written and electronically produced texts and performances, relate texts and performances to their own lives, and develop an understanding of the diverse social, historical, and cultural dimensions the texts and performances represent. As speakers and writers, students will use oral and written language for self-expression and artistic creation.

**Standard 3:** Students will read, write, listen, and speak for critical analysis and evaluation
As listeners and readers, students will analyze experiences, ideas, information, and issues presented by others using a variety of established criteria. As speakers and writers, they will present, in oral and written language and from a variety of perspectives, their opinions and judgments on experiences, ideas, information and issues.

**Standard 4:** Students will read, write, listen, and speak for social interaction
Students will use oral and written language for effective social communication with a wide variety of people. As readers and listeners, they will use the social communications of others to enrich their understanding of people and their views.

Key Ideas
Key ideas are listed as the receptive language skills of listening and reading and as the expressive language skills of writing and speaking.

Core Performance Indicators
Core performance indicators are descriptions of student achievement: what students should know and be able to do in prekindergarten–grade 12 as a result of skilled instruction. Core performance indicators are those performance indicators that are common to all four English language arts standards.

Literacy Competencies
The prekindergarten–grade 3 literacy competencies have been incorporated into this core curriculum without modification from the Early Literacy Guidance document. In 2002, through the federal Reading First grant, the New York State Education Department is addressing the goal that all children will be able to read by the end of third grade. The Early Literacy Guidance document played a significant role in the successful awarding of this grant to New York State.
Grade-Specific Performance Indicators
Grade-specific performance indicators are descriptions of student achievement: what students should know and be able to do in prekindergarten–grade 12 as a result of skilled instruction. Grade-specific performance indicators are specific competencies for each key idea within each learning standard.

HOW TO USE THIS GUIDE
This revised edition (2005) of the English Language Arts Core Curriculum provides an increased level of specificity for each of the four English language arts learning standards. This level of specificity is delineated for each grade, prekindergarten–grade 12. This guide is organized into three grade configurations. Each grade configuration includes core performance indicators, literacy competencies, and grade-specific performance indicators.

• Core Performance Indicators: Core performance indicators are common to all four English language arts standards, according to the following grade configurations:

<table>
<thead>
<tr>
<th>Grade Configuration</th>
<th>PreK–K–1</th>
<th>2–3–4</th>
<th>5–6</th>
<th>7–8</th>
<th>9–10–11–12</th>
</tr>
</thead>
</table>

Literacy Competencies: Each grade describes the literacy competencies that are organized by the four key ideas of language and literacy: reading, writing, listening, and speaking.

• Grade-Specific Performance Indicators: These performance indicators are organized under each key idea within each learning standard. Each key idea is defined through the presentation of grade-specific performance indicators: what students need to know and be able to do as a result of skilled instruction. When performance indicators are reinforced across multiple grades, they represent the ongoing development of skills and are repeated with the understanding that this competency will increase in complexity in accordance with grade-level expectations. Students are expected to reach proficiency at the grade level in which a performance indicator is first listed.

As educators develop and align their English language arts curricula for each grade, core performance indicators, literacy competencies, and grade-specific performance indicators must be addressed holistically.

NEXT STEPS
This document is the first step in a full revision of the English Language Arts Resource Guide with Core Curriculum. Over time, additional curriculum guidance materials will become available as part of the current initiative to update the English Language Arts Resource Guide with Core Curriculum.

Literacy competencies for prekindergarten–grade 8 are presented in this document. Literacy competencies for grades 9–12 are under development and will be posted online when available.

LITERACY COMPETENCIES
The reading competencies common to all four ELA standards in which students are making adequate progress during kindergarten are

PHONOLICAL AND PHONEMIC AWARENESS
- Identify and produce spoken words that rhyme
- Blend beginning sound (onset) with ending sound (rime) to form known words in rhyming word families (k-it, s-it, b-it)
- Count or tap the number of syllables in spoken words
- Isolate individual sounds within spoken words (“What is the first sound in can?”)—Phoneme Isolation
- Identify the same sounds in different spoken words (“What sound is the same in sit, sip, and sun?”)—Phoneme Identity
- Categorize the word in a set of three or four words that has a different sound (“Which word doesn’t belong: doll, dish, pill?”)—Phoneme Categorization
- Blend spoken phonemes to form words using manipulatives (e.g., counters) to represent each sound: /b/ /l/ /g/—Phoneme Blending
- Segment spoken words into component sounds using manipulatives (e.g., counters) to represent each sound (“How many sounds are there in big? Move three counters.”)—Phoneme Segmentation
- Recognize the remaining word when a phoneme is removed (“What is cat without the /k/?”—Phoneme Deletion
- Make a new word by adding a phoneme to an existing word (“What word do you have if you add /s/ to mile?”)—Phoneme Addition
- Substitute one phoneme for another to make a new word (“The word is rug. Change /g/ to /n/. What is the new word?”)—Phoneme Substitution
