Introduction - Executive Summary

Executive Summary

2018-19 Consolidated Application for ESSA-Funded Programs

Background Information:

NYSED has developed the online *2018-19 Consolidated Application for ESSA-Funded Programs* to support the timely administration of ESSA-funded programs to local educational agencies (LEAs) across the state. Consistent with federal requirements, the new online application for the 2018-19 school year has replaced the traditional NYSED Consolidated Application process. The application will be made available to LEAs through the NYSED Business Portal before the end of the 2017-2018 school year.

The application is streamlined to focus on the required assurances from Section 8306 of the ESSA, as well as fiscal and programmatic information that staff have determined is necessary to properly administer each program. The additional information requested in the application will allow NYSED reviewers to ensure that all LEAs are fully prepared to effectively address key provisions of ESSA regulations. For example, the application includes a significant focus on consultation with required constituent groups in the design of ESSA-supported programs. Even though LEAs will provide assurances that consultation has occurred, NYSED has determined that evidence of that consultation should be provided as part of the application process. Toward that end, documentation of the constituent groups included in consultation, along with a *Written Affirmation of LEA Consultation with Private School Officials Form* will be required as part of the initial application.

The online format dramatically improves NYSED's capacity to collect and analyze district-provided data in a timely manner, and then utilize that data to provide targeted support to LEAs as part of shared continuous improvement efforts. For example, the format will allow NYSED to quickly review LEA-determined per pupil amounts for Title I, Part A programs to confirm that funds for services are appropriately distributed among eligible public and non-public schools. For LEAs whose calculation methodologies are not clear or are not consistent with ESSA requirements, NYSED program staff will be able to provide immediate technical assistance to ensure the proper distribution of funds.

The online application also supports better coordination among NYSED program offices – furthering the Department's capacity to support continuous improvement through technical assistance. For example, consultation forms and other data related to equitable services to private school students and teachers will be shared with the Ombudsman to help coordinate technical assistance and monitoring efforts between the Title I School and Community Services Office and the State Office of Religious and Independent Schools. Similarly, data about an LEA's use of Title II, Part A funds will be easily shared with District and School Review Teams from the Office of Accountability and the Office of Educator Quality and Professional Development to help LEAs maximize the use of evidence-based professional development strategies in identified schools.

Questions about the *2018-19 Consolidated Application for ESSA-Funded Programs* can be directed to the Title I School and Community Services Office at 518-473-0295 or via email at conappta@nysed.gov.

Title IIA - Use of Funds - Personalized Professional Development (Part 1 of 3)

1. Is the LEA using Title IIA funds for Instructional Coaching?

CONDITIONS OF USE:

Coaching programs are broadly defined as in-service PD programs where coaches or peers observe teachers' instruction and provide feedback to help them improve. Coaching should be individualized, time-intensive, sustained over the course of a semester or year, context-specific, and focused on discrete skills.[1]. Common roles for coaches include:

- **Instructional:** Helps teachers implement effective instructional strategies, new ideas, often by observing a teacher and providing feedback, demonstrating a lesson, or even co-teaching;
- **Curriculum:** Excels at understanding content standards, how components of a curriculum link together, in addition to how to use the content in planning instruction and assessment; and
- **Data:** Leads conversations that assists teachers in analyzing data and then applying the data to strengthen instruction.

2. Is the LEA using Title IIA funds for Professional Learning Communities?

CONDITIONS OF USE: PLCs are learning teams organized by subject, grade level, and/or special interest in which teachers meet weekly to discuss issues around student learning, collect and analyze data, develop and try out instructional solutions, and assess the impact of these solutions. Research indicates that well-implemented PLCs support improvements in practice along with student learning gains[1]. The most successful PLCs have an explicit focus on student learning, increase teacher empowerment and authority in decision making, and promote continuous teacher learning through joint study of research literature[2].

3. Is the LEA using Title IIA funds for Principal Leadership?

CONDITIONS OF USE: Leadership is second only to teaching among school related factors as an influence on learning[1]. Effective pre-service and in-service principal training programs[2] should be aligned with the 2015 Professional Standards for Educational Leaders (PSELs), and may include high-quality mentoring and coaching, peer observations, visits to other schools, principals networks and conferences, participation in professional development with teachers, and guided “walk-throughs” of schools to look at particular practices in classrooms and consider how to evaluate/improve learning and teaching.

In successful models, full-time mentors are carefully selected and receive more than 100 hours of training annually. Teachers receive two years of coaching, meeting with their assigned mentors weekly for a minimum of 180 minutes per month.
