INTRODUCTION

In response to the growing number of children being diagnosed with autism, the Legislature enacted Chapter 143 of the Laws of 2006 to amend Sections 3004(4) and (5) of the Education Law to require that all persons applying for a teaching certificate or license on or after February 2, 2007, as a special education teacher or as a school administrator who works in special education, complete course work or training in the needs of children with autism. Special education teachers include those with certification titles in *special education, students with disabilities, teaching students who are deaf or hard-of-hearing, teaching students who are blind or visually impaired, and teaching students with speech and language disabilities.*

To continue to comply with this legislation, beyond the approved provider's expiration date, additions and updates have been made to the New York State Syllabus (Outline) for the 3-hour training required under the Regulations of the Commissioner of Education, that became effective on July 11, 2008. These changes were been made with the advice of an external and internal workgroup. The regulations:

- detail the required components of such course work or training within special education programs at institutions of higher education (Section 52.21);
- require that candidates applying for a certificate in special education through individual transcript evaluation to have training in the needs of students in autism (Section 80-1.12);
- set forth the standards for course work and training and establish the application process for organizations seeking to become approved providers of such course work or training (Subpart 57-3); and
- require the Department to develop a syllabus for providers offering such course work or training (Subpart 57-3).

The law requires that the course work or training must be obtained from an institution or provider that has been approved by the State Education Department to offer such course work or training, must follow the Department's Autism Syllabus (Outline) (Attachment A), and must meet the minimum time requirements.

Subpart 57-3 of the Commissioner's Regulations defines the entities eligible to serve as providers of training or course work in the needs of children with autism. Under the Regulations, a provider must be one of the following:

- Teachers' or professional organization or association
- School district
- Board of Cooperative Educational Services (BOCES)
- Nonpublic school
- Institution of higher education (Note: New York State institutions with approved students with disabilities program leading to certification are exempt from the application process and deemed approved, pursuant to Subpart 57-3.7.)
- Hospital
- Health care facility
- Government agency or office
- Social service agency
- Any other organization whose purpose is the provision of course work in the needs of students with autism.

To be approved as a provider, an eligible organization must submit acceptable evidence to the Department that it has adequate resources (e.g., financial, physical, personnel) to offer such course work or training. Approved providers must also demonstrate the competence of the instructors offering the training through earned degrees, training, expertise, and relevant experience in the provision of training or course work in the needs of children with autism.

The term of approval is six years. A new application, including supporting documents and nonrefundable fee is required for renewal of approval.

Those entities interested in becoming approved providers (or renewing approval) must complete and submit the application, including all supporting documents, along with payment of the nonrefundable fee of \$600. Payment must be in the form of a certified check or money order, made payable to the New York State Education Department. These materials should be sent to the address below. Questions may be directed to appinfo@nysed.gov. In the subject line, type "Approval Autism Application."
