

### Clinical Practice Work Group Survey and Regional Meetings

The New York State Department of Education convened the Clinical Practice Work Group in June 2017 to examine the current regulations related to clinical experiences. The work group is composed of members from the P-12 and higher education communities and has been meeting regularly to discuss best practices and aspirational goals for field experiences and student teaching in teacher preparation programs.

The work group has developed draft recommendations for changing the regulations related to clinical experiences and is seeking feedback from the education community on the draft recommendations through a survey and regional meetings. The link to the [draft recommendations, survey, regional meeting schedule, and meeting registration form](#) is provided below. The meeting rooms and addresses are provided on the meeting schedule. The following table shows the locations of the meetings.

The deadline for completing the survey is **March 22**, and the deadline for completing the meeting registration form is **two days prior to the meeting**. Please note that registration will close for a particular meeting if room capacity is met. The feedback from the survey and regional meetings will be considered by the work group when it develops the final recommendations for the Board of Regents this spring. The work group greatly appreciates your valuable feedback.
