APPR Plan - Variance

Annette Hammond, Superintendent
Gilbertsville-Mount Upton Central School District
693 State Highway 51
Gilbertsville, NY 13776

Dear Superintendent Hammond:

Congratulations. I am pleased to inform you that your Annual Professional Performance Review (APPR) plan variance application meets the criteria outlined in section 30-3.16 of the Rules of the Board of Regents and has been approved. As a reminder, we are relying on the information you provided in your variance application, including the narrative descriptions, certifications, and assurances that are included in the application. During the approved term of this variance, your LEA will implement the variance along with all other remaining provisions of your approved APPR plan. If any material changes are made to your approved plan and/or the terms of your approved variance, your LEA must submit such material changes to us for approval. Please see the attached notes for further information.

Please be advised that, pursuant to Education Law §3012-d, the Department will be analyzing data supplied by districts, BOCES, and/or schools and may order a corrective action plan if there are unacceptably low correlation results between the Student Performance category and the Teacher Observation or Principal School Visits category, and/or if the teachers' or principals' overall ratings and subcomponent scores show little differentiation across educators and/or the lack of differentiation is not justified by equivalently consistent student achievement results, and/or if schools or districts show a pattern of anomalous results in the Student Performance category and/or the Observation/School Visits category.

The New York State Education Department and I look forward to continuing our work together, with the goal of ensuring that every school has world-class educators in the classroom, every teacher has a world-class school leader to support their professional growth, and every student achieves success.

Thank you again for your hard work.

Sincerely,

Betty A. Rosa
Interim Commissioner

NOTE:

Only documents that are incorporated by reference in your APPR variance application have been reviewed and are considered as part of your approved APPR variance application; therefore, any supplemental documents such as memorandums of agreement or understanding that were uploaded with your APPR variance application but are not incorporated by reference have not been reviewed. However, the Department reserves the right to review the uploaded attachments at any time for consistency with your APPR plan and/or to ensure compliance with applicable laws and regulations; and as a result of such review, the Department may reject your APPR plan or variance and/or require corrective action.

Pursuant to section 30-3.16 of the Rules of the Board of Regents, please note that an LEA with an approved variance shall provide to the Department, upon its request, any documentation related to the implementation and efficacy of the approach proposed in the variance, including but not limited to: reports on the correlation in assigned ratings for different measures of the LEA's evaluation system and differentiation among educators within each subcomponent and category of the evaluation system

Your variance is approved for the 2020-21 school year. Because you requested this variance to address issues related to COVID-19, the approval of this variance for any future school years (up to a three school year period) is contingent on the continuation of the current COVID-19 pandemic notwithstanding your request for this variance to apply in future school years. Upon expiration of state-imposed restrictions or emergency measures related to the pandemic, or abatement of the pandemic, it is expected that your variance will no longer be required. As such, SED may withdraw its approval of this variance for any subsequent school years or may require a separate application or other documentation for continuation of the variance in future school years. Upon expiration of the approved term of your variance, you must implement the terms of your current APPR plan as approved by the Commissioner.

Annual Professional Performance Review Variance (Education Law 3012-d)

For guidance related to the Annual Professional Performance Review variance, see NYSED APPR Guidance.

At its October 2019 meeting, the Board of Regents amended sections 30-3 of the Rules of the Board of Regents to allow LEAs to apply for a variance from Annual Professional Performance Review (APPR) plan requirements to permit them to develop and implement new and innovative approaches to evaluation that meet the specific needs of the LEA, upon a finding by the Commissioner that the new and innovative approach demonstrates how it will ensure differentiated results over time and how the results of the evaluation will be used to provide personalized professional learning opportunities to teachers and principals, while complying with the requirements of Education Law §3012-d.

In instances where a variance is approved, the term(s) described in the approved variance will replace the related sections of the LEA's currently approved APPR plan. However, please note that all other terms as are present in the LEA's currently approved plan will remain in effect and must be implemented without modification.

Once a variance is approved by the Department, it shall be considered part of the LEA's APPR plan during the approved term of the variance. **In any instance in which there is an approved variance and such variance contains information that conflicts with the information provided in the approved Education Law §3012-d APPR plan, the provisions of the approved variance will apply during the approved term of the variance.**

Variance Application Timeline

Variance applications must be approved by the Department by December 1 of a school year to be implemented in that school year.

Submission by November 1 is suggested to allow time for review, revision and approval in order to meet the approval deadline for implementation in the same school year.

Absent a finding by the Commissioner of extraordinary circumstances, a variance application approved after December 1 of a school year will not be implemented until the following school year.

For more information regarding the variance approval deadline, including a possible extension, please contact APPRVariance@nysed.gov.

Variance Details*Please read the questions below and answer each prompt in a concise manner.***Rationale****Please provide a rationale for this variance request.****> Your rationale should include information regarding the specific, identified needs and/or challenges of the LEA, and how such needs and/or challenges inform development of the teacher observation variance request.**

At this point, for safety of all students and staff, parents and guests are not currently allowed entrance into the school building due to COVID-19, so we believe it is not safe to have an independent evaluator entering our classrooms. We are also limiting the number of contacts within the classroom environments. We will be reducing the number of observations for these same reasons. We will be increasing the time commitment to the process by extending the observations through the entire lesson block if we are requiring additional evidence. We are requiring a post observation conference for all teachers. The practice of reflection and cognitive coaching occurs during the post-conference. This change will offer a more constructive professional dialog between the observer and the teacher, ultimately improving the teaching practice. The impetus of this discussion was to meet the evaluation needs of the district more efficiently during the COVID-19 Pandemic. However, as we have moved forward in the discussion, we realized that this re-design in the observation process could promote more reflective practice, increase dialogue between teachers and administrators, and ultimately improve instruction and student learning. Therefore, the safety needs of our students and staff have led us to this request to reduce the number of observations and our belief is that we will have a positive impact on the teaching and learning practices. We are eliminating the unannounced observation for the purposes of planning and logistics.

Standards and Procedures**Please provide a description of the standards and procedures that will be used in lieu of those included in the LEA's most recently approved evaluation plan.****> This description should include a specific, detailed explanation of the new and innovative approach that the LEA is seeking to implement as part of its variance request.****> This description should include, but not be limited to, a description of the alternate measures and/or evidence of teacher practice that will be used to evaluate educators.**

We propose one announced observation minimally for tenured teachers and two announced observations minimally for non-tenured teachers, allowing all teachers to request that an additional observation be conducted. Lead evaluators will conduct all observations; independent evaluators will not be performing observations. Lead evaluators have received the same training and have participated in calibration activities. We have provided the evaluators training in the fall of 2020 to review proposed changes and prepare for this variance and the new observation system. We have moved from a 40-minute period to an 80-minute block schedule in grades 7-12. In grades k-6, we have 60-minute ELA, Social Studies/Science, and Math blocks. We will be increasing the length of time for the announced observations if there is a need to collect additional evidence. We will be increasing the time commitment as needed based on the nature of the class and the collection of evidence and we are requiring the post-observation conference.

Rigor

Please provide a description of how the LEA will ensure that evaluations are rigorous and enable strong and equitable inferences about the effectiveness of the LEA's educators.

> This description should include how rigor is achieved and maintained, including relevant processes and methodologies.

> This description may include, but is not limited to, how data will be used to draw inferences, including how the derived data informs decisions and guidance for the LEA's educators.

The plan is designed to increase rigor. We will consistently observe noted rubric components for all teachers in each observation, to maintain rigor. The announced observations continue to provide us a deeper sub-set of data with the multiple sub-components being scored. Therefore, we believe a thorough observation followed by a post-observation conference will provide deep information about teacher practice. A cognitive coaching conversation will occur between the evaluator and the teacher if a sub-component was not scored and offer several thoughts on how they can adjust their professional practice to make sure that the sub-components elements are evident in their lesson delivery. Observation data will continue to be collected using observer scripted notes of evidence, and the teacher shared evidence through the lesson plan documents. The observation process is designed to occur over a 7 day period, start to finish, ending with the teacher receiving their scores and scheduling of the post-observation conference. We will be increasing the time commitment to the process as needed by extending the observations through the entire lesson block and requiring the post-conference. The practice of reflection and cognitive coaching occurs during the post-conference. This change will offer a more constructive professional dialog between the observer and the teacher, ultimately improving the teaching practice. The impetus of this discussion was to meet the evaluation need of the district more efficiently during the COVID-19 Pandemic. However, as we moved forward in the discussion, we realized that this re-design in the observation process could promote more reflective practice, increase dialogue between teachers and administrators, and ultimately improve instruction and student learning.

Professional Learning

Please provide a description of how the LEA will use the information collected through the evaluation system, including the assigned effectiveness ratings, to provide personalized professional learning opportunities for educators.

> This description may include, but is not limited to, methodologies and procedures for:

- collecting information about educator effectiveness to inform professional learning,
- specific details regarding both the type(s) and extent of professional learning opportunities anticipated,
- processes for delivery of personalized learning opportunities, and
- use of data to measure the efficacy of such professional learning.

We will follow our APPR Plan, continuing to offer Professional Learning opportunities to all teachers. We record our data by hand given the size of our school. This allows us to carefully review each teacher's file so that we can identify trends and areas of strength as well as areas of weakness. The administrative team, along with consultants, plan appropriate professional development that provides immediate, individualized professional development needs. We have used this process for years and have found it to be effective. This practice is outlined on our PD Plan and we do not expect to change that practice given our variance. Our current professional development is provided by district administration, literacy specialists/consultant, BOCES Instructional Support Specialists, and outside vendors. Resources needed are balanced against fiscal responsibility. For example, we will be providing teachers with training on i-Ready and F&P.

Effectiveness of Implementation

Please provide a description of how the LEA will assess the effectiveness of the implementation of the variance.

> This description may include, but is not limited to, processes and procedures for:

- collection and analysis of both short- and long-term data,
- the standard(s) used to measure the effectiveness of implementation, and
- how results will be used to inform future implementation.

This variance will allow us to complete effective observations within the requirements of the APPR Plan. Following this observations process, we will meet with our collaborative team to gain feedback on the single observer process and how effective they felt it was asking if it provided ample reflective and constructive feedback. Administrators will also gain informal feedback. The APPR committee will review all data collected to discuss the impact of the variance on teachers' practices and students' learning. This review will be completed in July 2021 and we will consider any changes that need to be made at that point.

For guidance on APPR scoring, see NYSED APPR Guidance.

Education Law §3012-d requires that each teacher be given a final score for both the Student Performance and Teacher Observation categories, which will be converted to a final category rating based on the HEDI scale, and that these ratings be used to provide an Overall Rating using the prescribed scoring matrix.

These requirements must be met through either the LEA's current APPR plan or this variance. To the extent that the variance does not address a requirement, the currently approved APPR plan will apply.

Dear Superintendent Hammond:

Congratulations. I am pleased to inform you that your Annual Professional Performance Review (APPR) plan meets the criteria outlined in Education Law §3012-d and Subpart 30-3 of the Commissioner's Regulations and has been approved. As a reminder, we are relying on the information you provided on your APPR form, including the certifications and assurances that are part of your approved APPR plan. If any material changes are made to your approved plan, your district/BOCES must submit such material changes to us for approval. Please see the attached notes for further information.

Please be advised that, pursuant to Education Law §3012-d, the Department will be analyzing data supplied by districts, BOCES, and/or schools and may order a corrective action plan if there are unacceptably low correlation results between the Student Performance category and the Teacher Observation or Principal School Visits category, and/or if the teachers' or principals' overall ratings and subcomponent scores show little differentiation across educators and/or the lack of differentiation is not justified by equivalently consistent student achievement results, and/or if schools or districts show a pattern of anomalous results in the Student Performance category and/or the Observation/School Visits category.

The New York State Education Department and I look forward to continuing our work together, with the goal of ensuring that every school has world-class educators in the classroom, every teacher has a world-class principal to support his or her professional growth, and every student achieves college and career readiness.

Thank you again for your hard work.

Sincerely,

Betty A. Rosa

The Department will review the contents of each local educational agency's (LEA) Annual Professional Performance Review (APPR) plan as submitted using this online form, including required attachments, to determine if the plan rigorously complies with Education Law §3012-d and Subpart 30-3 of the Rules of the Board of Regents. Department approval does not imply endorsement of specific educational approaches in an LEA's plan.

The Department reserves the right to request further information from an LEA to monitor compliance with Education Law §3012-d and Subpart 30-3 of the Rules of the Board of Regents. Each LEA is required to keep detailed records on file for each section of the currently implemented APPR plan. Such detailed records must be provided to the Department upon request. The Department reserves the right to disapprove or require modification of an LEA's plan that does not rigorously adhere to the requirements of Education Law §3012-d and Subpart 30-3 of the Rules of the Board of Regents.

The Department will not review any attachments other than those required in the online form. Any additional attachments supplied by the LEA are for informational purposes only for the teachers and principals reviewed under this APPR plan. Statements and/or materials in such additional attachments have not been approved and/or endorsed by the Department. However, the Department considers void any other signed agreements between and among parties in any form that prevent, conflict, or interfere with full implementation of the APPR plan approved by the Department. The Department also reserves the right to request further information from the LEA, as necessary, as part of its review of this plan.

If the Department reasonably believes through investigation, or otherwise, that statements made in this APPR plan are not true or accurate, it reserves the right to reject or disapprove this plan at any time and/or to request additional information to determine the truth and/or accuracy of such statements.

Required Student Performance Subcomponent

For guidance on the Required subcomponent of the Student Performance category, see NYSED APPR Guidance.

100% of the Student Performance category if only the Required subcomponent is used or locally determined if the Optional subcomponent is selected.

Each teacher shall have a Student Learning Objective (SLO) locally determined, consistent with the goal-setting process determined by the Commissioner.

Student Learning Objectives (SLOs)

For guidance on SLOs, see NYSED SLO Guidance.

SLOs shall be used for the required student performance measure for all teachers. The following must be used as the evidence of student learning within the SLO.

MEASURES

SLO measures may be either individually attributed or collectively attributed.

Individually attributed measures

An individually attributed SLO is based on the student population of a course for which the teacher directly contributes to student learning outcomes.

> Teacher and course-specific

- **Teacher and course-specific results:** scores and ratings will be based on the growth of students in the teacher's course in the current school year.

Collectively attributed measures

A collectively attributed SLO is based on a student population across multiple sections of the same course or across multiple courses where more than one teacher either directly or indirectly contributes to student learning outcomes. When determining whether to use a collectively attributed SLO, the LEA should consider:

- identifying which measures and assessments could be used to encourage partnerships or teams where teachers have an opportunity to collectively impact student learning;
- identifying which assessments could be used to help foster and support an LEA's focus on a specific priority area(s);
- the impact on the LEA's ability to make strong and equitable inferences regarding an individual educator's effectiveness; and
- when using multiple measures, the appropriate weight of each measure that reflects individually and collectively attributed results.

> School- or program-wide

- **School- or program-wide results:** scores and ratings will be based on the growth of all students in a school or program who take the applicable assessments in the current school year.
- **School- or program-wide group or team results:** scores and ratings for a group or team of teachers will be based on the growth of students in the group/team of teachers' courses in the current school year.
- **School- or program-wide linked results:** scores and ratings will be based on the growth of students enrolled in the teacher's course in the current school year taking assessments in other grades/subjects.

> District- or BOCES-wide

- **District- or BOCES-wide results:** scores and ratings will be based on the growth of all students across buildings/programs in an LEA who take the applicable assessments in the current school year.
- **District- or BOCES-wide group or team results:** scores and ratings for a group or team of teachers will be based on the growth of students in the group/team of teachers' courses across buildings/programs in an LEA in the current school year.

ASSESSMENTS

Any of the measures above may be used with one or more of the following assessment types.

SLO Assurances**Please check the boxes below.**

- ☒ Assure that the teacher has an SLO as determined locally in a manner consistent with the goal-setting process determined by the Commissioner.
- ☒ Assure that all student growth targets represent a minimum of one year of expected growth, as determined locally in a manner consistent with the Commissioner's goal-setting process. Such targets may only take the following characteristics into account: poverty, students with disabilities, English language learner status and prior academic history.
- ☒ Assure that all student growth targets shall measure the change in a student's performance between the baseline and the end of the course.
- ☒ Assure that if a teacher's SLO is based on a small 'n' size population and the LEA chooses not to use the HEDI scoring bands listed above, then the teacher's 0-20 score and HEDI rating will be determined using the HEDI scoring bands specified by the Department in SLO Guidance.
- ☒ Assure that processes are in place for the superintendent to monitor SLOs.
- ☒ Assure that the final Student Performance category rating for each teacher will be determined using the weights and growth parameters specified in Subpart 30-3 of the Rules of the Board of Regents and the approved APPR plan.
- ☒ Assure that for any SLO based, in part, on the New York State grade four science assessment, once the assessment is no longer administered the SLO will utilize only the remaining assessments.

NO, the Optional subcomponent WILL NOT be used; the Required subcomponent will comprise 100% of the Student Performance category.

Annual Professional Performance Review - Education Law §3012-d, amended in 2019**Task 3. TEACHERS: Optional Student Performance - Use of the Optional Subcomponent**

Optional Student Performance Subcomponent

For guidance on the Optional subcomponent of the Student Performance measure, see NYSED APPR Guidance.

Percentage of Student Performance category to be locally determined if selected.

Such second measure shall apply in a consistent manner, to the extent practicable, across all classrooms in the same grade/subject in the LEA and be a locally selected measure of student growth or achievement based on State-created or -administered assessments or State-designed supplemental assessments.

Options for measures and associated assessments include:

- Option (A) A second SLO, provided that this SLO is different than that used in the required subcomponent;
- Option (B) A growth score based on a statistical growth model, where available, for either State-created or -administered assessments or State-designed supplemental assessments;
- Option (C) A measure of student growth, other than an SLO, based on State-created or -administered assessments or State-designed supplemental assessments;
- Option (D) A performance index based on State-created or -administered assessments or State-designed supplemental assessments;
- Option (E) An achievement benchmark on State-created or -administered assessments or State-designed supplemental assessments; or
- Any other collectively bargained measure of student growth or achievement included in the LEA's evaluation plan.

Please indicate if the Optional subcomponent will be used by making the appropriate selection below.

NO, the Optional subcomponent WILL NOT be used in the Student Performance category for any teacher.

Task 4. TEACHERS: Observations - Rubric and Scoring

Page Last Modified: 02/01/2021

Teacher Observation Category

For guidance on the Teacher Observation category, see NYSED APPR Guidance.

Teacher Practice Rubric

Select a teacher practice rubric from the menu of State-approved rubrics to assess performance based on the observable NYS Teaching Standards.

Rubric Name	If more than one rubric is utilized, please indicate the group(s) of teachers each rubric applies to.
NYSUT Teacher Practice Rubric (2014 Edition)	(No Response)

Rubric Assurances

Please check all of the boxes below.

- ☒ Assure that all observable NYS Teaching Standards/Domains of the selected practice rubric are assessed at least once a year across the total number of annual observations.
- ☒ Assure that the process for assigning points for the Teacher Observation category will be in compliance with the locally-determined subcomponent weights and overall Observation category score and rating based on the constraints prescribed by the Commissioner in Subpart 30-3 of the Rules of the Board of Regents.
- ☒ Assure that the same rubric(s) is used for all classroom teachers in a grade/subject across the LEA, provided that LEAs may locally determine whether to use different rubrics for teachers who teach different grades and/or subjects during the school year as indicated in the table above.
- ☒ Assure that the same rubric(s) is used for all observations of a classroom teacher across the observation types in a given school year.

Process for Weighting Rubric Domains/Subcomponents

For guidance on the Teacher Observation category, see NYSED APPR Guidance.

Please describe the process for rating and scoring the selected practice rubric consistent with the Department's regulations.

Your description should provide the complete process, including the following:

- The process for designating observable components (please note: all educators of the same grade/subject must be evaluated based on the same set of observable components);
- The level at which components of the chosen rubric are rated (i.e., domain, subdomain, indicator, etc.);
- How the final score and rating for each observable component of the practice rubric is determined for each observer; and
- How the final score for the required (i.e., lead evaluator/evaluator; independent evaluator) and/or optional (peer observer, as applicable) subcomponent of the Observation category is determined based on the final score and rating for each observable component.

Example: All subcomponents of Domains 2-4 of the Danielson rubric have been negotiated as observable. Domains 2 and 3 are weighted as 40% each, and Domain 4 is weighted as 20%. For each observation, all observed subcomponents in a domain are weighted equally and averaged to create a domain score, which is then weighted as above and averaged to reach a final score for each observation. Scores for each observation are weighted equally and averaged to reach a final score for each observation type. The district will ensure that all subcomponents designated as observable will be observed at least once across the observation cycle.

We observe 10 indicators which has been negotiated. All observable elements will be weighted equally and averaged to obtain an indicator score. Indicators are weighted equally and averaged together to get an overall score. Scores for each observation are weighted equally and averaged to reach a final score for each observation type (lead/independent).

Task 4. TEACHERS: Observations - Rubric and Scoring

Page Last Modified: 02/01/2021

Please check each of the boxes below.

- ☒ Assure that each set of observations (by supervisor/other trained administrator, independent, or peer) will be completed using the selected practice rubric, producing an overall score between 1 and 4. The overall weighted observation score will then be converted into a HEDI rating using the ranges indicated below.
- ☒ Assure that once all observations are complete, the different types of observations will be combined using a weighted average consistent with the weights specified below, producing an overall Observation category score between 0 and 4. In the event that a teacher earns a score of 1 on all rated components of the practice rubric across all observations, a score of 0 will be assigned.

Teacher Observation Scoring Bands

The overall Observation score will be converted into a HEDI rating based on locally determined ratings consistent with the ranges listed.

	Overall Observation Category Score and Rating	
	Minimum	Maximum
H	3.5 to 3.75	4.0
E	2.5 to 2.75	3.49 to 3.74
D	1.5 to 1.75	2.49 to 2.74
I	0.00*	1.49 to 1.74

* In the event that an educator earns a score of 1 on all rated components of the practice rubric across all observations, a score of 0 will be assigned.

HEDI Ranges

Using the dropdown menus below, please indicate the locally-determined rubric scoring ranges based on the constraints prescribed by the Commissioner in Subpart 30-3 of the Rules of the Board of Regents for each of the rating categories.

Please select a minimum value between 3.50 and 3.75 and choose 4.00 as the maximum value for the Highly Effective range.

	Minimum Rubric Score	Maximum Rubric Score
Highly Effective:	3.50	4.00

Please select a minimum value between 2.50 and 2.75 and a maximum value between 3.49 and 3.74 for the Effective range.

Observation Assurances

Please check all of the boxes below.

- ☒ Assure that the following elements will not be used in calculating a teacher's Observation category score and rating: evidence of student development and performance derived from lesson plans, other artifacts of teacher practice, and student portfolios, except for student portfolios measured by a State-approved rubric where permitted by the Department; use of an instrument for parent or student feedback; and/or use of professional goal-setting as evidence of teacher effectiveness. Page Last Modified: 02/09/2021

Appeal Assurance**Please check the box below.**

- ☒ Assure the LEA has collectively bargained appeal procedures that are consistent with the regulations and that they provide for the timely and expeditious resolution of an appeal.

Appeals

Pursuant to Education Law §3012-d, a teacher may only challenge the following in an appeal to their LEA:

(1) the substance of the annual professional performance review; which shall include the following:

(i) in the instance of a teacher rated Ineffective on the Student Performance category, but rated Highly Effective on the Observation category based on an anomaly, as determined locally;

(2) the LEA's adherence to the standards and methodologies required for such reviews, pursuant to Education Law §3012-d;

(3) the adherence to the regulations of the Commissioner and compliance with any applicable locally negotiated procedures, as required under Education Law §3012-d and Subpart 30-3 of the Rules of the Board of Regents; and

(4) the LEA's issuance and/or implementation of the terms of the teacher improvement plan, as required under Education Law §3012-d and Subpart 30-3 of the Rules of the Board of Regents.

Describe the procedure for ensuring that appeals of annual performance evaluations will be resolved in a timely and expeditious manner.

GMU Appeals Process for APPR for Teachers:

Section 3012-d of the Education Law establishes a comprehensive annual evaluation system for classroom teachers.

To the extent that a teacher wishes to challenge the annual performance review and/or improvement plan under the new evaluation system, the law requires the establishment of an appeals procedure, the specifics of which are to be locally negotiated pursuant to article XIV of the Civil Service Law. The appeal must be timely and expeditious pursuant to Education Law §3012-d. An appeal must be initiated by the teacher in writing to the Principal. The appeal will be thoroughly reviewed by the Superintendent who is charged with making a final decision which is binding. The Superintendent will give the teacher their final decision in writing.

- Appeals of Ineffective Ratings For Teachers Appeals of annual professional performance reviews will be limited to all teachers that received a rating of ineffective only.

- What may be challenged in an appeal:

Appeal procedures will limit the scope of appeals under Education Law

§3012-d to the following subjects:

- o The school district's adherence to the standards and methodologies required for such reviews, pursuant to Education Law §3012-d
- o The adherence to the Commissioner's regulations, as applicable to such reviews
- o Compliance with any applicable locally negotiated procedures applicable to annual professional performance reviews or improvement plans
- o The school district's issuance and/or implementation of the terms of the teacher improvement plan under Education Law §3012-d.
- o The substance of the APPR which includes: Where a teacher is rated Ineffective on the student performance category but rated Highly Effective on the observation category based on an anomaly, as determined locally.

- Prohibition against more than one appeal

- o A teacher may not file multiple appeals regarding the same performance review or teacher improvement plan. All grounds for appeal must be raised with specificity within one appeal. Any grounds not raised at the time the appeal is filed shall be deemed waived.

Annual Professional Performance Review - Education Law §3012-d, amended in 2019**Task 6. TEACHERS: Additional Requirements - Training**

Page Last Modified: 02/01/2021

Training Assurance**Please check the box below.**

- ☒ The LEA assures that all evaluators will be properly trained and lead evaluators will be certified on the below elements prior to completing a teacher's evaluation. Note: independent observers and peer observers need only be trained on elements 1, 2, and 4 below.

Training of Lead Evaluators, Evaluators, Independent Observers, and Peer Observers and Certification of Lead Evaluators

The process for training evaluators, including impartial and independent observers and peer observers, and certifying and re-certifying lead evaluators must include:

- 1) the process for training lead evaluators and evaluators, including impartial independent observers and peer observers;
- 2) the process for the certification and re-certification of lead evaluators;
- 3) the process for ensuring inter-rater reliability; and
- 4) the nature (content) and the approximate duration (how many hours, days) of such training.

Describe the process for training evaluators, including impartial and independent observers and peer observers, and certifying and re-certifying lead evaluators.

Training for all evaluators will include the following required topics:

- Any evaluator who participates in the evaluation of teachers or principals for the purpose of determining an APPR rating shall be fully trained and/or certified as required by Education Law 3012-d and Subpart 30-3 of the Rules of the Board of Regents prior to conducting a teacher evaluation.
- All evaluators shall successfully complete a training course (provided by DCMO BOCES) that meets the minimum requirements prescribed in Regents rules Section 30-3.10 of the regulations thereunder. Such training shall include application and use of the State-approved teacher practice rubric(s) selected by the District for use in evaluations (NYSUT 2014 Teacher Practice Rubric).
- Once an evaluator has successfully completed the required, full, single day of initial BOCES training, they will be deemed certified by the District as a lead evaluator. After initial certification, evaluators will attend a BOCES offered, single, full day of re-certification training periodically (not longer than 3 years).
- All training for current staff will be conducted prior to the implementation of the APPR process. Training will be conducted within 30 calendar days of the beginning of each subsequent school year for newly hired staff.

Inter-rater reliability process includes weekly calibration meetings with evaluators. These meetings include data analysis and review of teaching best practices.

Required Student Performance Subcomponent

For guidance on the Required subcomponent of the Student Performance category, see NYSED APPR Guidance.

100% of the Student Performance category if only the Required subcomponent is used or locally determined if the Optional subcomponent is selected.

Required Student Performance Measures

Student performance for principals may be measured by either a student learning objectives (SLO) or an Input Model where the principal's overall rating shall be determined based on evidence of principal practice that promotes student growth related to the Leadership Standards.

STUDENT LEARNING OBJECTIVES

For guidance on SLOs, see NYSED SLO Guidance.

SLO measures may be either individually attributed or collectively attributed.

Individually attributed measures

An individually attributed SLO is based on the learning outcomes of a student population within the principal's building or program.

> Principal and building/program-specific

- **Principal and building/program-specific results:** scores and ratings will be based on the growth of students in the principal's building/program in the current school year.

Collectively attributed measures

A collectively attributed SLO is based on a student population across multiple buildings/programs of similar grade configuration or across multiple building/programs where the learning activities of one building/program indirectly contribute to student learning outcomes in another building/program. When determining whether to use a collectively attributed SLO, the LEA should consider:

- identifying which measures and assessments could be used to encourage partnerships or teams where there is an opportunity for a collective impact on student learning;
- identifying which assessments could be used to help foster and support an LEA's focus on a specific priority area(s);
- the impact on the LEA's ability to make strong and equitable inferences regarding an individual educator's effectiveness; and
- when using multiple measures, the appropriate weight of each measure that reflects individually and collectively attributed results.

> District- or BOCES-wide

- **District- or BOCES-wide results:** scores and ratings will be based on the growth of all students across buildings/programs in an LEA who take the applicable assessments in the current school year.
- **District- or BOCES-wide group or team results:** scores and ratings for a group or team of principals will be based on the growth of students in the group/team of principals' buildings/programs in an LEA in the current school year.

ASSESSMENTS

Any of the measures above may be used with one or more of the following assessment types.

- **State assessment(s);** or
Assessment(s) that are selected from the list of State-approved:
- **third party assessments;** or
- **locally-developed assessments** (district-, BOCES- or regionally-developed).

INPUT MODEL

Selection of the Input Model will require:

Annual Professional Performance Review - Education Law §3012-d, amended in 2019**Task 7. PRINCIPALS: Required Student Performance - Information and Assurances**

Page Last Modified: 11/19/2020

- a description of the areas of principal practice that will be evaluated;
- a description of how the selected areas of principal practice promote student growth;
- a description of the evidence of student growth and principal practice that will be collected; and
- a description of how the district will use the evidence to differentiate effectiveness resulting in a score from 0 to 20 and ratings of Highly Effective, Effective, Developing, or Ineffective.

Assurances**Please check all of the boxes below.**

- ☒ Assure that for any SLO based, in part, on the New York State grade four science assessment, once the assessment is no longer administered the SLO will utilize only the remaining assessments.
- ☒ For principals evaluated using an SLO, assure that such SLO is determined locally in a manner consistent with the goal-setting process determined by the Commissioner.
- ☒ For principals evaluated using an SLO, assure that all student growth targets represent a minimum of one year of expected growth, as determined locally in a manner consistent with the Commissioner's goal-setting process. Such targets may only take the following characteristics into account: poverty, students with disabilities, English language learner status and prior academic history.
- ☒ For principals evaluated using an SLO, assure that all student growth targets shall measure the change in a student's performance between the baseline and the end of the course.
- ☒ For principals evaluated using an SLO, assure that if the principal's SLO is based on a small 'n' size population and the LEA chooses not to use the HEDI scoring bands listed above, then the principal's 0-20 score and HEDI rating will be determined using the HEDI scoring bands specified by the Department in SLO Guidance.
- ☒ For principals evaluated using an input model, assure that all applicable principals will be evaluated using the procedures described herein and approved by the Commissioner.
- ☒ Assure that processes are in place for the superintendent to monitor SLOs and input models.
- ☒ Assure that the final Student Performance category rating for each principal will be determined using the weights and growth parameters specified in Subpart 30-3 of the Rules of the Board of Regents and the approved APPR plan.

Principal School Visit Category

For guidance on the Principal School Visit category, see NYSED APPR Guidance.

Principals' professional performance shall be evaluated based on a State-approved rubric using multiple sources of evidence collected and incorporated into the school visit protocol. Where appropriate, such evidence may be aligned to building or district goals; provided, however, that professional goal-setting may not be used as evidence of teacher or principal effectiveness. Such evidence shall reflect school leadership practice aligned to the Leadership Standards and selected practice rubric.

Principal Practice Rubric

Select a principal practice rubric from the menu of State-approved rubrics to assess performance based on ISLLC 2008 Standards.

Rubric Name	If more than one rubric is utilized, please indicate the group(s) of principals each rubric applies to.
Marshall's Principal Evaluation Rubric	(No Response)

Rubric Assurances

Please check all of the boxes below.

- ☒ Assure that all observable ISLLC 2008 Leadership Standards/Domains of the selected practice rubric are assessed at least once a year across the total number of annual school visits.
- ☒ Assure that the process for assigning points for the Principal School Visit category will be in compliance with the locally-determined subcomponent weights and overall School Visit category score and rating based on the constraints prescribed by the Commissioner in Subpart 30-3 of the Rules of the Board of Regents.
- ☒ Assure that the same rubric(s) is used for all principals in the same or similar programs or grade configurations across the LEA, provided that LEAs may locally determine whether to use different rubrics for a principal assigned to different programs or grade configurations as indicated in the table above.
- ☒ Assure that the same rubric(s) is used for all school visits for a principal across the school visit types in a given school year.

Process for Weighting Rubric Domains/Subcomponents

Task 9. PRINCIPALS: School Visits - Rubric and Scoring

Page Last Modified: 01/22/2021

Please describe the process for rating and scoring the selected practice rubric consistent with the Department's regulations.

Your description should provide the complete process, including the following:

- The process for designating observable components (please note: all principals of the same building configuration/program must be evaluated based on the same set of observable components);
- The level at which components of the chosen rubric are rated (i.e., domain, subdomain, indicator, etc.);
- How the final score and rating for each observable component of the practice rubric is determined for each observer; and
- How the final score for the required (i.e., lead evaluator/evaluator; independent evaluator) and/or optional (peer principal, as applicable) subcomponent of the School Visit category is determined based on the final score and rating for each observable component.

Example: All subcomponents of Domains 1-4 of the MPPR rubric have been negotiated as observable. Domains 1, 2 and 3 are weighted as 30% each, and Domain 4 is weighted as 10%. For each school visit, all observed subcomponents in a domain are weighted equally and averaged to create a domain score, which is then weighted as above and averaged to reach a final score for each school visit. Scores for each school visit are weighted equally and averaged to reach a final score for each school visit type. The district will ensure that all subcomponents designated as observable will be observed at least once across the school visit cycle.

In the Marshall Rubric there are 6 domains which are weighted holistically based on the evidence collected by the observer. The Domains are weighted equally and averaged to obtain an overall score. The district will ensure that all subcomponents designated as observable will be observed at least once across the school visit cycle.

Scoring Assurances

Please check each of the boxes below.

- ☒ Assure that each set of school visits (by supervisor/other trained administrator, independent, or peer) will be completed using the selected practice rubric, producing an overall score between 1 and 4. The overall weighted school visit score will be converted into a HEDI rating using the ranges indicated below.
- ☒ Assure that once all school visits are complete, the different types of school visits will be combined using a weighted average consistent with the weights specified below, producing an overall School Visit category score between 0 and 4. In the event that a principal earns a score of 1 on all rated components of the practice rubric across all school visits, a score of 0 will be assigned.

Principal School Visit Scoring Bands

The overall School Visit score will be converted into a HEDI rating based on locally determined ratings consistent with the ranges listed.

	Overall School Visit Category Score and Rating	
	Minimum	Maximum
H	3.5 to 3.75	4.0
E	2.5 to 2.75	3.49 to 3.74
D	1.5 to 1.75	2.49 to 2.74
I	0.00*	1.49 to 1.74

* In the event that an educator earns a score of 1 on all rated components of the practice rubric across all school visits, a score of 0 will be assigned.

Describe the procedure for ensuring that appeals of annual performance evaluations will be resolved in a timely and expeditious manner.

GMU Appeals Process for APPR for Principals:

Section 3012-d of the Education Law establishes a comprehensive annual evaluation system for Principals.

To the extent that a Principal wishes to challenge the annual performance review and/or improvement plan under the new evaluation system, the law requires the establishment of an appeals procedure, the specifics of which are to be locally negotiated pursuant to article XIV of the Civil Service Law. The appeal must be timely and expeditious pursuant to Education Law §3012-d. An appeal must be initiated by the Principal, in writing to the Superintendent who will thoroughly review the appeal and will make a final decision which is binding. The Superintendent will give the Principal their final decision in writing.

- Appeals of Ineffective Ratings For Principals and Appeals of annual professional performance reviews will be limited to Principals that received a rating of ineffective only.

- What may be challenged in an appeal

Appeal procedures will limit the scope of appeals under Education Law

§3012-d to the following subjects:

- o The school district's adherence to the standards and methodologies required for such reviews, pursuant to Education Law §3012-d

- o The adherence to the Commissioner's regulations, as applicable to such reviews

- o Compliance with any applicable locally negotiated procedures applicable to annual professional performance reviews or improvement plans

- o The school district's issuance and/or implementation of the terms of the Principal improvement plan under Education Law §3012-d.

- Prohibition against more than one appeal

- o A Principal may not file multiple appeals regarding the same performance review or Principal improvement plan. All grounds for appeal must be raised with specificity within one appeal. Any grounds not raised at the time the appeal is filed shall be deemed waived.

Such training shall include application and use of the State-approved principal practice rubric(s) selected by the District for use in evaluations (Marshall 2013).
- Once an evaluator has successfully completed the required single, full day training offered by BOCES, he/she shall be deemed to be certified by the District as a lead evaluator. After initial certification, re-certification will reoccur periodically, but no longer than 3 years after prior training. This re-certification is a single day training offered by BOCES.
- All training for current staff will be conducted prior to the implementation of the APPR process. Training will be conducted within 30 calendar days of the beginning of each subsequent school year for newly hired staff.
- To ensure inter-rater reliability, the administrative staff meets weekly to discuss common goals, review data, and discuss observable evidence.
