

STUDENT ASSESSMENTS AND ASSOCIATED GROWTH MODELS FOR TEACHER AND PRINCIPAL EVALUATION

FORM C

PUBLICLY AVAILABLE SERVICES SUMMARY

This form will be posted on the New York State Education Department's Web site and distributed through other means for all applications that are approved in conjunction with this RFQ to allow districts and BOCES to understand proposed offerings in advance of directly contacting Assessment Providers regarding potential further procurements.

assessment?	Computers
Is the assessment available, either for free or through purchase, to other districts or BOCES in New York State?	☐ YES X☐ NO

Please provide an overview of the assessment for districts and BOCES. Please include:

- A description of the assessment;
- A description of how the assessment is administered;
- A description of how scores are reported (include links to sample reports as appropriate);
- A description of how the Assessment Provider supports implementation of the assessment, including any technical assistance. (3 pages max)

Description: Assessments are directly linked to either NYS Standards for the subject area or NYS Next Generation Standards. Assessments mirror models provided to NYS assessments How Administered: Historical assessments data will be used to set targets for students in relation to attendance, SWD, ENL and economically disadvantaged. Year-end assessments are administered in either a two or three hour window over one day at the end of the school year. How scores are reported: Scores are reported through our student information system How implemented: All assessments are implemented using the same criteria found in the Examination Administration Documents that come with the 3-8 assessments and Regents exams. All exams are kept locked in a secure location until the day of administration.

Please provide an overview of the student-level growth model or target setting model for SLOs for districts and BOCES, along with how student-level growth scores are aggregated to the create teacher-level scores, and how those teacher-level scores are converted to New York State's 0-20 metric.

Individual student growth targets that represent one year's growth. Historical academic data will be taken into consideration when setting the individual target. Based upon a percentage of a teacher's students meeting or exceeding their individual growth target, the teacher will receive a rating of 0-20 based upon the NYS 0-20 metric.

	ssessment Priorities posed supplemental assessment I or assessment to be ne Next Generation Assessment Priorities below.
Characteristics of Good ELA and Math Assessments (only applicable to ELA and math assessments):	Good ELA and Math Assessments are directly tied to the NYS Next Generation Standards. They mirror many of the exemplars found in the modules and lessons found on Engage NY.
Assessments Woven Tightly Into the Curriculum:	Assessments are woven into the curriculum by embedding both formative and summative throughout the year or semester. Assessments can be informal in nature

	such as using running records on observing student reading or through sprints and fluencies. Performance Assessments are strongly encouraged in areas where both process and final product are valued equally. These assessments are extremely valuable in the performing arts, art, physical education, etc.	
Performance Assessment:		
Efficient Time-Saving Assessments:	As mentioned in the second section above many assessments can be quick and easy through logs and observations.	
Technology:	Technology can be used depending upon the course outline and requirements.	
Degree to which the growth model must differentiate across New York State's four levels of teacher effectiveness (only applicable to supplemental assessments):		

STUDENT ASSESSMENTS FOR TEACHER AND PRINCIPAL EVALUATION

APPLICANT CERTIFICATION FORM –ASSESSMENTS FOR USE WITH STUDENT LEARNING OBJECTIVES

Please read each of the items below and check the corresponding box to ensure the fulfillment of the technical criteria.

PLEASE SUBMIT ONE "FORM H" FOR EACH APPLICANT. CO-APPLICANTS SHOULD SUBMIT SEPARATE FORMS.

The Applicant makes the following assurances:

Assurance	Check each box:
The assessment is rigorous, meaning that it is aligned to the New York State learning standards or, in instances where there are no such learning standards that apply to a subject/grade level, alignment to research-based learning standards.	
To the extent practicable, the assessment must be valid and reliable as defined by the Standards of Educational and Psychological Testing.	х□
The assessment can be used to measure one year's expected growth for individual students.	х□
For K-2 assessments, the assessment is not a "Traditional Standardized Assessment" as defined in Section 1.3 of this RFQ.	Х□
For assessments previously used under Education Law §3012-c, the assessment results in differentiated student-level performance. If the assessment has not produced differentiated results in prior school years, the applicant assures that the lack of differentiation is justified by equivalently consistent student results based on other measures of student achievement.	х□
For assessments not previously used in teacher/principal evaluation, the applicant has a plan for collecting evidence of differentiated student results such that the evidence will be available by the end of each school year.	х□
At the end of each school year, the applicant will collect evidence demonstrating that the assessment has produced differentiated student-level results and will provide such evidence to the Department upon request. ⁴	х□

⁴ Please note, pursuant to Section 2.3 of this RFQ, an assessment may be removed from the approved list if such assessment does not comply with one or more of the criteria for approval set forth in this RFQ

To be completed by the Copyright Owner/Assessment Representative of the assessment being proposed and, where necessary, the co-applicant LEA:
