The assessments being used for any Student Learning Objective will be aligned to the appropriate content-area standards and New York Common Core Learning Standards. The ELA, Science, Social Studies, CTE, LOTE, Art, Music, PE, FACS assessments, as well as alternate assessments were locally-developed through collaboration of content-area experts and instructional specialists. The design of these assessments is modeled after New York State assessments in the corresponding content area. These assessments are administered at the culmination of the course. Teachers of record are prohibited from scoring their own students' assessments. Content area experts score the assessments and submit the scores to the program administrators.

Please provide an overview of the student-level growth model or target setting model for SLOs for districts and BOCES, along with how student-level growth scores are aggregated to create teacher-level scores, and how those teacher-level scores are converted to New York State's 0-20 metric.

The classroom teacher will use relevant baseline data gathered through pre-assessments, or through the analysis of historical data provided by the home district to determine individual targets for each student. The percentage of students meeting their individual target will be determined and the percentage will be converted to a HEDI rating using the state-provided chart.

New York State Next Generation Assessment Priorities
Please provide detail on how the proposed supplemental assessment or assessment to be used with SLOs addresses each of the Next Generation Assessment Priorities below.

Characteristics of Good ELA and Math Assessments (only applicable to ELA and math assessments):	All ELA assessments developed for use in Student Learning Objectives will be aligned to the New York State Common Core Learning Standards. All teachers involved in the development of the assessments have had professional development in the implementation of the Common Core Learning Standards.
Assessments Woven Tightly Into the Curriculum:	Assessment is an integral part of the instructional process and, thus, these assessments are seamlessly administered in conjunction with classroom curriculum.
Performance Assessment:	Some assessments have performance components, as appropriate. Performance assessment components will be used to provide teachers relevant information about individual student targets and job-readiness skills.

Efficient Time-Saving Assessments:	Protocols and schedules are developed to ensure minimal disruption to instructional time and to ensure consistency across programs. Technology is used to aid in the scoring of assessments, as appropriate to maximize efficiency.
Technology:	Technology and/or adaptive devices are available for use in accordance with the design of the assessment and as necessary according to student needs.
Degree to which the growth model must differentiate across New York State's four levels of teacher effectiveness (only applicable to supplemental assessments):	N/A

The OCM BOCES American Sign Language Assessments are each 16 questions, all of the multiple choice format, based on receiving and understanding American Sign Language. Questions cover a variety of topics. A question or statement is signed to the whole group twice and students choose from four possible answers. Scores are reported based on percentages, and targets are set using the banded-range model.

APPLICANT CERTIFICATION FORM – ASSESSMENTS FOR USE WITH STUDENT LEARNING OBJECTIVES

Please read each of the items below and check the corresponding box to ensure the fulfillment of the technical criteria.

PLEASE SUBMIT ONE "FORM H" FOR EACH APPLICANT. CO-APPLICANTS SHOULD SUBMIT SEPARATE FORMS.

The Applicant makes the following assurances:

Assurance	Check each box:
The assessment is rigorous, meaning that it is aligned to the New York State learning standards or, in instances where there are no such learning standards that apply to a subject/grade level, alignment to research-based learning standards.	☒
To the extent practicable, the assessment must be valid and reliable as defined by the Standards of Educational and Psychological Testing.	☒
The assessment can be used to measure one year's expected growth for individual students.	☒
For K-2 assessments, the assessment is not a "Traditional Standardized Assessment" as defined in Section 1.3 of this RFQ.	☒ n/a
For assessments previously used under Education Law §3012-c, the assessment results in differentiated student-level performance. If the assessment has not produced differentiated results in prior school years, the applicant assures that the lack of differentiation is justified by equivalently consistent student results based on other measures of student achievement.	☒
For assessments not previously used in teacher/principal evaluation, the applicant has a plan for collecting evidence of differentiated student results such that the evidence will be available by the end of each school year.	☒
At the end of each school year, the applicant will collect evidence demonstrating that the assessment has produced differentiated student-level results and will provide such evidence to the Department upon request.[4]	☒
