Introduction

Background Information on the Rochester City School District

The city of Rochester is located in upstate New York. The city sits on the southern shore of Lake Ontario. The Genesee River bisects the city. Rochester is the third most populous city after New York City and Buffalo. Rochester is located in Monroe County. The city is part of a region known for science, technology, research, and development. The University of Rochester and the Rochester Institute for Technology along with notable smaller colleges like St. John Fisher College also support the economy of the city and region.

Just over 63% of the city's residents are from historically underrepresented and marginalized cultural groups, making Rochester one of a growing number of so-termed 'minority-majority' cities in the United States. This stands in stark contrast to suburban Monroe County, where non-White cultural groups make up 13.4% of the population (i.e., 86.6% non-Hispanic white). This contrast in racial and ethnic strata reflects severe socioeconomic disparities. Colleges also support the economy of the city and region. Rochester is also known for its poverty. According to *Rochester 2034*, a 15-year comprehensive plan to improve Rochester, published by the Mayor's Office, over a quarter (25.1%) of full-time earners in Rochester make less than \$25,000. While the city of Rochester accounts for only 28.1% of the population in the County, it accounts for 61.4% of the County's people in poverty. The services needed by such a disproportionate number of families in need creates a strain on the limited resources of the school district.

The Rochester City School District (RCSD) services 31,334 students, including a growing population of charter school students. The population of the school district is composed almost entirely of students of color, with Black students making up 53.1%, Hispanic / Latino students making up 32.7% of the student population, White students comprising 9.6%, and Asian students representing 2.9% of the RCSD student population. Rochester has seen the growth of communities of Bhutanese, Nepalese, and Sudanese, among other immigrant groups moving to Rochester as part of refugee resettlement programs. RCSD students speak 65 different languages. There are 3,716 teachers and administrators supporting students and their families in 55 Pre-K sites, 46 schools, and 10 alternative programs.

Figure 1 below shows student performance on the Mathematics and the English Language Arts State Assessments given to students in grades three through eight in the state of New York. The gap in performance between students attending RCSD schools and students attending schools throughout the state has remained statistically the same for over twenty years. Despite changes in federal mandates, state standards, and state assessments, students in RCSD have consistently performed below their peers. The state assessments represent only one tool to measure proficiency, however, performance hovering near 10% represents approximately 90% of the students in classrooms across the city unable to meet or surpass state standards in Mathematics and English. This sobering data drives district decisions in areas like academic interventions, chronic absenteeism, special education, staffing, school designations, school choice, charter school enrollment, resource allocation, and high school performance.

Figure 1. Academic Trends in RCSD

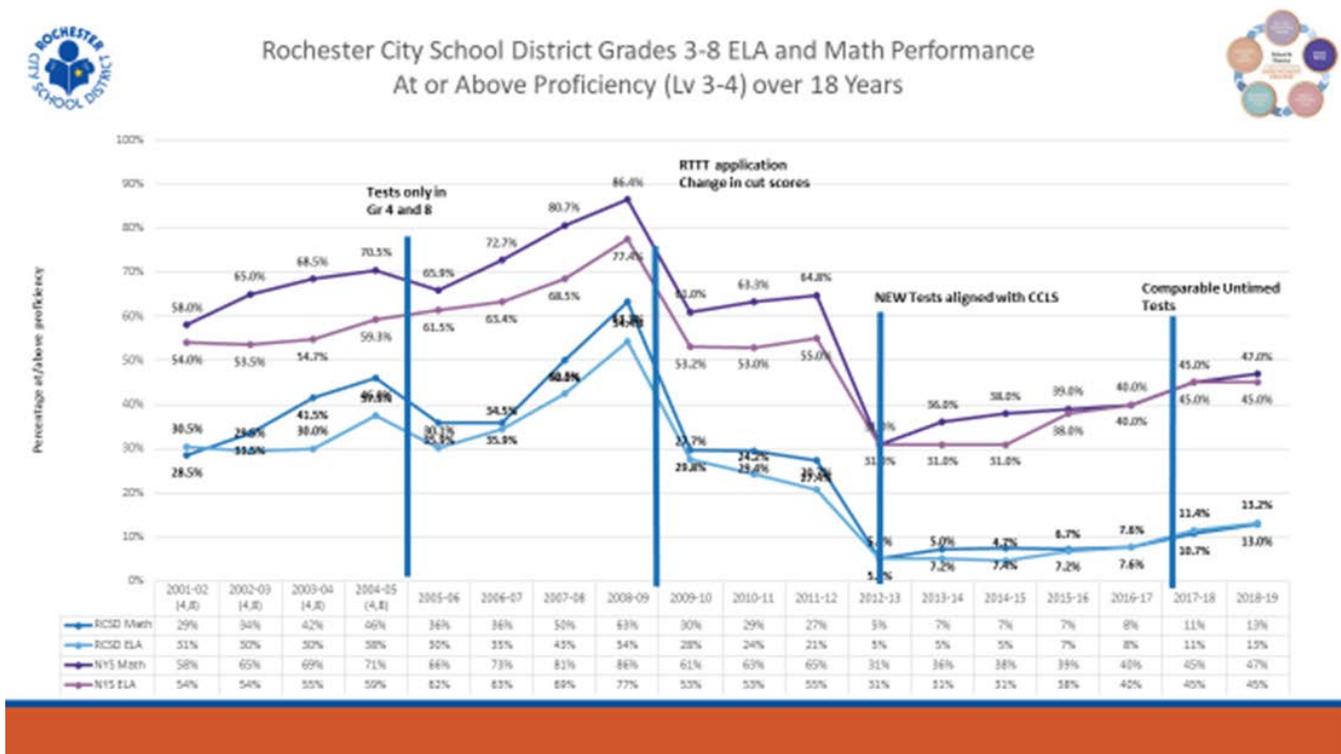

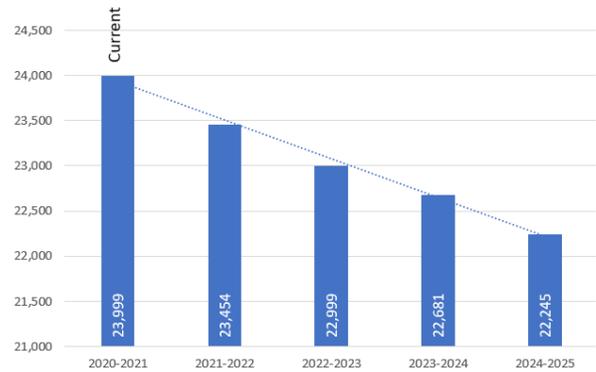

Figure 2 below projects the student enrollment for the next 5 years. Student enrollment in the District has been declining for over ten years. When focusing on where the decline is the greatest, there is an alarming trend that will require a systemic approach to address. The chart identifies a cohort of 1902 grade 8 students currently attending RCSD schools, next year that grade 9 cohort class size balloons to 2708. The following year the cohort of grade 10 students will be reduced to 1938. The projection for this same cohort of students would be 1397 students becoming seniors. An RCSD student in grade 8 this school year will attend grade 12 with 500 fewer students in 2025. The loss could equate to being retained in a grade, not earning sufficient credits to progress to the next grade, dropping out, or moving out of the District. What this data could represent is compounded by a graduation rate ranging from 25% to 100%, throughout the District, depending on which RCSD school the student attends.

The projected 4-year enrollment of academic years 2022-2025 shows a continuous downward trend, by a cumulative amount of over 1,700 students, or 7.4%.

Role of the State Monitor

The Rochester City School District (RCSD) has been struggling for more than a decade, with six superintendents in conjunction with many local and state efforts to improve its performance. As a result, Chapter 56 of the Laws of 2020 required Commissioner Shannon Tahoe to appoint a Monitor to the Rochester City School District to provide oversight, guidance, and technical assistance related to the academic and fiscal policies, practices, programs, and decisions of the District, the Board of Education, and the Superintendent. The State Monitor began on May 26, 2020. The responsibilities of the Monitor include the following:

1. Serve as a non-voting ex-officio member of the Board.
2. Assist the Board in adopting a conflict of interest policy that ensures board members and administrators act in the District’s best interest.
3. Work with the Board to develop a proposed academic improvement plan and proposed financial plan for the District no later than November 1, 2020, for the 2020-2021 school year and the four subsequent school years.

The role of the State Monitor Work Plan is to direct and guide the improvement of designated outcomes as a coordinated effort, working with all stakeholders; especially the newly appointed Dr. Lesli Myers-Small, Superintendent. Dr. Myers-Small was hired before the appointment and arrival of the State Monitor. Dr. Myers-Small, however, must be held accountable to fully implement the Superintendent Receiver powers as defined by Subpart E of Part EE of Chapter 56 of the Laws of 2015 created a new

section of State Education Law (§211-f) pertaining to School Receivership. If that doesn't happen, an Independent Receiver and/or remedies should be appointed/applied as allowed for by the Law.

The contextual differences between Dr. Myers-Small's former school district and RCSD require a more hands-on approach than the intent of the position of State Monitor may require. *The State Monitor believes that it is highly unlikely that anyone can adequately be prepared to course-correct and accelerate improvements* when RCSD has had nine former superintendents, (interim and permanent), over the last ten years; and the cumulative effect of prior decisions impacting current and future operations. The magnitude of these decisions made prior to our collective arrival cannot be underscored because the financial ramifications associated with those actions have a significant impact on the State Monitor's recommendations in conjunction with the Superintendent's ability to strategically navigate the complexities.

Finally, although a financial plan will be forthcoming under separate cover, the recent discovery of 201 MOUs and MOAs is currently being reviewed by the Auditor General. The review will not be completed prior to plan submission, and the State Monitor reserves the right to make adjustments to the Academic Plan upon receipt.

Organization of the Work Plan

The State Monitor's Work Plan is derived from an evidence-based theory of change called the *Four Domains of Rapid School Improvement*. The State Monitor's Work Plan report is divided into seven (7) sections:

1. Introduction
2. Organization of the Work Plan
3. Methodology for Data Collection
4. Theory of Change for District Improvement
5. Findings and Recommendations by Domain
6. Conclusion
7. Appendices

Each section is hyperlinked in the Table of Contents for ease in maneuverability.

Methodology for Data Collection

The State Monitor began the development process with a review of the status of recommendations contained in the Distinguished Educator's Report (November 14, 2018) issued by Dr. Jaime Aquino, the former Distinguished Educator for Rochester City School District. (See Appendix B for Dr. Aquino's Report.) Based upon a belief that the foundation for building upon the work of the Distinguished Educator should be an evidence-based theory of change, the State Monitor has elected to use the *Four Domains for Rapid School Improvement* to organize the plan and provide recommendations.

Participatory Action Research formed the heart of data collection for both the Academic and Financial components of this plan. The Monitor took a three-pronged approach to data collection. Data was initially gathered through actively participating in the daily work activities of central office staff members. Second, purposive sampling was used to identify individuals internal and external to the organization to participate in interviews and focus groups. Finally, district documents and other artifacts related to district business were examined. Active Monitor participation involved multiple meetings with various combinations of Executive Cabinet Members and Board Officers as follows:

- Executive cabinet meetings.
- Board Officers' meetings with the superintendent.
- Superintendent, chief financial officer, chief operations officer, general auditor, and the two deputy superintendents.
- Newly appointed executive director of grants and the district clerk.

During those meetings, the Monitor presented on the following topics during multiple cabinet meetings, the cabinet retreat, and the leadership summit: Implementation Science and Data-Driven Decision Making. The State Monitor regularly reviewed contracts and resolutions and recommended modifications prior to final execution. The State Monitor participated in meetings to negotiate key vendor contracts, such as for transportation. The State Monitor offered support to the Directors of Mathematics and English Language Arts during the final stages of developing curriculum frameworks.

The State Monitor shadowed the newly hired Chief Financial Officer (CFO) for the first three weeks of her tenure. The State Monitor supported the Board commissioners by participating in meetings to help commissioners with the structure and content of upcoming committee meetings of the whole. The State Monitor also participated in interviews for the following positions: Deputy of Teaching and Learning, Deputy for Student Support Services, Chief Academic Officer, and Chief Financial Officer. Twice weekly since early June 2020, the State Monitor has actively participated in all Board deliberations.

The second data collection method used was through individual interviews and focus groups. Participants were selected based on staff recommendations, affiliation, or oversight within the district, persons who volunteered to be interviewed, and persons identified in documents from previous reviews of the district. Multiple informal interviews were conducted with RCSD and external partners as documented in the following tables.

Document analysis comprised the third data collection source. The Monitor reviewed a wide variety of documents created between 2015 and 2020 that included documents referenced in the Distinguished Educator's report as well as reports submitted to the Rochester Board of Education, which can be found in Appendix C.

Theory of Change for District Improvement

The Center on School Turnaround at WestEd (CST) developed a framework to assist states, districts, and schools in leading and managing rapid improvement efforts. The *Four Domains for Rapid School Improvement* identifies critical schooling practices in four domains - Turnaround Leadership, Talent Development, Instructional Transformation, and Culture. (See Figure 3) Constructing a cohesive research-based Academic Plan requires a research-based framework with a proven track record of delivering results if followed with integrity. In addition to the four domains of Turnaround Leadership, Talent Development, Instructional Transformation, and Cultural Shift that comprise the WestEd Framework, the State Monitor has added to her plan a fifth domain, System, Resources, and Structures that focuses on the underlying operational processes that are critical to success.

The State Monitor modified by adding a fifth domain called *System, Resources and Structures* to WestEd’s framework that serves as a cog in the wheel formed by the four domains that focus on the underlying operational processes impacting instruction in general and other non-academic functions that impact teaching for learning and student readiness as precursors to excellence. In other words, the Systems, Resources, and Structures domain is an integral component contained within the four domains of Turnaround Leadership, Talent Development, Instructional Transformation, and Culture.

Figure 3: Four Domains for Rapid School Improvement

Strategic Planning, Fiscal Sustainability, Performance Focus, and Organizational Alignment are both processes and outcomes serving as drivers and are aligned and linked to Domain 5. The State Monitor believes that this new plan format provides for a cohesive unifying document easily digestible by all stakeholders. The interdependency of all roles, (Board, Central Officer, and Schools) and subsequent decision-making by each organizational unit embraces the [Federal Schools Improvement](#) program which states:

- A successful school (district, added for emphasis) turnaround requires a systems approach with coherent guidance and support from the state and district to complement the actions of the school; and

- A successful school (district, added for emphasis) turnaround is more than the initial jolt of bold changes in structure, authority, and personnel; it includes phases in which effective practices and processes are routinized and sustained.

Findings and Recommendations by Domain

Following the issuance of the Distinguished Educator report in 2018, the RCSD began responding to the findings and proposed recommendations contained in the report. The current district administration submitted a status report to the School Board on October 22, 2020, regarding the district's progress in implementing the recommendations contained in the report. A copy of that presentation can be found in Appendix A. The State Monitor also considered the continued relevance of the Distinguished Educators' findings and incorporated those that remained relevant to the five-year plan. Appendix B contains a link to the Distinguished Educator report and a table indicating the status of recommendation therein. While some progress has been made, few recommendations have been completed in its entirety.

The State Monitor's 67 findings and 53 recommendations have been organized in Tables 4 through 13. Recommendations have been grouped based on the estimated year of implementation and completion over the next three years. After working with staff, listening to district constituents, reviewing documents, and examining student data, the Monitor has identified seven (7) takeaways from these early experiences in the district:

1. RCSD at all levels of the organization must make a long-term commitment to focusing resources on the acceleration of student achievement in the District.
2. RCSD at all levels of the organization must make a long-term commitment to redirect resources away from programs, practices, and partners that have been unable to demonstrate evidence of producing positive outcomes in the areas of teaching and learning. This will be critical in order to make resources available to implement the recommendations contained in this report.
3. RCSD has been challenged to execute programs and plans fully; therefore, district and school leaders would benefit from training on the core components of implementation science.
4. RCSD must collect and examine accurate, reliable data to measure teaching and learning in every classroom, which would accelerate student outcomes throughout the District.
5. RCSD must provide equitable resources to keep a diverse student population engaged in the lifelong learning cycle.
6. RCSD must expand the definition of district success beyond the singular notion of graduation rates to incorporate the concept of college, career, and civic readiness.

RCSD must re-establish the non-negotiable practice of regularly communicating expectations and holding every level of the organization responsible and accountable for student success.

Table 4: Findings for Turnaround Leadership Domain

No.	Finding	Type of Finding
1	Board Commissioners frequently ask the administration tough, but pertinent questions, but administrators are not always readily available to provide timely data to address their concerns. Commissioners continue to ask questions; however, although present, administrators often struggle to clearly communicate responses to questions from the Board.	Distinguished Educator Carried Over Finding
2	Racial tensions and mistrust are catalysts for the friction that exists among Board members. The Board has previously acknowledged the need to improve group dynamics and minimize the underlying racial tension that exists among the group, but outbursts at recent Board meetings suggest little progress has been realized in the area of collegiality and respect. Training for Board Commissioners has been scheduled to address this challenge.	Distinguished Educator Carried Over Finding
3	The DE found District leadership was more focused on operational issues than on instruction. The State Monitor continues to find district leadership more focused on operational issues, in addition to social-emotional issues, rather than instruction. The hiring of highly qualified individuals for Chief Academic Officer and Deputy Superintendent for Teaching and Learning should begin to refocus the District on student outcomes for academics.	Modified Distinguished Educator Finding
4	District leadership has not committed to a turnaround strategy for schools identified for Receivership, Comprehensive Support and Improvement (CSI), or Targeted Support and Improvement (TSI).	State Monitor Finding
5	Board leadership has recently established SMART Goals in the following areas: 1) Improve financial condition of RCSD 2) Increase academic achievement and 3) Equity. See appendix for full description of Board goals.	State Monitor Finding
6	The Board has not effectively fulfilled its essential function of holding the Superintendent accountable for results. Though a process exists for evaluating the Superintendent, it is not consistently followed. For example, clear and measurable goals based on defined leading and lagging indicators were not in place prior to the beginning of the school year.	Distinguished Educator Carried Over Finding
7	The Board convenes monthly for a business meeting. The Board, as suggested by the State Monitor, has returned to convening six Committees of the Whole (COW): Audit, Governance, Policy, Excellence in Student Achievement, Community and Intergovernmental Relations, and Finance.	Modified Distinguished Educator Finding
8	District leadership has not committed to a turnaround strategy for schools identified for Receivership, Comprehensive Support and Improvement (CSI), or Targeted Support and Improvement (TSI).	State Monitor Finding

9	<p>Many RCSD Board policies have not been reviewed or updated. An excerpt from the June 2, 2020 minutes of the Policy Committee of the Whole indicated the committee would be focusing on the review and updating of the Code of Conduct, the Student Attendance Policy, the Purchasing Policy, Academic Intervention Services (AIS), as well as the Student Data Policy. General Counsel called attention to other policies that may not have been updated in several years and that the Committee would eventually be reviewing as well for potential updates.</p>	<p>State Monitor Finding</p>
10	<p>The Board uses BoardDocs, an online platform that gives the public access to relevant information related to Board business. The Board fails to optimize the full capacity of the Board DOCS platform even though the District is paying for the service, which would reduce the current labor of Board staff. Board DOCS can increase efficiency with modules that allow Board staff to schedule committee meetings, conduct evaluations, and create minutes and agendas.</p>	<p>State Monitor Finding</p>
11	<p>Central Administration managers would benefit from executive leadership training in the following areas:</p> <ul style="list-style-type: none"> ▪ Project management ▪ Customer Service ▪ Budgeting ▪ Human Capital Management ▪ Organizational Change Management ▪ Implementation Science ▪ Improvement Science 	<p>State Monitor Finding</p>
12	<p>The RCSD School Board and the superintendent have not finalized the goals to be used to evaluate the performance of the superintendent.</p>	<p>State Monitor Finding</p>

NO.	FINDING	TYPE OF FINDING
1	<p>In the last four months, there will have been three different individuals responsible for leading the Human Resources Department. Previously the DE Report recorded that there are multiple views regarding the process for selecting principals. As one interviewee noted, “The process is evolving.” The DE Report also posited that hiring, retention, and promotion decisions are subject to external influences. This is evident during the school board deliberations. The State Monitor agrees this continues to be an issue between the administration and the school board. For example, school board members recently debated the hiring of another Director of African American Studies despite the lack of outcomes, specifically a curriculum after two years of employment. School board members directly expressed a willingness to only hire a school board member based on race. With a new Chief of Human Resources approved to begin working for RCSD, the process will continue to evolve.</p>	<p>Distinguished Educator Carried Over Finding</p>
2	<p>Although some progress was initiated during professional development provided by the district before the beginning of the school year, as reported by the Distinguished Educator, the professional development needs of paraprofessionals and teaching assistants continue to receive little attention.</p>	<p>Distinguished Educator Carried Over Finding</p>
3	<p>Principals report two major concerns. First, school leaders engage in recruiting, interviewing and selecting candidates for their schools who often end up being employed in other schools. Second, school leaders often engage in progressive discipline, including the required paperwork, only to often be told by the legal department that the school leader will lose against a powerful teachers’ union. Many administrators could recall incidents when teachers were not held accountable for ineffective teaching or egregious acts against students. A sense of hopelessness permeates the ranks of the school leaders regarding their ability to effectively address the negative impact of ineffective or abusive teachers in their buildings.</p>	<p>State Monitor Finding</p>
4	<p>Chiefs of Schools are responsible for the supervision of schools in three zones of the city. Each chief provides professional development to and communicates with their schools in different ways. This is a source of frustration and confusion for school leaders. They believe they are at the mercy of their chief’s interpretation of directives from the superintendent’s cabinet. This also perpetuates inconsistency in the execution of directives and procedures throughout the district.</p>	<p>State Monitor Finding</p>

Table 6: Findings for Talent Development Domain Continued

NO.	FINDING	TYPE OF FINDING
5	<p>Chiefs of Schools are responsible for the supervision of schools and programs in three zones of the city. Each zone represents a minimum of twenty schools and programs. Chiefs support the zones without sufficient resources to grow and support high functioning school leadership teams within each school in each zone. Many of the zones include designated schools (i.e., TSI, CSI and Receivership Schools that require additional customized support. The addition of a Deputy Superintendent for Teaching and Learning shall provide the necessary oversight, to maximize supervision</p>	<p align="center">State Monitor Finding</p>
6	<p>There is no evidence the training received by teachers and administrators has had any impact on the quality of teaching and learning in the district. As noted in the Distinguished Educator Report, “professional learning experiences are not routinely developed based on a needs assessment.” There is no indication the district is adhering to a multi-year, data-driven professional development plan for all staff engaged in the teaching and learning process. A collective bargaining agreement allows teachers to participate in any professional learning experience of their choice.</p>	<p align="center">Modified Distinguished Educator Finding</p>

Table 8: Findings for Instructional Transformation Domain

NO.	FINDING	TYPE OF FINDING
1	Outdated textbooks are used by RCSD students in at least two of the four core content areas. Science and Social Studies textbooks have copyright dates of 2002. New York State assessment standards have been modified twice since the copyright dates of the science and social studies books used by teachers and students. The information contained in these books is not aligned to the standards being tested on NY State assessments.	State Monitor Finding
2	Collective bargaining agreements limit instructional observations which creates challenges in conducting timely evaluations of staff.	State Monitor Finding
3	A student is considered chronically absent if they are absent 10% or more of enrolled attendance days. During the 2019 school year RCSD recorded chronic absentee rates between 58% and 68% for high school students and between 35% and 48% for students in grades 1 through 8.	State Monitor Finding
4	Collective bargaining agreements are currently a barrier to instructional accountability. All MOUs and MOAs shall be negotiated to maximize opportunities for instructional accountability.	State Monitor Finding
5	<p>The Department of the Chief Academic Officer (CAO) is under resourced. Currently the following staff report to the CAO:</p> <ul style="list-style-type: none"> ▪ Executive Director of Professional Learning ▪ Executive Director of Health, PE and Athletics ▪ Direct of English Language Arts ▪ Executive Director of Early Childhood Education ▪ Director of Social Studies and Community Services Learning ▪ Director of Mathematics ▪ Director of Visual Art and Performing Arts ▪ Instructional Director of Library and Media Services ▪ Director of Career and Technical Education (CTE) (vacant) ▪ Director of Science(vacant) ▪ Director of Careers in Teaching <p>Poor academic achievement across the District requires a fully resourced team of highly qualified content specialists prepared to lift the quality of curriculum, instruction and assessment for all content areas and all student populations,</p>	State Monitor Finding

6	The Chief of Schools are under resourced. Currently, three Chiefs of Schools and two administrative assistants are expected to supervise and support schools in a district with over 60 schools and programs, including 16 schools designated by the NY State Education Department for being among the persistently lowest performing schools in the State.	State Monitor Finding
7	The District does not implement a systemic Response To Intervention (RTI) program, which is in violation of New York State Education Commissioner's Regulations	State Monitor Finding
8	Achievement outcomes for the district remain statistically unchanged and continue to lag State averaged. The mathematics proficiency rate during the 2019 for RCSD students in grades 3 through 8 was 13%. During the same period the mean math percentile, or the average growth of RCSD students to similar students across the State showed a decline.	State Monitor Finding
9	Achievement outcomes for special education students attending district schools remain statistically stagnant and continue to lag State averages. The percentage of students with disabilities who performed at or above proficiency on the NY State ELA assessment in grades 3-8 increased by 1% between 2018 and 2019. In 2019, 3% of students with disabilities performed at or above proficiency on the State assessment.	State Monitor Finding
10	Achievement outcomes for students attending bilingual programs in district schools remain statistically stagnant and continue to lag the State average. The percentage of ELL students who performed at or above proficiency on the NY State English Language Achievement Tests (NYSESLAT) proficiency assessment increased by 1% between 2018 and 2019. In 2019, 4% of ELL students performed at or above proficiency on the State assessment.	State Monitor Finding
11	Although graduation rates appear to be improving, other metrics indicate high school instructional programs in the District are not adequately meeting the needs of students. The graduation rate gap between students who are and are not low-income is 20%. The graduation rate for low-income students was 60% during the 2019 school year. The graduation rates for the 2018-19 school year amongst RCSD high schools ranged from a low of 29% in one high school to a high of 93% in another high school.	State Monitor Finding
12	A RCSD systemic theory of action for turning around low performing schools has not been established. A reorganization of the Accountability Department, along with new leadership has recently been instituted.	State Monitor Finding
13	Professional development is not aligned and linked to strategic district needs. Teacher freedom to "opt-out" contractually targeted capacity building.	State Monitor Finding

NO.	FINDING	TYPE OF FINDING
14	There is little evidence disaggregated student achievement data is routinely used to inform instructional decisions. The use of formative and summative assessments aligned to NY State Standards in literacy and numeracy was not evident.	State Monitor Finding
15	Student attendance and performance in the RCSD summer school program, according to staff records, had low student attendance and low student pass rates. Only 21% of the students successfully completed courses taken. Students were allowed to enroll in up to four courses. The cost to repeatedly offer the same courses while students continue to fail requires a review of all instructional programming throughout the year, including the Extended School Year (ESY). 1	A disproportionate number of Black students face extreme consequences for minor infractions in school. The district has taken multiple steps to address this concern. A revised draft of the Code of Conduct had been presented to the Board for review. The onset of the pandemic, resulting in the District adopting a virtual education model, has highlighted the need for further revision of the Code of Conduct to reflect potential infractions in a virtual learning environment.	Distinguished Educator Carried Over Finding
2	The Distinguished Educator Report noted that too often, responses to trauma were inadequate. The State Monitor posits this has improved. During the pandemic, school and district employees rallied together to make sure families were supplied with food, Chromebooks and Wi-Fi to support the needs of Rochester children and their families. RCSD collaborated with local agencies and CBOs to provide safe places throughout the city for students to attend during the first ten weeks of virtual learning. RCSD staff also provided support throughout the community in the wake of two tragedies that garnered national attention.	Distinguished Educator Carried Over Finding
3	Although Multi-Tiered Systems of Support is mentioned on the district website, there has been no evidence demonstrating that RCSD has a systemic framework for implementing a Multi-Tiered Systems of Support with fidelity and uniformity.	State Monitor Finding
4	Programs highlighted on the district website emphasize the social and emotional support for youth based on race. Less support is documented for youth based on culture, sexual orientation, language or disability.	State Monitor Finding
5	Systemic training has been offered to staff in the areas of restorative practices and culturally responsive teaching strategies. The new RCSD Strategic Plan continues to address this area for district improvement by its inclusion as a priority area for the district for at least the next five years.	Modified Distinguished Educator Finding
6	Plans have been initiated to rebuild the Parent Advisory Council (PAC). PAC will have membership representing each of the 60 schools in the district. Bylaws for PAC have been forwarded to the superintendent for review and approval.	Modified Distinguished Educator Finding

7	A new Parent Engagement Plan is being developed to align with the new RCSD Strategic Plan. The plan is being developed with support from the Parent Leadership Training Institute (PLTI). There is a systemic need to define parent engagement in RCSD. The connection between engaged parents, student enrollment, student behavior, chronic absenteeism and academic outcomes is not evident throughout the organization. The job descriptions for parent liaisons and home school assistant job descriptions are dated and do not include responsibility to support School Based Planning Teams. RCSD elected to meet this requirement by establishing School Based Planning Teams in every school according to 8NYCRR 100.11(b). Principals supervise parent liaisons and home school assistants, but the level of accountability for ensuring these staff members are performing duties to support parents is unclear. When tested for accuracy, the reports have been found to contain erroneous information. The report can only be created by a small select group of individuals. These staff members continually write programs to try and make the system functional. The status of the financial management system is such that the manufacturers of the system refuse to provide support for the system, forcing the District to spend additional funding with a third-party vendor to maintain the system</p>	State Monitor Finding
2	<p>Many RCSD Board policies have not been reviewed or updated with regular consistency. An excerpt from the minutes of the Policy Committee of the Whole scheduled on June 2, 2020 indicated the committee would be focusing on the Code of Conduct, the Student Attendance Policy, the Purchasing Policy, AIS Compensatory services as well as the Student Data Policy for review and update. General Counsel called attention to policies that may not have been updated in several years and that the Committee would eventually be reviewing as well for potential updates.</p>	State Monitor Finding

There is evidence a comprehensive implementation plan was not executed with fidelity for the launch of the system in the District.</p>	State Monitor Finding
4	<p>The District administration has instituted the use of “patches” to customize the SIMS. Micro programs are written to customize the SIMS. This practice can result in a challenge similar to that currently faced by the District with the financial management system. Manufacturers of management systems can refuse to service their systems when too many patches are written for their system. The District would be forced then to find a third-party vendor to service the SIMS, because the manufacturer would no longer support a system with added programs or patches. This has already occurred with the Financial Management System. The District’s failure to pay for routine updates and the multiple patches written for the system by RCSD personnel has resulted in multiple third-party vendors hired to maintain the system. The practice of writing patches also results in individual RCSD staff members elevating themselves to sole service providers within the District. These individuals become the only individuals able to work on various modules in the system because they are the individuals who wrote the program or patch within the system.</p>	State Monitor Finding
5	<p>RCSD is overstaffed with teachers and administrators. Ancillary school programs are often led by principals. The average student to teacher ratio in the district is between 9 to 14:1. Collective bargaining agreements indicate a range between 25:1 to 28:1.</p>	State Monitor Finding

6	A standard operating procedure to assign personnel where guidelines are provided are not implemented with consistency. A careful redistribution of resources following children would reduce the risk of over staffing.	State Monitor Finding
7	A review of 201 MOUs and MOAs reveals a troubling pattern of contract extensions outside of normal negotiations that have had far reaching fiscal implications from 2015 to the present. The net result appears to be financial obligations that resulted in multi-year deficits about which Board members were not aware.	State Monitor Finding
8	Changes in personnel at the central office and school levels for multiple years have impeded effective program evaluation. Grant funded initiatives are terminated and appear to be immediately absorbed into the operating budget without return on investment analysis to determine efficacy.	State Monitor Finding
9	<p>There are 9 different school configurations in RCSD. They include:</p> <ul style="list-style-type: none"> ▪ Pre-K - 6 ▪ Pre-K - 8 ▪ K - 6 ▪ K - 8 ▪ K - 12 ▪ 6 - 8 ▪ 7 - 8 ▪ 7 - 12 ▪ 9 - 12 <p>The multiple school configurations have contributed to the underutilization of school buildings, which leads to greater facilities and operations costs. Multiple grade configurations impede vertical articulation and collaboration between schools. The current district model impedes the ability to conduct student cohort data analysis as a strategy to improve student outcomes.</p>	State Monitor Finding
10	RCSD pays over \$40,000 in dues to remain a member district of the Council of Great City Schools (CGCS). However, the district is rarely a participant in the research produced by the Council that provides valuable information to urban school leaders. One example is the Managing for Results publication from CGCS. This publication provided information to districts about managing operations and finance in urban districts. The publication also identified member districts that were exemplars in each area measured in the study.	State Monitor Finding
11	The Managed Choice Policy, in which fewer than half of the district's families participate, has contributed to higher transportation costs, higher chronic absenteeism, and an inequitable and inefficient student placement process.	State Monitor Finding

12	<p>The State Monitor concurs with the need to create comprehensive operating protocols and procedures that do not exist currently for the Specialized Services Department. The Specialized Services Department is in the process of developing updated protocols and procedures. Clearly defined procedures, including desk procedures to specify how to perform daily responsibilities, should be formalized. Protocols and procedures should be comprehensive, clear, detailed and current to ensure consistent application with internal and external regulatory requirements. Written formalized protocols and procedures that align with Commissioner’s Regulations Part 200 should be established for all of Specialized Services, including the referral process, parental consent, evaluations, Committee on Special Education meetings, annual reviews and re-evaluations, due process, Individualized Education Programs, (IEP) IEP Direct, timelines and deadlines.</p>	<p>Auditor General Carried Over Finding from 2016</p>
13	<p>Inconsistencies continue to be noted in the quality of information received and activities performed across schools and personnel in the area of special education, as noted in the Auditor General’s Report from 2016. Differences continue in the referral process, evaluation process, scheduling, parental consent, status tracking, documentation, annual review, related services and other operating practices. Clarity surrounding each functional role and required activities that must be performed should be documented and enforced. Defined roles, responsibilities and deliverables will facilitate consistency in operations. Consistent roles across schools will simplify processing and provide efficiency in overall operations.</p> <p>Clearly define and document roles, responsibilities and deliverables for each role in the Special Education process. Conclusion

The State Monitor believes that the children of RCSD deserve a school system that makes sure district leaders are good stewards of all district resources. These resources must be used to ensure that teachers are prepared to deliver curriculum and instruction that provides maximum opportunities for students to excel academically, in a learning environment respectful of inclusion and diversity. The district must examine how it has been using its resources and change course. This can be accomplished in earnest by putting children first and examining the five domains to break the patterns of behavior that have contributed to a pattern of failure.

Final Thoughts

During the first public hearing it was noted staff reductions, building closures, modification of federal funding and new directives on the use of substitute staff were initiated during the 2019 – 2020 school year. The magnitude of what was to befall the nation and the world was unknown when those tough decisions were enacted. Today RCSD students have received their instruction through a screen and have done so for the equivalent of half a school year. The draft of a plan shared in this document reflects best estimates, fact sets and decision-making at a given point of time. This plan, like all plans, is subject to alteration as conditions, such as those manifested by a global pandemic, change and must be updated to correspond with evolving conditions. The RCSD Strategic Plan will be incorporated into the plan prior to final submission to the Commissioner of Education. A link to the RCSD's strategic plan is in Appendix D.

I would like to extend my gratitude to the welcoming and responsive reception I have experienced since working with the staff, parents and friends of RCSD. This draft of a plan is designed to be a collaborative effort, therefore I must thank all who participated by sharing their experiences, knowledge, ideas, data and wishes for the success of the students served by the district. A special thanks to Superintendent Myers-Small for her steadfast commitment to charting a direction for the district that is responsive to students first. There are many hard working dedicated staff members with the difficult job of providing a great education to the youngest citizens of Rochester. There are also many areas for improvement. Our next steps are to finalize the plan with the Board and submit to the Commissioner. I look forward to our work together on behalf of the students of RCSD.

Respectfully,
Shelley Jallow, Ed. D.

		<p>X Organizational Structure</p> <p><i>This section shall contain the Monitor’s findings related to the efficiency and effectiveness of the district’s organizational structure. The State Monitor shall address questions such as, but not limited to: does the district have a clear chain of command in which each central office department knows its role and function in the service of meeting district-wide goals? Is each department held accountable for meeting goals and evaluated based on its track record of meeting goals? Are project management and meeting protocols in place to ensure appropriate collaboration and communication while maximizing productivity? Does the district consistently re-evaluate its organizational structure to examine where it can increase efficiencies?</i></p> <p>XI Accountability</p> <p><i>This section shall contain the Monitor’s findings related to the consistent implementation of school- and district-level accountability systems that maximize effective and efficient deployment of resources (human capital, finances, time, and</i></p>
		<p><i>facilities), build trust, and promote stakeholder engagement. In addition, the Monitor shall identify all Corrective Action Plans that the district is currently implementing and how those plans align with and advance the Academic Plan</i></p> <p>XV Operations</p> <p><i>The Monitor shall include any findings and recommendations related to key areas of district and school operations such as school facilities, pupil transportation, information technology, and school food services. The emphasis of this section shall be on areas that are directly impacting the quality of the teaching and learning experience and/or using resources far from optimally.</i></p>
