Overview

This eight-week module includes three units focusing on the Native Americans in New York State. The module focuses “on reading and listening to primary and secondary sources to gather specific details and determine central ideas, and to reinforce reading fluency and paragraph writing. Students read literature to develop an understanding of setting, characterization and theme, and informational writing.” The three units draw on seminal Native American texts and historical documents to build the following skills aligned with New York State English language arts and social studies standards: writing explanatory paragraphs (Unit 1), reading informational, narrative, and literary texts and using text to analyze a main character (Unit 2) and connecting knowledge of these texts to independently write a paragraph crafting a “constitution” to benefit their own school community (Unit 3).

This is the first lesson in the Unit 1. As noted in the introduction, AIR provides scaffolding differentiated for ELL students at the entering (EN), emerging (EM), transitioning (TR), and expanding (EX) levels of English language proficiency. The level(s) for which the scaffolds are appropriate are indicated in brackets (e.g., [EN]). Where [ALL] is indicated, it means that the scaffold is intended for all levels of students. Scaffolds are gradually reduced as student become more proficient in English.

The following table displays the Expeditionary Learning lesson components as well as the additional supports and new activities (scaffolds and routines) AIR has provided to support ELLs/MLLs.

**Work Time**

| Getting started: Reading about the Iroquois | Provide a glossary of high-frequency, challenging words; pre-teach abstract words; provide ELLs/MLLs opportunities to talk about legends from their home cultures. | Administer a pre-assessment; enhance background knowledge. |
| Debrief | Administer a short post-assessment to gauge how well students have mastered the reading standards associated with this passage. | |

**Closing and Assessment**

**Homework**

| Students review homework assignment. | Provide teachers and students with resources to match readers to text at independent reading levels; encourage having students read or be read text in their home language. | |

**The (Really) Great Law of Peace**  
_by Cynthia O’Brien_

Many centuries ago, a Huron woman dreamed that her son would become a great man. According to legend, her dream came true. The woman’s son, Dekanawideh, founded the Great Law of Peace, the oldest constitution in North America. Over 800 years later, the Iroquois peoples of Canada and the United States still follow its rules!

**Nations at War**

Dekanawideh grew up on the north side of Lake Ontario. He learned about the Iroquois nations that lived across the lake, including Mohawk, Oneida, Onondaga, Cayuga, and Seneca peoples. These five nations shared many traditions, including their style of home, called a longhouse. But they were bitter rivals, and they fought each other over many issues.

**Miracle Maker**

Dekanawideh believed he could put a stop to the fighting. He crossed Lake Ontario in a canoe made of stone, then set about bringing peace to the warring nations. Early in his journey, Dekanawideh visited the Mohawk peoples. He preached his message of peace to them, but they were very suspicious. To win their trust, Dekanawideh climbed to the top of a tall tree
overlooking the Mohawk River. He told the people to chop down the tree so that it would crash into the rushing rapids. If Dekanawideh survived, it would be proof that his message was true.

When the tree crashed, Dekanawideh vanished into the water. But early the next morning, he was found sitting calmly in the forest, enjoying breakfast by a fire. This so impressed the Mohawk chief that his nation was the first to agree to peace.

A. Engaging the Reader: Mystery Activity

Expeditionary Learning Teacher and Student Actions

Learning Objectives
The teacher shares the learning targets and talks with students about the importance of learning targets. The teacher explains the meaning of the terms specific details, showing what you know, contributing, and discussions. The teacher tells students that at the end of the lesson, they will share how they did in moving toward the learning target. The teacher may provide nonlinguistic symbols to assist ELLs/MLLs in making connections with vocabulary. The teacher introduces the topic.

Video
The teacher introduces the video and distributes the I Notice/I Wonder note-catcher. The teacher models notice and wonder for students. The teacher shows the first half of the video. Students talk with a partner about something they notice and something they wonder about. The teacher cold-calls on a few students to share, charting students’ comments. Students continue to record what they notice and wonder about as they watch the remaining half of the video. Students participate in a think-pair-share. The teacher asks students: “Have you met the learning target, ‘I can record new ideas and wonder about the lives of people long ago?’” Students give a thumbs-up if they feel they have met the target, or a thumbs-down if they do not think they have met the target yet. The teacher cold-calls on students again, charting comments. If the symbol on Tim’s shirt does not come up as a notice or wonder, the teacher brings it up to discuss it.

AIR Additional Supports

Learning Objectives
Introduce the topic before sharing the learning targets. In addition to nonlinguistic symbols, provide student-friendly definitions for general academic vocabulary words such as discuss, details, main ideas, and so on, model the routines and providing opportunities for guided practice in implementing the routines.

AIR Additional Supports

Video
During partner work and think-pair-share, Pair ELLs/MLLs with more proficient speakers; provide some initial training to assist pairs in working together that is specific to the I Notice/I Wonder note-catcher.
Select videos carefully so they are comprehensible to ELLs/MLLs. Ideally, videos would have English or home language captions to aid understanding. Allow ELLs/MLLs to watch the video in their home language, if this is possible, before watching in English. This recommendation is especially for ELLs/MLLs at the entering and emerging levels of proficiency.

In this video, the narrator is speaking quickly and there is a lot of vocabulary that may be unfamiliar to ELLs/MLLs. Just as teachers scaffold text prior to reading it, they should scaffold videos by pre-teaching words key to understanding the video, providing a guiding question so that students know what they are listening for, and scaffolded note pages for students to capture.

### AIR Instructions for Teachers

**Video**
- Briefly describe the video and pose the guiding question.
- Read the glossary words aloud as students follow along.
- Have students review the glossary with each other for 15 minutes.
- Then, divide the class into teams and ask students to provide either the vocabulary word for the definition or the definition for the vocabulary word.
- Have students watch the video twice.
- Then, have students work in pairs to answer as many of the supplementary questions as they can.
- For homework, have students re-watch the video, checking their answers and completing any unanswered questions.
- Review the answers the following day.

### AIR Instructions for Students

**Video**
- Listen as your teacher reads the guiding question and vocabulary words.
- Practice the vocabulary words in pairs.
- You will then play a game to practice your understanding of these words.
- After the game, your teacher will show you a video about the Iroquois.
- After you watch the video, answer the supplementary questions using the word bank. Also, answer the guiding question.
- If you do not finish, watch the video again for homework, check your answers, and complete any unanswered questions.

**Guiding Question**
- Who are the Iroquois?

Getting Started Reading About the Iroquois

Expeditionary Learning Teacher and Student Actions

Introduction
The teacher introduces the article and the fact that students will be doing a close reading. The teacher explains graphic organizers. Students create a graphic organizer from construction paper and write guesses and questions about a symbol they saw in the video. Students think-pair-share their guesses. The teacher shows students the Iroquois flag and explains that the article will explain the symbol.

First Reading
The teacher distributes the first page of the article. The teacher writes the name of the primary character, Dekanawidhe, on the board and explains that some words in the article will appear strange because they are not English. The teacher reads the first paragraph aloud and discusses the meaning of the word constitution. The teacher reads the rest aloud.

Second Reading
Students read the first page of the article on their own. Students think-pair-share the first page.

Important Vocabulary
Students share words they do not know or think are important. The teacher charts those words. Students think-pair-share the meaning of the phrase “bitter rivals.” The teacher shows
students how to use context to understand the phrase. The whole class discusses why the nations were rivals. The teacher asks students to use their background knowledge to define the word *miracle*. Students think-pair-share who the miracle maker is.

**Third Reading**

Students reread the first page on their own, thinking about the symbol. Students think-pair-share what the symbol is or answers to their earlier questions. Students write details from the article in their graphic organizer and share their ideas with the class.

**AIR Additional Supports: Building Vocabulary Knowledge**

Providing a glossary of high-frequency, challenging key words for students at all levels of proficiency. The glossary should include ELL-friendly definitions, home language translations, examples from the text, and the opportunity for students to create new phrases or sentences using the target words. ELLs/MLLs at beginning stages of acquisition can substitute pictures for words or phrases or produce the target phrases in their home language. Students with home languages that share cognates with English also can indicate whether words are cognates with their home language (see example 1). We model with Spanish, but the glossary and vocabulary instruction should be tailored to the predominant language(s) of ELLs/MLLs in the school or district.

Teaching all ELLs/MLLs a few challenging, abstract words (e.g., *constitution*, *legends*, and *traditions*) prior to reading by using visuals and various opportunities for students to interact with word meanings (see example 2). The meaning of *legend* is modeled with a Puerto Rican legend, but teachers should consider customizing vocabulary instruction to the backgrounds of the students they teach by modeling with a legend from a culture represented in their classroom. Note that the language used to teach vocabulary is carefully crafted and glossed to ensure it is comprehensible to ELLs/MLLs with lower levels of proficiency. We provide ELLs/MLLs opportunities to talk about legends from their home cultures.

**AIR Instructions for Teachers: Building Vocabulary Knowledge**

Review student instructions.

Pre-teach vocabulary selected for extended instruction. This vocabulary will be important for understanding the text and abstract.

Familiarize students with their glossary and tell them they will be using it during close reading.

Briefly review glossed words that might be challenging.

**AIR Instructions for Students: Building Vocabulary Knowledge**

Your teacher will pre-teach several key words.

The glossary below will help you during close reading of the text. As you encounter a word in the text, rewrite it in the space provided.

If your home language shares cognates with English, note whether the word is a cognate.

**The teacher says**
Let’s talk about legend. *Legend* means a very old story that many people still talk about and believe. It may not be entirely true. The story we are reading about Dekanawideh is a legend.

Legend in Spanish is *leyenda*.

Look at the picture. This is Guanina, the Puerto Rican Taino princess. She was in love with a Spanish conquistador named Don Cristobal de Sotomayor. This story is a legend. It happened long ago and may not be entirely true.

**Partner talk:** Tell your partner about a legend you know.

AIR Additional Supports: Scaffolded Close Reading

ELLs/MLLs require more linguistic support than listening to a teacher read the text aloud, followed by individual reading. Read the text aloud to model fluent reading and then pose guiding and supplementary questions.

Revise the graphic organizers and sentence starters in the original lesson to be tailored to the text and not generic.

AIR Instructions for Teachers: Scaffolded Close Reading

Review student instructions for the first close reading with the class.

Tell students that the guiding question is designed to help them identify the key ideas and details in the text.

Remind students to use their glossary to find the meanings of words they might not know.

AIR Instructions for Students: Scaffolded Close Reading

In this first close reading, you will be answering questions about the key ideas and details in the text. Your teacher will review the guiding question with you. Work with a partner to answer the supplementary questions. Your teacher will review the answers with the class. Then, you will discuss the guiding question with your teacher and the class. Finally, you will complete the response to the guiding question. During this reading, you will be using your glossary to help you with word meanings.

**Enhancing Background Knowledge (AIR New Activity 2 for Getting Started Reading
About the Iroquois)**

**AIR Additional Supports**
Prior to the close reading, provide ELLs/MLLs with background information to help them make sense of the text. This information should not be a summary of the text nor should it eliminate the need for a close reading of the text. Rather, it should provide cultural, historical, chronological, or spatial context for the text.

**AIR Instructions for Teachers**
Present the background materials to students.
Pose the guiding question.
Have students work in pairs to answer the supplementary questions.
Review the answers with the students.
Discuss the guiding question and have students work in pairs to answer it in writing.
AIR Instructions for Students

Look at the maps. Then work with a partner to answer the supplementary questions. Use the word bank and sentence frames to complete the sentences. These instructions should be translated into the home language for ELLs/MLLs at the entering and emerging levels of proficiency to the extent possible.

3. Closing and Assessment

Debrief

Expeditionary Learning Teacher and Student Actions
The teacher asks students whether they have met the learning targets. Students rate their learning on a scale of one to five using the Fist to Five Protocol. The teacher calls on some students to provide evidence for their ratings.

AIR Additional Supports
Administer a short post-assessment to gauge how well students have mastered the reading standards associated with this passage. (See the example.)

AIR Instructions for Teachers
Review students’ instructions with the whole class. After students have completed the posttest, review the responses with them.

AIR Instructions for Students
Refer to the text, as necessary. Answer the questions that follow. Some of the questions are the same as those on the pretest. When you are finished, your teacher will review the answers with you.
