TO: District Superintendents, Superintendents, CTE Directors, and District Data Officers

FROM: Amy Cox, Director of Career Readiness and Workforce Partnerships

DATE: August 2022

SUBJECT: Additions to the New York State Course (SCED) Codes for CTE Courses

In an effort to provide clear alignment between common career and technical education (CTE) courses and their associated SCED codes, several new CTE course codes have been developed and added to the course catalog. These course codes should be used by districts or BOCES that offer the courses listed below:

COURSE NAME	NEW SCED CODE
Career and Financial Management (CFM)	72211
Design and Drawing for Production (DDP)	21100
Career Exploration Internship Program (CEIP)*	22148
Cooperative Career and Technical Education Work Experience (CO-OP)*	22149
General Education Work Experience Program (GEWEP)*	22150
Social Media Marketing	12169
Professional Diving	20056
Advanced Professional Diving	20057
Particular Topics in Professional Diving	20058

*Please note, for the Perkins Program Quality Indicator for Work-Based Learning (5S3), the work-based learning course codes above do not serve to identify students as having completed 54 hours of work-based learning. Perkins recipients must continue to use the 22202W course code to indicate completion of the 54 hours in addition to the work-based learning codes listed above. The [New York State Comprehensive Course Catalog](#) has been updated to reflect the additional courses.

If you have any questions regarding the new SCED codes, please contact the Office of Career and Technical Education at emsccte@nysed.gov or the [Office of Information Reporting Services](#).
