MISSION STATEMENT

The mission of the Harlem Children's Zone Promise Academy II Charter School (HCZ Promise Academy II) is to provide high quality, standards-based academic programs for students, grades K-12, from underserved communities and underperforming school districts, and to provide students with the skills they need to be accepted by and succeed in college. HCZ Promise Academy II promotes high achievement in all subjects through a demanding curriculum, extensive supportive services, and the use of data-driven teaching methods. HCZ Promise Academy II is committed to promoting academic accomplishment, positive character development, healthy lifestyles, and leadership skills. In partnership with the Harlem Children's Zone, HCZ Promise Academy II addresses the educational and developmental needs of each student.

g. KEY DESIGN ELEMENTS (Regents, NYCDOE, and Buffalo BOE authorized schools only)

KEY DESIGN ELEMENTS (Briefly describe each Key Design Elements (KDE) as presented in the schools approved charter. KDEs are those general aspects of the school that are innovative or unique to the school's mission and goals, are core to the school's overall design, and are critical to its success.

KDE 1	Data-driven Instruction: Promise Academy believes that all students have different instructional needs, and it is our job to find ways to identify and address those needs. We are committed to collecting and analyzing data both in and out of the classroom. Our goal is to place equal emphasis on quantitative and qualitative data as it pertains to academics and social development. We collect and effectively analyze scholar performance data and create actionable plans to address deficiencies.
KDE 2	Training & Professional Development: Professional Development is a critical part of the daily functionality at Promise. Principals and teachers attend PD sessions to improve targeted practices and promote proficiency. Education directors and instructional coaches develop improvement plans

	<p>for educators. Teachers participate in "Go Live" practice lessons where they receive feedback from an administrator. Teachers also have access to an extensive network of PD opportunities through our external partnerships.</p>
KDE 3	<p>College Readiness: Promise Academy scholars will graduate ready for college and the career of their choice. The high school offers advanced placement courses that prepare scholars to meet college and career readiness standards during instruction. Scholars engage in community service, college exposures, and a variety of internships to become culturally informed. They are offered services from the Center for Higher Education and Career Support with advisors who help and guide them.</p>
KDE 4	<p>Pipeline of Services: We offer a pipeline of services such as healthy nutrition, access to social services, foster care prevention, and an after-school with additional opportunities that ensure our students begin on the same playing field as children from more affluent communities. We also have a fully operational health center at our main building for all Promise students and partner with proven organizations so that our children get the services they need to develop as healthy students.</p>
KDE 5	<p>Social and Emotional Learning: SEL is embedded in school culture and drives school-wide practices and policies. Promise Academy uses five core competencies as its SEL framework: self-awareness; self-management; social awareness; relationship skills; and responsible decision making. All are directly and indirectly incorporated into core subjects. Promise has a long-term vision to implement K-12 sequential curriculum and programming to support SEL development in Promise Academy scholars.</p>
KDE 6	<p>RTI: Promise Academy uses Response to Intervention (RTI), a multi-tiered approach that ensures early identification of scholars who need support to succeed academically. Teachers first identify scholars who are scoring below 80 percent or who are exhibiting behavioral challenges. They</p>

	monitor the scholars' progress and provide evidence-based interventions, which are continuously reviewed, assessed, and adjusted depending on each scholar's responsiveness.
KDE 7	Recruitment: The recruitment team focuses on finding quality candidates from around the country and works with leadership using the following strategies: attending/hosting teacher recruitment fairs and events at colleges/universities, internet job postings, advertisements, employee referrals, and partnering with programs such as Teach for America. Student-teachers from reputable universities are trained in Promise classrooms with a focus on data-driven positive school culture.
KDE 8	Parent Engagement: Promise Academy has a strong focus on connecting with the parents of its scholars, who are instrumental in the educational process. There are four parent coordinators across the school that assist with parent outreach and engagement. The Promise Academy II Parent Association (PAPA II) helps to maintain strong ties between staff and families. The school also has a parent representative on the board of trustees to ensure that families always have a voice.

We are currently considering the possibility of holding a virtual lottery. Robocalls and emails have been sent to every family currently in Promise Academy. These families are primarily low income. Additionally, there are kindergarten lottery preferences for low income children living in CSD 5 and Central Harlem.</p>
<p>English Language Learners/Multilingual Learners</p>	<p>In order to attract additional families, efforts were made in:</p> <ol style="list-style-type: none"> (1) Distributing and maintaining information/documents in a variety of languages on hand at each site, so that interested parents who walk in for information can readily have access to it; (2) Orientation explaining the process for ESL identification to our early childhood parents prior to their children transitioning to kindergarten at Promise Academy; (3) Having a translator sit down with parents to complete the Home Language Survey; and (4) Administering an interview in English and the student's home language. 	<p>In an effort to diversify our student population further and meet mandated enrollment targets of special populations, Promise Academy added an ELL preference to its kindergarten lottery. The preference was approved by the Promise Academy Board on October 30, 2019, and approved by the DOE on December 17, 2019.</p> <p>Due to the impacts of COVID-19 on New York City, we have had to develop virtual and remote ways to recruit for the 2020-2021 school year. In addition, the following efforts were made:</p> <ol style="list-style-type: none"> (1) families from our Gems and Three-Year Old Journey programs apply to the lottery. We also continued to offer intervention services for general education students who need additional support. Special education managers identified students with special needs and advocated for them to receive services through the CSE. We will continue expanding upon that practice by collaborating with HCZ social work team and school leaders.</p>	<p>Due to the COVID-19 pandemic, recruitment of students with disabilities has faced unprecedented challenges. Promise Academy has been limited in the events and communication that can be held, due to the remote nature of the school year during the spring and summer months. Despite this challenge, Promise Academy has continued to host informational sessions with parents and families regarding the services and support that are available, not just for those with children with disabilities, but for all parents and families who may need support during this time. Additionally, online resources and tools have been shared through a newsletter created specifically to support parents and staff. By supporting our current families and parents of children with disabilities, our goal is that the community will become aware of the efforts we take to provide support, which will contribute to meeting our recruitment and retention goals. We have also created a director of special education and ENL position to provide an additional layer of support. Part of this role includes communicating with families of students who are being enrolled through our waitlist to ensure they receive</p>

Acceptance of Minutes (Geoffrey Canada)

The meeting was called to order at 7:00 a.m. and a motion was called to approve the meeting minutes from June 19, 2019. The motion was unanimously approved.

CEO Report (Anne Williams-Isom)

Anne Williams-Isom thanked everyone who joined in the 25th Annual Children's March for Peace, which was renamed the Rasuli Lewis Children's March for Peace to honor the HCZ director who passed away this summer and who was one of the original organizers of the Peace March.

Ms. Williams-Isom reported that more than 3,000 children were part of the annual HCZ Summer Games held in July at the Fort Washington Avenue Armory.

The Promise Academy High School graduation was held on June 26th. The keynote speaker, performer and entrepreneur Pharrell Williams, offered summer 2020 internships to the entire graduating class.

September 5, 2019 was the first day of school for all Promise Academy I and II scholars. Principals and senior staff members stood in front of the schools in the mornings of the first two days to greet scholars and their families.

Ms. Williams-Isom and Dr. Achil Petit sat down with teachers to do evaluations after the test scores were released.

Cindy Baah, the founder of Determined to Educate, provided the Promise Academy I Middle School with R&B artist Michael Bivins as a keynote speaker for the eighth-grade graduation in June. Determined to Educate is an organization devoted to supporting New York City's most vulnerable young student populations through group mentoring.

Superintendent's Update (Dr. Achil Petit)

Dr. Petit reported that enrollment is at 1,201 for Promise Academy I and at 1,056 for Promise Academy II.

Dr. Petit also reported PAII High School principal Katherine Hurtado resigned her position. Kashif Hameed, the former PAI Middle School principal, will take her place and Madelaine German-Schultz, who was the Education Director under Mr. Hameed, has accepted the role of principal for PAI Middle School. Ms. German-Schultz thanked the superintendent for the opportunity. The board welcomed Ms. German Schultz and Mr. Hameed to their new roles.

State Test Scores (Dr. Bessie Wilkerson / Dr. Achil Petit)

Dr. Bessie Wilkerson spoke about State test results, comparing the results of Promise Academy I and II to the results of students in the district, City, State and New York City black and white students.

In ELA, PAI and PAII performed better than all above mentioned comparison groups except for NYC white students. Dr. Wilkerson discussed both schools' growth percentage from 2013 to 2019. In addition, the pass rates for students with disabilities for Promise Academy exceeded New York City rates.

Dr. Petit discussed the ELA goals and initiatives during the 2018-2019 school year that contributed to an increase in proficiency rates for PAI and steady proficiency rates for PAII. The goals included small group instruction based on assessment data, improved levels of questioning during observations, improved pacing of instruction, Go-Live coaching, modified curriculum based on data, use of Academic Intervention Services (AIS) to address deficiencies, Saturday School, updated exit tickets and benchmark exams and increased academic hour during test preparation.

In math, PAI and PAII outperformed all above mentioned comparison groups including NYC white students. Dr. Wilkerson discussed both schools' growth percentage from 2013 to 2019. Both Promise Academies have demonstrated much greater growth over that time period than the standard comparison groups. Additionally, the passing rates for students with disabilities for Promise Academy exceeded New York City rates.

Dr. Petit discussed the math goals and initiatives during the 2018-2019 school year that contributed to an increase in proficiency rates for PAI and PAII, which included providing actionable feedback during teacher observations, modifying the curriculum based on 2018 State test data, an increased focus on test preparation, weekly grade team meetings, weekly Go-Live sessions with new teachers, data meetings, incentivized academic hour, targeted aggressive monitoring and increased use of technology.

Dr. Wilkerson reported on Regents exam results for PAI and PAII high school students, comparing Promise scores to the 2018 results for black and white New York State students and all New York State students as a whole. PAI and PAII high school senior cohorts outperformed all New York State comparison groups in all five of the required Regents exams. Even prior to their senior year of high school, Promise Academy cohorts were already passing Regents exams in most subjects at rates higher than NYS's students as a whole. This is true for the 2018-2019

junior cohort in all five subjects, true of sophomores in some subjects, and true for freshmen in math.

CEO Report (Kwame Owusu-Kesse)

Harlem Children's Zone's (HCZ's) newly appointed Chief Executive Officer, Kwame Owusu-Kesse, thanked the board for welcoming him in his first official Board meetings for Promise Academy I and II.

Mr. Owusu-Kesse also reported that HCZ gave over 150 new bikes to children in the community this month.

Last week, HCZ held a modified Healthy Harlem harvest, where the organization gave out 4,000 pounds of fresh produce, 1,000 2-week supply packages of non-perishable foods, 1,000 masks, and 400 thermometers to families in the community.

The Harlem Children Zone continues to take a national leadership role, particularly with the response to COVID-19, given the devastating impact the pandemic has had on communities of color. Six cities have adopted HCZ's approach, which includes: Oakland, Minneapolis, Detroit, Chicago, Atlanta, and Newark. We have been successful.

HCZ has been successful in raising 26 million dollars towards a 50 million dollars broader national effort.
