ELEMENTS OF CIVIC READINESS

Civic Readiness- Civic readiness is the ability to make a positive difference in the public life of our communities through the combination of civic knowledge, skills and actions, mindsets, and experiences.

Civil Rights- Civil rights are an expansive and significant set of rights that are designed to protect individuals from unfair treatment; they are the rights of individuals to receive equal treatment (and to be free from unfair treatment or discrimination) in a number of settings -- including education, employment, housing, public accommodations, and more -- and based on certain legally-protected characteristics.

Civic Learning- students demonstrate fundamental knowledge of Social Studies, engage in relevant experiences that include students as active participants and develop an understanding of self as part of and responsible to larger social groups.

Civic Engagement- working to make a difference in the civic life of our communities and developing the combination of knowledge, skills and actions, mindsets and experiences necessary to make that difference. It means promoting the quality of life in community, through both political and non-political processes.

RECOMMENDATIONS

- State Definition of Civic Readiness
- Civics Capstone Project
- State Seal of Civic Readiness
CIVIC READINESS DEFINITION:
CIVIC READINESS IS THE ABILITY TO MAKE A POSITIVE DIFFERENCE IN THE PUBLIC LIFE OF OUR COMMUNITIES THROUGH THE COMBINATION OF CIVIC KNOWLEDGE, SKILLS AND ACTIONS, MINDSETS AND EXPERIENCES

Demonstrate a fundamental and functional knowledge of government, law, history, geography, culture, economics, and current events. These may include inequities within our democratic system at the federal, state and local level. Students should know how to apply this knowledge to different circumstances and settings.

Demonstrate the mindset of a participant in a democratic society. A civic mindset is a commitment to democratic interpersonal and intrapersonal values, virtues, attitudes, and beliefs and informed actions that promote and facilitate meaningful participation in civic life. It is an understanding of self as part of and responsible to larger social groups.

Demonstrate a broad array of critical analytic, verbal, communication, media literacy and other skills and participate in a wide variety of actions. Students should practice such actions both inside and outside of school on a regular basis.

Participate in developmentally appropriate civic experiences. Civic readiness should be developed in a variety of settings and ways—inside and outside of the classroom, across content areas, and for multiple purposes. Civic Readiness should be promoted by engaging students in relevant experiences that include students as active participants.
THE PROPOSED SEAL OF CIVIC READINESS

I. Affirms NYSED’s commitment to strengthening civics education
II. Incentivizes districts and students to participate in meaningful civic engagement projects

Preparing to Lobby on an Issue

Use this planning sheet to prepare for your lobbying campaign.

Identify the issue you want to address.

List the policymakers you plan to lobby.

<table>
<thead>
<tr>
<th>Name</th>
<th>Telephone number</th>
<th>Office location</th>
</tr>
</thead>
</table>

Write your talking points:
- Choose three or four points to use in support of your position. Give each point its own paragraph.
- Support each point with relevant facts and arguments.
- Keep your talking points brief, no more than one page.
- Title your talking points and include your contact information.

Prepare a talking script using the model below.

Hi, my name is ________, and I would like to talk to you about the issue of __________.

I’d like to briefly explain my position on this issue. (Use your talking points as a guide here.)

I would like you to tell the policymaker what you want him or her to do ________.

Do you have any questions for me about this issue?

Can I count on your support? If not, what would it take for you to support me?

May I leave this sheet of talking points with you? It includes my contact information in case you would like to talk more about this issue later on.

Thank you so much for your time.

Civics Education

The League and the New York State Council for the Social Studies (NYSCSS) are pleased to announce the publication of 7 lesson plans for teachers of the New York Grade 12 Participation in Government course.

The 7 lesson plans are designed to provide teachers and students with information specific to New York State. Lessons can be customized to meet the needs of individual classrooms or student interests and are designed to be inquiry-based and non-partisan.

The goal of these lessons is to bring a heightened knowledge of the formal system of government in New York State, a better understanding of the forces that can change the balance of power, and to develop an improved student understanding of how to be an active citizen, knowing their rights and responsibilities.

The lessons are based on the Key Ideas and Social Studies Practices of the New York State Social Studies Curriculum Framework. The lesson plans could be integrated into existing units or combined for a unit of instruction on New York government. With these lesson plans, Participation in Government teachers have ready-made resources which will engage high school seniors.
Planning an Effective Meeting

Use this planning sheet to help you conduct an effective meeting.

Define the objectives for the meeting.

Determine when and where you will hold the meeting. How will you notify the participants about the time and place?

List the equipment you need for the meeting (such as chairs, tables, or a projector). Where and when will you get what you need?

On a separate piece of paper, sketch the meeting room and how you will arrange the furniture.

Create an agenda for the meeting. How much time will you allocate for each agenda item? Where and when will you post the agenda? (Attach a printed copy to this sheet.)

List at least five ground rules. Examples: Raise your hand and be recognized by the chair before speaking. Avoid making negative comments about other participants’ ideas.

After the meeting, answer these questions on a separate sheet of paper:
1. What went well during the meeting?
2. What aspects of conducting the meeting were challenging?
3. What would you do differently next time?
