New York State P-12 Science Standards
Development, Adoption, and Implementation

Phase I
Raise Awareness & Build Capacity

Phase II
Transition & Implementation

Phase III
Implementation & Sustainability

Instruction aligned to NYS P12 Science Learning Standards begins...

- September 2019 for Grades P-3 and 6
- September 2020 for Grades 4 and 7
- September 2021 for Grades 5 and 8

- September 2022
Continue Phase III transition toward full implementation of the NYS 9-12 Science Learning Standards at the local level

2016
- Standards Become Effective July 1, 2017
- December 2016 adoption of NYS P-12 Science Learning Standards.

2017
- March 2018
NYS P-12 Science Roadmap Released

2018
- June 2020
Last administration of Grade 4 science test aligned to the 1996 Standards

2019-20
- June 2021
No Grade 4 science test; these students will take new science test in grade 5 in 2022
Last administration of Grade 8 science test aligned to the 1996 Standards

2021
- June 2022
First administration of new Elementary Grade 5 and Intermediate Grade 8 science tests

2022-24
- June 2023
First administration Biology, and Earth and Space Science Regents Exams
- June 2024
First administration Chemistry and Physics Regents Exams

State Level Science Assessment Development & Implementation
Science Timeline for Development, Adoption, Implementation

December 2016: Standards Adoption
After a multi-year process of stakeholder engagement of writing, review, and adaption the Board of Regents adopted the New York State P-12 Science Learning Standards. The adopted standards are based on the foundation and the tenets of the National Research Council’s Framework for K-12 Science Education: Practices, Crosscutting Concepts, and Core Ideas and the Next Generation Science Standards (New York one of 27 lead states). Two public survey’s gathered feedback from various stakeholders on the draft standards as part of the adoption process.

July 2017: Initial Transition to the New York State P-12 Science Learning Standards
Initial transition to the new State science learning standards began with the 2017-18 school year. Given the shift in classroom instruction called for by the standards NYSED staff, alongside key science stakeholders and groups in learning communities across the State, continue to work together to raise awareness and build capacity to move science education in NY forward through these new science standards. Ongoing Curriculum and Professional Development P-12 aligned to the standards are crucial components in this process.

March 2018: New York State P-12 Science Roadmap Released
The New York State P-12 Science Learning Standards Implementation Roadmap has been designed to assist and support educators in school districts and other key stakeholders with the transition process leading to full-implementation of the learning standards. The roadmap provides a recommended plan spread-over the next several years that highlights shared goals, objectives and activities to support the NYS Education Department, local school districts, and other key stakeholders with the transition process. Districts are encouraged to tailor the suggested implementation activities to develop specific actions designed to meet district level needs during the transition process.

Grades P-8
September 2019: Phase II Transition and Implementation
This is the start of Phase II where districts should be moving towards full implementation of curriculum and instructional programing aligned to the New York State P-12 Science Learning Standards at the elementary and middle school levels, to prepare students for subsequent years of science learning, especially targeting for Grades P-3, and grade 6.

June 2020: Last Administration of grade 4 science test aligned to the 1996 Science Standards
This last test administration signals to the field the need for a shift in instruction aligned to the 2016 New York State P-12 Science Learning Standards. June 2021 will be a testing transition year for students in the grade 4 cohort. There will be no grade 4 science test; Students in this cohort will take the new science test in grade 5 in 2022.
September 2020: Continue Phase II Transition and Implementation

This date signals the continued implementation PK-3 and grades 6 and initial transition of curriculum and instruction aligned to the 2016 New York State P-12 Science Learning Standards for Grades 4 and 7.

June 2021: Testing Transition

June 2021 will be a testing transition where there will be no grade 4 science test; these students will take the new science test in grade 5 in 2022. This will provide time for teachers and students to adapt to teaching and learning called for in the new standards. It provides the opportunity for full transition to the 2016 standards without having a cohort of students tested on the 1996 standards 1 year and the 2016 standards the following year.

Last administration of the Grade 8 Science test aligned to the 1996 standards.

September 2021: Continue Phase II Transition and Implementation

This date signals the full implementation of instruction aligned to the 2016 New York State P-12 Science Learning Standards for all grades including Grades 5 and 8. This results in all curriculum and instruction in grades P-8 aligned to the new 2016 standards.

June 2022: First Administration of the new Grade 5 and Grade 8 exams

June 2022 will mark the first administration of the Grade 5 Elementary-Level and Grade 8 Intermediate-Level science examinations aligned to the 2016 New York State P-12 Science Learning Standards.

Grades 9-12

September 2022: Phase III Implementation and Sustainability

This date signals the continued implementation and full transition of curriculum and instruction of two high school level science courses that culminate in a corresponding science Regents examination aligned to the 2016 New York State P-12 Science Learning Standards for Earth and Space Science, and Life Science: Biology. These courses are those typically taught in Grades 9 and 10.

June 2023: First Administration of Earth and Space Science and Life Science: Biology Regents Exams

June 2023 will mark the first administration of the Regents Exams for Earth and Space Science and Life Science: Biology.

September 2023: Phase III Implementation and Sustainability

This date signals the continued implementation and full transition of curriculum and instruction of the two high school level science courses that culminate in a corresponding science regents examination aligned to the 2016 New York State P-12 Science Learning Standards for Physical Science: Chemistry and Physical Science: Physics. These courses are those typically taught in Grades 11 and 12.
June 2024: First Administration of Physical Science: Chemistry and Physical Science: Physics Regents Exams

June 2024 will mark the first administration of the Regents Exams for Physical Science: Chemistry and Physical Science: Physics.

In Summary:

The above timeline lays out a thoughtful strategic implementation blueprint for science that allows adequate time for the necessary steps leading to the following:

- Ongoing and targeted professional development for teachers
- Curriculum development at expanding levels
- Grades 5, 8, and Regents level assessment development, field testing and implementation

*See attached list of organizations asked for feedback on the attached timeline*
