Revised

Wendy Butler, Superintendent
Belfast Central School District
1 King St.
Belfast, NY 14711

Dear Superintendent Butler:

Congratulations. I am pleased to inform you that your Annual Professional Performance Review (APPR) plan meets the criteria outlined in Education Law §3012-d and Subpart 30-3 of the Commissioner's Regulations and has been approved. As a reminder, we are relying on the information you provided on your APPR form, including the certifications and assurances that are part of your approved APPR plan. If any material changes are made to your approved plan, your district/BOCES must submit such material changes to us for approval. Please see the attached notes for further information.

Please be advised that, pursuant to Education Law §3012-d, the Department will be analyzing data supplied by districts, BOCES, and/or schools and may order a corrective action plan if there are unacceptably low correlation results between the Student Performance category and the Teacher Observation or Principal School Visits category, and/or if the teachers' or principals' overall ratings and subcomponent scores show little differentiation across educators and/or the lack of differentiation is not justified by equivalently consistent student achievement results, and/or if schools or districts show a pattern of anomalous results in the Student Performance category and/or the Observation/School Visits category.

The New York State Education Department and I look forward to continuing our work together, with the goal of ensuring that every school has world-class educators in the classroom, every teacher has a world-class principal to support his or her professional growth, and every student achieves college and career readiness.

Thank you again for your hard work.

Sincerely,

Betty A. Rosa
Interim Commissioner

Disclaimers

For guidance related to Annual Professional Performance Review plans, see NYSED APPR Guidance.

The Department will review the contents of each local educational agency's (LEA) Annual Professional Performance Review (APPR) plan as submitted using this online form, including required attachments, to determine if the plan rigorously complies with Education Law §3012-d and Subpart 30-3 of the Rules of the Board of Regents. Department approval does not imply endorsement of specific educational approaches in an LEA'splan.

The Department reserves the right to request further information from an LEA to monitor compliance with Education Law §3012-d and Subpart 30-3 of the Rules of the Board of Regents. Each LEA is required to keep detailed records on file for each section of the currently implemented APPR plan. Such detailed records must be provided to the Department upon request. The Department reserves the right to disapprove or require modification of an LEA's plan that does not rigorously adhere to the requirements of Education Law §3012-d and Subpart 30-3 of the Rules of the Board of Regents.

The Department will not review any attachments other than those required in the online form. Any additional attachments supplied by the LEA are for informational purposes only for the teachers and principals reviewed under this APPR plan. Statements and/or materials in such additional attachments have not been approved and/or endorsed by the Department. However, the Department considers void any other signed agreements between and among parties in any form that prevent, conflict, or interfere with full implementation of the APPRplan approved by the Department. The Department also reserves the right to request further information from the LEA, as necessary, as part of its review of this plan.

If the Department reasonably believes through investigation, or otherwise, that statements made in this APPR plan are not true or accurate, it reserves the right to reject or disapprove this plan at any time and/or to request additional information to determine the truth and/or accuracy of such statements.

Required Student Performance Subcomponent

For guidance on the Required subcomponent of the Student Performance category,see NYSED APPR Guidance.

100% of the Student Performance category if only the Required subcomponent is used or locally determined if the Optional subcomponent is selected.

Each teacher shall have a Student Learning Objective (SLO) locally determined, consistent with the goal-setting process determined by the Commissioner.

Student Learning Objectives (SLOs)

For guidance on SLOs,see NYSED SLO Guidance.

SLOs shall be used for the required student performance measure for all teachers. The following must be used as the evidence of student learning within the SLO.

MEASURES

SLO measures may be either individually attributed or collectively attributed.

Individually attributed measures

An individually attributed SLO is based on the student population of a course for which the teacher directly contributes to student learning outcomes.

> Teacher and course-specific

- **Teacher and course-specific results**:scores and ratings will be based on the growth of students in the teacher's course in the current school year.

Collectively attributed measures

A collectively attributed SLO is based on a student population across multiple sections of the same course or across multiple courses where more than one teacher either directly or indirectly contributes to student learning outcomes. When determining whether to use a collectively attributed SLO, the LEA should consider:

- identifying which measures and assessments could be used to encourage partnerships or teams where teachers have an opportunity to collectively impact student learning;
- identifying which assessments could be used to help foster and support an LEA's focus on a specific priority area(s);
- the impact on the LEA's ability to make strong and equitable inferences regarding an individual educator's effectiveness; and
- when using multiple measures, the appropriate weight of each measure that reflects individually and collectively attributed results.

> School- or program-wide

- **School- or program-wide results**:scores and ratings will be based on the growth of all students in a school or program who take the applicable assessments in the current school year.
- **School- or program-wide group or team results**: scores and ratings for a group or team of teachers will be based on the growth of students in the group/team of teachers' courses in the current school year.
- **School- or program-wide linked results**: scores and ratings will be based on the growth of students enrolled in the teacher's course in the current school year taking assessments in other grades/subjects.

> District- or BOCES-wide

- **District- or BOCES-wide results**:scores and ratings will be based on the growth of all students across buildings/programs in an LEA who take the applicable assessments in the current school year.
- **District- or BOCES-wide group or team results**: scores and ratings for a group or team of teachers will be based on the growth of students in the group/team of teachers' courses across buildings/programs in an LEAin the current school year.

ASSESSMENTS

Any of the measures above may be used with one or more of the following assessment types.

- **State assessment(s)**;or

  Assessment(s) that are selected from the list of State-approved:

- **third party assessments**; or
- **locally-developed assessments**(district-, BOCES- or regionally-developed).

HEDI Scoring Bands

Highly Effective			Effective			Developing		Ineffective											
20	19	18	17	16	15	14	13	12	11	10	9	8	7	6	5	4	3	2	1	0

SLO Assurances

Please check the boxes below.

- ☑ Assure that the teacher has an SLO as determined locally in a manner consistent with the goal-setting process determined by the Commissioner.
- ☑ Assure that all student growth targets represent a minimum of one year of expected growth, as determined locally in a manner consistent with the Commissioner's goal-setting process. Such targets may only take the following characteristics into account: poverty, students with disabilities, English language learner status and prior academic history.
- ☑ Assure that all student growth targets shall measure the change in a student's performance between the baseline and the end of the course.
- ☑ Assure that if a teacher's SLO is based on a small 'n' size population and the LEA chooses not to use the HEDI scoring bands listed above, then the teacher's 0-20 score and HEDI rating will be determined using the HEDI scoring bands specified by the Department in SLO Guidance.
- ☑ Assure that processes are in place for the superintendent to monitor SLOs.
- ☑ Assure that the final Student Performance category rating for each teacher will be determined using the weights and growth parameters specified in Subpart 30-3 of the Rules of the Board of Regents and the approved APPR plan.
- ☑ Assure that for any SLO based, in part, on the New York State grade four science assessment, once the assessment is no longer administered the SLO will utilize only the remaining assessments.

- If the Optional subcomponent is not used, the Required subcomponent will comprise 100% of the Student Performance category.
- If the Optional subcomponent is used, the percentage of Student Performance category attributed to the Required subcomponent willbe locally determined.

Please indicate if the Optional subcomponent will be used by making the appropriate selection below.

Page Last Modified: 04/29/2020

Optional Student Performance Subcomponent

For guidance on the Optional subcomponent of the Student Performance measure, see NYSED APPR Guidance.

Percentage of Student Performance category to be locally determined if selected.

Such second measure shall apply in a consistent manner, to the extent practicable, across all classrooms in the same grade/subject in the LEA and be a locally selected measure of student growth or achievement based on State-created or -administered assessments or State-designed supplemental assessments.

Options for measures and associated assessments include:

- **Option (A) A second SLO, provided that this SLO is different than that used in the required subcomponent;**
- **Option (B) A growth score based on a statistical growth model, where available, for either State-created or -administered assessments or State-designed supplemental assessments;**
- **Option (C) A measure of student growth, other than an SLO, based on State-created or -administered assessments or State-designed supplemental assessments;**
- **Option (D) A performance index based on State-created or -administered assessments or State-designed supplemental assessments;**
- **Option (E) An achievement benchmark on State-created or -administered assessments or State-designed supplemental assessments; or**
- **Any other collectively bargained measure of student growth or achievement included in the LEA's evaluation plan.**

Please indicate if the Optional subcomponent will be used by making the appropriate selection below.

NO, the Optional subcomponent WILL NOT be used in the Student Performance category for any teacher.

Teacher Observation Category

For guidance on the Teacher Observation category, see NYSED APPR Guidance.

Teacher Practice Rubric

Select a teacher practice rubric from the menu of State-approved rubrics to assess performance based on the observable NYS Teaching Standards.

Rubric Name	**If more than one rubric is utilized, please indicate the group(s) of teachers each rubric applies to.**
NYSUT Teacher Practice Rubric (2014 Edition)	(No Response)

Rubric Assurances

Please check all of the boxes below.

- ☑ Assure that all observable NYS Teaching Standards/Domains of the selected practice rubric are assessed at least once a year across the total number of annual observations.
- ☑ Assure that the process for assigning points for the Teacher Observation category will be in compliance with the locally-determined subcomponent weights and overall Observation category score and rating based on the constraints prescribed by the Commissioner in Subpart 30-3 of the Rules of the Board of Regents.
- ☑ Assure that the same rubric(s) is used for all classroom teachers in a grade/subject across the LEA, provided that LEAs may locally determine whether to use different rubrics for teachers who teach different grades and/or subjects during the school year as indicated in the table above.
- ☑ Assure that the same rubric(s) is used for all observations of a classroom teacher across the observation types in a given school year.

Process for Weighting Rubric Domains/Subcomponents

For guidance on the Teacher Observation category, see NYSED APPR Guidance.

Page Last Modified: 08/19/2020

Please describe the process for rating and scoring the selected practice rubric consistent with the Department's regulations.

Your description should provide the complete process, including the following:

- **The process for designating observable components (please note: all educators of the same grade/subject must be evaluated based on the same set of observable components);**
- **The level at which components of the chosen rubric are rated (i.e., domain, subdomain, indicator, etc.);**
- **How the final score and rating for each observable component of the practice rubric is determined for each observer; and**
- **How the final score for the required (i.e., lead evaluator/evaluator; independent evaluator) and/or optional (peer observer, as applicable) subcomponent of the Observation category is determined based on the final score and rating for each observable component.**

Example: All subcomponents of Domains 2-4 of the Danielson rubric have been negotiated as observable. Domains 2 and 3 are weighted as 40% each, and Domain 4 is weighted as 20%. For each observation, all observed subcomponents in a domain are weighted equally and averaged to create a domain score, which is then weighted as above and averaged to reach a final score for each observation. Scores for each observation are weighted equally and averaged to reach a final score for each observation type. The district will ensure that all subcomponents designated as observable will be observed at least once across the observation cycle.

All Standards II-VI of the NYSUT rubric have been negotiated as observable. The observable standards will be measured at theindicator level for each of the teacher standards. BCS teachers and administrators identified specific indicators to be observed and evaluated based on instructional priorities of the District. Each evaluator will collect evidence on each observable indicator during an observation. (Any indicator not observed in an unannounced observation will be left blank and will be a priority for the announced observation(s) for the teacher and evaluator.)
All lead evaluator's observations for the year will be combined into one observation form. An independent evaluator's observationfor the year will be on a separate observation form. Scores for each indicator will be averaged to create a summative score. The observation score from the lead evaluator will be weighted 90% and independent evaluator score will be 10% for a merged score for an overall observation rating.
The district will ensure that all indicators designated as observable will be observed at least once across the observation cycle.

Scoring Assurances

Please check each of the boxes below.

- ☑ Assure that each set of observations (by supervisor/other trained administrator, independent, or peer) will be completed using the selected practice rubric, producing an overall score between 1 and 4. The overall weighted observation score will then be converted into a HEDI rating using the ranges indicated below.
- ☑ Assure that once all observations are complete, the different types of observations will be combined using a weighted average consistent with the weights specified below, producing an overall Observation category score between 0 and 4. In the event that a teacher earns a score of 1 on all rated components of the practice rubric across all observations, a score of 0 will be assigned.

Teacher Observation Scoring Bands

The overall Observation score will be converted into a HEDI rating based on locally determined ratings consistent with the ranges listed.

	Overall Observation Category Score and Rating	
	Minimum	Maximum
H	3.5 to 3.75	4.0
E	2.5 to 2.75	3.49 to 3.74
D	1.5 to 1.75	2.49 to 2.74
I	0.00*	1.49 to 1.74

Page Last Modified: 08/19/2020

** In the event that an educator earns a score of 1 on all rated components of the practice rubric across all observations, a score of 0 will be assigned.*

Observation Assurances

Please check all of the boxes below.

- ☑ Assure that the following elements will not be used in calculating a teacher's Observation category score and rating: evidence of student development and performance derived from lesson plans, other artifacts of teacher practice, and student portfolios, except for student portfolios measured by a State-approved rubric where permitted by the Department; use of an instrument for parent or student feedback; and/or use of professional goal-setting as evidence of teacher effectiveness. 1) identification of needed areas of improvement;
2) a timeline for achieving improvement;
3) the manner in which the improvement will be assessed;and, where appropriate,
4) differentiated activities to support a teacher's improvement in those areas.

Appeal Assurance

Please check the box below.

☑ Assure the LEA has collectively bargained appeal procedures that are consistent with the regulations and that they provide for the timely and expeditious resolution of an appeal.

Appeals

Pursuant to Education Law§3012-d, a teacher may only challenge the following in an appeal to their LEA:

(1) the substance of the annual professional performance review;which shall include the following:

(i) in the instance of a teacher rated Ineffective on the StudentPerformance category, but rated Highly Effective ontheObservationcategory based on an anomaly, as determined locally;

(2) the LEA'sadherence to the standards and methodologies required for such reviews, pursuant to Education Law§3012-d;

(3) the adherence to the regulations of the Commissioner and compliance with any applicable locally negotiated procedures, as required under Education Law §3012-d and Subpart 30-3 of the Rules of the Board of Regents; and

(4)the LEA's issuance and/or implementation of the terms of the teacher improvement plan, as required under Education Law §3012-d and Subpart 30-3 of the Rules of the Board of Regents.

Describe the procedure for ensuring that appeals of annual performance evaluations will be resolved in a timely and expeditious manner.

Any teacher who disagrees with their overall APPR Rating of Ineffective or Developing may appeal the rating by filing an appeal with the Superintendent within two weeks of receiving their overall APPR HEDI rating.
Within two weeks of receiving the appeal, the Superintendent will review the teacher's observations and District student performance SLO data to evaluate the appeal and render a decision about the teacher's overall APPR determination for the year.
If the teacher is not satisfied with the determination, the appeal may be presented to the Board of Education within two weeks of the original appeal determination. The Board of Education will make a final determination within 30days of an appeal.
A teacher may challenge an overall rating based on all allowable grounds for appeal under education law section 3012-d.

Training Assurance

Please check the box below.

☑ The LEA assures that all evaluators will be properly trained and lead evaluators will be certified on the below elements prior to completing a teacher's evaluation. Note: independent observers and peer observers need only be trained on elements 1, 2, and 4 below.

Training of Lead Evaluators, Evaluators, Independent Observers, and Peer Observers and Certification of Lead Evaluators

The process for training evaluators, including impartial and independent observers and peer observers, and certifying and re-certifying lead evaluators must include:

1) the process for training lead evaluators and evaluators, including impartial independent observers and peer observers;
2) the process for the certification and re-certification of lead evaluators;
3) the process for ensuring inter-rater reliability; and
4) the nature (content) and the approximate duration (how many hours, days) of such training.

Describe the process for training evaluators, including impartial and independent observers and peer observers, and certifying and re-certifying lead evaluators.

All BCS evaluators (evaluator, lead, and independent evaluators)are trained as lead evaluators through CA BOCES. The initial training to be a an evaluator consists of a 6-hour training. The training focuses on observations following the nine elements prescribed by the rules of the Board of Regents, including:recognition of evidence versus opinion and practice in observation techniques, understanding of the NYS Teaching Standards and their relationship to NYSUT-based rubrics, more in-depth understanding of the NYSUT rubrics, and practice aligning evidence to the rubrics.
In each subsequent year, all BCSevaluators participate in a 3-hour evaluator refresher course facilitated by CA BOCES. The training gives attention to inter-rater agreement and reliability using both the NYSUT and Danielson rubrics, as well as continuing to highlight any and all state-prescribed components of the APPR and evaluation process. Evaluators discuss components of the teacher evaluation process, practice evidence collection, alignment and rating to work toward inter-rater agreement, review observable components of the NYSUT and Danielson rubrics.
To ensure inter-rater reliability during the school year, the BCS superintendent and principals meet two times during the year to review BCS observations, practice scoring the rubric, and to compare the scores for each evaluator.
The BCS Board of Education annually certifies each evaluator as approved evaluators after the initial evaluator training and after each annual re-fresher training has been completed.

Required Student Performance Subcomponent

For guidance on the Required subcomponent of the Student Performance category, see NYSED APPR Guidance.

100% of the Student Performance category if only the Required subcomponent is used or locally determined if the Optional subcomponent is selected.

Required Student Performance Measures

Student performance for prinicpals may be measured by either a student learning objectives (SLO) or an Input Model where the principal's overall rating shall be determined based on evidence of principal practice that promotes student growth related to the Leadership Standards.

STUDENT LEARNING OBJECTIVES

For guidance on SLOs, see NYSED SLO Guidance.

SLO measures may be either individually attributed or collectively attributed.

Individually attributed measures

An individually attributed SLO is based on the learning outcomes of a student population within the principal's building or program.

> Principal and building/program-specific

- **Principal and building/program-specific results**:scores and ratings will be based on the growth of students in the principal's building/program in the current school year.

Collectively attributed measures

A collectively attributed SLO is based on a student population across multiple buildings/programs of similar grade configurationor across multiple building/programs where the learning activities of one building/programindirectly contributeto student learning outcomes in another building/program. When determining whether to use a collectively attributed SLO, the LEA should consider:

- identifying which measures and assessments could be used to encourage partnerships or teams where there is an opportunity for a collective impact on student learning;
- identifying which assessments could be used to help foster and support an LEA'sfocus on a specific priority area(s);
- the impact on the LEA's ability to make strong and equitable inferences regarding an individual educator's effectiveness; and
- when using multiple measures, the appropriate weight of each measure that reflects individually and collectively attributed results.

> District- or BOCES-wide

- **District- or BOCES-wide results**:scores and ratings will be based on the growth of all students across buildings/programs in an LEAwho take the applicable assessments in the current school year.
- **District- or BOCES-wide group or team results**: scores and ratings for a group or team of principals will be based on the growth of students in the group/team of principals' buildings/programs in an LEAin the current school year.

ASSESSMENTS

Any of the measures above may be used with one or more of the following assessment types.

- **State assessment(s)**;or

  Assessment(s) that are selected from the list of State-approved:

- **third party assessments**; or
- **locally-developed assessments**(district-, BOCES- or regionally-developed).

INPUT MODEL

Selection of the Input Model will require:

- adescription of the areas of principal practice that will be evaluated;
- adescription of how the selected areas of principal practice promote student growth;
- adescription of the evidence of student growth and principal practice that will be collected; and
- a description of how the district will use the evidence to differentiate effectiveness resulting in a score from 0 to 20 and ratings of Highly Effective, Effective, Developing, or Ineffective.

Assurances

Please check all of the boxes below.

- ☑ Assure that for any SLO based, in part, on the New York State grade four science assessment, once the assessment is no longer administered the SLO will utilize only the remaining assessments.
- ☑ For principals evaluated using an SLO, assure that such SLO is determined locally in a manner consistent with the goal-setting process determined by the Commissioner.
- ☑ For principals evaluated using an SLO, assure that all student growth targets represent a minimum of one year of expected growth, as determined locally in a manner consistent with the Commissioner's goal-setting process. Such targets may only take the following characteristics into account: poverty, students with disabilities, English language learner status and prior academic history.
- ☑ For principals evaluated using an SLO, assure that all student growth targets shall measure the change in a student's performance between the baseline and the end of the course.
- ☑ For principals evaluated using an SLO, assure that if the principal's SLO is based on a small 'n' size population and the LEA chooses not to use the HEDI scoring bands listed above, then the principal's 0-20 score and HEDI rating will be determined using the HEDI scoring bands specified by the Department in SLO Guidance.
- ☑ For principals evaluated using an input model, assure that all applicable principals will be evaluated using the procedures described herein and approved by the Commissioner.
- ☑ Assure that processes are in place for the superintendent to monitor SLOs and input models.
- ☑ Assure that the final Student Performance category rating for each principal will be determined using the weights and growth parameters specified in Subpart 30-3 of the Rules of the Board of Regents and the approved APPR plan.

Principal School Visit Category

For guidance on the Principal School Visit category, see NYSED APPR Guidance.

Principals' professional performance shall be evaluated based on a State-approved rubric using multiple sources of evidence collected and incorporated into the school visit protocol. Where appropriate, such evidence may be aligned to building or district goals; provided, however, that professional goal-setting may not be used as evidence of teacher or principal effectiveness. Such evidence shall reflect school leadership practice aligned to the Leadership Standards and selected practice rubric.

Principal Practice Rubric

Select a principal practice rubric from the menu of State-approved rubrics to assess performance based on ISLLC 2008 Standards.

Rubric Name	**If more than one rubric is utilized, please indicate the group(s) of principals each rubric applies to.**
Multidimensional Principal Performance Rubric	(No Response)

Rubric Assurances

Please check all of the boxes below.

- ☑ Assure that all observable ISLLC 2008 Leadership Standards/Domains of the selected practice rubric are assessed at least once a year across the total number of annual school visits.
- ☑ Assure that the process for assigning points for the Principal School Visit category will be in compliance with the locally-determined subcomponent weights and overall School Visit category score and rating based on the constraints prescribed by the Commissioner in Subpart 30-3 of the Rules of the Board of Regents.
- ☑ Assure that the same rubric(s) is used for all principals in the same or similar programs or grade configurations across the LEA, provided that LEAs may locally determine whether to use different rubrics for a principal assigned to different programs or grade configurations as indicated in the table above.
- ☑ Assure that the same rubric(s) is used for all school visits for a principal across the school visit types in a given school year.

Process for Weighting Rubric Domains/Subcomponents

For guidance on the Principal School Visit category, see NYSED APPR Guidance.

Page Last Modified: 08/19/2020

Please describe the process for rating and scoring the selected practice rubric consistent with the Department's regulations.

Your description should provide the complete process, including the following:

- **The process for designating observable components (please note: all principals of the same building configuration/program must be evaluated based on the same set of observable components);**
- **The level at which components of the chosen rubric are rated (i.e., domain, subdomain, indicator, etc.);**
- **How the final score and rating for each observable component of the practice rubric is determined for each observer; and**
- **How the final score for the required (i.e., lead evaluator/evaluator; independent evaluator) and/or optional (peer principal, as applicable) subcomponent of the School Visit category is determined based on the final score and rating for each observable component.**

Example: All subcomponents of Domains 1-4 of the MPPR rubric have been negotiated as observable. Domains 1, 2 and 3 are weighted as 30% each, and Domain 4 is weighted as 10%. For each school visit, all observed subcomponents in a domain are weighted equally and averaged to create a domain score, which is then weighted as above and averaged to reach a final score for each school visit. Scores for each school visit are weighted equally and averaged to reach a final score for each school visit type. The district will ensure that all subcomponents designated as observable will be observed at least once across the school visit cycle.

All Multidimensional Principal Performancerubricdomainshave been negotiated as observable. The domains will be measured at the indicator level for each of the leadership domains. BCS administrators identified specific observableindicators within the domains to be observed and evaluated based on instructional priorities of the District. Each evaluator will collect evidence on each specific observable indicator during a school visit.
All lead evaluator's schoolvisits for the year will be combined into one observation form. An independent evaluator's observationfor the year will be on a separate observation form. Scores for each indicator will be averaged to create a summative score. The schoolvisitscore from the lead evaluator will be weighted 90% and independent evaluator score will be 10% for a merged score for an overall observation rating.
The district will ensure that all indicators designated as observable will be observed at least once across the observation cycle.

Scoring Assurances

Please check each of the boxes below.

- ☑ Assure that each set of school visits (by supervisor/other trained administrator, independent, or peer) will be completed using the selected practice rubric, producing an overall score between 1 and 4. The overall weighted school visit score will be converted into a HEDI rating using the ranges indicated below.
- ☑ Assure that once all school visits are complete, the different types of school visits will be combined using a weighted average consistent with the weights specified below, producing an overall School Visit category score between 0 and 4. In the event that a principal earns a score of 1 on all rated components of the practice rubric across all school visits, a score of 0 will be assigned.

Principal School Visit Scoring Bands

The overall School Visit score will be converted into a HEDI rating based on locally determined ratings consistent with the ranges listed.

	Overall School Visit Category Score and Rating	
	Minimum	Maximum
H	3.5 to 3.75	4.0
E	2.5 to 2.75	3.49 to 3.74
D	1.5 to 1.75	2.49 to 2.74
I	0.00*	1.49 to 1.74

** In the event that an educator earns a score of 1 on all rated components of the practice rubric across all school visits, a score of 0 will be assigned.*

Training Assurance

Please check the box below.

☑ The LEA assures that all evaluators will be properly trained and lead evaluators will be certified on the below elements prior to completing a principal's evaluation. Note: independent evaluators and peer principals need only be trained on elements 1, 2, and 4 below.

Describe the process for training evaluators, including impartial and independent evaluators and peer principals, and certifying and re-certifying lead evaluators.

All BCS evaluators (evaluator, lead, and independent evaluators)are trained as lead evaluators through CA BOCES. The initial training to be an evaluator consists of a 6-hour training. The training focuses on school visitsfollowing the nine elements prescribed by the rules of the Board of Regents, including:recognition of evidence versus opinion and practice in school visits techniques, understanding of the NYS Leadership Domains and their relationship to Multidimensional Principal Performancerubric, more in-depth understanding of the Multidimensional Principal Performancerubric, and practice aligning evidence to the rubrics.
In each subsequent year, all BCS evaluators participate in a 3-hour evaluator refresher course facilitated by CA BOCES. The training gives attention to inter-rater agreement and reliability using the Multidimensional Principal Performancerubric, as well as continuing to highlight any and all state-prescribed components of the APPR and evaluation process. Evaluators discuss components of the principal evaluation process, practice evidence collection, alignment and rating to work toward inter-rater agreement, review observable components of the Multidimensional Principal Performancerubric.
To ensure inter-rater reliability during the school year, the BCS superintendentmeets annually with superintendents in the region topractice scoring the rubricand to compare the scores for each evaluator.
The BCS Board of Education annually certifies each evaluator as approved evaluators after the initial evaluator training and after each annual re-fresher training has been completed.

TEACHER IMPROVEMENT PLAN (TIP) PROCESS

The following process will be followed once a teacher is designated as a teacher in need of improvement.

Upon rating a teacher as "Developing" or "Ineffective" through an annual professional performance review, a school district must formulate and commence implementation of a teacher improvement plan (TIP) for that teacher.

The TIP must be developed locally by superintendent or designee in the exercise of their pedagogical judgment (Regents Rules 30-3.11(b))and implementation must begin no later than October 1 the following the school year for which such teacher performance was measured.

The plan must clearly describe the professional learning activities that the teacher will complete and review on a monthly basis with administration. These activities will be connected directly to the areas needing improvement. The artifacts/evidence that the teacher produces (which can serve as benchmarks of improvement and as evidence for the final stage of the improvement plan) will be described, and could include, but not be limited to items such as lesson plans and supporting materials, including student work and videotape of their teaching

The administrators will clearly state in the plan the additional support and assistance that the teacher will receive. In the final stage of the improvement plan, the teacher will meet with an administrator to review the plan. At the time of the meeting the teacher will bring artifacts/evidence from multiple sources and evaluations to support whether or not adequate improvement has been made in the required areas outlined within the plan for the teacher.

A teacher in need of improvement will:

- By October 1 of the new school year, (or earlier), schedule a meeting with the administrator to review the Teacher Improvement Plan (TIP).
- The plan will include:
  - Statement of goals and objectives specific to areas in need of improvement
  - Tentative timetable including date of completion
  - Manner in which improvement will be assessed
  - Differentiated activities to support improvement
- Within ten (10) weeks following the development of the TIP, the administrator will assess progress at least monthly. This meeting will be **requested by the teacher at a mutually agreed upon time. It is the teacher's responsibility to arrange said meeting, be prepared, to demonstrate improvement in areas outlined as being in need of improvement and self-reflective on their practice and areas of improvement.** Evidence of progress may be assessed through, but not limited to, observations, meetings, artifacts, etc.
- All forms from the Appendix E must be continually updated between meeting and prior to the monthly meetings until the TIP is successfully completed. As part of the documentation the teacher will submit a written summary of activities and evidence of completion of the plan. Within one (1) week following submission, the teacher and administrator will meet to discuss the summary. It will then be signed by both teacher and administrator and entered into the teacher's personnel file.
- At that time, it will be determined whether the teacher has successfully completed all the requirements of the current TIP. If the summary and areas in need of improvement are satisfactory, the teacher will no longer be considered a teacher in need of improvement.

If the administrator determines that the teacher continues to be "in need of improvement," he/she will note such determination in the suggestions and discussion section of the final report and a new TIP will be created and implemented following the same procedure.

If the teacher is no longer "in need of improvement" at the end of any TIP, it will be noted in the TIP Report.
