Educator Evaluation Plan - Variance

Joel Petlin, Superintendent
Kiryas Joel Village Union Free School District
48 Bakertown Road, Suite 401
Monroe, NY 10950-8433

Dear Superintendent Petlin:

Congratulations. I am pleased to inform you that your educator evaluation plan ('plan') variance application meets the criteria outlined in section 30-3.16 of the Rules of the Board of Regents and has been approved. As a reminder, we are relying on the information you provided in your variance application, including the narrative descriptions, certifications, and assurances that are included in the application. During the approved term of this variance, your LEA will implement the variance along with all other remaining provisions of your approved plan. If any material changes are made to your approved plan and/or the terms of your approved variance, your LEA must submit such material changes to us for approval. Please see the attached notes for further information.

Please be advised that, pursuant to Education Law §3012-d, the Department will be analyzing data supplied by districts, BOCES, and/or schools and may order a corrective action plan if there are unacceptably low correlation results between the Student Performance category and the Teacher Observation or Principal School Visits category, and/or if the teachers' or principals' overall ratings and subcomponent scores show little differentiation across educators and/or the lack of differentiation is not justified by equivalently consistent student achievement results, and/or if schools or districts show a pattern of anomalous results in the Student Performance category and/or the Observation/School Visits category.

The New York State Education Department and I look forward to continuing our work together, with the goal of ensuring that every school has world-class educators in the classroom, every teacher has a world-class school leader to support their professional growth, and every student achieves success.

Thank you again for your hard work.

Sincerely,

Betty A. Rosa
Commissioner

NOTE:

Only documents that are incorporated by reference in your plan variance application have been reviewed and are considered as part of your approved plan variance application; therefore, any supplemental documents such as memorandums of agreement or understanding that were uploaded with your plan variance application but are not incorporated by reference have not been reviewed. However, the Department reserves the right to review the uploaded attachments at any time for consistency with your plan and/or to ensure compliance with applicable laws and regulations; and as a result of such review, the Department may reject your plan or variance and/or require corrective action.

Pursuant to section 30-3.16 of the Rules of the Board of Regents, please note that an LEA with an approved variance shall provide to the Department, upon its request, any documentation related to the implementation and efficacy of the approach proposed in the variance, including but not limited to: reports on the correlation in assigned ratings for different measures of the LEA's evaluation system and differentiation among educators within each subcomponent and category of the evaluation system

Educator Evaluation Variance (Education Law 3012-d)

For guidance related to the Educator Evaluation variance, see NYSED Educator Evaluation Guidance.

At its October 2019 meeting, the Board of Regents amended sections 30-3 of the Rules of the Board of Regents to allow LEAs to apply for a variance from Educator Evaluation plan requirements to permit them to develop and implement new and innovative approaches to evaluation that meet the specific needs of the LEA, upon a finding by the Commissioner that the new and innovative approach demonstrates how it will ensure differentiated results over time and how the results of the evaluation will be used to provide personalized professional learning opportunities to teachers and principals, while complying with the requirements of Education Law §3012-d.

In instances where a variance is approved, the term(s) described in the approved variance will replace the related sections of the LEA's currently approved Evaluation plan. However, please note that all other terms as are present in the LEA's currently approved plan will remain in effect and must be implemented without modification.

Once a variance is approved by the Department, it shall be considered part of the LEA's Evaluation plan during the approved term of the variance. **In any instance in which there is an approved variance and such variance contains information that conflicts with the information provided in the approved Education Law §3012-d Evaluation plan, the provisions of the approved variance will apply during the approved term of the variance.**

Variance Application Timeline

Variance applications must be approved by the Department by December 1 of a school year to be implemented in that school year.

Submission by November 1 is suggested to allow time for review, revision and approval in order to meet the approval deadline for implementation in the same school year.

Absent a finding by the Commissioner of extraordinary circumstances, a variance application approved after December 1 of a school year will not be implemented until the following school year.

For more information regarding the variance approval deadline, including a possible extension, please contact EvalVariance@nysed.gov.

Principal Variance

Education Law §3012-d requires that the principal evaluation system be aligned to the requirements for teacher evaluation. Therefore, when completing a variance request for the evaluation of principals, the processes identified must be aligned to such requirements.

Please read the options below and check the appropriate box.

A variance is not requested for any subcomponent or category for principals; all principals will be evaluated using the currently approved Educator Evaluation plan.

The District will continue to use the SLO process for the Student Performance Measure as stated in their currently approved APPR plan. However, the District will use alternative assessments as evidence of student learning as outlined below. The results of these alternative assessments will be attributed to each teacher individually for all students in their class and will be used to evaluate teachers for the required student performance subcomponent.

Variance Details

Please read the questions below, answer each prompt in a concise manner, and identify the group(s) from the applicability page that correspond(s) to the information provided.

- If there is only one group of applicable teachers for this required student performance variance, select 'Group 1'.
- If one response encompasses all groups of applicable teachers, select 'All applicable teachers listed'.
- Use 'Add Row' to list additional groups that correspond to the row from the applicable teachers table.

Rationale

Please provide a rationale for this variance request.

Applicable Teachers Row Groups	Your rationale should include information regarding the specific, identified needs and/or challenges of the LEA, and how such needs and/or challenges inform development of the required student performance variance request.
<input checked="" type="checkbox"/> Group 1	<p>The District is proposing to modify the current Teacher Specific measure for all staff members by utilizing a student performance measure that will appropriately measure students capabilities and answer the following three questions: 1. Are our students making progress; 2. How do we know; 3. What evidence do we have that demonstrates this progress? The District has a unique population of students in that 100% of their students are identified as Students with Disabilities with severe learning disabilities. 100% of their students are also classified as English Language Learners. The District is not requesting a change/ variance for its teacher observation component of its APPR.</p> <p>The historical measure of student performance utilized the NYSAA. As stated above, all of the students n the District are also English Language Learners. Due to the severity of the learning disabilities as well as their dual ELL status, the NYSAA is not an effective tool for appropriately establishing learning targets or measuring students' growth. The current District Wide SLO assessments do not provide the level of teacher or student specificity necessary for long term student growth and improvement or improvement of best instructional practices. The District is therefore proposing a system that reflects the three categories of their students. Their student population is currently classified into three categories/ tiers which are a result of the meetings by the Committee on Special Education and Annual Reviews: Group 1- Students in Life Skills/ Pre-Academic ; Group 2- Students in their Academic Programs, for Early Academic Literacy; Group 3- Academic Program Students who have mastered the literacy skills in Group 2. These groups are defined in the Standards and Procedures section below.</p> <p>These alternative assessment tools will more effectively measure students' growth. This method will also provide teachers with actionable information and feedback about their based instructional practices that can best be used to improve outcomes for students in their class. The SLO will be created and then scored based on the students performance on the combined assessments for Literacy/ ELA and Numeracy/ Math. The goal setting process has historically and will continue to include a review of the previous year's results on all of the assessments combined with a review of student performance each year in comparison to a proficiency level established to consider subsequent decisions that need to be made. Using a baseline that includes historical data minimizes the possibility of any portable cohort effects related to a specific school year.</p>

Standards and Procedures

Page Last Modified: 11/14/2022

Please provide a description of the standards and procedures that will be used in lieu of those included in the LEA's most recently approved evaluation plan.

<p>Applicable Teachers Row Groups</p>	<p>This description should provide a specific, detailed explanation of the new and innovative approach that the LEA is seeking to implement as part of its variance request.</p> <p>This description should include, but not be limited to, a description of the alternate measures of student growth and/or evidence of student learning that will be used to evaluate educators.</p>
<p><input checked="" type="checkbox"/> Group 1</p>	<p>The development of the SLO remains the same with the exception of the assessments used. The District is proposing to modify the current Teacher Specific measure for all staff members by utilizing a student performance measure as follows: Group 1: Students in Life Skills/ Pre-Academic - they are proposing using the Verbal Behavior Milestones Assessments and Placement Program (VB-MAPP.)</p> <p>For the Group 2: Students in their Academic Programs, for Early Academic Literacy - they are proposing using Preventing Academic Failure (PAF.)</p> <p>For Group 3 Students - Academic Program students who have mastered the literacy skills in the PAF program curricula, and are in their Academic Literacy Program, they are proposing using ReadBright.</p> <p>None of the proposed third party Literacy assessments outlined above are on the New York State approved list. For Numeracy/ Math for their Academic Program students, the District is proposing using IXL Math to establish students' baseline data and measure academic growth in math. IXL Math is on the NYSED approved assessment list.</p> <p>The relevant Literacy assessment (VB-MAPP, PAF, ReadBright) and IXL Math assessments are administered at the beginning of the academic year (late September) to all students. The results are examined for each individual student, by the classroom teacher/ teacher of record and building administration, to identify and target student strengths and weaknesses in relation to the learning standards. Also considered in establishing the individual student target are the following factors: classification, IEP goals, and behavior management needs, and past student performance history. Once these factors are compiled, a projected growth score/ target score that is both rigorous and attainable for each student in a cohort is finalized. These projected student learning objectives/ target scores are then documented on the SLO Form and both the teacher and assistant principal sign off on these.</p> <p>The student learning targets, in relation to the standards, enables teacher specific recommendations for evidenced based instructional practices that best serve the learning needs of the students. Building administration and teachers receive real-time feedback on individual student standards based performance in relation to the evidence based instructional practices deployed by the teacher. The final relevant Literacy (VB-MAPP, PAF, ReadBright) and IXL Math assessments are administered in June to determine the amount of growth the student has made over the course of the academic year. The SED provided table is used to calculate a teacher's students performance scores based on the percentage of students in her class meeting their established target.</p> <p>The currently approved SLO assessment (NYSAA) does not currently provide the level of student specificity necessary to address student academic growth in a timely enough fashion to address the learning needs of students in this current school year and as such, cannot provide the most efficacious measure of student learning.</p>

Rigor

Please provide a description of how the LEA will ensure that evaluations are rigorous and enable strong and equitable inferences about the effectiveness of the LEA's educators.

Applicable Teachers Row Groups	This description should explain how rigor is achieved and maintained, including relevant processes and methodologies. This description may include, but is not limited to, how data will be used to draw inferences, including how the derived data informs decisions and guidance for the LEA's educators.
<input checked="" type="checkbox"/> Group 1	The District will ensure that the evaluation of student performance and growth is thoroughly analyzed at all levels with additional data points to assist in determining both causal factors and patterns within student groups. Building administrators will continue to review growth targets to ensure that they are appropriate and support high expectations for learning. The District firmly believes that it continues to be our collective responsibility to provide quality instruction and support to all students. Use of the relevant Literacy (VB-MAPP, PAF, ReadBright) and IXL Math assessments provide standards aligned baseline information at the individual student level and sets a target for one years growth for each student in the District. Utilization of the data from these assessments informs instructional practice and provides teachers direct feedback on their instructional practices in relation to individual student learning trajectories. The final administration of theses assessments in June closes the cycle and provides actionable data on the efficacy of instruction provided to the students. The aggregate of the student outcomes is used to inform targeted professional development for teachers and systemic approaches to delivery of student supports and remediation. Rigorous and comparable measures will be maintained by adhering to timelines for administration of the selected assessment to benchmark students growth. Administration reviews teacher lesson plans weekly. The student learning targets are incorporated in the lesson plans thus allowing administration to work closely with teachers to ensure instructional time is targeted, and that maximum growth is achieved for for students in the teacher's class.

Professional Learning

Please provide a description of how the LEA will use the information collected through the evaluation system, including the assigned effectiveness ratings, to provide personalized professional learning opportunities for educators.

Applicable Teachers Row Groups	This description may include, but is not limited to, methodologies and procedures for: <ul style="list-style-type: none"> • collecting information about educator effectiveness to inform professional learning, • specific details regarding both the type(s) and extent of professional learning opportunities anticipated, • processes for delivery of personalized learning opportunities, and • use of data to measure the efficacy of such professional learning.
<input checked="" type="checkbox"/> Group 1	As outlined above, the information gathered regarding student performance on these assessments and the growth it reflects will be used in addressing professional learning. The District provides professional development for all teaching staff twice each month in the form of workshops. All staff received training from their relevant Literacy professional development team as well as follow-up training with the assistant principal for curriculum and instruction. The training included how the assessment tools determine student learning targets, standards specific information on student strengths and deficiencies, and how to translate that

	information into instructional practice. District turn-key trainers, as well as administration provide additional on-going support. The monitoring of student progress at the teacher and building administration level provides teacher specific performance feedback that is utilized to provide targeted teacher support and professional learning opportunities. Effectiveness of instructional tools will be reviewed to drive professional development offerings for staff as well as be used to identify long term areas of focus for the District for District-wide professional development. In analyzing students' growth and/ or achievement the District will identify tools, instructional strategies that have successfully supported students in their learning and will then build upon them through additional professional development offerings to staff throughout the year.

Effectiveness of Implementation

Please provide a description of how the LEA will assess the effectiveness of the implementation of the variance.

Applicable Teachers Row Groups	This description may include, but is not limited to, processes and procedures for: <ul style="list-style-type: none"> • collection and analysis of both short- and long-term data, • the standard(s) used to measure the effectiveness of implementation, and • how results will be used to inform future implementation.
<input checked="" type="checkbox"/> Group 1	As stated in the Rigor section, student learning targets are incorporated in the lesson plans of each teacher. These lesson plans are reviewed weekly by administration thus allowing administration to work closely with teachers to ensure instructional time is targeted, and that maximum growth is achieved for students in the teacher's class. The data analysis process will include reviewing student engagement and performance throughout the 2022-2023 school year on an on-going basis. The District will determine areas where, based on student data growth occurred, and will then replicate, increase and continue these practices and programs. The same process will be used where growth did not occur, and the District will realign practices and resources to better support student learning success. This information will be used with all staff in the trainings offered twice each month at the professional development workshop for all staff. The effectiveness of the Group 1-VB- MAPP, Group 2- PAF, and Group 3- ReadBright Literacy and the IXL Numeracy Assessments will be evaluated by building principals working with their relevant group teacher team leaders as well as by the District administration working collaboratively with the building administrators. The outcomes of the effectiveness of implementation review will be used to evaluate the efficacy of the targeted instructional strategies and interventions intended to reduce that learning regression. The District will use both the short and long term data to drive instructional decisions, and to evaluate District curriculum and systems.

Dear Superintendent Petlin:

Congratulations. I am pleased to inform you that your Annual Professional Performance Review (APPR) plan meets the criteria outlined in Education Law §3012-d and Subpart 30-3 of the Commissioner's Regulations and has been approved. As a reminder, we are relying on the information you provided on your APPR form, including the certifications and assurances that are part of your approved APPR plan. If any material changes are made to your approved plan, your district/BOCES must submit such material changes to us for approval. Please see the attached notes for further information.

Please be advised that, pursuant to Education Law §3012-d, the Department will be analyzing data supplied by districts, BOCES, and/or schools and may order a corrective action plan if there are unacceptably low correlation results between the Student Performance category and the Teacher Observation or Principal School Visits category, and/or if the teachers' or principals' overall ratings and subcomponent scores show little differentiation across educators and/or the lack of differentiation is not justified by equivalently consistent student achievement results, and/or if schools or districts show a pattern of anomalous results in the Student Performance category and/or the Observation/School Visits category.

The New York State Education Department and I look forward to continuing our work together, with the goal of ensuring that every school has world-class educators in the classroom, every teacher has a world-class principal to support his or her professional growth, and every student achieves college and career readiness.

Thank you again for your hard work.

Sincerely,

MaryEllen Elia

NOTE:

Pursuant to sections 30-2.14 and 30-3.17 of the Rules of the Board of Regents, during the 2015-16 through 2018-19 school years, your district/BOCES must calculate transition scores and ratings for teachers and principals that exclude the results of grades 3-8 ELA and math State assessments and any State-provided growth scores. For the 2016-17 through 2018-19 school years, your district/BOCES must establish alternate SLOs for affected teachers and principals who, as a result of the above exclusions, have no remaining measures in the Student Performance Category. Accordingly, please note that since your APPR plan is approved for use during the 2015-16 school year, your district/BOCES must describe the alternate SLOs used by affected teachers and principals beginning in the 2016-17 school year using a supplemental form submitted to the Department no later than March 1, 2017. The Department strongly encourages your district/BOCES to submit this supplemental form prior to the beginning of the 2016-17 school year to ensure that your alternate SLOs are in place for all affected teachers and principals as early as possible

Only documents that are incorporated by reference in your APPR have been reviewed and are considered as part of your APPR; therefore, any supplemental documents such as memorandums of agreement or understanding that were uploaded with your APPR but are not incorporated by reference in your APPR have not been reviewed. However, the Department reserves the right to review the uploaded attachments at any time for consistency with your APPR plan and/or to ensure compliance with applicable laws and regulations; and as a result of such review, the Department may reject your APPR plan and/or require corrective action.

Task 1. School District Information

Disclaimers

The Department will review the contents of each school district's/BOCES' Annual Professional Performance Review (APPR) plan as submitted using this online form, including required attachments, to determine if the plan rigorously complies with Education Law §3012-d and Subpart 30-3 of the Rules of the Board of Regents. Department approval does not imply endorsement of specific educational approaches in a district's/BOCES' plan.

The Department reserves the right to request further information from a district/BOCES to monitor compliance with Education Law §3012-d and Subpart 30-3 of the Rules of the Board of Regents. As such, each district/BOCES is required to keep detailed records on file for each section of the currently implemented APPR plan. Such detailed records must be provided to the Department upon request. The Department reserves the right to disapprove or require modification of a district's/BOCES plan that does not rigorously adhere to the requirements of Education Law §3012-d and Subpart 30-3 of the Rules of the Board of Regents.

The Department will not review any attachments other than those required in the online form. Any additional attachments supplied by the school district/BOCES are for informational purposes only for the teachers and principals reviewed under this APPR plan. Statements and/or materials in such additional attachments have not been approved and/or endorsed by the Department. However, the Department considers void any other signed agreements between and among parties in any form that prevent, conflict, or interfere with full implementation of the APPR Plan approved by the Department. The Department also reserves the right to request further information from the school district/BOCES, as necessary, as part of its review of this plan.

If the Department reasonably believes through investigation, or otherwise, that statements made in this APPR plan are not true or accurate, it reserves the right to reject this plan at any time and/or to request additional information to determine the truth and/or accuracy of such statements.

REQUIRED SUBCOMPONENT

(100% of Student Performance category if only the Required subcomponent is used or at least 50% when used with the Optional subcomponent)

(A) For a teacher whose course ends in a State-created or administered test for which there is a State-provided growth model and at least 50% of a teacher's students are covered under the State-provided growth measure, such teacher shall have a State-provided growth score based on such model.

(B) For a teacher whose course does not end in a State-created or administered test or where less than 50% of the teacher's students are covered by a State-provided growth measure, such teacher shall have a Student Learning Objective (SLO) developed and approved by his/her superintendent or another trained administrator, using a form prescribed by the Commissioner, consistent with the SLO process determined or developed by the Commissioner, that results in a student growth score; provided that, for any teacher whose course ends in a State-created or administered assessment for which there is no State-provided growth model, such assessment must be used as the underlying assessment for such SLO.

2.1) Assurances

Please check the boxes below:

Assure that the growth score provided by NYSED will be used, where required.	Checked
Assure that back-up SLOs will be set by the superintendent or another trained administrator for all 4-8 ELA and Math teachers in the event that a State-provided growth score cannot be generated for that teacher.	Checked
For any grade/subject that requires a back-up SLO, but for which there are not enough students, not enough scores, or data issues that prevent a teacher-specific SLO from being created, the superintendent or another trained administrator shall develop a school-wide back-up SLO using available State/Regents assessments.	Checked

STATE-PROVIDED MEASURES OF STUDENT GROWTH

For teachers in grades 4 - 8 Common Branch, ELA, and Math, NYSED will provide a growth score and rating. That rating will incorporate students' academic history compared to similarly academically achieving students and takes into consideration students with disabilities, English

language learners, students in poverty, and, in the future, any other student-, classroom-, and school-level characteristics approved by the Board of Regents. While most teachers of 4-8 Common Branch, ELA and Math will have State-provided scores and ratings, some may teach other courses where there is no State-provided growth measure. Teachers with 50 – 100% of students covered by State-provided growth measures will receive a growth score and rating from the State for the full Student Performance category of their evaluation. Teachers with 0 – 49% of students covered by State-provided growth measures must have SLOs for the Student Performance category of their evaluation and one SLO must use the State-provided measure if applicable for any courses. (See APPR Guidance and SLO Guidance for more detail on teachers with State-provided growth measures and SLOs.)

For those teachers who would typically receive a State-provided growth score, the district/BOCES must also include a back-up SLO process in the event that there are not enough students, not enough scores, or data issues that prevent a State-provided growth score from being calculated for that teacher.

2.2) Grades 4-8 ELA and Math: Assessments

Using the drop-down boxes below, please select the assessment that will be used for the back-up SLOs for the grade/subject listed.

Please note: If your district/BOCES does not have grade/subject-specific teachers for one or more of the rows in task 2.2, choose "Not Applicable" from the drop-down box. This would be appropriate if, for example, the district/BOCES does not have certain grades; the district/BOCES does not offer a specific subject; etc. If a grade/subject ends in a State assessment, i.e., 4-8 ELA or Math, such assessment must be used as the underlying evidence for the SLO.

2.12) Teachers with More Than One Growth Measure

If educators have more than one State-provided growth score and rating, those scores and ratings will be combined into one score and HEDI rating for the Required Student Performance subcomponent provided by the Department. (Examples: Common branch teacher with State-provided measures for both ELA and Math in grade 4; middle school math teacher with both 7th and 8th grade math courses.)

If educators have more than one SLO (or a State-provided growth measure and an SLO), the measures will each earn a score from 0-20 points which districts/BOCES must weight proportionately based on the number of students in each SLO (or in the State-provided growth measure and the SLO). For more information on teachers with more than one growth measure, please see NYSED APPR Guidance and NYSED SLO Guidance: <https://www.engageny.org/resource/appr-3012-d>.

2.13) Assurances

For guidance on SLOs and the development of back-up SLOs, please see NYSED APPR Guidance and NYSED SLO Guidance: <https://www.engageny.org/resource/appr-3012-d>.

Assure that the teacher has an SLO or a back-up SLO, where applicable, consistent with the goal setting process developed by the Commissioner that results in a student growth score.	Checked
Assure that all growth targets represent a minimum of one year of expected growth, as determined by the superintendent or another trained administrator. Such targets, as determined by the superintendent or another trained administrator, may only take the following characteristics into account: poverty, students with disabilities, English language learners status and prior academic history.	Checked
Assure that all growth targets are approved by the superintendent or another trained administrator.	Checked
Assure that any disagreement between parties regarding the content of the SLO, including the growth target, will be resolved by the superintendent or another trained administrator.	Checked
Assure that if a teacher's SLO is based on a small n size population and the district/BOCES chooses not to use the HEDI scoring bands listed in task 2.11, then the teacher's 0-20 score and HEDI rating will be determined using the HEDI scoring bands specified by the Department in APPR Guidance.	Checked
Assure that processes are in place for the superintendent to monitor SLOs.	Checked
Assure that the final Student Performance category rating for each teacher will be determined using the weights and growth parameters specified in Subpart 30-3 of the Rules of the Board of Regents.	Checked

2.14) Use of the Optional Subcomponent and Student Performance Category Weighting

- If the Optional subcomponent is not used, the Required subcomponent will comprise 100% of the Student Performance category.
- If the Optional subcomponent is used, the Required subcomponent must comprise at least 50% of the Student Performance category.

Please indicate the use of the Optional subcomponent by making the appropriate selection below. Information related to the Optional subcomponent will be entered into Task 3.

The Optional subcomponent WILL NOT be used; the Required subcomponent will comprise 100% of the Student Performance category.

OPTIONAL SUBCOMPONENT

(Up to 50% of Student Performance category if selected)

Such second measure shall apply in a consistent manner, to the extent practicable, across all classrooms in the same grade/subject in the district/BOCES and be either:

- (A) a second State-provided growth score on a State-created or administered test; provided that the State-provided growth measure is different than that used in the Required subcomponent, or
- (B) a growth score based on a State-designed supplemental assessment, calculated using a State-provided or approved growth model.

3.1) Use of the Optional Subcomponent of the Student Performance Category

Please indicate the use of the Optional subcomponent by making the appropriate selection below.

- If the Optional subcomponent WILL be used, please fill out tasks 3.2-3.12 by using the "Next" button to move through each task.

The Optional subcomponent WILL NOT be used in the Student Performance category for any teacher.

Task 4. Teacher Observation Category

Last updated: 11/24/2015

Please note, within this section, task 4.1 may contain the rubric selection(s) from your plan as it existed on June 2, 2015.* The remaining tasks in this section will not contain data from your previous plan and must be completed.

** Please note that documents and language will not be pre-populated into the plan if your district/BOCES chose to start with a blank application.*

For guidance on the Teacher Observation category, see NYSED APPR Guidance: <https://www.engageny.org/resource/appr-3012-d>.

4.1) Teacher Practice Rubric

Select a teacher practice rubric from the menu of State-approved rubrics to assess performance based on the observable NYS Teaching Standards. If your district has been granted a variance by NYSED through the variance process, select "district variance" from the menu.

If your district/BOCES is using an additional rubric, please select the rubric from the second menu below. If your district/BOCES will not use a second rubric, please select "N/A" from the end of the drop-down menu. (Note: Any district/BOCES may use multiple rubrics, as long as the same rubric is used for all classroom teachers in a grade/subject across the district/BOCES.)

Rubric 1

Rubric 2

N/A

4.2) Assurances

Please check all of the boxes below:

Assure that all observable NYS Teaching Standards/Domains of the selected practice rubric are assessed at least once a year across the total number of annual observations.	Checked
Assure that the process for assigning points for the Teacher Observation category will be in compliance with the locally-determined subcomponent weights and overall Observation category score and rating based on the constraints prescribed by the Commissioner in Subpart 30-3 of the Rules of the Board of Regents.	Checked
Assure that the same rubric(s) is used for all classroom teachers in a grade/subject across the district/BOCES; provided that districts/BOCES may locally determine whether to use different rubrics for teachers who teach different grades and/or subjects during the school year.	Checked
Assure that the same rubric(s) is used for all observations of a classroom teacher across the observation types in a given school year.	Checked

4.3) Process for Weighting Rubric Domains/Subcomponents

Please describe the process for weighting the observable domains/subcomponents of the chosen practice rubric (e.g., All observable components will be weighted equally and averaged). For guidance on the Teacher Observation category, see NYSED APPR Guidance: <https://www.engageny.org/resource/appr-3012-d>.

All observable components will be weighted equally and averaged.

4.4) Calculating Observation Ratings

Please check the boxes below:

Assure that each set of observations (by supervisor/other trained administrator, independent, or peer) will be completed using the selected practice rubric, producing an overall score between 1 and 4. The overall weighted observation score will then be converted into a HEDI rating using the chart shown below.	Checked
Assure that once all observations are complete, the different types of observations will be combined using a weighted average consistent with the weights specified in task 4.5 below, producing an overall Observation category score between 0 and 4. In the event that a teacher earns a score of 1 on all rated components of the practice rubric across all observations, a score of 0 will be assigned.	Checked
Assure that if the district is granted an annual Independent Evaluator Hardship Waiver by the Department, the second observation(s) shall be conducted by one or more evaluators selected and trained by the district, who are different than the evaluator(s) who conducted the observation(s) required to be performed by the principal/supervisor or other trained administrator. The training of impartial independent observers and peer observers will adhere and include the three elements listed in Regents Rule # 30-3.10c

The Superintendent will ensure that lead evaluators participate in annual training and are re-certified on an tri-annual basis. The BOCES Network Team and workshops will be utilized to provide the training and recertification.

Any individual who fails to achieve required training or certification or re-certification, as applicable, shall not conduct or complete evaluations.

All KJ administrators have been participating in ongoing inter-rater reliability training as provided by the OU BOCES network team and scheduled annually. The training will consist of at least of one calendar day per school year. The Deputy Superintendent will also be checking submitted APPR documents and working with evaluators as necessary to help ensure inter-rater reliability.

Task 7. Student Performance – Required Subcomponent

Created: 04/30/2013

Last updated: 02/23/2016

For guidance on the Required subcomponent of the Student Performance category, see NYSED APPR Guidance:

<https://www.engageny.org/resource/appr-3012-d>.

Page 1

REQUIRED SUBCOMPONENT

(100% of Student Performance category if only the Required subcomponent is used or at least 50% when used with Optional subcomponent)

(A) For a principal in grades 4-8 ELA, math and/or high school courses with State or Regents assessments (or principals of programs with any of these assessments) who have at least 30% of his/her students covered under a State-provided growth measure, such principal shall have a State-provided growth score based on such model.

(B) For a principal where less than 30% of his/her students are covered under the State-provided growth measure, such principal shall have a Student Learning Objective (SLO), consistent with the SLO process determined or developed by the Commissioner, that results in a student growth score; provided that, for any principal whose building or program includes courses that end in a State-created or administered assessment for which there is no State-provided growth model, such assessment must be used as the underlying assessment for such SLO.

7.1) STATE-PROVIDED MEASURES OF STUDENT GROWTH

For principals with at least 30% of their students covered under a State-provided growth measure, such principal shall have a State-provided growth score based on such model. Please list the grade configurations of the school(s)/program(s) in your district/BOCES where it is expected that 30-100% of a principal's students are taking assessments with a State-provided growth, (e.g., K-5, PK-6, 6-8, 6-12, 9-12, etc.). For principals where less than 30% of their students are covered under a State-provided growth measure, such principals shall have a SLO consistent with a goal setting process determined or developed by the Commissioner that results in a student growth score; provided that for any teacher whose course ends in a State created or administered assessment for which there is no State-provided growth model, such assessment must be used as the underlying assessment for such SLO. (See Guidance for more detail on principals with State-provided measures and SLOs.)

For those principals who would typically receive a State-provided growth score, the district/BOCES must also include a back-up SLO process in the event that there are not enough students, not enough scores, or data issues that prevent a State-provided growth score from being calculated for that principal.

Please list the grade configurations of the schools or principals where State-provided growth measures will apply (please list, e.g., K-5, PK-6, 6-8, 6-12, 7-12, 9-12). For each configuration, also indicate the measure and assessment(s) used for the back-up SLO.

For each grade configuration indicate the following:

- **Column 1: lowest grade that corresponds to the building or program**
- **Column 2: highest grade that corresponds to the building or program**
- **Use the checkboxes to indicate the State assessments or Regents exams used**

Follow the examples below

Grades K-6:

- lowest grade = K
- highest grade = 6

- assessments = NYS Grades 4-6 ELA and Math Assessments (check all)

Grades 7-12:

- lowest grade = 7

7.1) Assurances

Assure that the growth score provided by NYSED will be used, where required.	Checked
Assure that back-up SLOs will be set by the superintendent or another trained administrator for all principals who receive a State-provided growth score in the event that a State-provided growth score cannot be generated for that principal.	Checked

7.2) STUDENT LEARNING OBJECTIVES

SLOs must be used for principals in buildings or programs in which fewer than 30% of students take Grades 4-8 ELA, math, and/or high school courses with State or Regents assessments. SLOs will be developed using the assessments covering the most students in the school or program and continuing until at least 30% of students in the school or program are covered by SLOs. For guidance on SLOs, see NYSED SLO Guidance: <https://www.engageny.org/resource/appr-3012-d>. The district/BOCES must select the type of assessment that will be used with the SLO from the options below.

- If any grade/course in the building has a State-provided growth measure AND the principal must have SLOs because fewer than 30% of students in the building are covered, then the SLOs must begin first with the SGP results.
- Additional SLOs must then be set based on grades/subjects with State assessments for which there is no State-provided growth measure, where applicable.
- If additional SLOs are necessary, principals must begin with the grade(s)/course(s) that have the largest number of students using school-wide student results from one of the following assessment options:
 - State-approved 3rd party assessment; or
 - State-approved district, regional, or BOCES-developed assessment.

For each grade configuration indicate the following:

- **Column 1: lowest grade that corresponds to the building or program**
- **Column 2: highest grade that corresponds to the building or program**
- **Column 3: measure used**
- **Once a measure is selected, a corresponding menu will appear for the selection of the name(s) of the assessment(s) used.**

Follow the example below

7.4) Principals with More Than One Growth Measure

If educators have more than one State-provided growth score and rating, those scores and ratings will be combined into one score and HEDI rating for the Required Student Performance subcomponent provided by the Department. (Examples: Principals of K-8 schools with growth measures for ELA and math grades 4-8.)

If educators have more than one SLO (or a State-provided growth measure and an SLO), the measures will each earn a score from 0-20 points which districts/BOCES must weight proportionately based on the number of students in each SLO (or in the State-provided growth measure and the SLO). For more information on principals with more than one growth measure, please see NYSED APPR Guidance and NYSED SLO Guidance: <https://www.engageny.org/resource/appr-3012-d>.

7.5) Assurances

Please check all of the boxes below:

Assure that the principal has an SLO or a back-up SLO, where applicable, consistent with the goal setting process developed by the Commissioner that results in a student growth score.	Checked
Assure that all growth targets represent a minimum of one year of expected growth, as determined by the superintendent or another trained administrator. Such targets, as determined by the superintendent or another trained administrator, may only take the following characteristics into account: poverty, students with disabilities, English language learners status and prior academic history.	Checked
Assure that all growth targets are approved by the superintendent or another trained administrator.	Checked
Assure that any disagreement between parties regarding the content of the SLO, including the growth target, will be resolved by the superintendent or another trained administrator.	Checked

Assure that if a principal's SLO is based on a small n size population and the district/BOCES chooses not to use the HEDI scoring bands listed in task 7.3, then the principal's 0-20 score and HEDI rating will be determined using the HEDI scoring bands specified by the Department in APPR Guidance.	Checked
Assure that processes are in place for the superintendent to monitor SLOs.	Checked
Assure that the final Student Performance category rating for each principal will be determined using the weights and growth parameters specified in Subpart 30-3 of the Rules of the Board of Regents.	Checked

7.6) Student Performance Subcomponent Weighting

- If the Optional subcomponent is not used, the Required subcomponent will comprise 100% of the Student Performance category.
- If the Optional subcomponent is used, the Required subcomponent must comprise at least 50% of the Student Performance category.

Please indicate the use of the Optional subcomponent by checking the box below. Information related to the Optional subcomponent will be entered into Task 8.

The Optional subcomponent WILL NOT be used; the Required subcomponent will comprise 100% of the Student Performance category.

Assure that each set of school visits (by supervisor/other trained administrator, independent, or peer) will be completed using the selected practice rubric, producing an overall score between 1 and 4. The overall weighted school visit score will be converted into a HEDI rating using the chart shown below.	Checked
Assure that once all school visits are complete, the different types of school visits will be combined using a weighted average consistent with the weights specified in task 9.5 below, producing an overall School Visit category score between 0 and 4. In the event that a principal earns a score of 1 on all rated components of the practice rubric across all observations, a score of 0 will be assigned.	Checked
Assure that if the district is granted an annual Independent Evaluator Hardship Waiver by the Department, the second school visit(s) shall be conducted by one or more evaluators selected and trained by the district, who are different than the evaluator(s) who conducted the school visit(s) required to be performed by the Superintendent/supervisor their designee.	Checked

Principal School Visit Scoring Bands

	Overall School Visit Category Score and Rating	
	Minimum	Maximum
H	3.5 to 3.75	4.0
E	2.5 to 2.75	3.49 to 3.74
D	1.5 to 1.75	2.49 to 2.74
I	0	1.49 to 1.74

Using the dropdown menus below, please indicate the locally-determined rubric scoring ranges based on the constraints prescribed by the Commissioner in Subpart 30-3 of the Rules of the Board of Regents for each of the rating categories.

	Minimum Rubric Score	Maximum Rubric Score

--	--	--

Developing	1.50	2.49
Ineffective	0.00	1.49

9.5) Principal School Visit Subcomponent Weighting

Required Subcomponents:

- School Visits by Supervisor(s) or other Trained Administrator(s): At least 80% of the Principal School Visit category score

Optional Subcomponent:

- School Visits by Trained Peer Observer(s): No more than 10% of the Principal School Visit category score when selected

Please be sure the total of the weights indicated equals 100%.

** If the district is granted an annual Independent Evaluator Hardship Waiver by the Department, this subcomponent will be satisfied through the use of one or more evaluators selected and trained by the district, who are different than the evaluator(s) who conducted the school visit(s) required to be performed by the Superintendent/supervisor or their designee.*

	Supervisor - required	Independent Evaluator(s) - required	Peer Observer(s) - optional
Indicate the weighting of each subcomponent:	80%	20%	N/A
