

STUDENT ASSESSMENTS AND ASSOCIATED GROWTH MODELS FOR TEACHER AND PRINCIPAL EVALUATION

PUBLICLY AVAILABLE SERVICES SUMMARY

This form will be posted on the New York State Education Department's Web site and distributed through other means for all applications that are approved in conjunction with this RFQ to allow districts and BOCES to understand proposed offerings in advance of directly contacting Assessment Providers regarding potential further procurements.

Assessment Provider Information			
Name of Assessment Provider:	Southern Cayuga Central Schools		
Assessment Provider Contact	Patrick Jensen		
Information:	Superintendent 315-364-7211		
Name of Assessment:	SCCS District Developed ELA & Math Assessments		
Nature of Assessment:	ASSESSMENT FOR USE WITH STUDENT LEARNING OBJECTIVES WITH A TARGET SETTING MODEL; OR		
	SUPPLEMENTAL ASSESSMENT WITH AN ASSOCIATED GROWTH MODEL: GAIN SCORE MODEL GROWTH-TO-PROFICIENCY MODEL STUDENT GROWTH PERCENTILES PROJECTION MODELS VALUE-ADDED MODELS OTHER:		
What are the grade(s) for which the assessment can be used to generate a 0-20 APPR score?	Grades K-6		
What are the subject area(s) for which the assessment can be used to generate a 0-20 APPR score?	ELA, Math, Science, Social Studies, Special Education, AIS, RTI for non-state assessment courses		
What are the technology requirements associated with the assessment?	None		
Is the assessment available, either for free or through purchase, to other districts or BOCES in New York State?	☐ YES ⊠ NO		

Please provide an overview of the assessment for districts and BOCES. Please include:

- A description of the assessment;
- A description of how the assessment is administered;
- A description of how scores are reported (include links to sample reports as appropriate);
- A description of how the Assessment Provider supports implementation of the assessment, including any technical assistance. (3 pages max)

The ELA and Math summative assessment will be locally developed through a collaboration of certified elementary teachers and the building principal. The building principal will determine the final assessment questions which will remain secure until the administration of the assessment.

The summative assessment includes a math assessment based upon the NYS Common Core Standards and the NYS Developed Math Modules, which will be administered at the end of the year in a single period of time, approximately 45 minutes. The assessment also includes an ELA portion, which will include a performance-based reading assessment and a thorough sample of items and tasks that reflect the Common Core Standards. The reading assessment will be administered individually, while the remaining portions will be administered in approximately 30 minutes. Both portions of the year-end assessment will be administered by a certified teacher with no accountability link to the student. In addition, the assessment results will be reported to individual teachers by the building principal.

Please provide an overview of the student-level growth model or target setting model for SLOs for districts and BOCES, along with how student-level growth scores are aggregated to the create teacher-level scores, and how those teacher-level scores are converted to New York State's 0-20 metric.

The previous year's summative assessment will be used by the teacher and principal to establish target setting for SLO'S. Targets for individual students will represent one year of expected growth and will be finalized based upon the baseline data by the building principal. If a student did not complete a summative assessment at the end of the previous year, the district will administer the summative assessment from the student's previous grade level by October 1. The percentage of students that meet their targets are calculated to determine teacher scores and will be converted to the NYS 0-20 metric and assigned a HEDI rating for student performance.

	ssessment Priorities posed supplemental assessment I or assessment to be ne Next Generation Assessment Priorities below.
Characteristics of Good ELA and Math Assessments (only applicable to ELA and math assessments):	The assessments are aligned and based upon the NYS Common Core Standards for grades K – 6.
Assessments Woven Tightly Into the Curriculum:	Reviewed by administrators to ensure alignment and rigor.
Performance Assessment:	The summative assessments will include performance- based components.
Efficient Time-Saving Assessments:	Each portion (ELA & Math) of the summative assessment will be completed in less than 45 minutes.
Technology:	Calculators are available when deemed developmentally appropriate.
Degree to which the growth model must differentiate across New York State's four levels of teacher effectiveness (only applicable to supplemental assessments):	N/A

STUDENT ASSESSMENTS FOR TEACHER AND PRINCIPAL EVALUATION

APPLICANT CERTIFICATION FORM –ASSESSMENTS FOR USE WITH STUDENT LEARNING OBJECTIVES

Please read each of the items below and check the corresponding box to ensure the fulfillment of the technical criteria.

PLEASE SUBMIT ONE "FORM H" FOR EACH APPLICANT. CO-APPLICANTS SHOULD SUBMIT SEPARATE FORMS.

The Applicant makes the following assurances:

Assurance	Check
	each box:
The assessment is rigorous, meaning that it is aligned to the New York State learning standards or, in instances where there are no such learning standards that apply to a subject/grade level, alignment to research-based learning standards.	
To the extent practicable, the assessment must be valid and reliable as defined by the Standards of Educational and Psychological Testing.	
The assessment can be used to measure one year's expected growth for individual students.	
For K-2 assessments, the assessment is not a "Traditional Standardized Assessment" as defined in Section 1.3 of this RFQ.	
For assessments previously used under Education Law §3012-c, the assessment results in differentiated student-level performance. If the assessment has not produced differentiated results in prior school years, the applicant assures that the lack of differentiation is justified by equivalently consistent student results based on other measures of student achievement.	
For assessments not previously used in teacher/principal evaluation, the applicant has a plan for collecting evidence of differentiated student results such that the evidence will be available by the end of each school year.	
At the end of each school year, the applicant will collect evidence demonstrating that the assessment has produced differentiated student-level results and will provide such evidence to the Department upon request. ⁴	

⁴ Please note, pursuant to Section 2.3 of this RFQ, an assessment may be removed from the approved list if such assessment does not comply with one or more of the criteria for approval set forth in this RFQ

To be completed by the Copyright Owner/Assessment Representative of the assessment being proposed and, where necessary, the co-applicant LEA:
