Throughout the pandemic, Icahn 7 Charter School leaders have engaged, and are currently learning from teachers, paraprofessionals, parents, and other community members to support student learning. Engagement takes the forms of Zoom meetings, Opinion Surveys, and personal contacts via email and telephone. Topics analyzed in the dialogue with stakeholders include:

1. Data on Icahn 7's mode of instruction (remote, hybrid, in-person) and student attendance in each modality; the manner in which funds are allocated to meet student's social, emotional, and academic needs through evidence-based interventions, how they advance equity for underserved students and how they sustain and support access to early childhood education programs;
2. Student data, disaggregated by student subgroup, related to how the COVID-19 pandemic has affected instruction and learning;
3. Guidance from the CDC, NYSDOH, and NYSED; and
4. Decisions detailing school operations. Information gathered on these and other topics has been used in planning, including the current Reopening Plan which is/will be posted on the Icahn 7 Charter School Internet Site.

<p>technology, we are improving our use of Digital and Blended learning strategies in and outside of the classroom. This is especially important as teachers and students address the impact of the disrupted educational experience of the last 18 months and transition to a more consistently in-person post-pandemic learning experience. Teachers can support differentiation in teaching and to make academic content and lessons more engaging to students which, in turn, will support learning acceleration. (see Reigniting Learning: Strategies for Accelerating Learning Post-Crisis: A Review of Evidence, United States Agency for International Development, November 2020, <a href="https://www.eccnetwork.net/sites/default/files/media/file/Technical_Report_Accelerating_Learning_Post-Crisis_Full_Report.pdf">https://www.eccnetwork.net/sites/default/files/media/file/Technical_Report_Accelerating_Learning_Post-Crisis_Full_Report.pdf</a>) These investments will promote interactivity and classroom collaboration and provide teachers with greater flexibility in their curriculum development, lesson planning, assessments and instruction.</p>
