FLACS will use the majority of the funding to address the academic impact of lost instructional time. This funding will be used to hire additional staff in all buildings to support academic recovery, including Academic Intervention Services (AIS) teachers and/or English as a New Language (ENL) teachers. These teachers will implement evidence-based interventions and support the reduction of class size. The specific interventions will depend on the findings from beginning of the year data that pinpoints the exact needs of students. It will also be used to fund additional positions that will coach teachers to improve teacher quality for all students. FLACS will use the NWEA to monitor student's academic progress.	1:55
