Reason(s) for Consideration

Review of Policy.

Proposed Handling

The proposed amendments are submitted to the Higher Education Committee for discussion at its April 2019 meeting (Attachment A is a copy of the proposed amendment).

Procedural History

At its September 2018 meeting, the Board of Regents was presented with the proposed amendments and voted to authorize Department staff to publish the proposed amendments in the State Register for the 60-day public comment period so that the Department had an opportunity to receive public comment.

Based on the public comments received following publication of the proposed amendments in the State Register in October, additional changes were made by the Department. As a result, a Notice of Revised Rulemaking was published in the State Register on January 30, 2019. In accordance with the State Administrative Procedure Act, an additional 30-day public comment period is required for revised rule makings, and public comments were received through March 1, 2019. An Assessment of Public Comment of the comments received during this period is included as Attachment D.

Based on these public comments, further changes are being made to the proposed amendments. As a result, a Notice of Revised Rulemaking will be published in the State Register on April 24, 2019. In accordance with the 30-day public comment period required under the State Administrative Procedure Act for revised rule makings, public comment will be received until May 24, 2019. Supporting materials are available upon request from the Secretary to the Board of Regents.

Background Information

Beginning on September 1, 2000, and annually thereafter, each school district and BOCES is required to adopt a professional development plan that has been drafted by its professional development team. The professional development team must include the superintendent (or district superintendent in the case of BOCES) or his/her designee, school administrators and teachers designated by their local bargaining units, and at least one parent, curriculum specialist, and higher education representative. The team may also include other community representatives and/or professional development providers as determined by the school district or BOCES. The majority of members on the professional development team must be teachers.

The purpose of the professional development plan is to improve the quality of teaching and learning by ensuring that teachers, level III teaching assistants, and school leaders receive ongoing learning and have opportunities for professional growth, remain current with their profession, and meet the learning needs of their students. The plan is also intended to ensure that substitute teachers who work on a long-term basis are provided the opportunity to participate in the professional development program of the school district or BOCES. Section 80-5.4 of the Commissioner's Regulations defines "long term basis" as "employment for more than 40 days by a school district or board of cooperative educational services in a school year." Subdivision (c) of that section, which speaks to the length of employment of substitute teachers, provides that substitutes who hold a teaching certificate and those who are enrolled in an educator preparation program

and are taking at least six (6) credit hours per semester can serve as a substitute for any number of days in any capacity.

These plans provide an opportunity for school districts and BOCES to articulate how they will provide substantial need-based professional development opportunities for their educators, the expectation for educators' participation in the professional development, the alignment of the offered professional development to State standards, student needs, principles of effective professional development, and how the school district or BOCES will measure the impact of the offered professional development. In order to assist school districts and BOCES in the development of these plans and in offering high quality professional development opportunities to their staff, the Department worked with the Professional Standards and Practices Board for Teaching (PSPB) to develop [Professional Development Standards](#), which were approved by the Board of Regents in 2009. The PSPB has recently completed its review and update of these standards. Attachment B is a copy of the revised standards, which have also been renamed "Professional Learning Standards."

Proposed Amendments

The proposed amendments to subdivision 100.2(dd) are designed to create greater coherence with other statutory and Department initiatives related to ensuring that all educators – teachers, teaching assistants, and school leaders - have the knowledge and skills necessary to meet the needs of all students. Specifically, the amendments further align the Commissioner's Regulations with requirements related to the Dignity for All Students Act (DASA), the Continuing Teacher and Leader Education (CTLE) statutory requirements, and the Department's recently approved Every Student Succeeds Act (ESSA) plan. These changes include:

- A shift in terminology from professional development to professional learning, which is consistent with the changes to the standards adopted by the PSPB. This shift is more than just a change in language. Professional organizations and educational researchers, including Learning Forward, the Learning Policy Institute (LPI), and the Association for Supervision and Curriculum Development (ASCD), have adopted this change in language, which emphasizes the importance of educators taking an active role in their continuous development. Rather than being passive recipients of information, educators should be active partners in determining the content of their learning, how their learning occurs, and how they evaluate its effectiveness.
- Requires the professional learning plan to describe how professional learning related to educator practice and curriculum development are culturally responsive and reflect the needs of the community that the school district or BOCES serves.
- Clarifying the Department's expectations regarding the use of data – both qualitative and quantitative – in determining appropriate professional learning and measuring its impact on educators and student learning, consistent with research on effective professional learning.

- Clarifying that professional learning plans must describe the professional learning opportunities that are available to teachers, teaching assistants, and school leaders, whereas the existing regulations do not consistently include references to educators other than teachers.
- Technical edits to remove references to dates, professional learning requirements for teachers, pupil personnel service providers and educational leaders, and certain structures in the New York City Department of Education that are no longer relevant.

The Department worked collaboratively with the New York State Professional Learning Team (PLT), which includes representatives from NYSUT, UFT, SAANYS, NYSCOSS, NYCDOE, BOCES, the Big 5, Teacher Centers, and higher education institutions from each sector to develop these amendments. A list of PLT members is included as Attachment C. Additional feedback was also sought from the PSPB.

Consistent with the shift in terminology from professional development to professional learning related to school district and BOCES professional learning plans, the amendments make conforming edits to other provisions of the Commissioner's Regulations. Specifically, Sections 52.21, 57-2, 75.8, 80-1, 80-2, 80-3, 80-5, 80-6, 90.18, 100.2, 100.13, 100.15, 100.17, 100.19, 151-1, 154-2, and 200.2 of the Commissioner's Regulations and 30-1, 30-2, and 30-3 of the Rules of the Board of Regents are amended to change references to professional development to professional learning. Additionally, Section 80-3.6 of the Commissioner's Regulations, which prescribed professional development requirements for teachers through the 2016-17 school year, is repealed since that school year has ended and the section is no longer applicable. Conforming edits were also made to other sections of Part 80 consistent with the repeal of Section 80-3.6.

Based on comments received during the initial 60-day public comment period required under the State Administrative Procedure Act, the Department made the following changes to the proposed amendments:

- First, the Department proposes to remove the clause indicating that the level of involvement of members of professional learning teams shall be determined by the school district or BOCES.
- Second, the Department proposes changing the requirements for members of Professional Learning Teams in the City School District of the City of New York from being "well represented" by teachers to include a "majority" of teachers.
- Third, the Department proposes changing the number of CTLE hours that can be claimed for serving as a mentor to a student teacher from 15 hours to 25 hours in each five-year registration period.

- Fourth, the Department proposes changing the number of CTLE hours that can be claimed for serving as a mentor to a first-year teacher from 25 hours to 30 hours in each five-year registration period.
- Fifth, the Department proposes to remove the restriction on claiming CTLE hours for serving as a mentor to a student teacher in instances where the teacher preparation program provides remuneration to the mentor teacher.

Based on comments received during the second public comment period, the Department made additional changes to the proposed amendment to:

- Require that the appointment of teachers to serve on the Professional Learning Team for the central office of the New York City Department of Education (NYCDOE) shall be upon designation by the teachers' collective bargaining organization; and
- Remove the requirement that professional learning teams for each community school district, District 75, District 79, and the high school districts of the NYCDOE be a sub-committee of the District Leadership Team (DLT).

As a result of these changes to the proposed amendment, a Notice of Revised Rulemaking will be published in the State Register on April 24, 2019.

**New York State Professional Standards and Practices Board
Project: Development of New York State Professional Learning Standards**

Preamble/Introduction

Ensuring Consistent High Quality Professional Learning Leading to Improved Student Outcomes

New York State’s Professional Learning Standards provide a blueprint for high-quality professional learning for all educators to improve outcomes that address the diversity of all students. Building on their knowledge and experiences, professional educators need to engage in on-going, sustained and continuous development, including an examination of practice as part of a lifelong professional pursuit of learning. These reflective practices are an integral component of the education profession. The professional learning standards are aspirational, sometimes providing a description of what is expected, while framing a vision of advancement by articulating clearly defined expectations and indicators of professional learning. The standards, as defined by the domains and quality indicators, will provide a framework that develops professional knowledge for learning and leading. They are grounded in the core belief that the most appropriate content for professional learning is contextual: the content needs to fit the needs of the individual and their educational context. Through the utilization of these standards, educators have the opportunity to take an active role over their own professional learning.

This document gives participants and providers a framework for professional learning. The intent is not to prescribe the specific content nor instructional strategies of that professional learning, as all content and structure should be dictated by local needs, regulatory needs, and district Professional Development plans. This document is intended for all educators who are employed in a P12 setting (e.g., principals, teaching assistants, teachers, teacher leaders, school psychologists, and specialists). This framework is a holistic approach to planning and reviewing professional learning, and not a checklist to apply to every professional learning experience.

The New York State Professional Learning Standards are based on an analysis and adaptation of the New York State Professional Development Standards (2009), Learning Forward Standards, as well as other national, state, and professional standards. The standards reference the importance of all stakeholders, including P-12 staff, parents, social workers, counselors, community members, teacher educators, higher education representatives and students.

Seven Domains

A. Professional Growth and Collaboration. Professional learning fosters a foundation of continuous professional growth characterized by collaborative relationships, reflection, respect, and commitment to student and educator learning. Professional learning for professional growth and collaboration:

1. is ongoing, sustained, and supported from a systemic approach.

2. ensures that educators have the tools and opportunity to collaborate in a respectful and trusting environment.
3. increases educator effectiveness for all students and occurs within learning communities committed to continuous improvement, collective responsibility, and progress towards goals.
4. develops a culture for systemic shifts over time based on vision, growth, and collaboration.
5. focuses on the local school culture and individual needs of educators.
6. encompasses all stakeholders to create a vision for prioritizing, monitoring, and coordinating professional learning.
7. includes a support system for change not only within a school system, but also with relevant stakeholders and professional organizations.

B. Expanding Professional Capacity. Professional learning builds individual and collective capacity for deepening and expanding educator expertise and improving outcomes for all students.

Professional learning for expanding professional capacity:

1. deepens educator knowledge of the local and individual needs of students.
2. prepares educators to read, understand, apply, and/or conduct research and use data for informed decision-making.
3. leads to individual and collective approaches to sustain the long-term importance and relevance of professional learning.
4. leads to more effective and sustainable learning communities.
5. equips educators to identify and address problems of practice.
6. grows educator content and pedagogical content knowledge.
7. prepares educators to access and apply available resources.
8. encourages educators to reflect, identify and address areas for personal and professional growth.

C. Leadership. Professional learning develops and fosters skillful leaders who cultivate vision, capacity, advocacy, communication, and support systems. Professional learning for leadership:

1. includes teachers, teacher leaders, and administrators, at all levels who build a vision for professional learning.
2. emphasizes continuous learning, and capacity building to learn and lead for professional learning.
3. necessitates a thorough understanding of curriculum and instruction, effective and relevant practices and research, data, management, resources and budget.
4. demonstrates a commitment to P-20 collaboration, and coordination among all stakeholders.

5. prioritizes resources through a decision making process that engages appropriate stakeholders in determining needs and effectiveness of professional learning.
6. coordinates and assesses professional learning in ways that effectively utilize resources and ensure equity.
7. uses understandings of policy and complex systems to support change and growth of organizational frameworks for professional learning.
8. capitalizes on peer coaching/mentoring to support new educators as they incorporate new strategies into their educational setting.

D. Professional Learning Approaches. Professional learning integrates theories, research, and models of adult learning to achieve intended outcomes. Professional learning approaches:

1. are goal oriented and engage in authentic problem solving and decision making.
2. provide feedback, ongoing assessment and an opportunity for professional reflection.
3. integrate appropriate technology to enhance and expand professional learning experiences.
4. are research guided and informed by local needs and demographics, providing context and relevance for all stakeholders.
5. incorporate diverse modes of teaching and learning strategies.
6. foster participatory engagement.
7. provide choice, differentiated instruction, individualized learning, and/or role or content specific options.
8. give consideration to alternative opportunities for individual educators to develop further expertise.
9. should be aligned to professional and/or content standard and translate theory to practice.
10. provide sustained experiences over time with continued support and opportunities.

E. Utilizing Data. Professional learning incorporates a variety of sources and types of student, educator, and system data to monitor student progress, sustain professional growth, and inform, plan, assess, and evaluate professional learning. Professional learning utilizing data:

1. emphasizes the use of student pre and post assessments; formal and informal teacher and administrator evaluations; teacher, school, or state collected data; needs assessments; informal surveys; and community input.
2. examines disaggregated student data by race, gender, English language learning, special needs, eligibility for free or reduced lunch and other factors.
3. needs to be relevant and appropriate to the context and population of students both culturally and demographically and to be evaluated for bias and cultural sensitivity.
4. is informed by a needs assessment, shaped by ongoing feedback throughout the experience,

and evaluated for the professional learning impact.

F. Cultural Responsiveness. Professional learning responds to a culturally and linguistically diverse population of learners and promotes academic and social-emotional growth by emphasizing and building upon their cultural strengths, knowledge, and skills. Professional learning for enhancing cultural responsiveness:

1. reflects on cultural self-awareness to help recognize one's own biases.
2. addresses the differing expectations and bias sometimes associated with culturally and linguistically diverse students by holding high expectations for all students accompanied by accessible and meaningful supports.
3. provides increased capacity for an on-going commitment to recognize, engage, and incorporate diverse cultures and backgrounds as assets for learning.
4. supports educators in developing safe, secure, affirming, supportive, and equitable learning environments for all students.

G. Engagement Among Diverse Communities. Professional learning builds capacity for educators, families, community members, and other stakeholders for shared ownership of student and community success. Professional learning for engagement among diverse communities:

1. fosters dialogue and effective means of communication within and among families, community members and other relevant stakeholders to increase understandings of diversity and culture.
2. assists educators with the knowledge, skill, and opportunity to meet the diverse learning needs of all students, and to engage and collaborate with parents, families, and other community members as active partners in the education of children and young adults.
3. develops understanding and continued learning about modern society, in which there are ever increasing connections and benefits of cross-cultural and international collaborations.
4. appropriately and effectively supports educators with professional learning to tap into resources within the geographic communities to support students, families, and educators.
5. promotes a respectful understanding of cultural, language, and socioeconomic issues affecting families in the local community and aligns resources to support unique demographics of community.
6. Encourages partnerships among schools, higher education, community organizations, and cultural institutions that benefit students and families.
7. considers current events and policy to proactively prepare for changes that may raise new challenges and opportunities.

ASSESSMENT OF PUBLIC COMMENT

(COMMENT RECEIVED AS OF March 1, 2019)

Following publication of the Notice of Proposed Rulemaking in the State Register on January 30, 2019 through March 1, 2019, the Department received the following comments on the proposed amendment:

1. COMMENT: Two commenters expressed concern regarding the fact that teachers who serve as members of the professional learning team for the central office of the NYCDOE are selected by the chancellor and not designated by the teachers' collective bargaining organization, noting that this process is different than that for every other school district in New York State.

DEPARTMENT RESPONSE: The Department has revised the proposed amendment to require that teachers who serve as a member of the professional learning team for the central office of the NYCDOE be upon designation by the teachers' collective bargaining organization consistent with the requirements for all other districts across the state.

2. COMMENT: One commenter expressed concern that the professional learning teams for each community school district, District 75, District 79, and the high school districts of the NYCDOE were to be a sub-committee of the District Leadership Team (DLT).

DEPARTMENT RESPONSE: The Department has revised the proposed amendment to remove this requirement to ensure that each local professional learning

team can include representatives that can help to identify professional learning opportunities that will ensure all educators are able to meet the needs of all learners.

3. COMMENTS: One commenter noted that the changes should not take effect until July 1st to give districts time to implement changes. The same commenter also believes that increasing the number of CTLE that can be claimed for mentoring is problematic.

DEPARTMENT RESPONSE: No changes are necessary. The earliest the proposed amendments can be permanently adopted by the Board is at its July meeting. Therefore, the changes will not take effect until after July 1. Regarding the decision to increase the number of CTLE hours that can be claimed for mentoring, the Department received many comments on both sides of this issue (see Assessment of Public Comment, Attachment D to January 2019 Regents Item: <http://www.regents.nysed.gov/common/regents/files/119hed2.pdf>). The proposed amendments reflect a compromise between those diverse perspectives.
