

2022-23 New York State Alternate Assessment (NYSAA): Test Completion, Field Testing, & Teacher Surveys

Test Completion

Please note that test administrators **will** receive notification in Kite® Student Portal that testlets have been completed for a student in a content area; for example, a student completed 2 out of 9 testlets in ELA. In addition, test administrators should keep a chart tallying the number of testlets students have completed to compare with the expected number to be completed as found in the TAM (see chart below). Note that field tests are not included in this count (see below). **District Test Coordinators must run an Extract Report to determine that all testing for each subject has been completed.** Please visit: CBTSupport@nysed.gov or EMSCASSESSINFO@nysed.gov for additional information.

NUMBER OF TESTLETS FOR SPRING ASSESSMENT

Grade	Math Testlets	ELA Testlets	Science Testlets*	Field Testlets
3	8	9	Not-tested	0 or 1
4	8	9	Not-tested *	0 or 1
5	8	9	Not-tested	0 or 1
6	7	9	Not-tested	0 or 1
7	7	9	Not-tested	0 or 1
8	8	9	9	0 or 1
High School-cohort grade 9	7	9	9	0 or 1

*Students eligible to participate in the grade 4 NYSAA in science will not be tested in the 2022-23 school year. Instead, these students will be tested in grade 5 the following year (spring 2024).

Field Testing

Once all required spring assessments are complete, there may be zero or one field test delivered in each of the content areas. The field test testlet may be harder or easier than the last operational testlet the student completed for the Essential Element. If it is too difficult for the student, the student or test administrator may leave a response unanswered or choose an option indicating the student did not respond (if available), and then submit the testlet.

Student responses on field test testlets will not be scored. Test administrators can expect each field testlet to take the same approximate time to administer as an operational testlet. Test administrators are strongly encouraged to deliver the field testlets, which help build a larger operational bank of available testlets. Please see the chart above for the number of testlets delivered per grade level. Field tests will not be counted in the total tests delivered according to the above. After you have completed the required testlets, please go back into Kite Educator Portal to see if a field testlet, which is labeled with NA, is available just as you would check for an operational assessment.

Remember: After you have completed the required testlets, please go back into Kite Educator Portal to see if a field testlet has become available.

Teacher Surveys

Teacher surveys will be delivered in Student Portal again this spring. The survey is optional, but it is strongly recommended that the survey be completed. The survey is accessed under the Other tab. It does not pop-up during student test administration. Utilize the Exit Does Not Save button should it be accidentally opened by the test administrator or student during testing. Please complete the survey.
