Things to Consider to Get Started

The review is based on your 2023-24 Consolidated Application for ESSA-Funded Programs, so you may want to have copies of the needs/goals, budgets, and any subsequent amendments available for discuss during the review.

Identify appropriate personnel to contribute to the monitoring review based on program areas.

Ensure all personnel who are contributing to monitoring review have appropriate access to both the Consolidated Application and Monitoring Review survey and that there is a clear line of communication between all individuals contributing evidence.

Develop a timeline and internal procedures for collecting and uploading evidence.
Things to Consider when Uploading Materials

- Refer to the Recommended Evidence column or the Indicators and Evidence Guide document to identify appropriate materials.

✓ Ensure that evidence is aligned to program title; for example, Title I indicators should only include evidence that applies to Title I, etc.

$ Ensure that evidence is uploaded for all applicable programs in indicators which address multiple programs. For example, for General Fiscal indicators, evidence is required for Title IA, IIA, IIIA, IVA, and VB.

🔍 Label evidence specific to program title and indicators.

💰 Provide a key for fiscal account codes to facilitate accurate review of fiscal documents.
