

Teacher Evaluation Rubrics

by Kim Marshall – Revised November 23, 2012

Rationale and suggestions for implementation

1. These rubrics are organized around six domains covering all aspects of a teacher's job performance:

- A. Planning and Preparation for Learning
- B. Classroom Management
- C. Delivery of Instruction
- D. Monitoring, Assessment, and Follow-Up
- E. Family and Community Outreach
- F. Professional Responsibilities

The rubrics use a four-level rating scale with the following labels:

- 4 – Highly Effective
- 3 – Effective
- 2 – Improvement Necessary
- 1 – Does Not Meet Standards

2. The rubrics are designed to give teachers an end-of-the-year assessment of where they stand in all performance areas – and detailed guidance on how to improve. They are not checklists for classroom visits. To knowledgeably fill out the rubrics, supervisors need to have been in classrooms frequently throughout the year. It is irresponsible to fill out the rubrics based on one classroom observation. Unannounced mini-observations every 2-3 weeks followed by face-to-face conversations are the best way for supervisors to have an accurate sense of teachers' performance, give ongoing praise and suggestions, and listen to concerns. For a detailed account of the development of these rubrics and their broader purpose, see Kim Marshall's book, *Rethinking Teacher Supervision and Evaluation* (Jossey-Bass, 2009).

3. The *Effective* level describes solid, expected professional performance; teachers should feel good about scoring at this level. The *Highly Effective* level is reserved for truly outstanding teaching that meets very demanding criteria. *Improvement Necessary* indicates that performance has real deficiencies; no teacher should be content to remain at this level (although some novices might begin here). Performance at the *Does Not Meet Standards* level is clearly unacceptable should lead to dismissal if it is not improved immediately.

4. When scoring, take each of the ten criteria, read across the four levels (Highly Effective, Effective, Improvement Necessary, and Does Not Meet Standards), find the level that best describes the teacher's performance, and circle or highlight that cell. This creates a clear graphic display of areas for commendation and areas that need work. Then give an overall score for that domain at the bottom of the page (averaging the scores on the page) and make brief comments in the space provided. When all six pages have been scored, record the ratings on the summary sheet (page 8).

5. Evaluation conferences are greatly enhanced if the supervisor and teacher fill out the rubrics in advance, then meet and compare scores one page at a time. The supervisor has the final say, of course, but the discussion should aim for consensus based on actual evidence of the more accurate score for each criterion. Supervisors should go into the evaluation process with humility since they can't know everything about a teacher's instructional activities, collegial interactions, parent outreach, and professional growth. Similarly, teachers should be open to feedback from someone with an outside perspective. For a discussion of the role of student achievement in teacher evaluation, see "Merit Pay or Team Accountability" (Education Week, Sept. 1, 2010) by Kim Marshall.

6. Some supervisors sugar-coat criticism and give inflated scores to keep the peace and avoid hurting feelings. This does not help teachers improve. The kindest thing a supervisor can do for an underperforming teacher is give candid, evidence-based feedback, listen to the teacher's concerns, and provide robust follow-up support.

7. If an entire staff is scored honestly using these rubrics, it's possible to create a color-coded spreadsheet that can serve as a powerful (confidential) road-map for schoolwide professional development (see the sample on page 9).

8. These rubrics are "open source" and may be used and adapted by schools and districts as they see fit.
