

Career Development Occupational Studies

Core Curriculum

Standard 3b
Career Majors—
Human and Public Services

CORECURRICULUM—E HUMANIAND PUBLICE SERVICES

This section provides teachers with an organizational tool that connects the Career Development and Occupational Studies Learning (CDOS) Standard 3b with corresponding performance indicators. The goal of this core curriculum is to provide a user-friendly guide that links CDOS with other content areas and provides educators with a framework for lesson plan development.

Standard 3b: Career Clusters

Students who choose a career cluster will acquire the career-specific technical knowledge/skills necessary to progress toward gainful employment, career advancement, and success in postsecondary programs.

1. Ethical/Legal Responsibilities

Performance Indicator: Students demonstrate professional, ethical, and legal responsibilities toward customers.

Students will:

- A. Identify and understand workplace laws, regulations, and policies:
 - 1. Federal agencies (e.g., OSHA, FDA, EPA)
 - 2. HAZMAT (handling, storing, and transporting of hazardous materials)
 - 3. Licensing certification requirements
 - 4. Industry standards (e.g., American Dietetics Association, National Restaurant Association)
 - 5. Fair Labor Standards Act
 - 6. Violations/infractions of federal, state, and local laws
 - 7. Fully accessible environments and designs in compliance with the Americans with Disabilities Act
 - 8. Insurance and financial obligations
 - 9. Company policies
- B. Identify and understand consumer protection regulations, laws, and policies:
 - 1. Federal, state, and local safety codes
 - 2. Agriculture and Markets laws
 - 3. General business law
 - 4. Food label laws
 - 5. Clothing label laws
 - 6. Appliance label laws
 - 7. FDA product safety regulations
 - 8. Family law (e.g., health care proxy, custody)
 - 9. Consumer advocacy agencies (e.g., Consumer Product Safety Commission, Attorney General's Office)

- What criteria can be used to guide professional behaviors?
- What happens if we disregard laws, regulations, and policies in the workplace?

- C. Understand ethics as applied to:
 - 1. Client and coworker confidentiality
 - 2. Child protective services
 - 3. Appreciation of diversity
 - 4. Codes of conduct

2. Communications

<u>Performance Indicator:</u> Students demonstrate effective communication skills needed to meet the expectations of human and public services consumers.

will:

- A. Understand techniques of effective communication:
 - 1. Speaking
 - a. Acceptable conventions of the English language
 - b. Grammar, tone
 - c. Presentation skills
 - d. Questioning skills
 - e. Interviewing
 - 2. Reading
 - a. Directions
 - b. Comprehension
 - c. Interpreting data
 - 3. Listening
 - a. Comprehension
 - b. Feedback
 - 4. Writing
 - a. Reports, records, forms
 - b. Directions
 - c. Grammar
 - 5. Non-verbal communication
 - a. Appearance
 - b. Body language
 - c. Attitudes
 - 6. Public relations/promotion
- B. Understand and apply communication processes to convey information:
 - 1. Records, forms, applications, resumes, reports
 - 2. Alternative communication techniques (e.g., ASL, technology)
 - 3. Constructive/destructive communication techniques
 - 4. Nonverbal communication
 - 5. Public relations, advertising, and promotion
- C. Identify barriers to effective communication:
 - 1. Destructive communication techniques
 - a. Blocked communication
 - b. Mixed messages
 - c. "You" messages
 - 2. Lack of ethical communication
- D. Convey information through:
 - 1. Telephone contact with clients and coworkers
 - 2. Internet/intranet
 - a. Purchasing supplies
 - b. Contact with customers and vendors
 - c. Gathering information
 - 3. Word processing
 - a. Correspondence

- What are the results of effective and ineffective communication skills in the workplace?
- How does information technology support the needs of workers and clients in Human and Public Services systems?

- b. Meeting notes
- c. Sales reports
- d. Resumes
- Databases
 - a. Software applications
 - b. Client mailing lists
 - c. Inventory control
 - d. Purchase orders
 - e. Organizing data
- 5. World Wide Web
 - a. Developing and maintaining business websites
 - b. E-commerce

3. Sanitation

<u>Performance Indicator:</u> Students demonstrate knowledge of the principles of sanitation used to prevent the transmission of disease-producing microorganisms from one person/object to another.

Students will:

- A. Understand personal/employee habits and activities related to:
 - 1. Hygiene/body defenses
 - 2. Immunization/immunity
 - 3. Infection and disease control
 - 4. Universal precautions
- B. Identify environmental factors related to sanitation:
 - 1. Bacteriology/diseases and disorders
 - 2. Chemical and physical agents
 - 3. Storage of materials, supplies, equipment
 - 4. Cleaning, sanitizing, disinfecting home and work areas

Discussion Questions

- What are the benefits of following sanitation, decontamination, and infection control practices?
- What actions would the worker take to ensure sanitation, decontamination, and infection control procedures are being followed?

4. Human Growth and Development

<u>Performance Indicator:</u> Students understand the process of human growth and development and its influence on client needs.

Students will:

- A. Understand the individual's:
 - 1. Life cycle stages (prenatal through elderly years)
 - 2. Physical development
 - 3. Intellectual development
 - 4. Social and emotional development
 - 5. Formation of self-esteem, -concept, -image
 - 6. Human sexuality
 - 7. Special needs
- B. Understand concepts related to families:
 - 1. Family composition
 - 2. Family dynamics
 - 3. Parenting styles
 - 4. Individual and family member roles
 - 5. Individual and family goals
 - 6. Individual and family value systems
 - 7. Family crises and stress factors

- What individual and family factors affect human growth and development across the life span?
- How does an individual's growth and development affect behavior and interaction in the workplace?

5. Interpersonal Dynamics

Performance Indicator: Students demonstrate how to interact effectively and sensitively with others.

Students will:

- A. Understand characteristics and selected aspects of relationships:
 - 1. Group dynamics
 - 2. Independence/interdependence
 - 3. Interrelationship of life roles
 - 4. Conflict resolution
 - 5. Tolerance toward other individuals and groups
 - 6. Effects of change
 - 7. Crisis management
 - 8. Employee relations
 - 9. Customer relations
 - 10. Human resource specialists
- B. Understand leadership as related to:
 - 1. Personal development
 - 2. Initiative and responsibility
 - 3. Cooperative work techniques
 - 4. Contributions of individual to group efforts
 - 5. Organizational structures
 - 6. Youth leadership organizations
- C. Identify community resources:
 - 1. Agencies (e.g., United Way, Chamber of Commerce)
 - 2. Support systems/networks
 - 3. Professional organizations
 - 4. Individuals (e.g., mentors, community leaders)

Discussion Questions

- What are the characteristics of a healthy human relationship?
- What are the consequences of negative human relationships on work productivity?

6. Safety

<u>Performance Indicator:</u> Students provide safe environments for others.

Students will:

- A. Understand individual responsibility:
 - 1. Use and care manuals
 - 2. General and specific safety rules
 - 3. Accident/injury prevention
 - 4. Emergency procedures
- B. Understand workplace responsibilities:
 - 1. Adaptive modification compliance
 - 2. Selection criteria for tools, equipment, appliances, and furnishings
 - 3. Regular assessment of tools, equipment, appliances, furnishings, and physical conditions
 - 4. Emergency management
 - 5. Fire prevention

Discussion Questions

• What are the characteristics of a safe work environment?

7. Thinking/Problem Solving

<u>Performance Indicator:</u> Students solve problems, set goals, and make decisions in order to provide services to best meet the needs of others.

Students will:

- A. Understand and practice goal setting:
 - 1. Setting priorities
 - 2. Conducting needs assessment
 - 3. Identifying resources
 - 4. Adjusting to change
 - 5. Evaluating progress
- B. Apply process skills:
 - 1. Critical thinking
 - 2. Creative thinking
 - 3. Decision making
 - 4. Problem solving
 - 5. Evaluating

Discussion Questions

 What processes do we need to know and be able to use to succeed in the workplace?

8. Personal Resource Management

Performance Indicator: Students apply personal and resource management skills.

Students will:

- A. Understand and practice personal management:
 - 1. Aptitudes and skills
 - 2. Career plan
 - 3. Time allocation: work, family, leisure, and personal
 - 4. Role models, mentors, and networks
 - 5. Lifelong learning/continuing education
- B. Understand and practice resource management:
 - 1. Time
 - 2. Work spaces
 - 3. Human resources
 - 4. Technology
 - 5. Finances
 - 6. Work attire and equipment
 - 7. Conservation of energy, supplies, and materials
- C. Understand and practice balancing work and family roles:
 - 1. Work and family schedule
 - 2. Physical and emotional demands
 - 3. Family and social demands
 - 4. Travel requirements
 - 5. Climate of the workplace (e.g., "family-friendly")

- How do workplace and personal issues impact how we manage our resources?
- What are the benefits of choosing a career plan that reflects family, learning, leisure, and community goals?

9. Wellness

Performance Indicator: Students exhibit and promote a positive image of wellness.

Students will:

- A. Understand body systems' roles in ensuring wellness.
- B. Understand facts and concepts of nutrition:
 - 1. Nutrients and food sources
 - 2. Role of food in the body
 - 3. Dietary guidelines/food pyramid
 - 4. Food-borne illnesses
 - 5. Global food issues
 - 6. Government programs related to nutrition
 - 7. Therapeutic diets
 - 8. Special dietary needs
- C. Understand facts and concepts of fitness:
 - 1. Work-specific fitness
 - 2. Lifetime fitness
 - 3. Leisure activities/lifetime sports
 - 4. Weight management
- D. Understand facts and concepts of mental/emotional health:
 - 1. Job satisfaction
 - 2. Personal wellness plan
 - 3. Stress/crisis management
 - 4. Anger management
 - 5. Aging process
 - 6. Eating disorders
 - 7. Healthy lifestyle

Discussion Questions

 What processes do we need to know and be able to use to succeed in the workplace?

Human and Public Services

Title of Activity: Consumer Discontent

GRADE			
9	10	11	12

OBJECTIVE(S)	COMMENCEMENT STANDARDS		
Students identify causes of consumer discontent (both product designand service-related) and recommend solutions.	Human and Public Services (3b) 1. Ethical/Legal Responsibilities 2. Communication	•	
 DESCRIPTION OF ACTIVITY Working in groups of two or three, students brainstorm and discuss a list of products or services they have purchased or used that have not met their expectations. They select a product or service and describe their expectations of it, as well as the reasons they felt their expectations were not met. If appropriate, they research the design of the product to determine if design flaws led to the problems with the product. They answer the following questions: What quality assurances were made by the maker/provider of the product or service? Were consumer expectations reasonable/valid? Each student writes a business letter of complaint incorporating the findings of their research, including an expected resolution of the problem. Next, each group chooses a specific product or service and identifies and compiles a list of standards appropriate to that product or service. They should research and identify regulations and laws as well as agencies that protect consumers. 	2. Communication 3. Sanitation 4. Human Growth and Development 5. Interpersonal Dynamics 6. Safety 7. Thinking/Problem Solving 8. Personal Resource Management 9. Wellness Career Development (1) 1. Complete development of career plan 2. Apply decision-making skills in selection of a career option 3. Analyze skills and abilities in a career option Integrated Learning (2) 1. Demonstrate integration and application 2. Use academic knowledge and skills 3. Research, interpret, analyze, and evaluate information Universal Foundation Skills (3a)	•

Human and Public Services

Title of Activity: Teens Across the Eras

GRADE			
9	10	11	12

11 12			
OBJECTIVE(S)		COMMENCEMENT STANDAR	DS
OBJECTIVE(S) Students understand the psychological, biological, and sociological influences on teenage development. DESCRIPTION OF ACTIVITY • Students work in groups of three to research changes in the lifestyle, health, and attitudes of teenagers across multiple decades and then explain how those periods of history influence how a person ages. • For example: O If I am a recent college graduate, how did my teenage era influence how I live today? O If I am a baby boomer (45-60 years old), how did my teenage era influence how I live today? • Each group gives an oral presentation that includes examples of the psychology, biology, and sociology of the various generations studied. Individually, students prepare a written report focusing on two or more of the following influences: O Health O Sexuality Public policy Finances O Careers O Retirement O History Food and nutrition O Clothing O Housing O Education COMMENCEMENT STANI Human and Public Services (3b) 1. Ethical/Legal Responsibilities 2. Communication 3. Sanitation 4. Human Growth and Development 5. Interpersonal Dynamics 6. Safety 7. Thinking/Problem Solving 8. Personal Resource Management 9. 	9. Wellness	•
	Career Development (1)	
 Given data on various employment options in a certain human and public services area, students create a chart to compare these options. For example, students receive information on four different salon organizations. Data for each salon might include salary, commissions, working hours, costs for educational/training requirements, benefit packages, salon atmosphere, costs for supplies, etc. Charts should be constructed using appropriate computer technology. Based on the charts, students evaluate: Weekly pay, including salary, commission, gratuities Costs/benefits of training/retraining/continuing education Possible additional remuneration that may be provided in the form of benefits. For example, how much would it cost if the worker had to pay for health insurance? Possible additional costs Students select the employment option that best suits their individual needs/goals/lifestyles and prepare a written justification describing 	1. Career Development Occupational Studies

Core Curriculum

Standard 3b
Career Clusters—
Natural and Agricultural Sciences

CORECURRICULUM— NATURALAND AGRICULTURALSCIENCES

This section provides teachers with an organizational tool that connects the Career Development and Occupational Studies Learning (CDOS) Standard 3b with corresponding performance indicators. The goal of this core curriculum is to provide a user-friendly guide that links CDOS with other content areas and provides educators with a framework for lesson plan development.

Standard 3b: Career Clusters

Students who choose a career cluster will acquire the career-specific technical knowledge/skills necessary to progress toward gainful employment, career advancement, and success in postsecondary programs.

1. Basic Agriculture Foundation Development

<u>Performance Indicator:</u> Students demonstrate a solid base of knowledge and skills in natural and agricultural sciences.

Students will:

- A. Understand the definition of the agricultural science industry.
- B. Understand the importance of agriculture:
 - 1. Dollar value
 - 2. Number of people employed
 - 3. Products
 - 4. Services
 - 5. Job opportunities
 - 6. Regional and local agriculture
 - 7. National statistics
 - 8. Global economy
- C. Identify careers in agriculture:
 - 1. Job opportunities
 - 2. Educational requirements
- D. Identify and understand changes and trends in agriculture:
 - 1. Local
 - 2. County
 - 3. Regional
 - 4. State
 - 5. National
 - 6. Global

Discussion Questions

 What is agriculture and why is it important in our society?

- E. Acquire skills and knowledge of systems for understanding basic agricultural areas:
 - 1. Environmental science
 - a. Ecosystems
 - b. Population dynamics
 - c. Soil, water, and air
 - d. Waste reuse, recycling, and disposal
 - e. Environmental management
 - f. Wildlife
 - g. Forestry
 - h. IPM
 - i. Energy
 - 2. Plant science
 - a. Classification and identification
 - b. Physiology/reproduction
 - c. Growth and development
 - d. Financial management, marketing, and distribution of plant products
 - e. Safety measures specific to plant science industry
 - f. Food science and safety
 - 3. Animal science
 - a. Classification and identification
 - b. Health and welfare issues
 - c. Nutrition
 - d. Reproduction
 - e. Growth and development
 - f. Animal management and behavior
 - g. Safety in working with animals
 - 4. Mechanical and technical sciences
 - a. Safety
 - b. Theories and principles
 - c. Measurement
 - d. Tool identification and maintenance
 - e. Systems identification
 - 5. Enterprise management
 - a. Basic economic concepts
 - b. Business management and planning
 - c. Business records
 - d. Markets and marketing
 - e. Financial management
 - f. Analysis of a business
 - g. Purposes of agricultural business
 - h. Production of food, fiber, ornamental, and recreational products and services
 - i. Provide agricultural services to producers and consumers
 - ii. Market and distribute agricultural products
 - iii. Make a profit
- F. Understand legal, ethical, technical, and social responsibilities related to agricultural areas.
- G. Solve agriculture-related problems:
 - 1. Computations commonly used in agriculture
 - 2. Creative thinking and decision making
 - 3. Inquiry-based problem solving
- H. Develop agricultural skills:
 - 1. FFA career development events
 - 2. Leadership events
 - 3. Internships, shadowing, and/or cooperative or classroom work experience

2. Agricultural-Related Technology

<u>Performance Indicator:</u> Students demonstrate the ability to use technology to assist in production and distribution of food goods and services of today's agricultural industries.

Students will:

- A. Understand current technologies:
 - 1. Computerized record keeping and analysis
 - 2. Interactive computer networking
 - 3. Applied technologies
- B. Use tools and equipment.
- C. Locate and use sources of information on current technologies.

Discussion Questions

- How have technology developments impacted agriculture?
- What technologies are used in today's agricultural industries?
- What applied technology skills are needed to be successful in today's agricultural industries?

3. Information Management and Communication

<u>Performance Indicator:</u> Students prepare, maintain, interpret, and disseminate quantitative and qualitative pieces of information relating to the natural and agricultural sciences.

Students will:

- A. Select and use information sources related to agriculture:
 - 1. Periodicals
 - 2. Books
 - 3. Electronic resources
 - 4. Interviews or presentations
 - 5. Charts and graphs
- B. Develop communication skills:
 - 1. Verbal/nonverbal
 - 2. Listening
 - 3. Writing
 - 4. Reading for information and interpretation
- C. Apply communication skills:
 - 1. FFA career development events
 - 2. Leadership events
 - 3. Internship, shadowing, and/or cooperative or classroom work experience
 - 4. Oral presentations
 - 5. Following oral directions
 - 6. Writing reports
 - 7. Technical documentation
- D. Create multimedia presentations, using appropriate technology.

- What information management and communication skills are essential in an agricultural career environment?
- What effects do information management and communication skills have on performance and productivity in the agriculture workplace?
- How are communication skills applied to natural and agricultural sciences?

4. Agriculture Business Systems

Performance Indicator: Students demonstrate an understanding of the interrelationship between agricultural businesses and organizations designed to produce products, services, and information.

Students will:

- A. Understand the cycle of agricultural businesses:
 - 1. Research
 - 2. Supplies
 - 3. Services
 - 4. Information
 - 5. Production
 - 6. Processing
 - 7. Marketing
 - 8. Distribution
- Understand the structure of agricultural business organizations:
 - 1. Sole proprietorship
 - 2. Partnership
 - 3. Corporation
 - 4. Cooperative
 - 5. Franchise
 - 6. Subcontracting
- Understand consumer rights and governmental regulations:
 - 1. Industry organizations
 - 2. Local, state, and national agencies
 - 3. Community organizations
 - Special interest groups

Discussion Questions

- What relationships exist between agricultural sectors and our general society?
- What ownership arrangements exist in agricultural business systems?
- How are agricultural enterprise decisions influenced by nonagricultural organizations and governmental policies?

5. Resource Management

Performance Indicator: Students demonstrate the ability to manage personal time, business, and financial resources.

Students will:

- A. Understand personal resources management:
 - Using time effectively
 - Planning, organizing, and setting goals
 - Developing knowledge and skills
 - **Evaluating performance**
- Understand business resources management:
 - 1. Identifying resources
 - Selecting resources
 - 3. Securing resources
 - 4. Managing resources
- Understand financial resources management:
 - 1. Budgeting
 - 2. Banking
 - Obtaining credit
 - 4. Investing
- D. Understand human resources management:
 - 1. Compensation
 - Supervision
- E. Understand record keeping:
 - 1. Personal resources
 - Business resources
 - Financial resources

• What personal, business, financial, and human resources are needed by an

agricultural enterprise?

• How are personal, business, financial, and human resources managed by agricultural enterprises?

6. Interpersonal Dynamics

Performance Indicator: Students demonstrate the interpersonal skills and abilities needed to function within a sophisticated and sometimes complicated agricultural environment.

Students will:

- A. Identify qualities needed for workplace success:
 - 1. Responsibility for self and others
 - 2. Self-esteem
 - 3. Social interaction
 - 4. Teamwork
 - 5. Self-motivation
 - 6. Adaptability to change
 - 7. Ability to work with and benefit from a multicultural workforce
 - 8. Ethical, legal, and workplace responsibilities
- B. Develop personal qualities:
 - 1. Dedication
 - 2. Integrity
 - 3. Honesty
 - 4. Punctuality
 - 5. Appearance
 - 6. Tolerance
- C. Identify and develop leadership/team skills:

 - Group dynamics
 Meeting procedures
 - 3. Styles of leadership
 - 4. Skills and responsibilities of FFA officers and members

Discussion Questions

- What positive personal attributes are necessary to successfully function in today's agricultural environment?
- How do individuals provide leadership in group and/or team settings?

7. Safety

Performance Indicator: Students demonstrate awareness of the importance of safety and accident prevention in all agricultural situations.

Students will:

- A. Understand and interpret industry safety statistics.
- B. Identify types of hazards:
 - 1. Chemical
 - Mechanical 2.
 - 3. Biological
- C. Identify location of hazards:
 - 1. Home
 - Workplace
 - 3. Environment
- D. Identify safety precautions to prevent accidents:
 - 1. Attitude
 - 2. Alertness
 - 3. Knowledge
 - 4. Pace
 - 5. Age and maturity
 - 6. Safety devices and practices
- E. Identify regulatory agencies:
 - 1. Local
 - 2. State
 - 3. National
 - Industry-specific

• An agricultural worker should be aware of what safety hazards?

- What behaviors and safety precautions must an agricultural worker exhibit and/or observe when working in an agricultural setting?
- How do regulatory agencies affect working conditions in agricultural situations?

Career Development Occupational Studies

Core Curriculum

Standard 3b
Career Clusters—Arts/Humanities

CORECURRICULUM— ARTS/HUMANITIES

This section provides teachers with an organizational tool that connects the Career Development and Occupational Studies (CDOS) Learning Standard 3b with corresponding performance indicators. The goal of this core curriculum is to provide a user-friendly guide that links CDOS with other content areas and provides educators with a framework for lesson plan development.

Standard 3b: Career Clusters

Students who choose a career cluster will acquire the career-specific technical knowledge/skills necessary to progress toward gainful employment, career advancement, and success in postsecondary programs.

1. Foundations

<u>Performance Indicator:</u> Students demonstrate a solid base of knowledge/skills in one or more of the disciplines and the related professions of visual art, dance, music, theatre, and humanities.

Students will:

- A. Develop core discipline knowledge and skills.
- B. Develop supporting specialized content skills.
- C. Develop the ability to synthesize information across disciplines.
- D. Develop heightened awareness of internal processes and external stimuli.
- E. Document the past, reflecting the present, and anticipating future contributions across time and cultures.

Discussion Questions

 How are foundation skills necessary for success in the arts?

2. Communications

Performance Indicator: Students demonstrate the reading, writing, listening, speaking, and graphic and multimedia skills necessary to participate effectively in one or more of the arts/humanities.

Students will:

- A. Develop literacy skills:
 - 1. Visual
 - a. Reading
 - i. Use written text to gather information or perform a task
 - ii. Read graphs, charts, maps, blueprints
 - b. Drawing/painting—communicate a theme
 - c. Dance—express a theme, emotion, or idea
 - d. Theatre—convey a theme, emotion, or idea through the use of costumes and scenery
 - e. Music—view a performance
 - f. Photography—create a mood through the use of lighting

Discussion Questions

• What communication skills enhance production of the arts?

- 2. Oral
 - a. Speaking—use words to clearly communicate ideas or information (e.g., give a persuasive speech)
 - b. Debate—argue a point of view
 - c. Theatre—deliver a soliloquy
 - d. Music—sing a solo
 - e. Visual art—describe a piece of artwork
 - f. Interview techniques
- 3. Aural
 - a. Listening—follow verbal instructions
 - b. Music—distinguish families of instruments (e.g., know difference between wind and brass instruments)
 - c. Dance—interpret music in movements
- 4. Written
 - a. Use written words to express ideas, opinions, or concepts
 - b. Compose a four-measure rhythmic phrase
 - c. Compare and contrast a style/period of art
 - d. Write a critique (e.g., plays, movies, works of art)
 - e. Write in a journal
- 5. Nonverbal/kinetic (movement)
 - a. Dance
 - b. Pantomime
 - c. Puppetry
 - d. Symbolism
 - e. Sign language
 - f. Body language, gestures
 - g. Use of a musical graphic device
 - h. Textiles (e.g., communication through quilting)
- 6. Tactile
 - a. Feel object to draw a picture, do a sculpture
 - b. Use Braille to read
 - c. Read keys of an instrument (e.g., piano, string instruments)
 - d. Use different fabrics in design (e.g., fiber art, quilting)
 - e. Use rough, smooth, or jagged textures to express emotions
- B. Identify and use appropriate multimedia tools for specific disciplines:
 - 1. Videography, filmmaking, video arts
 - 2. Computer application, computer arts
 - 3. Software (e.g., PowerPoint, Photoshop, etc.)
 - 4. Creative sound
 - 5. MIDI applications
 - 6. Graphic arts (e.g., digital printing, silk screen, etching)
 - 7. Photography (e.g., holography)

3. Aesthetics

Performance Indicator: Students demonstrate the ability to express informed judgments about the arts/humanities and related professions.

Students will:

- A. Develop and practice response:
 - 1. Definition: an audience's cognitive, physical, and/or emotional experience with art
 - 2. Factors that affect response
 - a. Life experiences
 - b. Cultural/historical context
 - c. Education
 - d. Mental/physical abilities
 - e. Belief system/philosophy
- B. Understand and develop critical analysis/valuing:
 - Definition: the evaluation of a response is based upon the fundamental principles and social context of each discipline
 - Areas for analysis
 - a. Structure
 - b. Technique
 - c. Skill level
 - d. Composition

4. Personal Qualities

Performance Indicator: Students demonstrate the skills necessary to function and interact effectively in a variety of settings within the arts/humanities.

Students will:

- A. Understand and practice responsibility:
 - 1. Punctuality
 - 2. Reliability
 - 3. Integrity
- B. Understand and practice cooperation:
 - 1. Consideration
 - 2. Collaboration
 - 3. Courtesy
 - 4. Thoughtfulness
 - 5. Flexibility
- C. Understand and practice motivation:
 - 1. Fortitude
 - Perseverance
- D. Understand and practice intuition:
 - 1. Sensitivity
 - 2. Curiosity
- E. Understand and practice risk taking:
 - 1. Courage
 - 2. Ability to set trends3. Independence

 - 4. Confidence
 - Assertiveness
 - 6. Inventiveness
 - Openness to criticism
- F. Understand and practice physical and mental wellness.

Discussion Questions

 How do individual experiences and critical analysis skills affect responses to the arts?

Discussion Questions

• How do personal qualities contribute to individual success as a productive member of the artistic community?

5. Creative Processes and Practices

<u>Performance Indicator:</u> Students demonstrate a repertoire of experience when presenting an exhibition, performance, portfolio, or publication.

Students will:

- A. Practice innovation:
 - 1. Divergent thinking
 - 2. Thinking out of the box
 - 3. Ability to integrate concepts
 - 4. Resourcefulness
- B. Practice critiquing/evaluation:
 - 1. Communication
 - 2. Internal processes
 - 3. Reflection
 - 4. External processes
 - 5. Exhibition
- C. Practice problem solving:
 - 1. Imagination
 - 2. Improvisation
 - 3. Vision

Discussion Questions

• Why are the creative processes intrinsic to production of the arts?

6. Making Results Public

<u>Performance Indicator:</u> Students create an ongoing portfolio that demonstrates the competencies and creative processes delineated in the preceding key ideas.

Students will:

- A. Understand techniques of exhibition:
 - 1. Selection
 - 2. Preparation
 - 3. Promotion
 - 4. Presentation
- B. Develop a portfolio:
 - 1. Internal uses (e.g., growth and career planning)
 - 2. External uses (e.g., job search, college admissions, scholarships)
 - 3. Recognition (e.g., contests, applause, awards)
- C. Prepare and deliver a culminating public event:
 - 1. Musical or dramatic production, or preparation of an individual audition/monologue
 - 2. Dance recital or community collaboration for festivities
 - 3. Fashion show
 - 4. Group or individual art show
 - 5. Yearbook or video yearbook
- D. Understand the importance of public advocacy, community education, and marketing:
 - 1. Parental involvement
 - 2. Documentation
 - 3. Dissemination
 - 4. School/business partnerships
