INSTRUCTIONS FOR COMPLETING
BASIC EDUCATION DATA SYSTEM (BEDS)
CHARTER SCHOOL DATA FORM – Fall 2020

General Instructions
This form should be completed by the charter school leader and used only for the local gathering of data. Data represented in this form are required to be submitted to SED via the BEDS Online IMF application located on the IRS Data Exchange (IDEx) at http://portal.nysed.gov. Your school’s BEDS Coordinator or charter school leader will have details for entering data into the BEDS Online IMF application and your school’s protocol for doing so.

1. One Charter School Data Form should be completed for each school organized as a separate administrative unit. Do not complete separate forms for classes that are held in temporary quarters, annexes, or other school buildings, that are under the supervision of a regular charter school leader. Such classes should be reported as part of the school in which the principal in charge serves. A rule of thumb is that one form should be completed for the total administrative unit under each charter school leader regardless of the number of locations involved.

2. Read the instructions for each item before completing it.

3. Be sure that all items pertinent to this school are completed.

Item 1: School Type
School Type is a federal data collection requirement and will be provided to the U.S. Department of Education. The USDOE will publish and otherwise make this school type designation available about your school. You may select only one designation. Select the one that is the primary focus of your school. The federal school type definitions are:

a) Regular School: a school that does NOT focus primarily on vocational, special or alternative education, although it may provide these programs in addition to a regular curriculum

b) Special Education School: a school that focuses primarily on serving the needs of students with disabilities

c) Vocational Education School: a school that focuses primarily on providing secondary students with an occupationally relevant or career-related curriculum, including formal preparation for vocational, technical or professional occupations

d) Alternative Education School: a school that addresses the needs of students that typically cannot be met in a regular school program. The school provides nontraditional education; serves as an adjunct to a regular school; and falls outside the categories of regular, special education or vocational education.

Item 2: Magnet School Status
Magnet school status is a federal data collection requirement and will be provided to the U.S. Department of Education. The USDOE will publish and otherwise make this magnet school status available about your school. You may select only one designation.

A magnet school or program is a special school or program designed to:

- Attract students of different racial/ethnic backgrounds for the purpose of reducing, preventing or eliminating racial isolation (50% or more minority enrollment).
- Provide an academic or social focus on a particular theme (e.g., science/mathematics, performing arts, gifted/talented or foreign language).

Item 3: Alternative Education Programs
Alternative Education Programs are designed for students who wish to pursue individualized approaches to achieving academic standards. Alternative Education Programs reported here must meet Part 100 requirements of Commissioner’s Regulations for credit towards a local or Regents high school diploma. Indicate whether or not students enrolled in this school have Alternative Education Programs available to them by selecting either ‘Yes’ or ‘No’. If the school is an alternative school or contains an alternative program, indicate ‘Yes’.

If YES, in the next section enter the number of students enrolled in:

- Alternative Education Programs operated by this school
- Other Alternative Programs (programs operated by another school, group, agency, institution, etc.)
Students attending an Alternative Education Program operated by another school or other educational entity on a full-time basis should not be counted as enrolled in this school and, therefore, should not be counted in this item.

**Item 4: Grades Offered**

Please respond as grades in your building would normally be offered and not according to your school reopening plan in response to COVID-19. Please report grades offered as of BEDS Day. If Prekindergarten programs that are usually offered in the fall are delayed due to uncertainty about funding, please do not report as offered.

Grades offered is a federal data collection requirement and will be provided to the U.S. Department of Education. The USDOE will publish and otherwise make this information available. Any grade selected as offered must have a reported enrollment in the Student Information Repository System (SIRS). However, you do not have to select a grade as offered for which you may have reported a nominal enrollment in SIRS. For example, you may be a 9-12 senior high school, but may have reported a few students in SIRS as enrolled in the eighth grade. You do NOT have to select eighth grade as a grade offered. In this scenario the USDOE would show your school as offering only grades 9 through 12 even though you reported a few eighth graders in your school.

You do not have to differentiate between half-day and full-day kindergarten. You do not have to report an unbroken sequence of grades. For example, you may select kindergarten and grades 4, 5 and 6.

**Item 5: Lunch, Breakfast and Milk Programs**

In Section 5A, indicate whether this school participates in the Federal Child Nutrition Program. The Federal Child Nutrition Program includes free and reduced price breakfast and lunch and free milk programs.

If this school does participate in the Federal Child Nutrition Program, indicate which provision this school has implemented. Child Nutrition Program regulations include certain provisions that reduce paperwork and that do not require a school to collect eligibility data and certify students each year.

Provision 2 requires schools to offer meals at no charge to all students in exchange for conducting eligibility certification and standard counting and claiming only once every four years. Direct Certification (DC) must be conducted at least once annually when participating in Provision 2 for federal and State reporting purposes. Local Education Agencies (LEAs) must apply to NYSED Child Nutrition to participate in Provision 2, which is a four-year provision. Additional four-year extensions may be granted if the school can substantiate economic need.

Community Eligibility Program (CEP) requires that at least 40 percent of students be determined eligible via direct certification (DC). Local Education Agencies (LEAs) must apply to NYSED Child Nutrition in order to participate in CEP, which is a four-year provision. Schools participating in CEP must conduct DC at least once annually for federal and State reporting purposes.

If your school does NOT participate in the Federal Child Nutrition Program, indicate whether the school collects free and reduced price student eligibility information. In order to answer ‘YES’ to this question, a school must have on file completed and approved lunch applications, DC or other documentation acceptable to the Federal Child Nutrition Program.

If your school participates in the Federal Child Nutrition Program OR collects student eligibility information, enter the number of eligible students for free and reduced price school meals by grade level in Sections 5B and 5C. Counts should be as of October 7, 2020 and are needed even if a Provision 2 or CEP agreement is in place. Schools implementing Provision 2 or CEP should use current year data (via DC and the collection of other household economic need data).

Each student with an approved application or other documentation should be counted only in the school in which he or she is enrolled, regardless of where they are fed.

In Section 5D indicate the total number of eligible students for free and reduced price school meals.

**Item 6: Learning Standards and Professional Development**

Indicate whether or not this school has one or more staff persons responsible for planning, coordination and/or delivery of professional development activities relating to the NYS Learning Standards and focusing on any or all of the seven curricular areas.

If you have one or more staff members sharing these responsibilities, indicate the combined time that they devote to these activities. For instance, if two people are each employed full-time, and one devotes ½ time and the other ½ time to these activities, then you should indicate ¼ time. If two or more persons’ combined time exceeds one full-time equivalent, indicate “more than full time.”
Item 7: Career Plans

If students in this school develop Individual Career Plans, indicate whether they are kept in documented form—either written or electronic. Written or electronic documentation may result from conventional testing or from individual student self-reflection on in-school and out-of-school experiences.

If Career Plans are kept in either written or electronic form, indicate in the next section whether Individual Career Plans follow students from grade-to-grade. For the purposes of this question, NO must be checked if Individual Career Plans are not transferred from one grade to the next or from one school to another as students are promoted or transferred.

In the first table provided, enter the number of students in grades K through 3 who are documenting self and career awareness information and career exploration activities.

For students in grades 4 through 12, use the table provided to indicate the number of students at each grade level group who are developing a Career Plan. In the first column, enter the total number of students that have developed a career plan that documents their progress in the Career Development and Occupational Studies (CDOS) areas of self-knowledge, career exploration, career and life goals, an understanding of the application of classroom learning, and the development of foundation skills. Include ungraded students in age appropriate grade levels. In the second column, indicate the number of students in each grade level group with an Individualized Education Program (IEP) who are developing a Career plan that documents their progress in the CDOS areas of self-knowledge, career exploration, career and life goals, an understanding of the application of classroom learning, and the development of foundation skills.

In the last section of Item 7, enter the number of professional staff (classroom, non-classroom, administrators, etc.) who have participated in professional development activities related to the implementation of the comprehensive Career Plan process. Professional development activities to be considered may have taken place at any time from September 2019 through August 2020.

Item 8: Business/Employer/Community Involvement

In Section 8A, indicate if any students in this school participated in any work-based experiences during the 2019-20 school year.

In Section 8B, enter the number of employers and the number of students by grade who participated during the 2019-20 school year in each of the work-based learning experiences. If exact counts of participating students are not available, provide your best estimate. A student with a disability is a student identified as disabled by the district’s Committee on Special Education. A student with a disability educated in a graded setting (e.g., grade 9 or grade 11) should be reported twice: once in the applicable grade and once under “Students with Disabilities.” Students and employers may be reported in more than one type of work-based experience. The work-based experiences are defined as follows:

Job Shadowing

Visit(s) to a worksite where a student follows (shadows) an employee to learn about a particular occupation or industry. Shadowing may involve rotating from one department to another. It is an observation only activity, no hands on activities allowed.

Summer Internships

Structured experiences of several weeks or months during the summer where students work on specific tasks or special projects at a worksite related to school programs.

Workplace Mentors

Programs that pair students with a worksite role model to help them become accustomed to the rules, norms and expectations of the workplace. A mentorship is a formal relationship, with mentors serving as a resource to help students solve personal and work-related problems, provide support and encouragement, and offer career insight and guidance based on personal experiences. Student mentees may only observe unless they are enrolled in a state registered Work-Based Learning (WBL) program.

Community Service/Volunteering

Structured experiences where students learn and develop skills by participating in organized, hands-on community service work. Work activities are designed to meet actual community needs and are closely linked to school-based learning activities. Community Service is generally an unpaid or volunteer experience that works directly with a community organization.

Cooperative Career & Technical Education Work Experience Program (CO-OP)

The Cooperative Career & Technical Education Work Experience Program is a work-based learning program for students age 16 and above, consisting of 150-600 hours of paid, school-supervised work experience, supported by related in-school
instruction in a specific career & technical discipline. Students may earn ½ to 2 units of credit towards a CTE sequence, depending upon the specific sequence. This program must be registered with the New York State Education Department, and must be coordinated by a CTE teacher who possesses an extension as a Diversified Co-op Coordinator or as a Coordinator of Work-Based Learning Programs for Career Development (8982). Productive work is allowed. USDOL hazardous occupations student learner exemptions not allowed.

Career Exploration Internship Program (CEIP)
The Career Exploration Internship Program is a school-business partnership initiative that provides high school students, age 14 and above, the opportunity to obtain non-paid, on-site, career exploration experiences. The focus of the program is meaningful, hands-on, career exploration rather than skill development. Students may earn ¼ to 1 unit of elective or CTE sequence credit. This program must be registered with the New York State Education Department, and must be coordinated by a CTE teacher who possesses an extension as a Diversified Co-op Coordinator or as a Coordinator of Work-Based Learning Programs for Career Development (8982). Productive work is prohibited. USDOL hazardous occupations student learner exemptions not allowed.

General Education Work Experience Program (GEWEP)
The General Education Work Experience Program is a work-based learning option for non-CTE students, age 16 and above. The program consists of 150-600 hours of paid, supervised work experience, supported by the equivalent of at least one classroom period per week of related instruction. Students typically earn ½ to 2 units of high school credit. This program must be registered with the New York State Education Department. It may be coordinated by any teacher or guidance counselor certified at the secondary level who possesses an extension as Coordinator of Work-Based Learning Programs for Career Exploration (8982). Productive work is allowed. USDOL hazardous occupations student learner exemptions not allowed.

Work Experience and Career Exploration Program (WECEP)
The Work Experience and Career Exploration Program is a work-based learning initiative sponsored by the U.S. Department of Labor and the New York State Education Department. It is similar in design and operation as the General Education Work Experience Program, but designed specifically for at-risk students age 14-15. Students typically earn ½ to 1 unit of high school credit. This program must be registered with the New York State Education Department. It may be coordinated by any teacher or guidance counselor certified at the secondary level who possesses an extension as Coordinator of Work-Based Learning Programs for Career Awareness (8981) or Career Development (8982). Productive work is allowed. USDOL hazardous occupations student learner exemptions not allowed.

In Section 8C, indicate whether or not this school has a designated staff person responsible for coordinating work-based experiences. If there is a designated coordinator, indicate the portion of a full-time job this person devotes to these coordinating activities. If two or more people share responsibility, indicate the combined time that they devote to these coordinating activities.

In the next part of Section 8C, provide an unduplicated count of the number of employers who participated in the work-based experiences noted in Section 8B. Of these employees, indicate:

- The number of employers who formally participated in curriculum-development or shared decision making committees in this school. The fact that a committee member is employed by a specific entity does not constitute formal representation of or contribution by that employing entity. An employer or business should have an acknowledged and agreed upon presence on the committee in order to be counted in this section.
- The number of employers who provided student internships or mentors to this school during the 2019-20 school year.

In the final part of Section 8C, provide an unduplicated count of the number of community-based organizations who provided volunteering experiences noted in Section 8B.

Item 9: Applications and Admissions
Indicate the number of students who applied for admission for fall 2020 as first-time students to the school. Of the students who applied as first-time
students, indicate the number of students who were admitted.

**Item 10: Title I Information for Federal Reporting**

A school receiving Title I funds must operate either a Targeted Assistance program or a Schoolwide program. In the past, districts and charter schools have reported Title I status via an online application available through the NYSED Business Portal. Beginning with the 2019-20 school year, this information is now collected via BEDS. Title I status information for 2019-20 and 2020-21 must be entered by charter schools. Information on Schoolwide programs can be found at [http://www.nysed.gov/essa/title-i-part-improving-basic-programs-operated-leas](http://www.nysed.gov/essa/title-i-part-improving-basic-programs-operated-leas). A school that receives Title I funding but does not implement a Schoolwide program is considered, by default, to be operating a Targeted Assistance program. If you are not sure what your Title I status is, please contact your School Data Coordinator or Charter Leader for assistance.

If you have questions about completing any section of the “Title 1 Information for Federal Reporting” item, please contact the Title 1 School & Community Services office at conappta@nysed.gov or (518) 473-0295.

In **Section 10A**, indicate whether your school received Title I funding for the 2019-20 school year. If **YES**, specify the type of Title I program that was implemented. If your school opened in the 2020-21 school year, choose the “**New School in 2020-21**” option.

Also indicate whether your school expects to receive Title I funding in the 2020-21 school year. If **YES**, specify if your school expects to implement a Schoolwide or a Targeted Assistance program. Only one type of program may be chosen.

For **Sections 10B and 10C**, include all pupils served in academic intervention services (AIS) and/or supplementary (compensatory) instructional programs funded in whole or in part by Title I. Include students served in regular school day, before school, after school, and/or board-approved extended day programs.

In **Section 10B**, if your school is a Title 1 Targeted Assistance School (TAS), indicate the number of students served during the 2019-20 school year in each of the subject areas listed. Students may be reported in more than one subject area, e.g., may be reported in both Mathematics and Vocational/Career. Enter zero if you school is not a Title 1 Targeted Assistance School (TAS).

In **Section 10C**, if your school is a Title 1 Targeted Assistance School (TAS), indicate the number of students served during the 2019-20 school year in each of the program support service areas listed. Students may be reported in more than one program support service area, e.g., may be reported in both Health, Dental or Eye Care as well as in Other Support Services. Enter zero if you school is not a Title 1 Targeted Assistance School (TAS).

In **Section 10D**, provide the number of full-time equivalent (FTE) staff funded by a Title I, Part A Targeted Assistance Schools (TAS) program in each of the staff categories provided. For staff who work with both TAS (Targeted Assistance Schools) and SWP (School-wide Programs), report only the FTE attributable to their TAS responsibilities.

In **Section 10E**, enter the number of full-time equivalent (FTE) paraprofessional staff funded by a Title I, Part A School Wide Program (SWP) in the first column. Enter FTE to the nearest tenth. In the second column, enter the number of full-time equivalent (FTE) paraprofessional staff providing instructional support who were qualified in accordance with Section 1119 (c) and (d) of ESEA.

FTE is the ratio between the hours of work required in a part-time position and the hours of work normally required in a full-time position in the same setting. For example, 4 teacher aides who work half-time should be reported as 2.0 in the FTE column. Enter FTE to the nearest tenth.

“Paraprofessionals providing instructional support” are employees who provide instructional support in a program supported with Title I, Part A funds (ESEA, Title I, Section 1119(g)(2)). Instructional support includes: (1) providing one-on-one tutoring for eligible students, if the tutoring is scheduled at a time when a student would not otherwise receive instruction from a teacher; (2) providing assistance with classroom management, such as organizing instructional and other materials; (3) providing support in a library or media center; or (4) providing instructional services to students.

“Other paraprofessionals” are paraprofessionals who do not provide instructional support, for example, paraprofessionals who are translators or who work with parental involvement or computer assistance (ESEA, Title I, Section 1119(e)).

For the paraprofessionals only, provide the number of full-time equivalent (FTE) paraprofessional staff providing instructional support who were qualified in accordance with Section 1119 (c) and (d) of ESEA. A qualified paraprofessional is one who has (1) completed two years of study at an institution of higher education; (2) obtained an associate’s (or higher) degree; or (3) met a rigorous standard of quality and
been able to demonstrate, through a formal State or local academic assessment, knowledge of and the ability to assist in instructing reading, writing, and mathematics (or, as appropriate, reading readiness, writing readiness, and mathematics readiness)(Section 1119(c) and (d)). For more information on qualified paraprofessionals please refer to the Title I Paraprofessionals Guidance, available at: http://www.ed.gov/policy/elsec/guid/paraguidance.doc

Item 11: Bilingual Education Programs

The Office of Bilingual Education and World Languages is collecting information on whether your school is providing a Bilingual Education (BE) program to all ELLs.

Under CR Part 154-2.3(d) regulations school districts (LEAs) have the responsibility of providing either a Bilingual Education (BE) program or English as a New Language (ENL) program to all ELLs. CR Part 154-2.3(d) also mandates the conditions under which districts must create BE programs.

Part 154-2.3(d)(2) states that “Each school district in which the sum of each school’s Annual Estimate of Enrollment of English Language Learners equals 20 or more English Language Learners of the same grade level, all of whom have the same home language that is other than English, shall provide a sufficient number of Bilingual Education programs in the district in the following school year, such that there are Bilingual Education programs available in the district for at least seventy percent (70%) of the estimated English Language Learners students who share the same home language other than English and grade level districtwide.”

If a bilingual program is offered in your school, then schools must enter the type of program, language of instruction, and the grade span in which the program is currently offered. There are generally two types of Bilingual programs, one is called a Transitional Bilingual Education Program (Home language use decreases as English use increases), and the other is called either a One-Way or Two-Way Dual Language Program

One-Way Dual Language Program is primarily composed of students who come from the same home/primary language and/or background. The teacher provides instruction in both English and the home/target language.

Two-Way Dual Language Program includes both native English speakers and ELLs. The teacher or teachers provide instruction in both English and the home/primary language. In the majority of Dual Language Programs, the students receive half of their instruction in their home/primary language and the remainder of their instruction in the target language. Depending upon the model, the percentage of English and home/target language instruction will vary. For example, in a 90%-10% model, a greater percentage of instruction is in the target language other than English and increases over time until reaching 50%-50%.

The goal of these programs is for students to develop literacy and proficiency in English and in the home/target language.

Item 12: Activities of Subgrantees Related to the Teaching and Learning of English Language Learners (ELL)

Section 3115 of the Elementary and Secondary Education Act (ESEA) requires that Local Education Agencies (LEAs) receiving Title III funding (subgrantees) must improve the education of English Language Learners by assisting children to learn English and meet the challenging State academic standards. The ESEA prescribes activities, as listed in this question, that LEAs may use Title III funds for in order to meet these requirements.

Indicate “Yes” or “No” for each type of activity the charter school offers that align with the descriptions provided.

Item 13: Paraprofessional and Nonprofessional Staff (Other Staff)

Report in the categories listed, all paraprofessionals and support staff employed by this charter school. Furloughed or laid off staff should not be counted. Report as teacher aides and library support staff only persons engaged in activities which, in the absence of such staff, would ordinarily be performed by teachers or librarians. Report as teaching assistants only persons who actually hold licenses or certificates as language in two contiguous grades and in grades 9-12 when there are 20 or more ELLs in any single grade.
teaching assistants. These credentials may include Teaching Assistant Level I, Level I Renewal, Level II, Level III or Preprofessional. Also include holders of teaching certificates employed as teaching assistants.

“Part-time” employees include (1) those whose assignments require less than the normal school (or work) day for that assignment or normal school (or work) week for that assignment and (2) those persons employed on a full-time basis who divide their time between two or more duties.

In the third column, indicate the full-time equivalence (FTE) of the amount of time worked by the part-time staff in each category. The FTE column should be completed only if part-time staff has been reported. The FTE should be shown to the nearest tenth (one decimal place).

FTE is the ratio between the hours of work required in a part-time position and the hours of work normally required in a full-time position in the same setting. For example, 4 teacher aides who work half-time should be reported as 2.0 in the FTE column. Similarly, an individual who spends half-time as a teaching assistant and half-time as a health aide would be reported as “1” in the part-time column as teaching assistant with a 0.5 FTE and also “1” in the part-time column as a health aide with a 0.5 FTE.

**Item 14: Person Completing Form**

In case of questions, the person actually completing the BEDS form should provide their contact information (Name, Title, Email Address and Phone Number). This does not have to be the building CEO of record on SEDREF.
