Laws and Regulations

The screenshot shows the top navigation bar with links for Board of Regents, News, Index, COVID-19, Translate, Contact Us, and Employment. The NYS ED logo is prominently displayed with the tagline 'Knowledge > Skill > Opportunity'. A secondary navigation bar includes links for NYSED, Education Areas, Standards and Instruction, Assessments, Certification & Licensing, School Business, and Data & Reporting. The main content area features a large orange banner with the title 'Every Student Succeeds Act (ESSA)' and a paragraph explaining that the U.S. Department of Education approved New York's ESSA plan in January 2018, highlighting its focus on equity and student success.

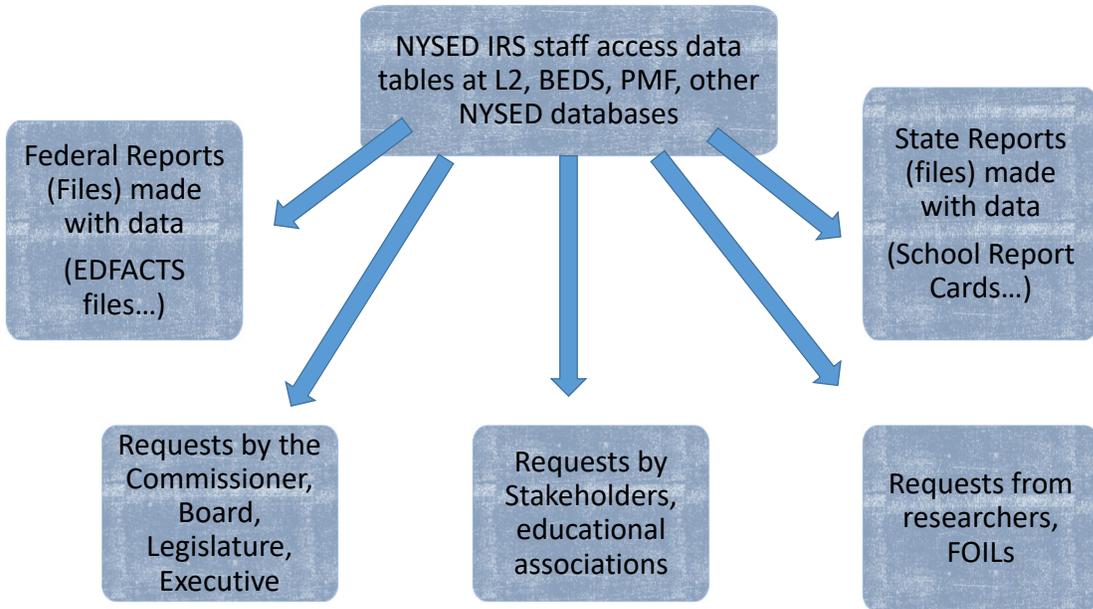

<http://www.nysed.gov/essa/nys-essa-plan>

This screenshot shows a detailed page titled 'Approved New York State ESSA Plan'. On the left is a blue sidebar menu with options: 'Every Student Succeeds Act (ESSA)', 'New York State ESSA Plan', '2021-2022 Consolidated Application for ESSA-Funded Programs', 'Assessment and Accountability Waivers', and 'Accountability Designation Materials'. The main content area includes a sub-header 'Approved New York State ESSA Plan', a paragraph describing the act's purpose, and a bulleted list of three key documents: 'New York State's Approved Every Student Succeeds Act Plan', 'New York State's Approved Every Student Succeeds Act Plan with tracked changes', and 'New York State's Letter to the United States Department of Education (USDE) Summarizing Changes to the Every Student Succeeds Act Plan'. A link for 'Find archived information here' is also present.

Data collections align to the NYS Every Student Succeeds Act, ESSA, that was created in 2018 following the release of the US Department of Education, US DE, updated Federal regulations.

NY STATE - NEW YORK STATE REPORT CARD [2020 - 21]

The New York State Report Card is an important part of the Board of Regents' effort to create educational equity and raise learning standards for all students. Knowledge gained from the report card on a school's or district's strengths and weaknesses can be used to improve instruction and services to students. The report card provides information to the public on school/district staff, students, and measures of school and district performance as required by the Every Student Succeeds Act (ESSA). Fundamentally, ESSA is about creating a set of interlocking strategies to promote educational equity by providing support to districts and schools as they work to ensure that every student succeeds. New York State is committed to ensuring that all students succeed and thrive in school no matter who they are, where they live, where they go to school, or where they come from.

Due to COVID-19 and changes to New York State testing, accountability, and federal reporting requirements, 2021-22 district and school accountability statuses are the same as those assigned for the 2020-21 school year. For informational purposes, accountability graduation rates and chronic absenteeism data are reported. August 2020, January 2021, and some June 2021 Regents examinations were canceled. For more information, please see the NYSED Waiver Memorandum and NYS Board of Regents Announcement.

Accountability Data

Data used to determine a school's or district's accountability status under the New York State ESSA Plan, a list of all NYS district and school statuses, amount of funds received by districts and schools under the Title I School Improvement Grant, and strategies implemented in these schools to demonstrate improvement. Accountability indicators are listed in the order in which status identification is made per the NYS Plan and as shown in the Glossary and Guide available using the link above.

Due to COVID-19 and changes to New York State accountability and federal reporting requirements, 2021-22 district and school accountability statuses are the same as those assigned for the 2020-21 school year. For informational purposes, accountability graduation rates and chronic absenteeism are reported.

Accountability Status

The Every Student Succeeds Act, or ESSA, the main federal law for K-12 public education, requires that states hold public schools accountable for how students achieve. New York State established a set of indicators to measure school and district performance.

The accountability system classifies schools into one of three categories: In Good Standing, a Comprehensive Support and Improvement (CSI) school, or a Targeted Support and Improvement (TSI) school.

School Designations		
Good Standing District	Comprehensive Support and Improvement (CSI) School	Target District
A district in Good Standing demonstrates success in all performance goals.	Schools that struggled to prepare all of their students with some or all indicators of success.	Districts that struggled to prepare some of their student subgroups on some or all indicators are identified as Target Districts.

This classification system is all about achieving equity. By identifying schools that need the most attention, NYSED and school districts can focus resources on these schools. Visit our website to learn more about [what happens if your child's school is identified as a CSI or TSI school](#).

Read the [Accountability Fact Sheet for Parents](#) for more information. Find more information about [ESSA Accountability Designations on our website](#).

View of the Accountability Status of all NY state schools for the 2017-2018 SY. Calculations of new accountability ratings have not yet resumed since the COVID pandemic began. NYSED carried-over schools' statuses when the regular collection and review of data was disrupted by the pandemic.

ELEMENTARY/MIDDLE STATE

Per the U.S. Department of Education-approved waiver, districts and schools, including those that were in the 2020-21 school year the same accountability status assigned for the 2019-20 school year with no progress detentions.

Subgroup	Status
All Students	Good Standing
Asian or Native Hawaiian/Other Pacific Islander	Good Standing
Black or African American	Good Standing
Hispanic or Latino	Good Standing
Multiracial	Good Standing
White	Good Standing
English Language Learners	Good Standing
Students with Disabilities	Good Standing
Economically Disadvantaged	Good Standing

Schools are given overall ratings and ratings for their effectiveness servicing students in various Accountability Sub- Groups.

Gender is not an Accountability subgroup.

The next section of data.nysed.gov allows for the review of all data elements or results/reports can be built by one or various data elements measured under ESSA.

Chronic Absenteeism is an important metric in the ESSA regulations that is weighed into the calculation or Accountability Ratings.

Since the 2020-2021 SY, all schools are required to report attendance for every day of every students enrollment. Failure to report all data, missing data, will be considered negative attendance (absences) I eth calculation of Attendance rates and Chronic Absenteeism. Reporting no Student Daily Attendance data would result in the public reporting of 100% Chronic Absenteeism.

Collection Systems and Applications

Collection Systems and Applications

Regional Information Centers (RIC) collect data from their component schools and are considered Level 1 of the data warehouse. Your RIC also hosts the Level 0 software, a virtual 'ground floor' of the data warehouse where schools can load data into the system.

NYSED and all of their data systems are considered Level 2 of the data warehouse.

Data in Levels 0 – 2 are linked to staff/student personally identifiable information, PII.

All public reporting and US ED reporting is aggregate data: counts by categories.

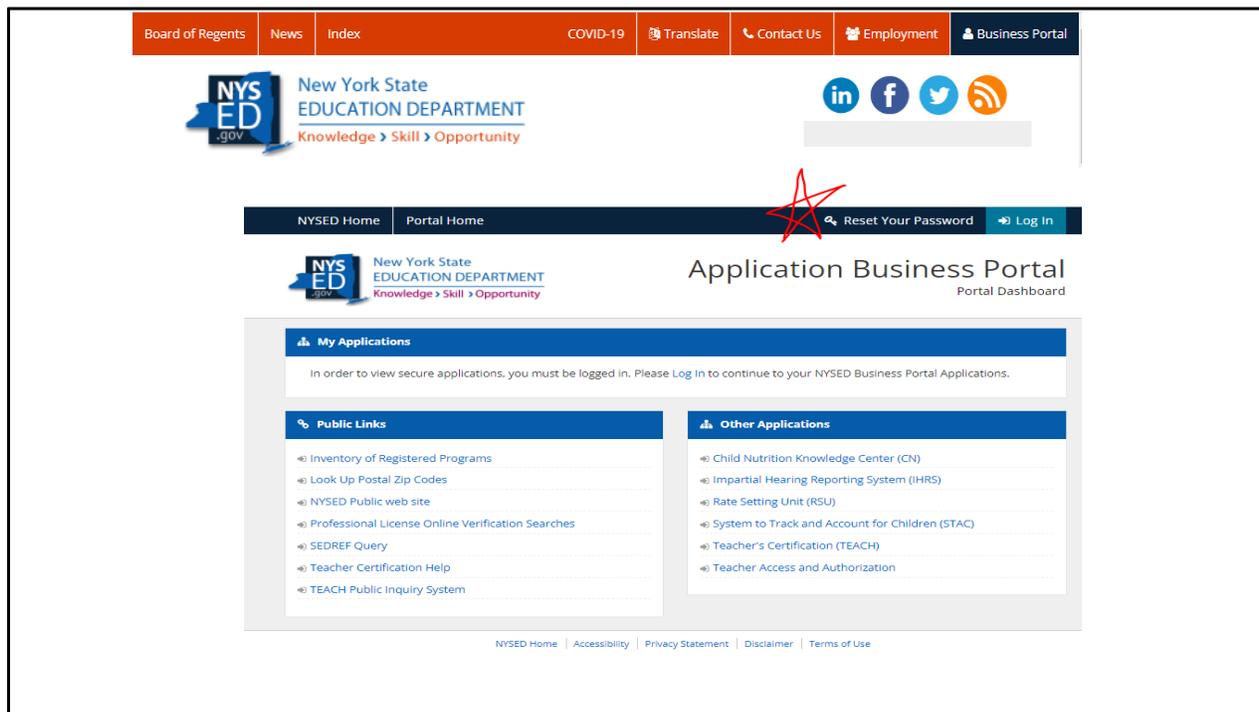

Collection and Reporting Systems

<http://www.nysed.gov/information-reporting-services/collection-and-reporting-systems>

Software applications supported, in whole or in part, by the Office of Information and Reporting Services:

- **BEDS (Basic Educational Data System) Institutional Master File (IMF) data collected via BEDS Online**
Application for the collection of Public District, Public School, Charter school, BOCES and Nonpublic School data.
- **IDEx (IRS Data Exchange)**
Application for the secure exchange of data between NYSED and authorized users.
- **IRSP (Information and Reporting Services Portal)**
Application for the secure distribution of protected, personally identifiable information to authorized users.
- **L1HC (Level 1 Host-Child relationships processing)**
Application allowing Level 1 hosting centers to submit their list of current School Year LEAs for whom they submit data to SIRS. Controls access to NYSSIS and loading to L1C.
- **L2RPT (Level 2 Reporting Environment)**
Set of reports for authorized users to view and verify data submitted to SIRS to ensure data accuracy, as well as to view individual student reports.
- **Level 0 Historical (LOH)**
Application for updating select data elements in records from prior school years via SIRS.
- **NYSSIS (New York State Student Identification System)**
System for assigning unique identification numbers to individual students.
- **PD System**
The Special Education data collection system for SEDCAR (Special Education Data Collection, Analysis & Reporting).
- **Public Data Site**
NYSED's public resource for reporting a wide array of educational data in and about New York State schools.
- **SEDDAS (State Education Department Delegated Account System)**
System for enabling administrators of districts and schools to provision user accounts for secure access to NYSED systems.
- **SIRS (Student Information Repository System)**
System for collecting student demographic, programs, assessment, and enrollment data, as well as teacher/staff and course information.

This is a list of the various systems used by NYSED's Office of Information and Reporting Services to collect and report (disperse or provide verification of) data.

Accessing SED's Business Portal.

Accounts to the Business Portal or any other L2 system. can ONLY be created by the CEO of each school, or their delegated administrator in the SED Delegated Account System, SEDDAS.

When SED's Reference File, SEDREF is updated with a new CEO, NYSED will update their reports and automatically reassign the SEDDAS account to the new leader.

This is a view of the Information and Data Exchange, IDEX, app in the Business Portal. CEO's should be sure to entitle the correct staff at their school to various L2 systems in order to allow people with the responsibility for reporting data with the proper access to the data.

SEDDAS – SED Delegated Account System

The New York State Education Department (SED) has a number of web-based applications accessed via the [NYSED Application Business Portal](#).

- SEDDAS is designed to protect secure data in these applications from unauthorized access.
- Allows designated school district personnel to create, assign and manage secure user accounts for their own staff

Main Functions:

1. Account Administration

- Creating, updating, and disabling accounts.

2. Entitlement Administration

- Granting access to protected web applications found on SED portal to certain school administrators.

ESBOCES has a YouTube video highlighting the use of SEDDAS:

<https://www.youtube.com/watch?v=nZxn1TPu-Lk>

It is very important to maintain accurate reporting of school staff in various positions to NYSED. Access to certain systems and the delivery of important notices from NYSED depends on certain job titles.

Create SEDDAS account with the SEDDAS Entitlements User Guide:

<http://www.p12.nysed.gov/seddas/seddas-complete-user-guide.pdf>

Need to update SEDREF? Directions: <https://www.p12.nysed.gov/sedrefupdate.html>

List of Important job titles:

SEDDAS Account Administration Roles

Super Delegated Administrator – Super DA

- CEOs are automatically Super DAs;
- Can create other roles to assist in the administration of SEDDAS; and
- Can perform all of the functions within SEDDAS.

Delegated/Entitlement – Hybrid of two roles below.

Delegated Administrator – DA

- Can perform the function of account administration;
- Can create, update, disable and re-activate user accounts; and
- Can create an account for Entitlement Administrator(s) (EA) who will grant access to applications.

Entitlement Administrator – EA

- Perform the function of Entitlement Administration;
- Entitle access to applications to school staff who already have an existing account; and
- Applications must be available to the EA under delegated account systems before entitling someone else (not just user access).

Reviewing and Verifying Data

It's a process-not a task.

Don't wait until the deadline!

- 1. Map out a plan**
- 2. Know where to find the data**

24

Reporting and Verifying data cannot be done quickly. The process is subject to the data flow process and multiple verification checks at each level . Do NOT wait until the last minute, week or month!!

Some data can be reported and initial verifications can be completed in the fall of each school year.

Reviewing and Verifying Data

- ★ *Know early in the school year where you will review the data.*
- ★ *Check entitlements and accounts.*

- **IMF BEDS Online Data** has been reviewed in the BEDS Online Application.
- **SIRS Data** should be reviewed in the L2RPT Cognos report made available to school districts.
 - Be aware of weekly or daily refreshes and data load cycles.
 - Ask your Regional Information Center for assistance.

Where is the data? Know your student system

These software companies work with NYSED and have custom reports that for ALL SIRS reporting (digital equity survey are currently being developed too).

If you have one of these systems, be sure to work with your vendor to setup the necessary details to make you reporting to SIRS as easy as the touch of a button. (Then an upload to LO, etc.)

Do you know your RIC's reporting schedule?

From ATS data is directly stored in Level 1: NYC and ESB are both L1 providers (orange dots on slide 2).

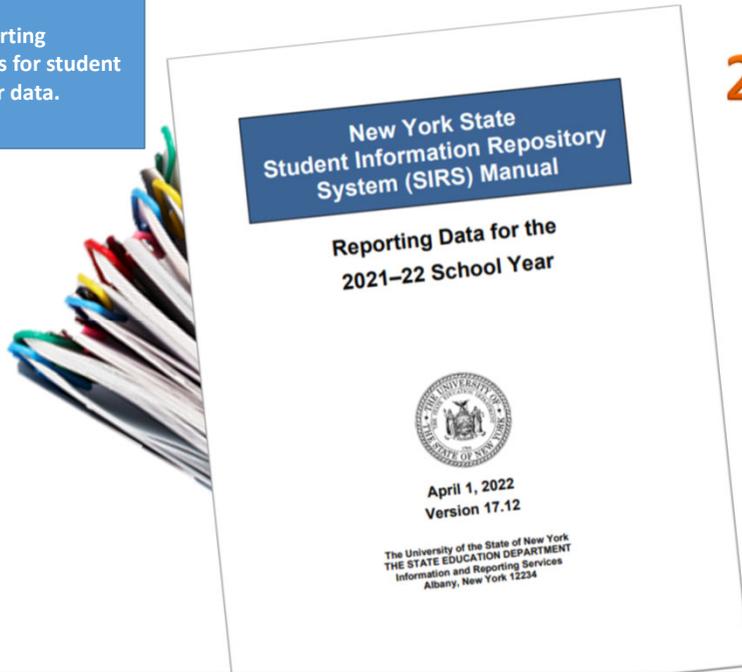

NYC shares basic data about your schools and student enrollment (including Demographics and Program Facts).

We collect additional data as required by SED, including eth various items mentioned on the school's Report Card.

We package that up and pass it back to NYC, who submits it to NYSED.

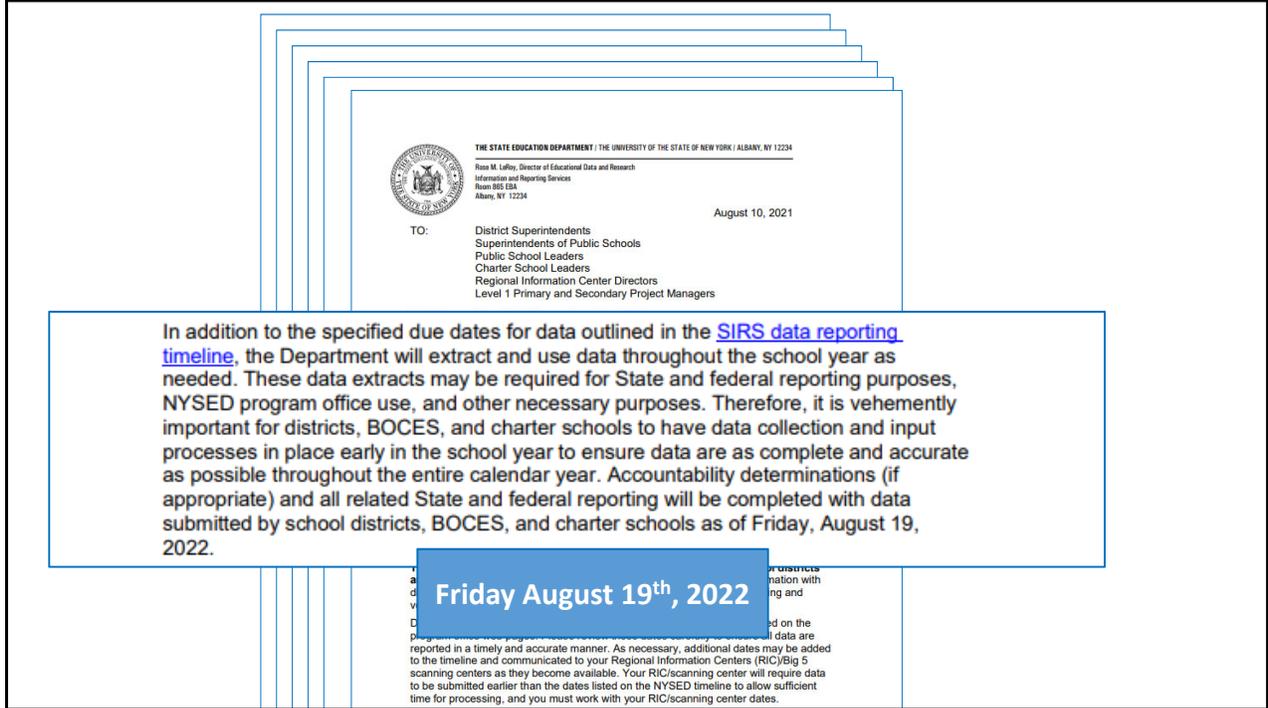

Highest degree of security and safeguards are taken. NYC data at ESB has held on a separate server and access is only provided to dedicated staff, and everyone has all has been fingerprinted.

Defines reporting requirements for student and educator data.

End of Year Checklist Page 3

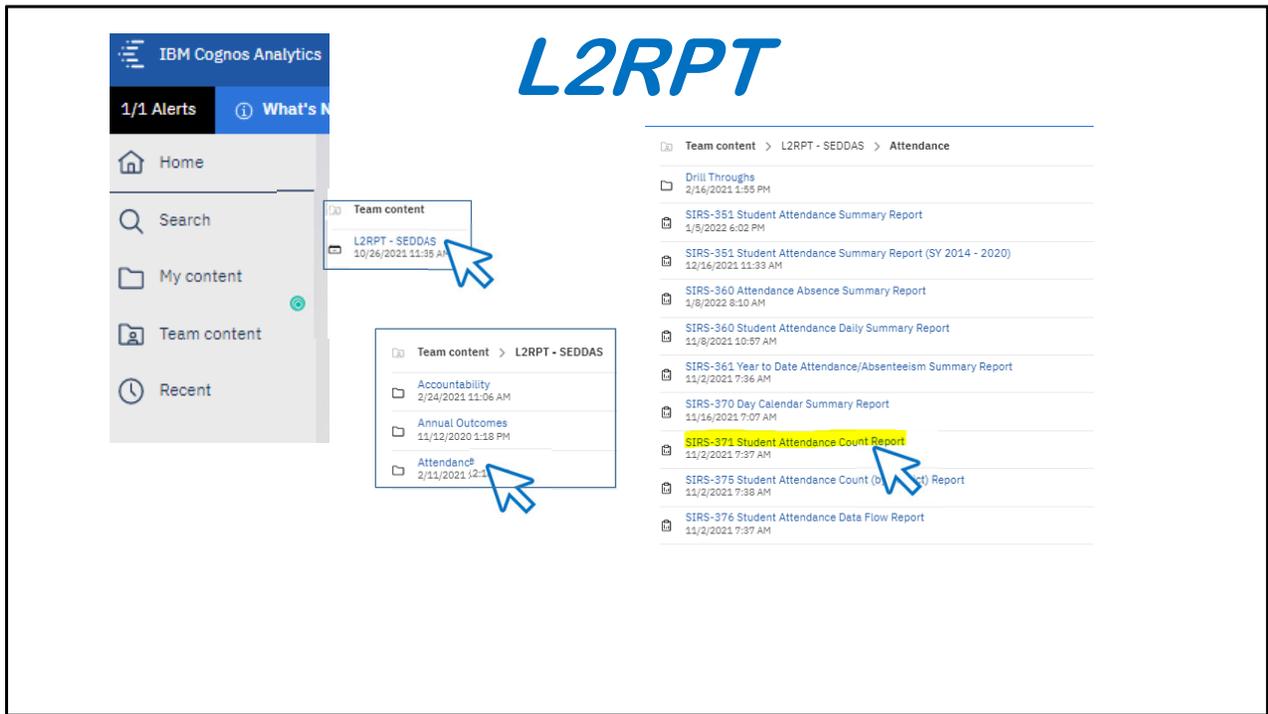

NYSED publishes this list to help schools prepare for the closing of the data warehouse. The CEO of each District/charter school/BOCES must certify the school's data by September 2, 2022. In order to know the accuracy of the data, certain reports need to be reviewed.

Student Daily Attendance The largest file.

Students	889
Days of school/enrolled	x 180
Record count	160,020
I/O Suspensions	+ 111
Total records	160,131

SED needs an attendance record for every student on every day of school. SDA also collects suspension data so...

- For a school with an average daily enrollment of 889 students and 180 days of school, you can estimate that you will need 160,020 SDA records before the data warehouse closes next summer.
- If you have 111 suspensions, you will actually have 160,131 SDA records to report.

Daily Attendance needs to be collected accurately every day, hopefully electronically, and should be loaded to SIRS (via Level 0) periodically (weekly, monthly, quarterly), you choose but please make the end of year reporting process as easy as possible by working on this throughout the year.

Check the Day Calendar- this report was certified during the 2020-21 SY.

Errors in the Day Calendar can erroneously flag students in the count of Chronic Absenteeism. A day listed as Instructional but missing actual attendance data will be calculated as negative attendance, absences for every student. Students on the cusp of actually being chronically absent, might be pushed onto that list.

SIRS 328- shows the teaching assignments from Course Instructor Assignment and whether or not the teacher is certified for each course they teach. Someone could be erroneously flagged as out of cert if the correct indicators about their assignment are not flagged in the CIA record: i.e. a CSE teacher can be assigned to Geometry but if they are flagged as the Primary teacher, the certification match looks for math certification in Geometry and they would be out of cert. If the teacher is there to work with IEP students, they are probably not the primary teacher but should have the SPED Indicator tagged. Same goes for ENL teachers in various topics. Correcting this is done in Level 0.

The report also shows if the Certification exemption was reported in the Staff Snapshot. ONLY teachers hired as a certification exemption (not certified) need this. ALL certified teachers can be assigned courses outside of their certification at charter schools: they are not exempt from being certified because they are certified BUT they will appear on this report and in US ED & public reporting on the school's count of out of cert because they are teaching outside of their specific cert.

All blue underlined numbers/text are hyperlinks that drill down into the data. On the SIRS 328, this link will open the SIRS 329, listing certifications.

After tapping on the TEACH ID in eth SIRS 328 will open another tab of the browser to the SIRS 329 report to show that teacher’s certification(s).

Once open, you can use the prompts on the screen to view all teachers and easily verify the rest of the SIRS 328 report.

EOY Certification Form

2020-21 End of Year (EOY) Statement of Certification of Verification Reports *NYSED Office of Information and Reporting Services*

School districts, charter schools and BOCES must certify the accuracy of the data in their 2020-21 End of Year (EOY) Verification Reports in the Level 2 Reporting (L2RPT) environment as of the August 20, 2021 refresh for all data except those collections that have been extended to September 10, 2021, and submit a completed 2020-21 End of Year Statement of Certification of Verification Reports form.

This certification form must be completed by the chief school officer via the **Information and Reporting Services Data Exchange (IDEx) no later than October 1, 2021**. Public school districts must certify all the reports listed below. Charter schools must certify all reports except the SIRS 312 - BEDS Day Enrollment Verification Report for State Aid, SIRS 316 - BEDS Day Enrollment Verification Report for District, PreK, and SIRS 323 - Free and Reduced-Price Lunch Eligible Students Enrolled on BEDS Day. Additional information is available [here](#).

Please DO NOT print and send this form. It is designed to be filled out electronically.

I have reviewed the L2RPT verification reports indicated below, which were generated for my entity as of the August 20, 2021 data refresh. I understand that the reports were generated from data in Level 2 of the Student Information Repository System. I also understand that **data submitted by my Level 1 to Level 2 of the SIRS as of August 20, 2021 (or September 10, 2021 for certain data domains)** will be the final submission and the data in the repository as of this date will be used for accountability determinations, State Aid calculations and to populate the New York State Report Cards and may be used for additional reports to the Board of Regents or for other policy purposes. These data are also considered public information and may be provided to any requestor on demand. With certifying the data, the LEA guarantees all required official written documentation in accordance with 2CFR 200 and may be required to immediately produce upon request.

View of the 2020-21 EOY certification. The language at the top of the 2021-22 form will very likely be similar to.

A view of the EOY certification form to be completed by the CEO in IDEX.

The school needs to choose a box for each line:

- 1- Certify [accurate]
- 2- Cannot certify (use this if it is known that the data is incomplete/inaccurate)
- 3- Certification of this report is not required (i.e. line 2: K-5 schools that do not offer Regents courses is not required to certify Regents results)

Handout, you're welcome.

This should be enough information for any teacher or non-teacher to log into TAA and start reviewing their ePMF data and for teachers to self report their assignments.
