Recruitment/Attraction Efforts Toward Meeting Targets

Describe Recruitment Efforts in 2019-2020	Describe Recruitment Plans in 2020-2021
 All Uncommon Schools in New York City worked together on community outreach and enrollment efforts. By combining our efforts and sharing information about all of our schools at one time, we were able to reach far more students in New York City than if our schools worked independently. Uncommon Schools NYC hosted 	

a network-wide Community Day, in which all Uncommon Schools have come together to canvass across Brooklyn, while simultaneously partnering with community organizations to host events in some of our biggest Community School Districts.

- The School used a combined Uncommon Schools application that allowed families to apply to multiple Uncommon Schools with just one application. This made it easier for a family to learn about and access all of our schools and allows our schools to reach a broader population of students.
- In addition to the combined Uncommon Schools application, the School participated in the New York City Charter School Center's Common Application for all charter schools in NYC. By continuing to offer our application as part of the common application for all charter schools, we are able to reach an even broader population of students.
- The School sent out multiple mailings to prospective students throughout the year through Vanguard Direct, Inc., focusing on the zip codes near our schools that have the highest number of FRPL and ELL students. Materials were sent out in English and Spanish, and included a self-addressed, stamped envelope to limit the barrier to return the completed application.
- The School ran both English and Spanish language ads in the New York City Housing Authority Journal. On their website, the

Economically Disadvantaged

NYCHA Journal says they are "hand-delivered to each of the 178,000 apartments in NYCHA's 334 public housing developments throughout the five boroughs." It was also be distributed to more than 10,000 NYCHA employees, and mailed to elected officials and community leaders. It was also available through email subscription.

- The School ran both online and in-print Spanish language ads in El Diario – a Spanish language daily newspaper with high circulation throughout Brooklyn.
- The School partnered with El Diario to send a direct Spanish-language email to families that live within our school zip-codes and have school-aged children.
- The School ran advertisements for enrollment on buses with strategic routes throughout the CSDs we serve in Brooklyn.
- Additionally, we implemented an MTA bus shelter advertisement in high pedestrian traffic areas of the neighborhoods in which our schools are located to reach families from within our community school district. The bus shelter advertisements included school-specific information as well as information about our schools, programs, and populations served.
- The School visited the NYCHA sites within our neighborhood on multiple occasions to hang flyers, leave applications and speak with residents to ensure that residents of these locations were

The school will continue the efforts at left to recruit economically disadvantaged students, and will also:

- Implement a more robust community canvassing plan that involves current families.
- Expand digital advertising efforts to reach a broader population.

aware of our school and have the necessary information and materials needed to apply.

- The School ran a digital advertisement campaign that targeted families that live in zip codes near our schools and that have a high number of FRPL eligible and ELL students.
- The School participated in education, health, and career fairs in our school neighborhoods to share information about individual schools and our admissions and application process.
- In order to continue efforts to widely disseminate information about our School to prospective families, this year, the School worked with broadcasting agency, Entercom to run advertisements on two popular NYC radio stations.

See the response to "economically disadvantaged students" above. In addition, the school:

- Used Census tract data to create maps showing the distributions of the populations of the top five most spoken languages after English.
- Using these maps, we created community canvassing walks for the School to take to travel through those neighborhoods. On the walks, school staff and families visited local stores, organizations, shelters, and apartment buildings and hung flyers and left brochures and applications in English and Spanish at each location. In

addition, school staff spoke to residents along the way (in English and in Spanish) to spread the word about our schools.

- We will continue to translate all our outreach materials that are distributed by our schools.

 Materials were produced and disseminated in English and Spanish will include our enrollment website and online lottery and waitlist applications, paper lottery applications, full color brochures and flyers, posters, informational packets, and tear away information sheets.
- We utilized the New York City Charter School Center's Common Application, which is available to families in six different languages.
- We identified high priority local community organizations to reach out to, based on factors including location, age group served, and proximity to high non- English-speaking populations. Each organization received a call from the regional admissions office by a fluent Spanish speaking staff member and a mailing including brochures, flyers and applications in all relevant languages.
- We met with the Committee for Hispanic Children, a non-profit referral service which helps Hispanic families find daycares, schools and enrichment programs for their students, to ensure that they were aware of our schools as an option for their families and provided them with

The school will continue the efforts at left to recruit ELL students, and will also:

• Implement a more robust

English Language Learners/Multilingual Learners outreach materials that they could share with the families that they serve.

- A Spanish speaking staff member was available at our admissions office by phone and email 40 hours a week during student recruitment season.
- We took advantage of the DOE's Over-the-phone Interpretation Services, which allowed our school staff members to communicate with a parent with the assistance of an interpreter on the phone. This service increased our capacity to connect with families who speak a wider range of languages.
- We also know that families of our current ELL students are our best resource to reach new ELL students. All families at our schools will continue to receive applications to distribute to family and friends in English and Spanish. Families of ELL students will continue to receive extra applications. In addition, we worked to identify ELL families interested in volunteering to support student admissions efforts. These families met with a school staff member to learn about a variety of ways that they could get the word out about our schools and distribute applications to others. These families were encouraged to speak at their churches, or other local organizations to spread the word about our schools.
- We ran Spanish language ads with El Diario – a Spanish publication with the largest readership increase than any

community canvassing plan that involves current families.

- Expand digital advertising efforts to reach a broader population.
- Implement Spanish-Language transit advertisements.

other daily newspaper in New York. Uncommon Schools will also place bilingual advertisements in the NYCHA Journal and several neighborhood weekly publications throughout the student recruitment cycle.

- Uncommon Schools NYC ran Google and additional digital ads in Spanish so that families searching for information about schools in New York City in Spanish see ads for our school and be directed to our Spanish webpages and applications.
- Each applicant, whether they are selected in the lottery or placed on the waitlist, will receive a letter in both Spanish and English telling them the results of the lottery and the next steps to enrolling in the school.

See the response to "economically disadvantaged students" above. In addition, the school:

- Identified and targeted all preschools that are certified to offer services to students with disabilities in our school communities. Head Starts will be included in this search, as they are mandated to serve a student body with at least 10% students with disabilities.
- Identified a list of preschools, Pre-K programs, and early childhood development centers that are high priority for our schools due to their location and student population. These high priority sites received calls, visits, and recruitment materials

for both elementary and middle school.

- Worked to build strong connections with our Committee on Special Education to ensure they know we are an option for students, should they wish to recommend students to join us.
- Reached out to related service agencies that we work with/have worked with in the past, to talk about the supports we offer students and asked if they had any students who could be recommended to apply.
- Confirmed that application materials clearly stated that all students, including those with disabilities, are eligible to apply. This language appeared on our enrollment websites, Kindergarten and 5th grade lottery applications, waitlist applications for all grades, the brochures that were distributed to organizations and mail to 24,000 Brooklyn families, as well as in the presentations given at our information sessions.
- Our admissions office and school-based staff will continue to be trained on this question so that they could answer the concerns of any families of potential applicants with special needs who called in.
- Revised our admissions brochure to explicitly mention our high-quality intervention programs that our schools offer of tutoring and small group instruction.
- We created a one-page overview of Special Education Services at Uncommon to share

The school will continue the efforts at left to recruit students with disabilities, and will also:

- Implement a more robust community canvassing plan that involves current families.
- Expand digital advertising efforts to reach a broader population

Retention Efforts Toward Meeting Targets

	Describe Retention Efforts in 2019-2020	Describe Retention Plans in 2020-2021
Economically Disadvantaged	In accordance with our mission to prepare students for college, we want all of our students, including FRPL, ELL and students with disabilities, to stay with us through high school graduation. The School has had historically high levels of persistence for these sub-populations. We believe that creating high-quality educational program, hiring and training highly qualified teachers, and communicating regularly with families of all students has helped us to achieve high rates of persistence across our student body. We will continue to analyze our data to ensure that we are serving students from these populations as effectively as all other students and keeping them in our schools in the same numbers.	We will continue the efforts described at left in 2019 to ensure that high numbers of economically disadvantaged students are given the supports they need to persist in the School.
English Language Learners/Multilingual Learners	See response for retention of economically disadvantaged students. In addition, each school has an English as a New Language teacher in its school, to more directly and completely ensure that students learning English are supported in the school and are provided with direct English instruction by a qualified teacher as needed.	We will continue the efforts described at left in 2019 to ensure that high numbers of ELL students are given the supports they need to persist in the School.

Students with Disabilities	See response for retention of economically disadvantaged students.	We will continue the efforts described at left in 2019 to ensure that high numbers of students with disabilities are given the supports they need to persist in the School.

Instructions

Required of Regents, NYCDOE, and Buffalo BOE Authorized Charter Schools ONLY

Upload the 2019-2020 **Organization Chart.** The organization chart should include position titles and reporting relationships. Employee names should not appear on the chart.

Entry 14 School Calendar

Completed Aug 3 2020

Instructions for submitting School Calendar

Required of ALL Charter Schools

Given these uncertain and changing times, charter schools may or may not have a school calendar ready to upload by the submission deadline this year of August 3, 2020. If the charter school has a tentative calendar based on available information and guidance at the time, please submit with the August 3rd submission. Charter schools will be able to upload an updated school calendar into the portal at any time but no later than **September 15, 2020**.

School calendars must meet the <u>minimum instructional requirements</u> adopted by the Board of Regents in 2018.

Board of Regents-authorized charter schools are required to submit school calendars that clearly indicate the start and end date of the instructional year AND the number of instructional hours and/or instructional days for each month.
