## SCHOOL DESCRIPTION

### Charter School Summary<sup>1</sup>

<b>Name of Charter School</b>	Math, Engineering and Science Academy Charter High School
<b>Board Chair</b>	Angel Cortes
<b>District of location</b>	NYC CSD 32
<b>Opening Date</b>	Fall 2013
<b>Charter Term(s)</b>	<ul style="list-style-type: none"> <li>• Initial Charter Term: August 19, 2013 – June 30, 2018</li> <li>• First Renewal Term: July 01, 2018 – June 30, 2023</li> </ul>
<b>Current Term Authorized Grades/ Approved Enrollment</b>	Grades 9-12 / 500 students
<b>Proposed Renewal Term Authorized Grades/ Proposed Approved Enrollment</b>	Grades 9-12 / 500 students
<b>Facilities</b>	231 Palmetto Street, Brooklyn, NY 11221 – Public Space
<b>Mission Statement</b>	<i>Math, Engineering and Science Academy (MESA) Charter High School will provide a rigorous education that equips each student with the ability to succeed in life and in college. MESA students will develop a passion for science, technology, engineering, and mathematics, and through an intensive college readiness program, develop critical thinking and self-advocacy.</i>
<b>Key Design Elements</b>	<ul style="list-style-type: none"> <li>• Four-year college bound program</li> <li>• Academic focus on STEM fields</li> <li>• Daily 9th Grade Writing Seminar</li> <li>• Strong support for teaching staff</li> <li>• Strong focus on school culture and family engagement</li> <li>• Weekly effort grades in each class</li> <li>• Explicit focus on family and community engagement</li> <li>• A year-round calendar</li> </ul>
<b>Requested Revisions</b> (Revisions are not approved unless approved by the Board of Regents)	<ul style="list-style-type: none"> <li>• Amend its Admissions and Enrollment Policy to reflect significant changes beginning in the 2023-2024 school year.</li> </ul>

**Noteworthy:** Math, Engineering and Science Academy Charter High School (MESA) provides a multitude of post-secondary supports to former students where school staff actively reach out to alumni specifically targeting those who are not in college or are unemployed or underemployed. The school runs workshop targeting resume writing, career exploration, and financial management with the goal of them either re-enrolling in college or getting into one of their workforce development program partners.

---

<sup>1</sup> The information in this section was provided by the NYS Education Department Charter School Office.  
MESA CHS– 2022-2023 RENEWAL SITE VISIT REPORT

As we move beyond the challenges of the past three years, we would like to acknowledge the heroic work of our charter schools that provided effective academic and social-emotional supports during the 2021-2022 school year.

### **Renewal Outcomes**

Pursuant to the Board of Regents Renewal Policy, the following are possible renewal outcomes:

- **Full-Term Renewal:** A school’s charter may be renewed for the maximum term of five years. For a school to be eligible for a full-term renewal, during the current charter term the school must have compiled a strong and compelling record of meeting or exceeding Benchmark 1, and at the time of the renewal analysis, have met substantially all other performance benchmarks in the Framework.
  
- **Short-Term Renewal:** A school’s charter may be renewed for a shorter term, typically of three years. As discussed above, the Regents will place an even greater emphasis on student performance for schools applying for their second or subsequent renewal, which is consistent with the greater time that a school has been in operation and the corresponding increase in the quantity and quality of student achievement data that the school has generated. In order for a school to be eligible for short-term renewal, a school must either:
  - (a) have compiled a mixed or limited record of meeting Benchmark 1, but at the time of the renewal analysis, have met substantially all of the other performance benchmarks in the Framework which will likely result in the school’s being able to meet Benchmark 1 with the additional time that short-term renewal permits, **or**
  - (b) have compiled an overall record of meeting Benchmark 1 but falls far below meeting one or more of the other performance benchmarks in the Framework.
  
- **Non-Renewal:** A school’s charter will not be renewed if the school does not apply for renewal or the school fails to meet the criteria for either full-term or short-term renewal. In the case of non-renewal, a school’s charter will be terminated upon its expiration and the school will be required to comply with the Charter School Office’s Closing Procedures to ensure an orderly closure by the end of the school year.

**Please Note:** The Regents may include additional terms, conditions, and/or requirements in a school’s Full-Term or Short-Term Renewal charter to address specific situations or areas of concern. For example, a school may meet the standards for full-term renewal or short-term renewal with regard to its educational success but may be required to address organizational deficiencies that need to be corrected but do not prevent the Regents from making the required legal findings for renewal. A school may also meet the standards for full-term renewal or short-term renewal of only a portion of its educational program (e.g., for the elementary school program, but not the middle school program). Such additional terms and/or requirements may include, but are not limited to, restrictions on the number of students and grades to be served by the school, additional student performance metrics, heightened reporting requirements, or specific corrective action.

## SCHOOL CHARACTERISTICS

### Current Grade Levels and Approved Enrollment

	Year 1 2018 to 2019	Year 2 2019 to 2020	Year 3 2020 to 2021	Year 4 2021 to 2022	Year 5 2022 to 2023
<b>Grade Configuration</b>	Grades 9-12	Grades 9-12	Grades 9-12	Grades 9-12	Grades 9-12
<b>Total Approved Enrollment</b>	500	500	500	500	500

### Proposed Renewal Term Grade Levels and Proposed Enrollment Requested by the School<sup>2</sup>

	Year 1 2023 to 2024	Year 2 2024 to 2025	Year 3 2025 to 2026	Year 4 2026 to 2027	Year 5 2027 to 2028
<b>Grade Configuration</b>	Grades 9-12	Grades 9-12	Grades 9-12	Grades 9-12	Grades 9-12
<b>Total Proposed Enrollment</b>	500	500	500	500	500

## METHODOLOGY

### Purpose of the Renewal Report

The primary purpose of the renewal site visit to Board of Regents-authorized charter schools is to supplement and validate the information collected over the charter term by the New York State Education Department (NYSED) Charter School Office (CSO). This information is used to inform the action taken by the Board of Regents to approve, modify, or disapprove the charter school’s request for renewal. In advance of action by the Board of Regents, the CSO prepares a renewal recommendation that is based on the school’s performance in three broad areas:

1. The school’s **academic success** and ability to operate in an educationally sound manner;
2. The school’s **organizational viability** and ability to operate in a fiscally sound manner; and
3. The school’s faithfulness to the terms of its charter and **adherence to applicable laws and regulations**.

In addition, NYSED, on behalf of the New York State Board of Regents, is a community-based authorizer committed to principles of equity and access for all students across New York State. Community-based authorizing is based on the principle that community stakeholder voice, and response to community need, is an integral component of charter school decision making at all levels. During the renewal visit, the CSO

---

<sup>2</sup> This proposed chart was submitted by MESA in its renewal application. It is subject to change pending the final renewal recommendation and approval by the Board of Regents.

will look for evidence of community voice across the school from governance to the educational program, as well as a commitment to the principles of diversity, equity, and inclusion, in the school's policies and practices.

A one-day renewal site visit was conducted at MESA on November 8, 2022. The New York State Education Department's Charter School Office (CSO) team conducted interviews with the board of trustees, school leadership team, and teachers. In cooperation with school leadership, the CSO administered anonymous online surveys to and parents.

The team conducted fourteen classroom observations in Grades 9-12. The observations were approximately 15 minutes in length.

The documents and data reviewed by the team before, during, and after the site visit included the following:

- **Current 2022-2023 organizational chart;**
- **A 2022-2023 master school schedule;**
- **Board materials (roster, minutes, and strategic plan, if applicable) and a narrative describing the board's self-evaluation process;**
- **Narrative describing the process used to evaluate school leadership;**
- **Narrative describing the process school leadership uses to evaluate teachers;**
- **2021 CSO Annual Survey of Charter Schools Parents/Guardians, Teachers, and Students**
- **Current school policies, including the discipline policy, complaint policy, enrollment and admissions policy, and by-laws;**
- **NYSED Attachment 1: 2021 NYSED Charter School Information Dashboard;**
- **NYSED Attachment 2: Charter School Fiscal Accountability Summary Dashboard;**
- **Narrative describing the school's progress and efforts made toward reaching its enrollment and retention targets;**
- **Admissions and Waitlist information;**
- **2021-2022 Faculty/Staff Roster;**
- **Fingerprint Clearance Certificates for all instructional and non-instructional staff;**
- **School-submitted Annual Reports during current charter term;**
- **School's 2022 Self-Evaluation Tool;**
- **Prior CSO monitoring reports (check-in, mid-term, renewal);**
- **School's SY 22-23 renewal application;**
- **School's 2021 Notices of Deficiency/Concern; and**
- **Any supplementary evidence or data submitted to NYSED by the school.**

## BENCHMARK ANALYSIS

The 2015 Performance Framework, which is part of the oversight plan included in the Charter Agreement for each school, outlines 10 Performance Framework benchmarks in three key areas of charter school performance:

- Educational Success
- Organizational Soundness
- Faithfulness to Charter and Law

Observational findings from the review of the renewal application, supporting data, and the site visit will be presented in alignment with the 2015 Performance Framework benchmarks and Indicators according to the rating scale below. A brief summary of the school's strengths will precede the benchmark analysis. Each benchmark will be rated; and the report narrative will provide evidence-based information relative to each indicator.

Level	Description
<b>Exceeds</b>	The school meets the performance benchmark; potential exemplar in this area.
<b>Meets</b>	The school generally meets the performance benchmark; few concerns are noted.
<b>Approaches</b>	The school does not meet the performance benchmark; a number of concerns are noted.
<b>Falls Far Below</b>	The school falls far below the performance benchmark; significant concerns are noted.

For the site visit conducted on November 8, 2022 at MESA, see the following Performance Framework benchmark ratings and narrative.

**New York State Education Department  
2015 Charter School Performance Framework Rating<sup>3</sup>**

2015 Performance Benchmark		Level
<b>Educational Success</b>	<p><b>Benchmark 1: Student Performance:</b> The school has met or exceeded achievement indicators for academic trends toward proficiency, proficiency and high school graduation. At all grade levels and all assessments, scoring proficiently means achieving a performance level of 3 or higher (high school Regents and Common Core Regents exam score of 65 or higher).</p> <p><b>Note:</b> Due to the ongoing impact of the COVID-19 pandemic, the data used to formulate this rating has not been updated since the administration of the state 3-8 math and ELA Assessments in SY 2018-2019. Therefore, this rating does not reflect the efficacy of the school's academic program in SY 2019-2020 through the current academic year which is reflected in the Benchmark 2 and 3 ratings.</p>	<b>Meets</b>
	<p><b>Benchmark 2: Teaching and Learning:</b> School leaders have systems in place designed to cultivate shared accountability and high expectations and that lead to students' well-being, improved academic outcomes, and educational success. The school has rigorous and coherent curriculum and assessments that are aligned to the New York State Learning Standards (NYSLS) for all students. Teachers engage in strategic practices and decision-making in order to address the gap between what students know and need to learn so that all students experience consistent high levels of engagement, thinking and achievement.</p>	<b>Meets</b>
	<p><b>Benchmark 3: Culture, Climate, and Family Engagement:</b> The school has systems in place to support students' social and emotional health and to provide for a safe and respectful learning environment. Families, community members and school staff work together to share in the responsibility for student academic progress and social-emotional growth and well-being. Families and students are satisfied with the school's academics and the overall leadership and management of the school.</p>	<b>Meets</b>
<b>Organizational Soundness</b>	<p><b>Benchmark 4: Financial Condition:</b> The school is in sound and stable financial condition as evidenced by performance on key financial indicators.</p>	<b>Meets</b>
	<p><b>Benchmark 5: Financial Management:</b> The school operates in a fiscally sound manner with realistic budgets pursuant to a long-range financial plan, appropriate internal controls and procedures, and in accordance with state law and generally accepted accounting practices.</p>	<b>Meets</b>
	<p><b>Benchmark 6: Board Oversight and Governance:</b> The board of trustees provides competent stewardship and oversight of the school while maintaining policies, establishing performance goals, and implementing systems to ensure academic success, organizational viability, board effectiveness and faithfulness to the terms of its charter.</p>	<b>Meets</b>
	<p><b>Benchmark 7: Organizational Capacity:</b> The school has established a well-functioning organizational structure, clearly delineated roles for staff, management, and board members. The school has systems and protocols that allow for the successful implementation, evaluation, and improvement of its academic program and operations.</p>	<b>Meets</b>
<b>Faithfulness to Charter &amp; Law</b>	<p><b>Benchmark 8: Mission and Key Design Elements:</b> The school is faithful to its mission and has implemented the key design elements included in its charter.</p>	<b>Meets</b>
	<p><b>Benchmark 9: Enrollment, Recruitment, and Retention:</b> The school is meeting or making annual progress toward meeting the enrollment plan outlined in its charter and its enrollment and retention targets for students with disabilities, English language learners, and students who are eligible applicants for the free and reduced priced lunch program; or has demonstrated that it has made extensive good faith efforts to attract, recruit, and retain such students.</p>	<b>Approaches</b>
	<p><b>Benchmark 10: Legal Compliance:</b> The school complies with applicable laws, regulations, and the provisions of its charter.</p>	<b>Meets</b>

<sup>3</sup> Charter schools authorized or renewed beginning in the 2019-2020 school year and thereafter use the [2019 Charter School Performance Framework](#), and all other charter schools use the [2015 Charter School Performance Framework](#) until renewal. Refer to the appropriate framework for the applicable benchmark standards.

## **Summary of Findings**

- MESA is in year 10 of operation and serves 488 students in Grades 9-12. During its current charter term, the school is rated in the following manner: meeting nine benchmarks and approaching one benchmark. A summary of those ratings is provided below.
- **Summary of Areas of Growth and Strengths:** MESA continues to perform highly in both raising student performance levels and in preparing students for success beyond their post-secondary education. MESA students outperform a majority of their NYS and Total Charter School peer groups on Regents exams, four-year graduation rates, and college readiness. MESA provides numerous supports and resources to for its alumni with a dedicated director of post-secondary support. MESA runs a longer school day and longer school year than a NYCDoE school, with dedicated common planning time for teachers both during the school day and in a summer institute. Student, parent, and teacher satisfaction with the school is high.
- **Summary of Areas in Need of Improvement:** MESA has few areas in need of improvement. School leaders employ a “love and logic” approach to student discipline; in response to a formal complaint, the school has submitted a revised disciplinary policy. Staff must follow a multi-step process leading to the director of school culture having wide latitude assigning one or more disciplinary measures. During classroom observations, few teachers engaged in higher order questioning of their students. No students were observed initiating questions to the teacher/class. MESA’s English language learner (ELL) enrollment shows a -10 percentage-point differential to the district of location. Through developing and maintaining relationships with organizations that serve recent immigrants and conducting targeted ELL outreach in visits to district middle schools, MESA may come closer to parity with the DoL. MESA has requested approval to revise its school design so that it can create a specific priority group for ELLs and continues to boost enrollment for this at-risk student population.

### **Benchmark 1: Student Performance**

*The school has met or exceeded achievement indicators for academic trends toward proficiency, proficiency, and high school graduation. At all grade levels and all assessments, scoring proficiently means achieving a performance level of 3 or higher (high school Regents and Common Core Regents exam score of 65 or higher).*

#### **Finding: Meets**

Over this charter term, the trajectory for this benchmark has been consistent as a Meets.

#### **Summative Evidence for Benchmark 1:**

MESA has strong academic results. MESA's four-year graduation rate over the past four years (2018-2019, 2019-2020, 2020-2021, and 2021-2022) has been an average of 94 percent. This exceeds the average NYS graduation rate of 86 percent over the same four years.

***See Attachment 1 for data tables and additional academic information.***

**Benchmark 2: Teaching and Learning**

*School leaders have systems in place designed to cultivate shared accountability and high expectations and that lead to students’ well-being, improved academic outcomes, and educational success. The school has rigorous and coherent curriculum and assessments that are aligned to the New York State Learning Standards (NYSL) for all students. Teachers engage in strategic practices and decision-making in order to address the gap between what students know and need to learn so that all students experience consistent high levels of engagement, thinking and achievement.*

**Finding: Meets**

<i>Element</i>	<i>Indicators</i>
1. <i>Curriculum</i>	<ul style="list-style-type: none"> <li>a. The school has a documented curriculum that is aligned to the NYSL.</li> <li>b. Teachers use unit and lesson plans that introduce complex materials, stimulate higher order thinking, and build deep conceptual understanding and knowledge around specific content.</li> <li>c. The curriculum is aligned horizontally across classrooms at the same grade level and vertically between grades.</li> <li>d. The curriculum is differentiated to provide opportunities for all students to master grade-level skills and concepts.</li> <li>e. The curriculum is systematically reviewed and revised.</li> </ul>
2. <i>Instruction</i>	<ul style="list-style-type: none"> <li>a. The school staff has a common understanding of high-quality instruction, and observed instructional practices align to this understanding.</li> <li>b. Instructional delivery fosters engagement with all students.</li> </ul>
3. <i>Assessment and Program Evaluation</i>	<ul style="list-style-type: none"> <li>a. The school uses a balanced system of formative, diagnostic and summative assessments.</li> <li>b. The school uses qualitative and quantitative data to inform instruction and improve student outcomes.</li> <li>c. The school uses qualitative and quantitative data to evaluate the quality and effectiveness of the academic program and modifies the program accordingly.</li> </ul>
4. <i>Supports for Diverse Learners</i>	<ul style="list-style-type: none"> <li>a. The school provides supports to meet the academic needs for all students, including but not limited to: students with disabilities, English language learners, and economically disadvantaged students.</li> <li>b. The school has systems to monitor the progress of individual students and facilitate communication between interventionists and classroom teachers regarding the needs of individual students.</li> </ul>

### **Academic Program for High School:**

- In addition to core English Language Arts (ELA) classes, MESA offers four years of ELA electives with writing seminar, literature seminar, Advanced Placement (AP) seminar, and college writing elective courses.
- MESA offers College Bound, a project-based course designed to increase college awareness and readiness, beginning on the first day of Grade 9.
- MESA students meet in advisory two times a week to build their social-emotional capacities, and through a community circle format, students strengthen their speaking and listening skills.

### **Academic Program for Students with Disabilities and English language learners (ELLs):**

#### **SWDs:**

- MESA provides Integrated Co-Teaching (ICT) class 5 days per week to students with an Individualized Education Program (IEP) for all core academic classes.
- A special education coordinator provides updated reports to the principal and teachers on the academic progress of students with disabilities (SWDs).
- MESA teachers employ Universal Design for Learning (UDL) strategies in unit and lesson planning to provide multiple means of engagement, presentation, and assessment to make content more accessible for students across the academic spectrum.
- Students who need more intensive literacy support take the Wilson Reading, a daily ICT support class that combines literacy support with pre-reading texts covered in ELA

#### **ELLs:**

- ELL specialists push-in and pull-out to provide small group instruction and support across all content areas.
- MESA provides two ELL specific courses, writing seminar Grade 9, and writing seminar Grade 10, to ELL's based on their NYSESLAT level.
- All incoming ELLs meet with the students supports team over the summer to determine specific strategies to accelerate their English acquisition.

### **Summative Evidence for Benchmark 2:**

Over this charter term, the trajectory for this benchmark has been consistent as a Meets.

#### **1. Element: *Curriculum:***

- **Indicator a:** In focus groups, MESA's school leaders and teachers reported that their curriculum is teacher developed and aligned with New York State Learning Standards (NYSLs). Each summer MESA teachers participate in a summer institute where the curriculum is revised to address deficiencies and ensure alignment to NYSLs. In the 2021 CSO Teacher Survey (15 of 42 expected responses for a 36 percent response rate), 100 percent of respondents agreed that the school has a documented curriculum that is aligned to the NYSLs.

**Indicator b:** During classroom observations, teachers demonstrated that they use lesson and other curricular plans that build deep conceptual understanding. During an observed science, technology, engineering, and math (STEM) class, students were working on an engineering design process where they had to define a specific problem, research current attempts at creating solutions to the problem, specify the requirements that need to be met to solve the problem, brainstorm solutions, design a solution, then build, test, and modify their design. During an

observed ELA class, students were working on a establishing a claim by drawing on evidence from multiple texts to support their analysis.

- **Indicator c:** In focus group meetings with school leaders and teachers, it was reported that during summer institute, staff collaborate both within and across grade levels to align their curriculum with the NYSLS. Furthermore, according to the school’s weekly schedule, time within the weekly school schedule is allotted for teachers within a department to meet and collaborate on further revision to the curriculum. In the 2021 CSO Teacher Survey, 67 percent of respondents agreed that the school curriculum is aligned horizontally across grade-level classrooms and 80 percent of respondents agreed that the curriculum is aligned vertically between grade levels.
- **Indicator d:** The curriculum is differentiated to provide opportunities for all students to master grade-level skills and concepts. During A STEM class observation, the teacher provided an ELL student with both directions and key vocabulary terms needed for that day’s lesson in both English and Spanish. In a chemistry class observation, students were working on understanding the molecular structure of certain molecules. Students had to draw the structure, describe the structure, and physically make an atomic model of the molecule’ structure. In the 2021 CSO Teacher Survey, 100 percent of respondents agreed that the curriculum and corresponding materials are differentiated to provide opportunities for all students to master grade-level skills and concepts.
- **Indicator e:** School leaders have reported that the curriculum is regularly reviewed and revised. For example, to better prepare students for college level work, MESA has partnered with St. Francis College, where senior students will have an opportunity to take a Grade 12 writing class and/or a Grade 12 statistics class at the MESA building that is aligned to the college’s curriculum and will result in St. Francis credit for those who pass the final exam. In the 2021 CSO Teacher Survey, 87 percent of respondents agreed that the curriculum is systematically reviewed and revised.

2. Element: ***Instruction:***

- **Indicator a:** The school staff has a common understanding of high-quality instruction. School leaders have reported that all staff received training on the direct instruction teaching model during summer pre-service institute which includes training on how to create revise unit and lesson plans to meet NYSLS for quality and rigor. During a STEM classroom observation, the teacher was presenting a video of football induced head injuries, culminating in an egg drop engineering design project, exposing the students to the topics of forces, material science, and fluid dynamics. In a focus group of teachers, it was reported that data is very important to their work; pre- and post-assessments are used throughout each trimester; and during the Summer VISTA program, students are assessed on their math and reading levels so teachers can adjust their instruction accordingly to meet the students where they are for the upcoming school year.

In the 2021 CSO Teacher Survey, 100 percent of respondents agreed that the school staff has a shared understanding of high-quality instruction that supports all learners. During classroom observations, no student was observed asking a question. Questions from the teachers mainly focused on remembering and understanding content. During a chemistry classroom observation, the teacher asked the following questions to the class: “What shape would you say this is?” “Is it linear?” “It’s not bent it’s...”

- **Indicator b:** The instructional delivery at MESA fosters engagement with all students. During classroom observations, 100 percent of students were observed engaged in their classwork. Teachers use a variety of methods to engage with students. In chemistry classroom, students were creating molecular models from wooden pegs and balls. In a Living Environment class, the teacher related a well-known Spanish signer’s popularity to the scientific procedure of stating your claim and supporting it with evidence. In the 2021 CSO Teacher Survey, 93 percent of respondents agreed that instructional delivery fosters engagement with all students.

3. Element: ***Assessment and Program Evaluation:***

- **Indicator a:** The school uses a balanced system of formative, diagnostic and summative assessments. School leaders have reported that MESA teachers continuously utilize high quality, standards aligned formative assessments such as Do Now, guided and independent practice, exit tickets, and weekly quizzes. During a chemistry class observation, students were completing an exit ticket on key concepts of the day’s lesson. In an AP calculus class observation, students were working independently on differentiating polynomial functions. School leaders have reported that all new students to MESA participate in the Summer VISTA program, a one-week diagnostic program for building a data profile on each student on their ELA and math knowledge and skills, strengths and weaknesses. In a focus group with teachers, it was reported that teachers at MESA utilize summative assessments at the ends of units of study in addition to the end of each trimester and the end of year. In the 2021 CSO Teacher Survey, 80 percent of respondents agreed that the school uses a system of formative, diagnostic, and summative assessments.
- **Indicator b:** The school uses qualitative and quantitative data to inform instruction and improve student outcomes. School leaders and student supports staff have reported that teachers and staff regularly evaluate data to inform instruction and improve student outcomes. Diagnostic data at the individual and aggregate level is gathered on all incoming students regarding their ELA and math skills and knowledge. All students participate in advisory where additional qualitative data is gathered on student support needs. In a focus group with student supports staff, it was reported that data drives everything that they do at MESA. In the 2021 CSO Teacher Survey, 93 percent of respondents agreed that the school uses qualitative and quantitative data to inform instruction and improve student outcomes.
- **Indicator c:** The school uses qualitative and quantitative data to evaluate the quality and effectiveness of the academic program and modifies the program accordingly. School leaders have reported that due to lack of persistence to college graduation of their alumni, MESA has introduced “13th grade” workshops for alumni who are not in college and are either unemployed or under-employed where topics such as resume writing, career exploration and financial management are explored, with the goal of them either re-enrolling in college or entering one of MESA’s workforce development program partners. Due MESA’s analysis of alumni students’ lack of college persistence due to financial constraints among others, MESA has introduced methods for students to earn college credit while still in high school, including classes at The City University of New York (CUNY) through the College Now program, AP courses, and a partnership with St. Francis College that allows MESA seniors to earn math and writing college credit. In the 2021 CSO Teacher Survey, 93 percent of respondents agreed that the school uses qualitative and quantitative data to evaluate the quality and effectiveness of the academic program and 87 percent of respondents agreed that the school modifies its academic program after using data measurements.

4. Element: **Supports for Diverse Learners:**

- **Indicator a:** MESA provides numerous supports to meet the academic needs of all students. The school provides ICT classes for all core academic subjects at each grade level and offers a Grade 10 writing seminar for ELLs as confirmed by their submitted Attachment B in the renewal application. In a focus group meeting with student support staff, it was reported that the Grade 9 and 10 writing seminar serves as their tiered English as a Second Language (ESL) class, matching the English proficiency level of the student. School leaders have reported that for struggling students who are not identified as an ELL or having an IEP, Academic Intervention Services (AIS) are offered along with a tiered Response to Intervention (RTI) in identifying and differentiating struggling students from those with a disability. For advanced students, the school offers nine AP courses in addition to the College Now program and the College Level Examination Program (CLEP). In the 2021 CSO Teacher Survey, 93 percent of respondents agreed that the school differentiates instruction to ensure equity and access for all students and 100 percent of respondents agreed that the school provides supports to meet the academic needs of SWDs, ELLs, and ED students.
- **Indicator b:** The school has systems to monitor the progress of individual students and facilitate communication between interventionists and classroom teachers regarding the needs of individual students. School leaders have reported that the special education (SPED) coordinator and the ELL specialists provide reports to the principal and teachers at the end of each trimester on the progress of SWD and ELLs. In a focus group of student support staff, it was reported that student support staff meet regularly with teacher grade-teams in order to discuss the needs of individual students. In a focus group of teachers, it was reported that during each day of the school week, there is a period that all the teachers within a core subject are free to discuss, plan, and collaborate on lesson plans and student needs. Teachers stated collaboration was the key to what works at MESA. In the 2021 CSO Teacher Survey, 93 percent of respondents agreed that the school has systems to monitor the progress of individual students and to facilitate communication between interventionists and classroom teachers regarding the needs of individual students.

As per the Committee on Special Education (CSE), the school has close communication with families, including those whose primary language is not English. The teachers are knowledgeable regarding specially designed instruction (SDI) and able to answer questions about the implementation of SDI strategies during IEP meetings. When students participate in IEP meetings, their feedback regarding teacher supports is generally positive. The school collaborates well with the CSE, and provides the CSE with reports in advance of IEP meetings. The school's discipline measures emphasize mediation more than punishment. The school has significant social-emotional supports to address students' needs and behaviors. The school has not had any manifestation determination review (MDRs) this year.

**Benchmark 3: Culture, Climate, and Family Engagement**

*The school has systems in place to support students’ social and emotional health and to provide for a safe and respectful learning environment. Families, community members and school staff work together to share in the responsibility for student academic progress and social-emotional growth and well-being. Families and students are satisfied with the school’s academics and the overall leadership and management of the school.*

**Finding: Meets**

<u>Element</u>	<u>Indicators</u>
<p>1. <i>Behavior Management and Safety</i></p>	<p>a. The school has a clear approach to behavioral management, including a written discipline policy.                      b. The school appears safe and all school constituents are able to articulate how the school community maintains a safe environment.                      c. The school has systems in place to ensure that the environment is free from harassment and discrimination.                      d. Classroom environments are conducive to learning and generally free from disruption.</p>
<p>2. <i>Family Engagement and Communication</i></p>	<p>a. The school communicates with and engages families with the school community.                      b. Teachers communicate with parents to discuss students’ strengths and needs.                      c. The school assesses family and student satisfaction using strategies such as surveys, feedback sessions, community forums, or participation logs, and considers results when making schoolwide decisions.                      d. The school has a systematic process for responding to family or community concerns.                      e. The school shares school-level academic data with the broader school community to promote transparency and accountability among parents, students and school constituents.</p>
<p>3. <i>Social-Emotional Supports</i></p>	<p>a. The school has systems or programs in place to support the social-emotional needs of students.                      b. School leaders collect and use data to track the socio-emotional needs of students.                      c. School leaders collect and use data regarding the impact of programs designed to support students’ social and emotional health.</p>

### Summative Evidence for Benchmark 3:

Over this charter term, the trajectory for this benchmark has been consistent as a Meets.

#### 2021 Annual Survey of Charter School Parents/Guardians, Teachers, and Students

Math, Engineering, Science Academy Charter High School	Expected Responses	Total Responses	Response Rate	Target Response	Differential
Parent Survey	505	54	11%	50%	-39
Student Survey (Grades 9-12)	505	172	34%	80%	N/A
Teacher Survey	42	15	36%	80%	-44

NOTE: Expected responses for parents and students is based on 2020-2021 BEDs Day enrollment; for teachers it is based on the number of teachers reported in the 2021 Annual Report.

#### 2022 Annual Survey of Charter School Parents/Guardians, Teachers, and Students

Math, Engineering and Science Academy Charter High School		Response Rate	Survey Population	Total Responses
Parent	Does not meet 90% or 95% Confidence	4%	510	20
Student	Does not meet 90% or 95% Confidence	1%	510	6
Teacher	Does not meet 90% or 95% Confidence	14%	56	8

NOTE: The survey population for parents and students is based on 2021-2022 BEDs Day enrollment; for teachers it is based on the number of teachers reported in the 2022 Annual Report.

The response rates for the 2021 CSO surveys did not reach the target response rates and the response sample sizes for the 2022 CSO surveys did not reach the minimum necessary for a 90 percent confidence level. Therefore, none of the aggregate responses should be used with statistical confidence.

#### 1. Element: **Behavior Management and Safety:**

- Indicator a:** MESA has a written discipline policy with clearly defined tiers of actionable student offenses. In-school disciplinary matters are referred to and administered by the director of school culture who can choose from a list of possible disciplinary measures or other disciplinary measures as they see fit. In the 2021 CSO Parent Survey, 93 percent of respondents agreed that the school's discipline policy is clear, and 90 percent agreed that the school's discipline policy is fair to all students. It should be noted that the parent survey response rate was 11 percent. In the 2021 CSO Teacher Survey, 73 percent of respondents agreed that the school's discipline policy is clear, and 70 percent agreed that the school's discipline policy is fair to all students, but only 53 percent of teachers responding to the survey agreed that the school's discipline policy is enforced by all teachers and staff, and that the school's discipline policy is updated as necessary with feedback from faculty. School leaders have reported that to address the dynamics of gender identity more appropriately, and to be responsive to student needs in a post-COVID-19 pandemic setting, MESA has proposed loosening the student dress code. In a focus group meeting with teachers, teachers unanimously expressed their support for this decision stating it eliminates unnecessary conflict between student and teacher.
- Indicator b:** The school appears safe. On the day of the NYSED CSO site visit, no disruptive behavior was observed in the classrooms or in the hallways. In the 2021 CSO Student Survey, 66

percent of respondents agreed that they feel physically safe in their school. In the 2021 CSO Parent Survey, 91 percent of respondents agreed that the school provides a safe environment. In the CSO Teacher Survey, 100 percent of respondents agreed that the school provides a safe environment.

- **Indicator c:** The school appears free from harassment and discrimination. On the day of the NYSED CSO SV, no harassment or discriminatory behavior was observed by students or staff. School leaders have reported that all staff received annual Dignity for All Students Act (DASA) training, and a school guidance counselor and three social workers serve as the DASA coordinators and field related complaints or violations, such as bullying. In the 2021 CSO Parent Survey and Teacher Survey, 89 percent and 67 percent respectively of respondents, agreed that the school has systems in place to ensure that the environment is free from bullying, harassment, and discrimination.
- **Indicator d:** Classroom environments are conducive to learning and generally free from disruption. On the day of the NYSED CSO SV, there was no disruptive student behavior observed in the classrooms. All observed classrooms had teachers and students engaged in meaningful work with prepared materials and lesson plans. Exemplars of student work, lesson objectives and classroom rules were prominently displayed in classrooms. Students demonstrated awareness of classroom expectations, procedures, and norms. In the 2021 CSO Survey, 87 percent of parent respondents, 93 percent of teacher respondents, and 77 percent of student respondents agreed that classroom environments support learning and are generally free from disruption.

## 2. Element: ***Family Engagement and Communication:***

- **Indicator a:** The school communicates with and engages families with the school community. School leaders have reported that MESA regularly offers parent workshops on topics including immigration rights, financial management, social media literacy, and how to support their child with their work. College counselors offer workshops and hold individual conferences with each student and their family on navigating the college application process. In addition, bilingual MESA staff conduct individual home visits with the family of every newly enrolled SWD and ELL to establish rapport, gather data, provide information about school programs, and clarify expectations for students, parents, and MESA staff. In the 2021 CSO Parent Survey, 98 percent of respondents agreed that they are aware of the academic supports available to their children, 96 percent of respondents agreed that the school provides opportunities for parent participation within the school community, and 100 percent of respondents agreed that the school uses many methods of communication with families.
- **Indicator b:** Teachers communicate with parents to discuss students' strengths and needs. School leaders have reported that teachers are expected to make two outreaches per week to parents. In addition, student advisors make a minimum of one outreach a month to parents of the students they advise, to share updates and listen to any concerns they may have. In the 2021 CSO Parent and Teacher Survey, 98 percent of parent respondents and 100 percent of teacher respondents agreed that parents receive regular and timely information on their children's academic progress in their home language.
- **Indicator c:** The school assesses family and student satisfaction. School leaders have reported that, in addition to the formative conversation throughout the school year that staff have with parents and students, both the NYCDoE's Learning Environment Survey and the CSO Surveys are used to inform school-wide decision making. The school's change to the dress code was done in part due to student input. In the 2021 CSO Parent and Teacher Survey, 100 percent of parents

and 100 percent of teachers that responded agreed that the school seeks feedback from parents through surveys, meetings, or some other way.

- **Indicator d:** The school has a systematic process for responding to family or community concerns. As documented in the complaint policy, documented in Attachment C of the renewal application, parents and families can directly petition the school's board of trustees bypassing school leadership. In addition to the workshops offered to families and the home visits to all at-risk new students to MESA, school leaders reported that MESA has an active Family and Student Association (FSA), which advises and supports the school and holds informal meetings for parents to meet and discuss school issues/concerns with school leaders both virtually, and in-person. In the 2021 CSO Parent Survey, 100 percent of respondents agreed that the school seeks feedback from parents through surveys, meetings or some other way. 83 percent of respondents agreed that the school has a complaint policy that is easy to find, and 87 percent agreed that the school has a complaint policy that is easy to understand. In the 2021 CSO Teacher Survey, 87 percent of respondents agreed that the school has a systematic and transparent process for responding to family or community concerns.
- **Indicator e:** The school shares school-level academic data with the broader school community to promote transparency and accountability. In the renewal application, it was reported that multiple metrics on student performance are collected and made available for student and parent viewing. The school uses an online gradebook, JumpRope, that parents and students can log into and view student performance levels towards mastering a learning goal as well as student effort scores based on student conduct towards utilizing the skills necessary to succeed in class. In the 2021 CSO Parent and Teacher Survey, 89 percent of parents and 80 percent of teachers that responded agreed that the school informs parents about how it performs compared to other schools in the district and New York State.

3. Element: ***Social-Emotional Supports:***

- **Indicator a:** The school has systems or programs in place to support the social-emotional needs of students. In a focus group meeting of student supports staff, it was reported that MESA's advisory program, utilizing an internally developed and refined curriculum of specific discussion topics, focuses on ethics, character building, and development of students' social emotional skills and capacities. School leaders have reported that MESA has a full-time social worker, three full-time guidance counselors, and a social emotional counselor at each grade level to provide counseling to all students who request it. In addition, MESA has three college counselors to guide students through all aspects of the college application process, so that guidance counselors can focus solely on the social-emotional needs of their students. In the 2021 CSO Parent and Teacher Survey, 89 percent of parents and 93 percent of teachers that responded agreed that the school has social, emotional, and mental health programs and supports for all students. In the 2021 CSO Student Survey, 81 percent of students agreed that they feel the school culture supports them and 70 percent agreed that with having at least one adult at the school that they can talk to about problems they are dealing with outside of school.
- **Indicator b:** School leaders collect and use data to track the socio-emotional needs of students. School leaders have reported that MESA staff collect data related to students' social-emotional needs via a behavior tracking system called Kickboard. Through Kickboard, staff can choose from both pre-selected positive and negative behaviors in addition to adding anecdotal comments. Every week, the principal and dean review the inputted data to determine which students would

are in-need of targeted supports. In the 2021 CSO Parent Survey, 95 percent of respondents agreed that they are aware of how the school supports student social-emotional development while 89 percent agreed that the school has social, emotional, and mental health programs and supports for all students. In the 2021 CSO Teacher Survey, 67 percent of respondents agreed that school leaders collect and use data to track the social emotional needs of all students, including students in subgroups.

- **Indicator c:** School leaders collect and use data regarding the impact of programs designed to support students' social and emotional health. In the renewal application, it is reported that during summer institute, all incoming students are given baseline, pre-assessments, to gather evidence on student communication skills, attitudes, study habits, and grit. Before students graduate, they are then given a similar evaluative post-assessment to measure their individual growth in the factors assessed. This data is used to inform and modify their social-emotional learning program. In the 2021 CSO Teacher Survey, only 14 percent of teachers responding to the survey disagreed that school leaders collect and use data regarding the impact of programs designed to support the social and emotional health of all students.

**Benchmark 4: Financial Condition**

*The school is in sound and stable financial condition as evidenced by performance on key financial indicators.*

**Finding: Meets**

Over this charter term, the trajectory for this benchmark has been consistent as a Meets.

**Summative Evidence for Benchmark 4:**

See the school’s fiscal dashboard attached to the end of this report (Charter School Fiscal Accountability Summary). The fiscal dashboard provides detailed information regarding the school’s compliance with Benchmark 4 of the Charter School Performance Framework. Unless otherwise indicated, financial data is derived from the school’s annual independently audited financial statements which can be found on the NYSED website at <http://www.p12.nysed.gov/psc/csdirectory/CSLaunchPage.html>.

- Financial Composite Score
- Working Capital
- Debt to Asset
- Cash Position
- Total Margin

**Financial Condition**

Math, Engineering, and Science Academy Charter High School appears to be in very good financial condition as evidenced by performance on key indicators derived from the school’s independently audited financial statements.

**Overall Financial Outlook**

A financial composite score is an overall measure of financial health based on a weighting of primary reserves, equity, and net income. A charter school with a score between 1.5 and 3.0 is generally considered to be in good financial health. Math, Engineering, and Science Academy Charter High School’s 2021-2022 composite score is 3.00.

**Composite Scores  
2017-2018 to 2021-2022**

<i>Year</i>	<i>Composite Score</i>
2017-2018	2.80
2018-2019	2.63
2019-2020	2.44
2020-2021	3.00
2021-2022	3.00

### **Benchmark 5: Financial Management**

*The school operates in a fiscally sound manner with realistic budgets pursuant to a long-range financial plan, appropriate internal controls and procedures, and in accordance with state law and generally accepted accounting practices.*

#### **Finding: Meets**

Over this charter term, the trajectory for this benchmark has been consistent as a Meets.

Renewal is based on evidence that the following indicators are generally present:

1. The school has an accurate and functional accounting system that includes monthly budgets.
2. The school sets budget objectives and regularly analyzes its budget in relation to those objectives.
3. The school has allocated budget surpluses in a manner that is fiscally sound and directly attends to the social and academic needs of the students attending the school.
4. The school has and follows a written set of fiscal policies.
5. The school has complied with state and federal financial reporting requirements.
6. The school has and is maintaining appropriate internal controls and procedures.
7. The school follows generally accepted accounting principles as evidenced by independent financial audits with an unqualified audit opinion, a limited number of findings that are quickly corrected, and the absence of a going concern disclosure.

#### **Summative Evidence for Benchmark 5:**

NYSED CSO reviewed Math, Engineering and Science Academy Charter High School's 2021-2022 audited financial statements to determine whether the independent auditor observed sufficient internal controls over financial reporting. The auditor did not identify deficiencies in internal controls that could be considered material weaknesses.

**Benchmark 6: Board Oversight and Governance**

*The board of trustees provides competent stewardship and oversight of the school while maintaining policies, establishing performance goals, and implementing systems to ensure academic success, organizational viability, board effectiveness and faithfulness to the terms of its charter.*

**Finding: Meets**

<i>Element</i>	<i>Indicators</i>
1. <i>Board Oversight and Governance</i>	<ul style="list-style-type: none"> <li>a. The board recruits and selects board members with skills and expertise that meet the needs of the school.</li> <li>b. The board engages in strategic and continuous improvement planning by setting priorities and goals that are aligned with the school’s mission and educational philosophy.</li> <li>c. The board demonstrates active oversight of the charter school management, fiscal operations, and progress toward meeting academic and other school goals.</li> <li>d. The board regularly updates school policies.</li> <li>e. The board utilizes a performance-based evaluation process for evaluating school leadership, itself, and providers.</li> <li>f. The board demonstrates full awareness of its legal obligations to the school and stakeholders.</li> </ul>

**Summative Evidence for Benchmark 6:**

Over this charter term, the trajectory for this benchmark has been consistent as a Meets.

1. Element: **Board Oversight and Governance:**

- **Indicator a:** The board recruits and selects board members with skills and expertise that meet the needs of the school. Board members include individuals with experience in finance, law, education, research, technology, and a parent representative. The school’s Governance Committee looks to recruit individuals that would benefit the school’s evolving programming priorities and needs, and provides oversight of the school. While MESA has maintained a relatively stable board membership over its charter term, because of a need for more supports in college and career readiness, the board has added trustees with significant community, business, and industry experiences, that will provide additional internship opportunities for MESA students.
- **Indicator b:** The board engages in strategic and continuous improvement planning by setting priorities and goals that are aligned with the school’s mission and educational philosophy. According to the renewal application, the board has partnered with two governance expert organizations, Achieve Mission and Shapiro Associates, to assist in demonstrating efficacy toward its strategic planning efforts. To assist with the development and launching of new initiatives, the board has partnered with Harvard Business School Community, to consult with all stakeholders in the development and refinement of their “13<sup>th</sup> grade” program.

- **Indicator c:** The board demonstrates active oversight of the charter school management, fiscal operations, and progress toward meeting academic and other school goals. According to the renewal application, the MESA board regularly reviews key documents, updates, and reports, from the co-executive directors, and a data dashboard containing financial information, personnel related data, state test results, and attendance/disciplinary information.
- **Indicator d:** According to the renewal application, board members review policies based on their committee assignments, and offer suggested revisions on an annual basis or more frequently if needed. MESA also retains legal counsel to ensure compliance with relevant laws and regulations in their operations.
- **Indicator e:** In a focus group meeting with board members, it was reported that the board evaluates school leaders annually based on a clear criterion of; graduation rates, retention of students, tardiness, and post-graduation outcomes for students, and management of school resources. The board does not have a specific performance-based evaluation process for evaluating themselves. According to the renewal application, the board scrutinizes the performance of partners, providers, and other stakeholders.
- **Indicator f:** The board demonstrates full awareness of its legal obligations to the school and stakeholders. MESA includes attorneys and other legal professionals on its board of directors and retains legal counsel to assist with questions and provide legal advice and guidance as needed.

**Benchmark 7: Organizational Capacity**

*The school has established a well-functioning organizational structure, clearly delineated roles for staff, management, and board members. The school has systems and protocols that allow for the successful implementation, evaluation, and improvement of its academic program and operations.*

**Finding: Meets**

<u>Element</u>	<u>Indicators</u>
<p>1. <i>School Leadership</i></p>	<p>a. The school has an effective school leadership team that obtains staff commitment to a clearly defined mission and set of goals, allowing for continual improvement in student learning.</p> <p>b. Roles and responsibilities for leaders, staff, management, and board members are clearly defined. Members of the school community adhere to defined roles and responsibilities.</p> <p>c. The school has clear and well-established communication systems and decision-making processes in place which ensure effective communication across the school.</p> <p>d. The school successfully recruits, hires, and retains key personnel, and makes decisions – when warranted – to remove ineffective staff members.</p>
<p>2. <i>Professional Climate</i></p>	<p>a. The school is fully staffed with high quality personnel to meet all educational and operational needs, including finance, human resources, and communication.</p> <p>b. The school has established structures for frequent collaboration among teachers.</p> <p>c. The school ensures that staff has requisite skills, expertise, and professional development necessary to meet students’ needs.</p> <p>d. The school has systems to monitor and maintain organizational and instructional quality—which includes a formal process for teacher evaluation geared toward improving instructional practice.</p> <p>e. The school has mechanisms to solicit teacher feedback and gauge teacher satisfaction.</p>
<p>3. <i>Contractual Relationships</i> □N/A</p>	<p>a. The board of trustees and school leadership establish effective working relationships with the management company or comprehensive service provider.</p> <p>b. Changes in the school’s charter management or comprehensive service provider contract comply with required charter amendment procedures.</p> <p>c. The school monitors the efficacy of contracted service providers or partners.</p>

**Summative Evidence for Benchmark 7:**

Over this charter term, the trajectory for this benchmark has been consistent as a Meets.

1. Element: ***School Leadership:***

- **Indicator a:** The school has an effective school leadership team that obtains staff commitment to a clearly defined mission and set of goals, allowing for continual improvement in student learning. MESA has a clearly defined mission statement. According to the renewal application, all staff understand the goals of MESA and are provided professional development geared towards meeting those goals. In the 2021 CSO Teacher Survey, 80 percent of respondents agreed the school has an effective school leadership team that communicates a clearly defined mission and set of goals to staff, and the school community.
- **Indicator b:** Roles and responsibilities for leaders, staff, management, and board members are clearly defined. As shown in submitted Attachment H of the renewal application, MESA separates roles and responsibilities into three categories (instruction, organization, and operations), allowing teachers to focus on instruction and frees them from having to perform non-related tasks such as hall duty, lunch duty, etc. In a focus group meeting of school leaders, it was reported that at MESA, all staff have clearly defined roles and responsibilities and are empowered to fulfill those roles without having to contend with dual or split roles and responsibilities. In the 2021 CSO Teacher Survey, 87 percent of respondents agreed roles and responsibilities for leaders, staff, management, and the board of trustees are clearly defined and adhered to.
- **Indicator c:** The school has clear and well-established communication systems and decision-making processes in place which ensure effective communication across the school. School leaders have reported that MESA utilizes JumpRope, allowing teachers, students, parents, and school leaders to see up-to-date student performance trends and MESA has scheduled in blocks of time in the weekly schedule that allow teachers within a department to collaborate and share best practices. In a focus group of teachers, it was reported that the greatest aspect of MESA was the collaboration among teachers and the time and support that the school provides for teacher collaboration, and that teachers know who to go to for any specific question or supports they may need. In the 2021 CSO Teacher Survey, 80 percent of respondents agreed the school has a clear and well-established communication systems and decision-making processes in place to ensure effective communication across the school.
- **Indicator d:** The school successfully recruits, hires, and retains key personnel, and makes decisions – when warranted – to remove ineffective staff members. According to school leaders, MESA advertises for staff positions in numerous outlets and offers referral bonus to current staff connecting school leaders with high quality teachers and currently has a 77 percent overall retention rate and an 87 percent positive retention rate since its inception. In the 2021 CSO Teacher Survey, 87 percent of respondents agreed the school successfully recruits, hires, and retains key personnel, and makes decisions – when warranted – to remove ineffective staff members.

2. Element: ***Professional Climate:***

- **Indicator a:** The school is fully staffed with high quality personnel to meet all educational and operational needs, including finance, human resources, and communication. The school operates with two full-time on-site executive directors who have been with the school since its inception, a principal, and director of operations, in addition to numerous other support personnel. The school is currently looking to hire a director of development in charge of fundraising. In the 2021 CSO Teacher Survey, 93 percent of respondents agreed that the school is fully staffed with high quality personnel to meet all educational and operational needs, including finance, human resources, and communications.

- **Indicator b:** The school has established structures for frequent collaboration among teachers. Each teacher at MESA has a coach. In a focus group of teachers, it was reported that department leaders are assigned four to five teachers to coach which includes weekly observations and meeting sessions. Department coordinators also coach between one or two teachers. Teachers also shared that the weekly schedules that allow for all teachers within a department to have a common period to collaborate. The partnership and collaboration among teachers were the most outstanding thing about MESA, according to one teacher in the focus group. In the 2021 CSO Teacher Survey, 100 percent of respondents agreed that the school has established structures for frequent collaboration among teachers.
- **Indicator c:** The school ensures that staff has requisite skills, expertise, and professional development necessary to meet students’ needs. In addition to every teacher having a coach, school leaders have reported that MESA teachers have two periods per day of planning time, as well as two hours per week of professional development. Summer institute provides the teachers with curriculum development and understanding the use of data. In the NYSED 2021 Teacher Survey, 80 percent of respondents agree that the school ensures that staff has the requisite skills, expertise, and professional development necessary to meet all students' needs, including students in subgroups.
- **Indicator d:** The school has systems to monitor and maintain organizational and instructional quality—which includes a formal process for teacher evaluation geared toward improving instructional practice. Teachers have reported that they meet weekly with their coaches to review lessons, discuss progress towards goals, and review student data. All coach-teacher interactions are documented and are part of the teacher evaluation process. In addition, school leaders have reported that the principal and assistant principal informally observe teachers weekly to provide formative data to guide teacher development and formally observe each teacher at the end of each trimester for summative evaluative purposes. In the 2021 CSO Teacher Survey, 87 percent of respondents agreed that the school has systems to monitor and maintain organizational and instructional quality through a formal evaluation process for teachers and other staff.
- **Indicator e:** The school has mechanisms to solicit teacher feedback and gauge teacher satisfaction. School leaders have reported that MESA collects teacher feedback from surveys following professional development sessions and through using the NYCDoE’s Learning Environment Survey. In addition, during a focus group meeting with teachers, it was reported that school leaders are always available for teachers to discuss any concerns they may have. In the 2021 CSO Teacher Survey, 73 percent of respondents agreed that the school has mechanisms to solicit teacher feedback and gauge teacher satisfaction.

3. Element: ***Contractual Relationships:***

- **Indicator a:** N/A
- **Indicator b:** N/A
- **Indicator c:** According to the renewal application, the board has partnered with two governance expert organizations, Achieve Mission and Shapiro Associates, to assist in demonstrating efficacy toward its strategic planning efforts. To assist with the development and launching of new initiatives, the board has partnered with Harvard Business School Community, to consult with all stakeholders in the development and refinement of their “13<sup>th</sup> grade” program. As reported in the renewal application, the board scrutinizes the performance of partners, providers, and other stakeholders.

## Benchmark 8: Mission and Key Design Elements

*The school is faithful to its mission and has implemented the key design elements included in its charter.*

### Finding: Meets

<u>Element</u>	<u>Indicators</u>
1. <i>Mission and Key Design Elements</i>	<p>a. School stakeholders share a common and consistent understanding of the school’s mission and key design elements outlined in the charter.</p> <p>b. The school has fully implemented the key design elements in the approved charter and in any subsequently approved revisions.</p>

### Summative Evidence for Benchmark 8:

Over this charter term, the trajectory for this benchmark has been consistent as a Meets.

#### 1. Element: **Missions and Key Design Elements:**

- **Indicator a:** School stakeholders share a common and consistent understanding of the school’s mission and key design elements outlined in the charter. In each stakeholder focus group, members reported on the emphasis on a rigorous instructional program and of college and career readiness as a goal. In the school leader focus group, it was reported that to increase their support of alumni, “13th grade” workshops for alumni who are not in college or underemployed will be held. In a focus group of board members, it was reported that as part of their self-evaluation is a day-long investment in how the board members are serving the mission of MESA. In the 2021 CSO Parent/Guardian Survey, 93 percent of respondents feel the school is fulfilling its mission.
- **Indicator b:** The school has implemented the key design elements in the approved charter and in any subsequently approved revisions. Teachers reported MESA’s adherence to Standards-Reference Grading. In classroom observations, students were observed using multiple means of expressing understanding from manipulatives, writing, and speaking. MESA continues to offer four years of STEM to all students in addition to offering ecological field trips and partnerships with technology firms. The school continues to offer college-bound classes for all four years and has expanded that with their “13<sup>th</sup> grade” post-secondary supports. MESA continues to offer 9<sup>th</sup> Grade writing seminar and has expanded to include a 10<sup>th</sup> Grade writing seminar class. The school assigns student effort scores based on student conduct towards utilizing the skills necessary to succeed in class. MESA currently does not have a year-round calendar. The school will have an intersession program during the first week of the April break. MESA continues to have an extended school day and school year. MESA has modified its enrollment preferences to include a specific category for ELLs in order to boost its ELL enrollment.

The school continues to offer numerous supports to teachers, including every teacher having a coach. Time set aside specifically for teacher collaboration is embedded in both the daily and weekly schedules. Common planning time is allocated for specific departments. MESA teachers

receive training during summer institute, through PD scheduled throughout the year, and from feedback from their coach and school leadership. Due to MESA's organizational structure of separating the pedagogic from the operational duties, MESA teachers have minimal administrative duties. The school communicates with and engages families with the school community. School leaders have reported that MESA regularly offers parent workshops and teachers communicate with parents to discuss students' strengths and needs. School leaders have reported that teachers are expected to make two outreaches per week to parents.

**Benchmark 9: Enrollment, Recruitment, and Retention**

*The school is meeting or making annual progress toward meeting the enrollment plan outlined in its charter and its enrollment and retention targets for students with disabilities, English language learners, and students who are eligible applicants for the free and reduced priced lunch program; or has demonstrated that it has made extensive good faith efforts to attract, recruit, and retain such students.*

**Finding: Approaches**

<u>Element</u>	<u>Indicators</u>
1. <i>Targets are met</i>	a. The school maintains sufficient enrollment demand for the school to meet or come close to meeting the enrollment plan outlined in the charter.
2. <i>Targets are not met</i>	<p>a. The school is making regular and significant annual progress toward meeting the targets.</p> <p>b. The school has implemented extensive recruitment strategies and program services to attract and retain students with disabilities, English language learners, and students who are eligible for free and reduced priced lunch. Strategies include, but are not limited to: outreach to parents and families in the surrounding communities, widely publicizing the lottery for such school, efforts to academically support these students, and enrollment policy revisions, such as employing a weighted lottery or enrollment preference, to increase the proportion of enrolled students from the three priority populations.</p> <p>c. The school has implemented a systematic process for evaluating recruitment and outreach strategies and program services for each of the three categories of students, and makes strategic improvements as needed.</p>

**Summative Evidence for Benchmark 9:**

Over this charter term, the trajectory for this benchmark has been consistent as an Approaches.

1. Element: **Targets are met:**

- **Indicator a:** The school maintains sufficient enrollment demand for the school to meet or come close to meeting the enrollment plan outlined in the charter. MESA currently (2021-2022) enrolls 510 students with a maximum charter allotment of 500 students.

2. Element: **Targets are not met:**

- **Indicator a:** MESA subgroup populations are currently (2021-2022) 82 percent ED students (-7 percentage points to the DOL), 16 percent SWDs (also, -7 percentage points to the DOL), and 20 percent ELLs (-10 percentage points to the DOL). The school’s DOL subgroup percentages are 89 percent ED students, 23 percent SWDs, and 30 percent ELLs.
- **Indicator b:** Through identifying and addressing a reporting error, MESA has increased its ELL enrollment from a -23 percentage-point differential in 2020-2021 to a -10 percentage point differential percent to the district of location. Through developing and maintaining relationships with organizations that serve recent immigrants and conducting targeted ELL outreach in visits to district middle schools, MESA may come closer to parity with the DOL.

- **Indicator c:** MESA has requested approval to revise its school design so that it can create a specific priority group for ELLs and continues to boost enrollment for this at-risk student population. The school has submitted an updated document for CSO approval, and it is currently under review.

***See Attachment 1 for data tables and additional information.***

**Benchmark 10: Legal Compliance**

*The school complies with applicable laws, regulations, and the provisions of its charter.*

**Finding: Meets**

Element

Indicators

1. *Legal Compliance*

- a. The school has compiled a record of substantial compliance with applicable state and federal laws and the provisions of its charter including, but not limited to: those related to student admissions and enrollment; FOIL and Open Meetings Law; protecting the rights of students and employees; financial management and oversight; governance and reporting; and health and safety requirements.
- b. The school has undertaken appropriate corrective action when needed and has implemented necessary safeguards to maintain compliance with all legal requirements.
- c. The school has sought Board of Regents and/or Charter School Office approval for significant revisions.

**Summative Evidence for Benchmark 10:**

Over this charter term, the trajectory for this benchmark has been consistent as a Meets.

1. Element: **Legal Compliance:**

- **Indicator a:** The school has generally compiled a record of compliance with applicable state and federal laws and the provisions of its charter. The school reports that MESA maintains contractual relationships with law firms to advise on legal matters, employment matters, and governance compliance matters. The dates and time of the board’s monthly meetings along with the minutes of previous meetings are posted on the school’s website in accordance with the Open Meetings Law. School leaders have reported that all staff receive the required annual DASA training; however, the DASA is not sufficiently addressed as part of the school’s discipline policy, and it is not separately posted to the school’s website. The school has submitted revised policies for approval, and they are under review. The school offers financial incentive for certified and dual certified teachers.
- **Indicator b:** The school has generally undertaken appropriate corrective action when needed and has implemented necessary safeguards to maintain compliance with all legal requirements. However, the school was required to send the CSO documentation needed to approve their participation in the DOE Pathways Program, and it has failed to do so to date.
- **Indicator c:** The school has sought Board of Regents and/or Charter School Office approval for several revisions over the charter term. MESA has sought approval for material changes to its enrollment policy; however, this revision request has not been fully submitted and is not approved. MESA has sought approval for non-material changes to its disciplinary policy, during the current charter term, and the request is currently under review. The school reported nineteen uncategorized, uncertified teachers in its 2019-2020 Annual Report; seventeen uncategorized, uncertified teachers in its 2020-2021 Annual Report; eighteen uncategorized, uncertified teachers in its 2021-2022 Annual Report, a violation of the Education Law.

## Overview

### Charter School Selection

MATH, ENGINEERING AND SCIENCE ACADEMY CHARTER HIGH SCHOOL

### BEDS Code

333200861059

### 2021-2022 Enrollment

510

### ESEA Accountability Designation (2021-2022):

This school is designated as a school in **Good Standing** under current New York State criteria as defined by the Elementary and Secondary Education Act.

### Charter School Information

School District of Location:	NEW YORK CITY GEOGRAPHIC DISTRICT #32
Total Public School Enrollment of Resident Students attending Charter Schools:	25%
Additional School District: (if applicable)*	N/A
Total Public School Enrollment of Resident Students attending Charter Schools:	-
Grades Served:	9-12
Address:	231 PALMETTO ST BROOKLYN NY 11221
Website:	www.mesacharter.org
RIC:	NEW YORK CITY
Regents Region:	NEW YORK CITY REGION - BROOKLYN
Regent:	KATHLEEN M. CASHIN
Active Date:	7/1/2013
Authorizer:	NYS BOR
CEO:	ARTHUR SAMUELS
CEO Phone:	(917) 257-6876
CEO Email:	asamuels@mesacharter.org

# 2022 NYSED Charter School Information Dashboard

## Notes

(1) Data in the table above represents tested students who scored proficiently on the NYSTP ELA, math, or science assessments or on the Regents math or science exams.

(2) For the students with disabilities and the English language learners subgroups, both current and former members of the subgroups have been combined.

(3) Pursuant to NYSED business rules, the data was suppressed for subgroups containing <5 students and the subgroup category may not be included for the metric.

(4) Data in the table above represents students who passed the Annual Regents or equivalents (score of 65 or better).

(5) The 4- and 5-year graduation rates reported are as of August. The 6-year graduation rates are as of June.

(6) Data in the table above represents a comparison between those grades served in the charter school to only those same grades in the district.

(7) A "." in any table indicates that the data was suppressed, no student sat for the exam, or the exam was not given.

(8) Data in the table above represents tested students who either maintained a proficient score from one year to the next or students whose proficiency level increased from one year to the next (a proficient score is level 3 or 4).

(9) Data in the table above represents students within their respective subgroups who have passed three out of the five Annual Regents and Regents Common Core Examinations (score of 65 or better) or equivalents.

(10) Data in the table above represents the percentage of students from the original 9th grade cohort who persisted within the same school to a 4-year graduation (includes August graduates).

(11) Data in the table above is a comparison of the differentials of the 3-8 assessments and the 4-year graduation rate for the school and other schools with the same grade structure and similar subgroup enrollment pattern. The notation +/- 5, indicates the highest level of similarity.

(12) Data in the table above represents students who passed their Regents ELA exam with a score equal to or higher than 75 and also passed at least one of their Regents math exams with a score equal to or higher than 80.

# NYS BOARD OF REGENTS AUTHORIZED CHARTER SCHOOLS

April 2021

2021 Annual  
Survey of Charter  
School  
Parents/Guardians,  
Teachers, and  
Students

Prepared for  
Math, Engineering, and Science Academy Charter High School

NYS Education Department Charter School Office

## *Introduction*

---

In February of 2021, the NYSED Charter School Office (CSO) published the first iteration of three new annual surveys: parents/guardians of students, teachers, and students in grades 9 through 12.

Building upon NYSED's commitment to community-based authorizing, these surveys assisted in sharing community voice and provided Board of Regents-authorized charter schools with an invaluable tool to engage in school improvement. Community-based authorizing is based on the principle that community stakeholder voice, and response to community need, is an integral component of charter school decision making at all levels. NYSED expects to see evidence of community voice, as well as a commitment to the principles of diversity, equity, and inclusion, as a central tenant of existing Board of Regents-authorized charter schools. Participation and the findings of these surveys are directly related to the standards of Benchmarks 2 and 3 of the Performance Framework for Board of Regents-authorized charter schools.

I am very pleased to share the school specific results of our first 'Survey of Parents/Guardians, Teachers, and Students 2021.' There was a total of 9,205 parent responses, 2,412 teacher responses, and 3,195 student responses from 92 Board of Regents-authorized charter schools.

Thank you to our charter schools for embracing the task of disseminating these surveys and assisting in the furtherance of our commitment to listening to your communities. I look forward to continuing our work together for the betterment of the students of the state of New York.

Sincerely,

A handwritten signature in black ink that reads "David M. Frank". The signature is fluid and cursive, with the first name "David" being the most prominent.

David Frank

<b>OPEN1 Why did you choose this school for your child to attend?</b>	Because it is excellent
	Because of the family connection and the numerous supports the school offers
	Due to family medical needs, remote learning was the best choice
	Eligimos esta escuela porque nos gusto los programas y por el alto rendimiento escolar.
	Es la mejor!
	Es una buena escuela
	Es una de las escuelas que le llamaron más la atención a mi hija por su nivel académico.
	Es una de las mejores en mi area
	Estoy muy satisfecha con el compromiso que tienen con los alumnos.
	Excellent teachers
	He tenido muy buenos comentarios de amigos que han tenido sus hijos en esta escuela y el numero de graduados que van ha la universidad y otras cosas me han hecho decidirme por esta escuela, ademas las escuelas publicas de buen nivel academico uno aplica y nunca tecibe una propuesta en consecuencia ests escuelas son una gran alternativa para padres como yo que queremos un buen futuro para nuestros hijos
	I chose Mesa Charter School for my child to attend for their excellent quality of education and behavioral conduct. I feel safe sending my daughters to this school.
	I chose this school because it's different, it didn't give me it's just like the other charter schools feeling, it didn't blind fold me with all the bells and whistles that their one way but then it turns out their different that school keep it one way from the beginning till now And that's what I like about that
	I chose this school for the discipline and the learning process in the school
	I feel that Mesa is doing a great job. I heard so much positive things about the school. That's why we have chosen Mesa.
	I strongly believe it is a good school
	It was close to home
It's an amazing school and the teachers are there to help my child improve for her future	
La escuela tiene por nombre M.E.S.A.y pensé que mi hijo recibiría las bases de materias técnicas como ciencias de la computación, ingieneria, pero solo es el nombre jamás vivo esas materias, y ahora está a punto de ir al college con un gran vacío de conocimientos.

	Mesa warm supportive staff, approachable staff, goes beyond to ensure students succeed, supports all learners.
	My son attended the same school and love the way the approach each child individually and help develop they full potential.
	Por el compromiso que tienen con los alumnos
	Por el nivel academico, por la Fuente instruction en ciencias y matematicas
	Por encomendacion ñ, por los programas que tiene, el numero de graduados
	Por es muy buena escuela
	Por q tube muy buenad referencias ,de familia y amigos q estan o estubieron en esa escuela
	Por qué otros padres que tuvieron sus experiencia con sus hijos en esa escuela. Tu ienton buena educación. Me recomendaron.
	Porque brinda información, apoyo a los estudiante me gusta la escuela.
	Porque esa escuela Enseña also ninos a progresar y atener un mejor education para un future mejor
	Porque me gusta su enseñanza, dedicación y preocupación por los alumnos....es por eso que mi hija se mantuvo en esa escuela desde que ingresó.....
	Porque me inspiro confianza en su metodo de aprendizaje
	Porque tiene un buen nivel academico
	Porqué me gusta el aprendizaje de las charters school
	The school have interesting programs in math, science and engineering.
	Their commitment to their students
	This is a very good school.The staff is very much involved and the staff keeps me very much involved.We both want the best for our kids.
	good reputation and close to my house
	It's the best school for him because my child love anything partaining to science.

<b>Es una escuela muy preparada.</b>
<b>Good school for talented child</b>
<b>Great school, consistent in its teaching, provide immediate feedback for parents, teachers are so supportive, and kind and caring staff.</b>
<b>Las matemáticas es la única clase que .i hija aveces no entiende a la perfección y me gustaría que prestaran un poco más de atención de si están entendiendo</b>
<b>MESA NO TIENE CLASES DE CIENCIAS DE COMPUTACION Y DURANTE LOS 4 AÑOS JAMAS LE DIERON NI SIQUIERA NOCIONES DE INGIENERIA. ESO SOLO SE VE EN EL NOMBRE DE LA ESCUELA.</b>
<b>Yo estoy muy satisfecha con la enseñanza que brinda MESA lo mejor es que son pocos estudiantes en el plantel .</b>

The access and opportunity to demonstrate excellence is demonstrated in my classroom through multiple inputs and outputs for students to self select from--worksheets with or without sentence stems, audiobooks made available, alternate teaching stations according to ICT models, etc.

When students are applying multiple skills to a real world / in context math problem - synthesizing information and determining an approach

differentiated work that allows students to attempt all "spicy" or more rigorous examples just with various entry points to meet their needs as a learning or cater to their disability.

Teacher Survey 2021  
Open End Responses**

**Math, Engineering and Science Academy CHS**

<p><b>Q2_Open2 Explain how you differentiate instruction for students in your classes:</b></p>	<p>Assignments are often tiered for all learners, which in an ELA classroom looks like a comprehension section, a textual analysis section, and then a "push" for gifted learners (often synthesizing prior knowledge/additional content). Students are also given multiple at-bats, reassessments, and alternative outputs to express understandings.</p>
	<p>Based on I.E.P. or E.L.L. data and recommendations work is scaffolded and groups are formulated to allow for maximum access to all material covered. Exams and quizzes are similarly structured, and time frames are modified to ensure all students get their equitable opportunities to show their learning.</p>
	<p>By planning each lesson with the unique needs of each student in mind. I think about modality, delivery, content and student work products.</p>
	<p>Differentiated instruction involves multiple access points, complex questions broken into smaller more digestible questions (socratic method), fill-in the blanks, word banks, and equations that are blank to just fill in.</p>
	<p>Giving students choice, working through various ICT models, providing chunked instruction and scaffolds throughout. Fostering the "3 before me" structure even in a virtual setting. (ask 3 friends before you ask the teacher)</p>
	<p>Graphic organizers and differentiated texts</p>
	<p>How I differentiate in the classroom varies per student based off of their needs. Activities and classwork include tiers that allow students to start where they feel most comfortable and for others to challenge themselves or try to get ahead. Assessments are modified if necessary for SWDs, seating charts are strategically created to ensure each student is grouped with someone who can push or support them, and different forms of accessing the content is available to student they may benefit from different teaching modalities.</p>

	<p>In my class and at MESA, we use an ICT model with 2 teachers which allows us to do different types of teaching. Some of the models I use in my classroom are parallel teaching, station teaching, team teaching and alternative teaching. The main goal of my classroom is to give all students an access point so in addition to having varied types of teaching models, our materials are modified and tiered.</p>
	<p>On an individual basis, I determine the needs of the learners and act accordingly. Most often this involves leveled texts, graphic organizers, selective groupings.</p>
	<p>Provide small group instruction, scaffold material, chunk practice/instruction (do step 1 only, then do step 2), provide instruction in Spanish, provide helper videos / preview material</p>
	<p>There are multiple avenues for the student to demonstrate mastery</p>
	<p>Translated text into Spanish (ELLs in my school are Spanish speakers mainly) - Step by step directions, choices of work based on skills, 1:1 communication, redirection, etc</p>
	<p>Varied co-teaching models. Accommodated/modified texts and assignments. Use of graphic organizers, sentence stems.</p>
	<p>We have effective co-teaching models that allow us to cater for students in a number of ways. Scaffolded work sheets, modified lesson outcomes, translated documents, small group instruction to name a few</p>
	<p>Workouts and Sports assessments are categorize in 3 level, Beginners, intermediate and Advance</p>

<b>Q3_Open How do you use data in your classroom to guide instruction?</b>	<p>Comprehensive grade reports that break down performance by learning goals, assessments, and identification inform the progression of lessons and rubrics.</p>
	<p>Data allows me to determine whether or not I am allowed to continue instruction with the class as a whole, may need to re-teach to the class as a whole, or find ways to give students that aren't yet up to speed an opportunity to re-learn.</p>
	<p>Data is a big part of our classroom!! We use data often to pick certain focus groups and decide which students are being given modified material/extra help. In addition, we use data on our learning goals to guide which lessons need to be retaught/spiraled back.</p>
	<p>Data is used to track the progression in students performances and abilities.</p>
	<p>For student groupings and remediation</p>
	<p>Formative data (exit tickets, CFU's) to adjust instruction for the following days or to determine re-teaches or to invite students to office hours. Standards based learning where students get at least 3 at bats to master a learning goal.</p>
	<p>I determine whether we are ready to move on based on assessment grades, I reteach if necessary, I specifically write questions based on what I need to assess within a learning goal.</p>
	<p>I use data as a measure of students that need to be targeted for extra support or pushed, as a means of how/who needs to be retaught, etc.</p>
	<p>I use data in the form of formative and summative assessments to inform my instruction.</p>
	<p>I use data to focus on students who need interventions and then invite those students to special "office hour" study sessions to help them reassess their work.</p>
<p>If a good majority of students did not pass an assessment, another day is taken to review the material, go through the misconceptions and another assessment is given to digest the original errors and apply it to an alternative situation.</p>

Our school's grading system is based on Learning Goals that are reassessed several times. We look at how the grades of these LGs are distributed among classes, ELLs, SWIEPs, attendance, etc, and plan accordingly.

We review grades often to see who to review with and modify for. We also use the data from Tableau to figure out who to target for office hours and check ins. We also make adjustments to lessons based on data (if the whole class didn't reach mastery for example) We also provide students with feedback on their work and teach the misconceptions whole class to error analyze and correct mistakes.

We use standards based learning, so are constantly reflecting on average grades and looking at what style of learner is performing in different types of assessments. This helps us spiral, allocate students to appropriate working groups as well as measure progress towards mastery and state exams. During a regular in person school year we also sit a series of mock exams that are Regents, PSAT aligned to show student progress.

inform our groups for various ICT models, reinforce skills that students did not achieve mastery on or push the students to level up if they ahd.

<p><b>Q6_Open Describe the methods available for teachers to raise student discipline concerns. If no such methods exist, write "none" in the space below.</b></p>	<p>As teachers we are able to notify the deans, student advisor, and parents about discipline concerns. We also are encouraged to notify the principle or leadership team.</p>
	<p>Bring the discipline issue to the dean team.</p>
	<p>Communicate to our dean team</p>
	<p>Consult with admin and dean team about students.</p>
	<p>Contact the dean team and leadership</p>
	<p>Frequent staff meetings, surveys, and coordination among grade levels, departments, and the student support team.</p>
	<p>Most teachers manage discipline concerns within the classroom. Anything too concerning will involve a member of a dean team who works hard to mediate the relationship between the teacher and student, build a strong relationship with the parent and have them be a part of those conversations, and hold restorative practices to mend relationships between students if necessary.</p>
	<p>Reach out to dean team, counseling team, manager, principals.</p>
	<p>Teachers alert the Dean team via text or email. Student teacher and Dean conference outside. Once the conference is held the Dean determines if the student should return. The teacher documents the incident on Kickboard to provide the Deans with data.</p>
	<p>Teachers are given the opportunity to refer/flag students for the counseling/dean and academic support teams.</p>
<p>We have a set of 4 Deans and 4 Counselors and a Student Support Team to work one to one with these students.</p>	
<p>We have deans who we communicate with and use Kickboard</p>

**Q7\_Open Describe how the school addresses issues of bullying, discrimination, and harassment. If you don't know, write "don't know."**

Advisory discussions on incidents.
Bullying of any sort has a 0 tolerance policy and has been message to both Staff and Students all incidents are reported and handled by School's Dean Team
Case-by-case basic determined by involving deans, leadership team, counselors. Often restorative practices are used.
Conversations
Don't know
Don't know
In comparison to other schools I have taught at--none. However, my school takes a proactive and reflective approach to these issues and in light of the past year's social upheaval, we have begun a DEI program among staff and one with students to address any identity-based harassment both in and out of school.
It addresses the cases as esteemed necessary. When big situations have happened, the whole school community has worked towards it.
One on one conversation with student, communicate with deans, bring in parents if necessary. other than that, I'm not sure that there is a formal process - varies case by case
Our Dean team handles all instances of such harassment.
The dean team handles much of these issues.
This year we have done a strong push on monitoring bullying with an ongoing anonymous survey for teachers and staff to fill out if an incident occurs. There is a committee of staff to follow up on these referrals.
We have a strict no-bullying policy. We teach students about race relations through our D.E.I. initiatives and hold them to high standards behaviorally.
We use the love and logic model and aim to educate students rather than punitive measures

<p><b>Q18_Open1</b> Please describe the teacher evaluation process. If none exists, write "none" in the space below.</p>	<p>As an instructional coach, we are constantly popping into teachers classrooms and providing them with feedback. We steer away from a "formal" evaluation process in order to keep the lines of communication open and honest.</p>
	<p>Both formal announced and unannounced observations. Lots of informal observations - immediate feedback to follow informal observations</p>
	<p>Class visits, formal and informal</p>
	<p>Each Subject department has a Department leader/Coach who does observations and give helpful feedback needed to help with Teacher's and Students performances</p>
	<p>Each teacher has a dedicated coach, as well as an AP that monitors their growth and gives continual lesson and planning feedback as long as working with them on shared goals.</p>
	<p>It is normal for educational coaches and AP's to randomly pop in and observe lesson and provide feedback. Once or twice a year a formal evaluation is preformed. The coach with sit with the teacher before the evaluation to go over the lesson and again after the evaluation to talk through the experience.</p>
	<p>None</p>
	<p>Not sure</p>
	<p>Observation every 3 to 4 weeks.</p>
	<p>Semi-monthly unformal coach/asst. principal observations. Two formal observations annually.</p>
<p>Teachers meet with their department heads multiple times throughout the year. The first meeting consists of goal setting and planning a time for an informal observation. The second meeting is a follow up along with implementing a plan to improve through the next observation. Last observation is formal and the meeting afterwards reflects on performance from a teacher and student standpoint.</p>

**Q18\_Open2 Provide examples of how school leadership solicits feedback from staff. If none exists, write "none" in the space below.**

Coaching meetings are two-way conversations between leadership and staff about all aspects of the school, both successes and areas for growth.
Google Feedback Surveys
None- very rarely in surveys
SO MANY SURVEYS ;)
Sometimes there are surveys and check-ins, but remotely there has been very little of that
Surveys
Surveys at the end of professional developments, one on one meetings with leadership where spaces for feedback are provided, and weekly department and grade team meetings where feedback time is also implemented into the agenda.
Surveys, choice in PD
Surveys, group discussion, one-on-one discussion. I have not felt like my feedback has been genuinely heard.
Surveys. Annual offsite checkins.
They do a fantastic job of this. They constantly send out surveys to ask for feedback. They set up one-on-one meetings with staff members to elicit feedback on different topics. The environment around growth and open communication is very strong.
Through Google Forms .. meetings .... coaching
Through google forms and surveyys before decisions are amde.
We have to fill out a lot of surveys.
While remote, leadership each have members of staff that they hold frequent check ins with. This is the same in the building however they're more informal.

Once i got cyberbullied and they said they were gonna do something but their change was simple
Some people (not from this school) make fake accounts to soemetimes troll people
There once was a MESA tea page and they said that they had to get all the black kids out beacuse we are ghetto and ruining the school.
This girl fakes to be my friend and posts stuff about her saying that she deserves it because of what she did but she wont tell us why.
Verbal,harassment, and outing.
Well I do have twitter so, I basically see it almost everyday.
When I speak I say "um" a lot so Im explaining my answer and someone in the chat says CEO of um
cursing talkng about people
harassment, trickery, cyber stalking, using someone's else's profile, and creating made-up profiles to post harmful things.
i have not
i haven't seen cyberbullying
making anonymous Instagram accounts to talk about students
mean messages, mean pictures of the person they are cyberbullying, rude comments
n/a
nah
no
no just in my old school
none
nope
nope I have not experienced any type of cyberbullying from anybody in the school
not sure
social media accounts of post talking badly about other students
uh i never experience so yeah but if i see id have to pull self defense on them for another person

<p>OPEN2 We would really appreciate it if you would explain why you chose your answer to 'Would you choose to be attending a different school if you could?'</p>	<p>Already spent more than a year in school so it's weird to switch</p>
	<p>As there were many school i would be attending its more of what would've been rather than actual like of school</p>
	<p>Because I like this school and what it teaches for me.</p>
	<p>Because I wanted to go out of my borough</p>
	<p>Because i feel this school makes learing fun and i could actually be happy that i am going to school</p>
	<p>Before attending this school I was initially supposed to be in another school but I realized that the environment in my current school felt much safer. I remeber feeling nervous because high school school was new to me I thought it was more challenging but I was suprised. The environment the students, teachers are all great.</p>
	<p>Cause the school is a good space to learn already</p>
	<p>Cuz i like mesa</p>
	<p>Depending on the opportunity that I get from a different school I would've went to that school.</p>
	<p>Depends on how much I like the other school.</p>
	<p>Even though, Mesa is a good school,I would have loved to go to a school a bit far and where I could grow experience getting to know a new place. Also most of my family members went to Mesa.</p>
	<p>I actually really love the school and I love the teachers. the teachers really care about us and they make sure that we know that.</p>
	<p>I am fine in my school, they give a lot of resources and care for each student.</p>
	<p>I believe this school is really good for me.</p>
	<p>I choose maybe because personally I feel like this school wasn't meant for me and the school feels bland.</p>
<p>I choose no because I feel like we should go to school after the COVID cases lower.</p>	
<p>I choose the answer no because this is one of the best schools i ever attend and what I love is that the give students opportunities to fit in and feel welcome. when I first joined this school I felt connected because, we did this thing where we felt connected to the teachers and students plus everyone was friendly also mesa provides office hours and tutors whenever you falling behind so they make sure that everyone is on track with their school work and I wouldnt leave that opportunity for anything.</p>

I chose maybe as my answer above because I live near the school building and I feel really positive about this school. I would attend another school only if I have to move to another city or state, otherwise, im staying here.
I chose maybe because this school is great, but I had other schools to apply to.
I chose no because the school is good
I chose that answer because i really love my school how it it and it does not matter whta other says
I chose this answer because I see things in other highschoools that I don't see in MESA, but I still like MESA's teaching and environment.
I chose yes because MESA is good and it does impact many kids in a positive way but I think I could be pushed a little a more. Coming from MVP charter I feel like MESA was a little underwhelming in some aspects. Over all it's good just want more.
I don't think so, however being in bigger environment might be funner however the school is really friendly and fun already.
I enjoy my school
I enjoyed Mesa being close and it helped me figure out my major i want to study in college and has helped me each year get closer to accomplishing my goals.
I feel comfortable at school
I feel comfortable at this school with the staff, classmates, and the environment
I feel fine with the school I am currently going to so I don't think I would change schools.
I feel like MESA is doing a great job better than any other school around my area.
I feel like its a good school so far and i went there for middle school.
I feel like this school helps me get on track with my grades and extracurricular programs. I think this school really tries to make the students think in college and look for a great future. I just transferred but I am looking forward to see what more the school has to offer!
I feel like this school is gives me more than enough information about scholarships and programs that will help me with my future career.

I feel like this school is good and local.
I feel really comfortable at this school
I have looked at other high schools (not physically of course) but I know there are better high schools out there than MESA, with that said this high school does not have anything wrong with it if anything it's the opposite. MESA bombards you with support from teachers, outside activities, and even students themselves which pleasantly surprised me. Also, I feel like my experience with learning has been comfortable I feel like my teachers explain very well what they are trying to teach, and if I don't they sure let us know we can ask them questions anytime privately or not which gives me the confidence to ask more when I'm confused. Lastly the grading system, at first I didn't like it, and my thoughts on it are still very murky but for now, I believe they are adequate in assessing my grades, and the potential it gives for improvement is also welcomed. So no, I would not choose another high school I am pleasantly residing in MESA :>
I have never attended the school in real life yet.
I just don't like that we end school late but besides that the school is really beneficial especially if you want to go to college.
I like my school. Others sound much worse than mine.
I like the atmosphere at this school.
I like the school I go to
I like the way the teachers teach in this school, its way better than how it was at my old school. they care more here asoutones mental health
I like this school eventhough I still don't know the school because I transfered this year but during this remote learning I could see the teachers are really good
I really like how the school is run and i would stay in this school
I really love my school and the teachers are amazing.
I really wanted to apply to an art school but I was kind of made to go the my current school.
I said No because I like the way this school is organized. I like the way the teachers helps the students even though they have other things to do.
I said no because I love this school. This school change my life and am so happy.
I said no because I really like the school I am in now. It is really opening and welcoming and treats the students well.

I said no because my school is providing me with a lot of good things for my education and colleges
I said no because the school has shaped academic wise
I think im doing good in my school and I don't feel like changing it cuz Ive grown very close to them
I think that this school is a good school because so far they have. been leading me well and am getting good grades.
I think that this school is the best fit for me, so I wouldn't change it.
I think this school gives me opportunities no other school does.
I think this school is good because they care about their students, and the academics offered are outstanding
I wasn't really planning to go to MESA, i actually wanted to go to Gramercy Arts High School. because it's a arts school and I'm all about arts and music and dancing.
I won't go to a different school because this school helped me learn more about every subject
I would never leave this school because people in this school make me feel comfortable
I would not because I like the school that im in right now.
I would not choose to attend a different school because I feel really comfortable in the school I am in especially since I haven't seen bullying.
I would't choose to attend another school because all the teacher in this school are very nice and I feel very comfortable at this school.
I wouldn't because the teachers in this school want to help you pass.
I wouldn't choose another school because the teachers in this school are understanding and don't give you a hard time. Also my brother and cousin attends this school so i'm happy i'm also able to.
I wouldnt change school becuse my sister came her and she graudte and she knows most of the teachers and this school fall in the category fro my future job.
I wouldn't choose to be in any other school because this one has already and I'm sure will continue to have an amazing and meaningful impact in my life. The people in it, the support system, and the fact that they hear us out is amazing!
I'm good with the school Im in

I'm grateful to be apart of a high school that's fairly new and continues to grow each day.
I've experience racism in this school like never before and I would feel more comfortable back at my old 6-12 school.
It may sound dumb but I simply would like to be in the same school as my best friend, don't get me wrong this is an amazing school. The teachers are like nothing I've ever seen it's crazy, the work is actually fun(some of it) But despite all of this I just want to be in the same school as my best friend.
It really depends I really enjoy this school but of there was an opportunity for a amazing high school I would take the chance
It would be because it is a good school.
It would be lying if I said I didn't want to transfer at the beginning of my high school experience because I did, but grew to enjoy the custom and schedule of the school. I would see how in public schools their system differs from the one in my school and the pros were evident in the aspect that students had more liberty, but also they had a bit more rigorous courses than at MESA. Ultimately this was one of the factors on why I wanted to transfer, but I decided to stay at MESA because of the location and the support that they gave/ opportunities.
It's a very open and safe space and I like the environment it has.
It's not a bad reason for wanting to go another school is just that I could have done better.
It's honestly a good school. The environment is always clean and the staff are always friendly. It's just that some of the students make the school seem like sh*t when it's not. Many students complain about the grading system but it's fair to me, most of them are just lazy.
I've had my eye on this school since I was in 6th or 7th grade and I don't really know what it is, but this school was always very welcoming and supportive. My sister went to this school and in my opinion, this school was the most inclusive school i've ever seen. Really glad I got in.
Just out of curiosity on what it would be like.
MESA has allowed me to grow and become who I am, through the good and bad times, and I am thankful for that.
MESA will always be my home.
Mesa is a good school
My experience at MESA has been good so far they are really good at making students welcome. Lastly the school is really close to my house if I do attend in person school one day

My school is good to me and allows me to be myself without having to worry about anything. I learn a lot and am given many chances to succeed.
My sister came to this schooll and graudte
No because I get to know more my teachers and friends and they make me to feel good on the school
No because I love this school
No because im about to graduate
Not really because I feel comfortable in this school.
Only if the different school was a top school
Sometimes I'm bored
The grading system is a bit unfair you could have all A's and one D could make your overall grade a D which is a bit odd but maybe it's because we are remote right now but besides that the school is really good and a really supportive environment I feel included despite my race or sexual identity.
The school doesn't challenge me. I know almost everything that this school teaches me. However, it's not there fault I just came from a good school.
The school has more benefits available for me.
The school hours and the overload of class work and homework everyday for every single class
The school is safe and they do a good job in trying to make you learn more and become better. They also help us prepare for our future.
The school now offers way more individual help to students behind on work than any of my other schools. Plus unlike middle schools, some of the teachers actually get you excited to learn.
The school or teachers actually make it fun and easier to learn.
There is no need to be attending another school because the school I attend has everything that I want from a high school.
There"s always a better school but i feel like i don't really belong their because i don't like going to school i see school as a waste of time
This is a good school to be attending.
This school hasn't haven me so many opportunities that other schools can't
This school is doing alright for me, it doesnt seem like it would force me to quit

because I feel really comfortable in this school and the position I'm in the the school
because I'm not so sure and at the same time if I wanted to.
because i already feel comfortable in this school
because i feel already comfortable with this school the teachers i have are nice and help out if i need help
because i have no porblem with this school
because i haven't been comfortable there.
because i like mine
because i wanna go to a bigger HS , my school is shared with two more and i don't like that , i want a school were i can only see the school students and be safe
because i wanted to come to MESA since i was in middle school.
because it's great so far
because its really far and i dont feel safe treveling
because the school is not that far.
because there is better options
i like mesa
i really like the school and i can see my self progress in this school
i really not sure sometimes i feel changing and sometimes i feel not
i say this because another school wont help me like the teachers do here so no i wont move to another school even if i can
i was forced to go to this school, math engineering and science isn't really my interest, i was only forced because of the conveniency
i will stay
i would not change schools because even though i have not gone in person i am happy there.
i would stay in one school
if there's a better school then Mesa then why not.
im ok with this school i just need t put in the work

	Everything is good.
	I would really recommend this school because students have many opportunities and bullying doesn't really happen in this school. There are really nice people and in the morning there are students that make your day by telling you good morning and saying beautiful things as you are passing the hallway.
	I'm ready to see inside the school thats it.
	It is one of my best schools I ever attended and the best experience I ever had was attending a bonding trip to get to know everyone much better and how supportive this school can be because they provide a lot of help cause they do want their students to fail that´s why we office hours to make up missing assignments.
	It is unfair that we don't have a spring season when other schools in other areas have their seasons. It sucks just being at home and not being able to go train and play games with my team because that would help me perform better in school since it'd refresh my brain.
	Its been a great experience.
	It's a pretty great school that I'll recommend to anyone.
	It's all really based on the students mentality on where they stand in the school.
	N/A
	NO
	No
	No there is not
	No this school if gonna be good for me because I want to do engering.
	No, I wouldn't want to let you know anything else about this school.
	None
	None at the moment
Nothing else	
Nothing else. It's a good school, it's just the students that make it seem like it's bad.	
Overall, such an inclusive school. Incomparable to my last one.	
So far this school is great!

Sometimes I feel uncomfortable because their always those types of kids who try to be popular and stuff and bro not cool

The school is really good

This school was able to teach us about race,ethnicity, sexual orientation and more without any bias opinions. We also get taught the other side of history instead of usually the white rich man's point of view.

Uhm so in math I'm kinda learning everything I learned in 9th grade all my classmates I've kept in touch with from 8th grade tell me they are learning 10th-grade math cause we were in an advanced classed idk. I could be wrong.

Well if there is anything is that I hope when we come back to school, MESA is just as good as it seems online because my prior school did not have a good track record in bullying, herrasment, and fighting.

experience was good and I wish they could do sports for spring.

my school is one of the best.

**Q11. Why did you choose this school for your child to attend?**

Question Answer
I choose mesa because I know Mesa will give my child the knowledge to succeed after graduation.
It is great school for learning and has my child's education and we'll being at heart.
*Because they recommended the school to me.
*They have a high percentage in graduate statistics, a good quality education, help students x various resources achieve their goals, and maintain organization, responsibility and security. MESA is the best..
*Because it is very disciplined and gives a lot to the students.
I heard so many good things about this school and all the opportunities it provides for its students so I decided this was the one.
My child always said, he wants to be a doctor or anything that related to science
I got most of the information and attended to some meetings with the Principal and the staff OF the MESA CHARTER SCHOOL before my son get a seat in MESA CHARTER SCHOOL. I really like it for for my son. Thanks a lot for everything
It is very close to home and it was very well recommended.
Small school. Great teacher interaction. Location
*Because they spoke well of this school
My child chose the school and I support her decision.
*Because I had a good experience with my eldest daughter... I really liked the teaching methods and the help they provide to the students. Communication with parents is very good.
Proximity to home and heard very good things about that school.
*Because I would find a good school that offers many educational and interesting programs for the education of my son.

**Q13b. Explain why you chose "No" as your answer to  
"Would you choose to be attending a different school if you could?"**

<b>Question Answer</b>
No because this school has created a community from to feel safe in.
I would say 'No' because in my school I feel very accepted and comfortable in my community and environment
I feel that I could benefit a lot at this school
I said 'No' to the question above because I feel my school encourages me and pushes me to my all and helps me feel accepted and free in my own space.
