MISSION STATEMENT

Metropolitan Lighthouse Charter School has a singular mission to prepare students for college, career, and life.

g. KEY DESIGN ELEMENTS (Regents, NYCDOE, and Buffalo BOE authorized schools only)

KEY DESIGN ELEMENTS (Briefly describe each Key Design Elements (KDE) as presented in the schools approved charter. KDEs are those general aspects of the school that are innovative or unique to the school’s mission and goals, are core to the school’s overall design, and are critical to its success.

KDE 1	<p>MORE TIME FOR LEARNING MetLCS has an extended school day and school year, where we provide additional meaningful instruction for scholars. Additionally, we have extended learning opportunities such as tutoring programs and an after school partnership to support scholars.</p>
KDE 2	<p>RIGOROUS, STANDARDS-BASED CURRICULUM MetLCS' curricula are research-based, providing rigorous instruction at all grade levels in all content areas. MetLCS utilizes the EngageNY curriculum for both ELA and Math. This curriculum has been recognized as being the most aligned to the CCLS, according to a nationally recognized independent study of curricula. MetLCS teachers provide scaffolds and utilize small group instruction time to support scholars in</p>

	meeting the demands of a rigorous curriculum.
KDE 3	<p>DATA DRIVEN INSTRUCTION FOR ALL All instructional decisions at MetLCS are driven by data. Teachers and leaders use data on a daily basis to determine small group interventions such as our daily small group block for ELA and math, coaching needs of teachers, tutoring support for scholars, and enrichment opportunities such as the 8th grade Algebra regents course.</p>
KDE 4	<p>EMPOWERING HEART AND MINDS At MetLCS, we believe it is just as important to support scholars' emotional needs as it is to support their academic needs. On staff, we have a school counselor and a school social worker, who collaboratively create systems around character building and intervention supports.</p>
KDE 5	<p>RESTORATIVE PRACTICES MetLCS has spent the past two years developing our staff's capacity around being a school that is truly restorative as opposed to punitive. Our deans, counselors, school administrators, and many teachers have been formally trained in IIRP restorative practices and we believe in building strong character in our scholars.</p>
KDE 6	<p>ARTS INFUSION Arts infusion is part of the Lighthouse Academies instructional model. MetLCS has visual arts programming for scholars, dance opportunities, and outside partnerships with organizations which bring in music and dramatic performances. Additionally, our teachers work to</p>

	embed artistic expression into daily lessons so that scholars have a different way to represent their learning.
KDE 7	PARENTAL AND COMMUNITY PARTNERSHIPS MetLCS believes in having families as partners in scholar learning. We have high levels of participation through conferences, back to school nights, Coffee and Conversations with the principal, and events such as Spirit week, the book fair, and end of year ceremonies.

CHARTER REVISIONS DURING THE 2019-2020 SCHOOL YEAR

and Community School District 9 preference only) to include a preference for incoming Scholars with Disabilities (SWD) and English Language Learners (ELLs). The preference would be as follows
Siblings, Scholars with Disabilities, English Language Learners and Community School District (CSD) 9 residents
The rationale for this non-material change request is that MetLCS wants to ensure it is serving scholars in the same capacity that the neighboring community is, CSD 9. Following our most recent charter renewal process (2018 - 2019 school year), it was determined that there were several key areas in which we were lacking in relation to the recruitment and retention of these special populations. By pursuing this request, we can

		ensure a greater impact on scholars with the highest need and ensure our population reflects the district in which we reside.

Ballard stated that another difference between a 5 year lease and a 20 year lease would be the different in paying property tax. Ballard also noted that we are only authorized for 3 years by the NYC DOE.

Bothner reported in regards to the term sheet: he would like to see the square footage spelled out per floor on the term sheet, shared space should be spelled out on the term sheet.

Ballard stated that the original lease will be presented to the board before it is presented to the school's lawyer.

C. Review the Agenda

II. Principal's Report

A. K - 8 Update

Principal Kurt Davidson shared current enrollment numbers (21 scholars above). Attendance is still lagging slightly as compared to last school year, meaning within .4 of last year's attendance rate. We are not where we want to be with our 95% goal (at 94.38%). The school is reinstating parent phone calls and meetings regarding attendance. The school is nearly fully staffed. Mr. Darius Hawkins joined the school last week as the K - 8 Dean. Additionally Ms. Jomari Nunez joined the team as a School Aide. Bili Scott is a teacher who was hired via School Professionals and is teaching 3rd/4th grade writing. The SpEd Coordinator remains vacant. The school recently conducted its first Interim Assessment at the 3 - 8 level. Principal Davidson distributed the IA scores for ELA and Math. He shared that comparative data for Math does not exist as the assessments are new this year. There is ELA comparative data. Grades 4 - 8 showed improvement from last year while there was a small dip in 3rd grade. Principal Davidson shared some positive highlights, particularly at the middle school level. Additionally the chart includes data to include the percent of scholars scoring at 75% or above, anticipating that this is the proficient rate for the New York State test. The school has been engaging in goal setting (such as K - 2 reading level performance). Principal Davidson feels confidence about 3rd grade's ability to increase their performance. The Board can expect to see more academic data in January of 2020.

A. Bothner made a motion to approve Bili Scott and Jomari Nunez to join the MetLCS K - 8 team.

S. Pressley seconded the motion.

The board **VOTED** unanimously to approve the motion.

B. 9 - 11 Update

Academic data will be more robust at the December 2019 Board meeting. The school is preparing to analyze data from its recent administration of the Interim Assessment. The teachers will be looking at trends for which questions scholars are not able to answer and then demonstrate how they will reteach. Teachers create PowerPoints and have to present to the admin team as to what they will be doing and how it will be different. The School Leadership Team does weekly walkthroughs and share feedback with the staff via "glows and grows". Enrollment is progressing and the K - 11 is short only three scholars. Scholars coming in tend to live in the Highbridge area. Principal Williams meets with all scholars and families as they come to enroll. In terms of attendance the school is meeting its goal. The challenge tends to be with on time arrivals (8:30 a.m. start). Scholar culture continues to be strong. The last staff vacancy was filled yesterday. Mr. James Kinsey was hired as a high school English teacher. The school is ELA teacher heavy to ensure literacy is promoted at the school. 47% of MetCPA parents attended Parent Teacher Conferences which is a strong number for the high school level. A letter is being prepared to go out to parents regarding scholars' Grade Point Average and what their GPA means. This will be implemented for sophomores and juniors. The Thanksgiving feast is upcoming next week (Wednesday), Board members are invited.

Moving forward the Board would like to request a monthly update on the computer lab (9 - 11) and Design Elements (K - 11).

The Board can expect a draft of the dashboard for the December meeting.

IV. LHA Updates

A. Financial Report

Controller Mary Beth Rousseau reviewed the financials. The school remains in good shape in terms of the balance sheet. The year to date surplus is over \$900,000. There are several new reports in the Board packet as related to the financials. Financial Edge, the school's new financial system, has allowed us to produce additional reports such as the one-month expenditures and how this aligns to the year-long budget, as well as the year-to-date (revenue, budget, variance, etc.). As we are four months into the school year we would expect to be showing approximately 1/3 in terms of both revenue and expenditures, with some variances depending on the line item.

Everything is on track in terms of finances and all covenants are being met. There are no exceptions or major outliers to expect.

The MetLCS Finance Committee agreed to a 3% surplus last year and will continue to maintain this.

The school leaders, LHA, and Finance Committee will work together to prepare a budget amendment for further discussion in December. Courtney Russell and Karin McGuire will work with the Principals to identify any priorities for the school that may need to be addressed via this budget amendment.

The door locking monitor project required by the Department of Buildings remains an ongoing project. The entire city is backlogged with permitting, inspections, and more. The city may extend the required date for installation.

The Board discussed the rooftop project further. The Principals shared their thoughts and concerns. They will meet with the Manager, Operations to discuss contingency plans for future rain.

Aaron gave an update on the investments; why we have one, how much is in it and the rules in regards to the policy.

Aaron shared that the investment policy is very conservative and the safest form you can get. About two weeks ago, the annual meeting was completed with JP Morgan. In this meeting it was determined that the school would keep the same investment. Likely we will reallocate some money into short term US Treasuries. There are no proposed changes to the investments.

Courtney asked for a deadline for all requested information. Anuj stated two weeks, this would allow for two weeks time for review, questions and discussions.

Aaron asked the following questions: How much have we spent so far? Enrollment number wise, how does all of this fit into the strategy for projections? Has MaryBeth looked into the coverage numbers? Where do we stand with attorneys on the bond documents?

Kurt asked if this is not financially feasible, does the board have a preference as to how to proceed in one building. Anuj responded that a search for more space needs to be conducted. Kamaria discussed space priorities. Aaron asked the principals to think about a plan as well. Anuj asked that if this space isn't acquired, this should be included in the executive summary.

C. Review the Agenda

Aaron Bothner reviewed the agenda.

Jessica Boulet provided an update regarding Open Meeting Law as it pertains to COVID-19.

D. MetLCS Mission/Vision Reflection and Grounding

Aaron Bothner kicked off with the mission/vision reflection and grounding. He thanked everyone (Board members, school leadership, LHA) for their many efforts over the past few weeks. Everyone did their part to ensure everything that needed to happen did. We have over 600 scholars who depend on us for this critical work.

Where are we now and where do we go from here? There is a lot of unknown. We do know schools are an essential institution for the public. We know that we were asked to redesign hundreds of years of education in three weeks and need to acknowledge all that it took to do that. We know that there is still a lot changing and things we don't have answers for, that is ok. We will continue to make the best decisions we can.

Over the last few weeks we have moved the entire school online. We have worked with many key individuals and groups (NYC DOE, financial advisors, legal counsel, etc.) to ensure all aligned. We continue to focus on strategic planning. Our construction project has continued to date. We have prioritized the needs of the whole child and their families. We will come out of this and go back to school; we will need to have scholars who have made academic progress.

There is one fundamental question we will keep in mind which is what are we doing on a day to day basis to ensure our scholars are making progress towards our charter goals? Aaron will try to keep us focused on that as we move forward.

At this time it is not feasible for us to move forward with the additional space. We would not be able to build out the space at this point; this would be impossible with approvals needed, etc.

E. COVID-19 State of the School Update

Kurt Davidson K - 8 Principal presented. Phase One was preparing everything. Once it happened the school jumped on to connect with families. Materials were checked out to 75% of families. K - 8 and the CPA worked very hard across the board to get families and siblings in. Simultaneously the school has been working on the learning plan. Phase Two is the actual learning. Kurt Davidson presented images from the school and examples of learning resources.

The 3 - 8 grade band has transitioned to online learning; K - 2 is more of a challenge. Scholars are learning at home and doing similar things that they would be doing if at school. The school has posted tools for scholars to show their work. The goal is to get 100% of scholars on board, and to a high degree of quality. The team has been planning for all scholar needs, including but not limited to Students with Disabilities as well as English Language Learners. The social worker is meeting with scholars and families via phone. Scholar work is being graded which is facilitated via Google Classroom. Communicating with families has been of utmost importance. The culture team is supporting all around.

The team has been focused on culture and meetings have continued as usual. Team Zoom meetings have included the infusion of joy and continuation of the family model.

Ellen Chen asked how the school plans to use the data. Team meetings allow for check in around scholar data and adjustments to be made as appropriate. Examples of this would be data showing that scholars are struggling with accessing the content or struggling with the transition. This is being used on a day to day basis to adjust. Additionally staff surveys are being used to get a global synthesis of where the school is. The school is not yet at a place where the data can produce statements such as "65% of scholars in class X01 have mastered the standard ABC".

Tyra Williams 9 - 11 Principal presented. This has been a challenging but exciting last few weeks. The team has come together very well. Castle Learning is the hub of all the CPA work. Teachers have been teaching in whole group as well as in small groups, particularly for those who are struggling with the content. Teachers are remaining scope and sequence they have made that is housed in Alma, the Student Information System. An Interim Assessment will be administered the week of April 13 and will be cumulative, covering all skills and knowledge learned since August of 2019.

Small group instruction allows scholars to get what they needed. Grade Slam is a 24 hour online tutoring program. This allows scholars to go on if there is a concept they do not understand and to access a tutor. There are a lot of logistics that arise as they are running a virtual high school..

Tomorrow's Professional Development will ensure teachers who are lead teachers know how to invite co-teachers into the virtual setting. Additionally the teachers will learn about how to set expectations for behavior and otherwise in this virtual time. For example, scholars can chat on the side. Scholars may not know what their uniform should be or what is appropriate to have in the background.

Jessica Boulet inquired about upcoming Regents examinations. She asked if the Regents would be administered virtually and if so, whether it is possible or not to prepare for same. Principal Williams said this still is to be determined. The AP exam will be administered virtually. The team is uploading Regents-based questions to Castle Learning. The scope and sequence is also based on Regents - the standards, the skills, and strategies that scholars need to be able to know and do.

Michael Dorrie asked about scholar attendance. Castle Learning and Zoom are helping to track attendance. Scholars have homeroom. The school is using a variety of methods to ensure scholars are engaged. Spreadsheets are being used to track communication. Teachers who manage students well, set high expectations, and more - they are having the highest rate of attendance.

Ellen Chen commended the leaders on their efforts, in particular around areas such as tracking attendance.

Aaron Bothner inquired about virtual efforts for college visits; Principal Williams will discuss this idea with her Counselor.

II. Education Committee

A. Education Committee Report

Ellen Chen led us through the Education Committee update. The team has heard about all of the hard work the Principals and others have put in. Next month's Board meeting the committee would like to see more of an intermediate plan. The short term is to ensure we have attendance and that all scholars have access to virtual learning. We want to ensure the teachers are comfortable with the content. The intermediate plan will incorporate how the school will plan and execute for a longer-term closure. Goals would not change, the school would need to continue to strive towards with the charter goals. Ellen also discussed documentation; we need to make sure that whatever effort we put in is well-documented, no matter how small. Additionally the Board would like to see an example of how we are documenting our plans and actions and a table of contents as to what is being documented.

Aaron asked to have a placeholder in the governance section for this item moving forward (documentation).

III. LHA Updates

A. Enrollment Update

Melissa shared that the current number of applications is over 1800. This time last year 500 in district applications existed; this number is already over 800 right now showing a positive trajectory. There are more siblings applying to the school than ever before. This data will need to be validated that the potential incoming scholar is a true sibling. In regards to special populations, there has been a large spike since last time Melissa reported (29%

identified as ELL and 18% identified as SpEd). Finally, a breakdown of applications by day is provided for Board members to review. Recruiting is now taking place completely remotely. The school is utilizing new methods of reaching out to people such as social media.

Aaron Bothner asked if there is anything Melissa anticipates needing to meet the school's special population goals. Melissa shared information in regards to the number of open seats available which is limited beyond Kindergarten.

IV. Public Comments

A. Public Comments

There were no public comments.

V. School Operations

A. Financial Report

Mary Beth walked the team through the February financials.

Looking at the monthly report, the balance sheet is still in a very strong position with 9.9 million in assets. There is an increase from January to February for both assets and liabilities; this is due to funding coming in. Metrics look great. Ratios are strong. Investment accounts are at 8.1 million with \$32,000 of expenses per day we are exceeding the required days cash on hand. The numbers are all above requirements for the bond covenants.

The budgeted enrollment was for 629 but the enrollment increased after that; the last billing was at 642 scholars. It is likely we will end up over budget for the year on the revenue side as long as there are no major changes as related to funding given the current state of affairs with Coronavirus.

There is a surplus of over \$800,000.

The expense categories are under budget, staff expenses are under budget, and there was also savings in the benefit line. Other non-staff expenses are under budget. The Finance Team will continue to work with the school to make any adjustments needed.

B. MetLCS Investment Update

Brent Elliott spoke about the investments. Everything is very well taken care of and have not dwindled over this time period.

The team had a call with JP Morgan and some money was moved around in the money market to a treasury money market; they will continue to watch this and see if any adjustments are needed.

Aaron Bothner provided additional details. The Investment Committee (Aaron, Jamal, Shanta, Tim ad Kamaria) talked about capital preservation and also what the next few months look like. Aaron discussed the breakdown of funds (approximately four million in cash); through the end of the year there is approximately five million in expenditures that we would want to know we would be able to cover. We want to ensure we maintain enough cash in the event we were to learn we were not going to be getting the revenue required to operate. The school is a very conservative position to fund the operating expenses and the rest of the rooftop expenses.

A. Bothner made a motion to approve the February finances.

M. Dorrie seconded the motion.

The board **VOTED** unanimously to approve the motion.

The team talked about staffing, materials, professional development, and more. A preliminary budget is prepared although they will continue to work on this in the coming months with a May vote.

The Finance Committee (Aaron, Jamal, Shanta, Tim ad Kamaria) supports moving the vote to the May meeting given the state of affairs with the Coronavirus.

A. Bothner made a motion to move the FY21 budget vote to the May meeting.

S. Pressley seconded the motion.

D. Facilities

Monica Rivera provided an update on the facility and the rooftop project.

There was approximately two weeks of contractual construction left. Windows have been installed, the floor has been started to be installed. Construction has come to a halt (for a two week pause) due to the Coronavirus and regulations that have been put in place. There are several permits expiring on April 1; much of that work has been completed. The insurance and regular work permit does not expire until July.

Aaron Bothner shared how expensive the insurance is; he would like to get in front of that with the insurance company to see what we can do if the project runs over whenever the insurance policy expires.

E. MetLCS Rooftop Ribbon Cutting

A call took place to discuss the ribbon cutting which will take place at a later date; an additional update will be made at a future meeting. Members of this call included Monica, Aluta, Shanta, Ellen, Aaron, Melissa, and Courtney.

F. MetCPA Alternative Space

The Board came out of the February meeting full steam ahead in terms of evaluating the alternative space. However, as Coronavirus became a challenge, the school will not be

moving forward at this time. It is important to think about what we will do moving forward with a plan of action.

Aaron proposed that we will continue to do the monthly facilities update and the facilities sub-committee (Aaron, Anuj, and Michael) will remain intact. Additionally a monthly report will be provided about progress towards an alternative space by Monica Rivera.

Jessica Boulet inquired about the availability of the space in the future. Monica Rivera shared that after everything calms down it is very possible that we can go back and reconsider the space.

B. Board Strategic Initiatives Review

All trustees will be receiving Google Forms regarding the LHA evaluation as well as the Board Strategic Initiatives.

Moving forward as we approach the Annual Meeting we will be assessing internal process for how we evaluate and adjust the Board's work.

Board members should think about committees and what they'd like to see in terms of how they'd like their committee to operate, how their committee can interface with others, and any other processes that would be helpful to individuals in being involved and involved more effectively.

Aaron reminded team members that the Board completed the self-assessment. Board members should consider what the low hanging fruit is and what the most important strategic initiatives are that the Board should review.

All team members should review the LHA Service Agreement.

C. MetLCS Values

The team will continue to revisit this in the future.

VII. Nominating Committee Update

A. Nominating Committee Update

The Board decided last month to put a hold on Board member recruitment. Interviews will not be taking place in the near future. There is a person who is interested in interviewing at the May meeting; the feasibility of that will be determined at a later date/time.

C. Review the Agenda

Aaron Bothner reviewed the agenda.

D. MetLCS Mission/Vision Reflection and Grounding

Ellen Chen spoke about what the mission and vision means to her. She believes people need to be well-rounded. An art-infused program will help kids to think more broadly and appreciate more about what is not in the books. Additionally, she shared that she is a product of public education. She wholeheartedly believes that public education can change a person. She further shared a specific example one of her favorite teachers in 6th grade.

E. Staff Presentations - Met K - 8

Aaron Bothner reflected on how remote learning started and how we have tracked this process. He stated in thinking of this, the board thought that it would be great to hear from teachers.

Kurt Davidson introduced both Megan Whitehead (6th Grade Math Teacher) and Kaditou Conteh (6th Grade ELA Teacher).

Kaditou Conteh shared that the relationships that were created before the remote learning began are essential to ensuring that remote learning is successful. She also shared that she didn't utilize the Chromebooks with scholars so her transition was a little harder than it was

for math. But she also has structures in place. With the routine she has created, she has seen great results.

Megan Whitehead shared that she feels as though that the teachers work as a team. So after each session they will say whose session they need to attend next. She also stated that she has created a format for her sessions that are consistent for all of her live sessions with scholars. There will be a spirit week to 6th grade next week as well. A lot of the tools that are being utilized are now being utilized in remote learning, so this was an easy transition for our scholars.

Aaron Bothner asked the teachers if they have thought about the transition back to in school learning.

Megan Whitehead shared that she really likes Zoom and feels as though it would still be utilized when school is back in session. She also likes that Zoom records so scholars can access the lessons later.

Kaditou Conteh shared that she also agreed with the recorded lessons really helping students as they are able to continuously access the information.

Ellen Chen complimented the teachers on their work thus far.

Aaron Bothner also complimented the teachers work.

F. Staff Presentations - MetCPA 9 - 12

Tyra Williams introduced Anthony Brown (Assistant Principal), Jason McNatt (Dean of Scholars) and Kirstyanne Prescott (Business CTE teacher).

Kirstyanne Prescott shared that technology has always been intergrated into her class. She shared her screen and shared a current project that the 9th graders are working on. She went through the project instructions and what she is expecting from them with this specific project.

Aaron Bothner thanked Kirstyanne Prescott.

Jason McNatt shared that we may have thought that the transition would be easy, however it was not. High school scholars did not think that online school carried the same expectations as in school. Parent communication is key. Families are opening the "virtual" doors of their homes. The school is also supporting parents through this process. He shared that kids are were really uncomfortable with their settings. He shared a specific example about a scholar and his struggle. He also shared the specific work that he is doing to support this scholar. Communication is the key to remote learning, it takes a village. He said he always knew relationships were important but now more than ever he understands and appreciates them. He said as a result of the overall work, he thinks that they will end the the year in a strong position. He then went over the marking period three report. He detailed the targets and what work was being done to support those scholars. With the supports in place, all scholars will pass classes which is remarkable.

Kamaria Brisseau asked if data cards were an option.

Jason McNatt reported that he would work with Melissa Alston to see if this was a possibility.

Aaron Bothner thanked Jason McNatt for doing all of the remarkable work at the school.

Anthony Brown reported that the virtual world has created a different world. He spoke of the change in schedule and making an open door policy. He shared that he and Ms. Williams are looking at supporting teachers from their point of view but also from the teachers point of view as well. He also shared that he teachers a class per day and that allows him to better understand what teachers experience during this time. He shared that there is also a 24 hour tutoring program where scholars can get the support that they need at any time of the day. Anthony also spoke about blended learning. He also made mention of how the programs they are utilizing helps ensure the rigor is there to ensure the connect to standardized testing.

Aaron Bothner thanked all of the speakers.

G. COVID-19 State of the School Update

Kurt Davidson K-8 Principal reported that the lower school has made contact with every parent in the school. One of the items they are tracking is attendance. Another item they are tracking is the red flag scholars. Those scholars are being tracked by the culture team and being supported accordingly. 66% of the scholars are utilizing the zoom completely 100% of the home. 16% are red flags and 100% of them have been supported remotely by the culture team. 80% of the scholars are in attendance on Zoom. Kurt also shared that because all teachers provide two sessions per day, this allows flexibility for those scholars helping their siblings. Kurt reported that they outlined more detailed expectations with the leaders input over Spring Break. He shared the school also had 4 family town halls last week, two English and two Spanish to ensure accessibility. Kurt also shared specific examples of what assessments look like for math and ELA. On Fridays they have team meetings by grade span. On Tuesdays they have content team meetings. These meetings help assess and ensure rigor of instruction. What makes us unique is the culture of the school. Collaboration and structure are key. A crisis is a chance to get our students ahead if we are on offense and not on defense. The goal is to walk back into the school hitting the ground running.

Aaron Bothner thanked Kurt for providing background on his process.

Tyra Williams CPA Principal shared that they look at a few different platforms to assess the scholar's work, not just Zoom. Teachers are expected to report on level of attendance by scholar. A lot of time is being spent reaching out to families for their support. She reported that there is only one student who they are having a hard time getting in contact with. Tyra shared her screen to show attendance data for the CPA. They track the trending attendance and have conversations with teachers. They utilize this to support teachers where needed. IAs were given this week through Castle Learning. They are timed and randomized. Make ups were allowed but needed to be approved by the principal. Virtual learning does not lessen the accountability level that the scholars are being held to. Her and the team has to find ways to ensure that they produce data that is integrity driven. During May's board meeting results for this month's IAs will be shared out. Additionally, project based learning was opened up to all teachers. She asked her teachers to think outside of the bus and provide authentic learning. Lesson plans need to reflect this thinking. Admin supports teachers with this process. She explained the CPA schedule which runs on a Monday, Wednesday and Friday schedule for small group instruction and Tuesday and Thursday on the regular schedule that reflects what you see in the school building.

Aaron Bothner shared that the overview was helpful. Being able to triangulate between all the data points is helpful. He invited everyone to add questions in the chat for Tyra, Kurt and Karin to answer.

II. Education Committee

A. Education Committee Report

Ellen Chen invited Karin to take the board through the process of project based learning.

Karin McGuire shared that the school leadership team meets, a small group of teachers will collaborate, the national team will meet. There will be more to come here.

III. LHA Updates

A. Enrollment Update

Melissa Alston reported on the number of applications going into the lottery as of March 10th, 2020. She reported a healthy amount of applications considering the shift to remote learning and closing the school building. We had more in district applications than the 2019-2020 school year and we only down about 500 applications overall. With an estimated 79 seats to fill, we ran the lottery with 2006 applications. This is only a 3% acceptance rate which puts us in a strong position to maintain a healthy waitlist with 97% of our total number of applications being waitlisted.

Melissa Alston also reported that the lottery ran successfully on Wednesday, April 15, 2020 at 5pm. The lottery took place via Zoom and was recorded and the audio was subsequently transcribed. We opened 52 seats for Kindergarten, 25 seats for 9th grade and 2 seats for 12th grade. The deadline for initial acceptance of a seat for those selected in the lottery is Friday, May 1, 2020. About 20 parents attended the Zoom call. We ran the lottery for all 13 grades individually. As of right now we have 32 seats accepted with 8 more days until the deadline for acceptance. From there we will proceed to call parents on the wait list, if needed. Once seats have been fully accepted, we will move on to virtual registration. Our registration process has been fully transformed to be able to be completed online. This includes uploading all support documents. The principals will also create a video message to welcome new families to the Met family. This video will also have clips and pictures of the school environment. I am hoping that this video helps us to welcome families as they will not have the opportunity to be in the building to register.

Jessica Boulet asked whether we were on target for ELL and SpEd recruitment, and Melissa said that she does not have the information now, but she would report out once she does.

Aaron Bothner asked to consider what did we learn and what could be improved.

We would be voting on the allocation of this money.

Courtney Russell shared out that the principals sacrificed some items on the budget to ensure that we put people first.

Aaron Bothner identified that Courtney made a good point in that our budgeted dollars are uncertain with an anticipated 5% reduction next year. We need to budget through uncertainty.

Ellen Chen asked how often could budgets be amended. Aaron answered that we would want to only do this during extraordinary circumstances and as per the bylaws. Ellen asked as she wanted to ensure flexibility if remote learning needs to continue. Aaron also shared that they touched based with the auditors to ensure this was allowable.

Mary Beth confirmed they discussed the budget amendment with the auditors

She shared that she hopes to have a document in front of the board in the next coming months that can then subsequently be implemented for the next school year. Shanta shared this is not a document that currently lives anywhere.

Aaron Bothner invited everyone to share thoughts/research during this process. How much of an investment account should we have and when should it be increased or decreased.

Kamaria Brisseau shared that she would like to help support as she has worked on similar projects in the past.

Elen Chen asked for a PPP update. Aaron Bothner stated that LHA approached them on applying for a loan to help support during this time. None of this money is accounted for

anywhere as it is not completed at this time. However more to come on the usage of funds if received.

F. MetLCS Technology RFP

Courtney Russell shared that the principals wanted options in regards to the management of the technology services for the school to compare services and pricing. Because of this an RFP was issued. They were researched and many provided by the New York City Charter Center. Where we are is on Monday, Tyra, Kurt, Karin and Courtney will convene on a call and go through the RFPs that were submitted. The decision needs to be made very quickly following this review.

Aaron Bothner asked if the timing lines up for the next board meeting. Courtney stated that this is not something that the Board has voted on in the past. He stated he would look to rely on what LHA and the principals determine what is best.

G. Facilities

Monica Rivera reported that construction has continued last Wednesday with approval from the city. An FDNY inspection was delayed from May to June. The space will be finished by the the second week of May but cannot be occupied until the FDNY inspection is complete and a certificate of occupancy is issued to the school. She suggested a three month extension on the insurance to ensure project completion.

Aaron shared out that he and Monica are working closely on the insurance piece.

H. MetLCS Rooftop Ribbon Cutting

Aaron Bothner shared with the board that the deadline will extend to the beginning of next week for the board. He also shared the importance here ahead of the annual board meeting.

Kamaria Brisseau asked if it was allowable to schedule a zoom meeting for the board members. Aaron asked Jessica to look into if this was allowable. Jessica reported that it is allowable but if it was more than five people it would be subject to open meeting laws. She suggested maybe taking this to a committee call.

It is Aaron's intention to have this ready in draft for the May board meeting. Aaron asked for a follow up on Doodle to gauge interest.

Aaron reported that the annual board meeting is in June. He stated that he received positive feedback in regards to the meeting. A Doodle for the board's availability in June will also go out.

C. Review the Agenda

Board Chair Aaron Bothner reviewed the agenda.

D. MetLCS Mission/Vision Reflection and Grounding

Board Vice-Chair Anuj Khatiwada shared what the MetLCS Mission/Vision means to him. He reflected upon his experience with the night's K - 8 Electives showcase and how this represents the mission/vision of the school.

II. Principal's Report

A. K - 8 Update

MetLCS K - 8 Principal Kurt Davidson provided his report. Adonai John-Shiman, Vice-Principal of the K - 8, joined Mr. Davidson.

The team shared tonight's focus would be on Kindergarten through Second grades. The Education Committee discussed K - 2 data. With K scholars there is work to be done.

In terms of the attendance data, December was a lower month due to season and holiday break. Several scholars have moved and are enrolled internationally, the school is working with the NYC DOE to get these scholars discharged.

Interim Assessments are underway, today was the first day of testing and this will continue tomorrow. NWEA core testing has been completed and makeups will continue tomorrow.

The NYC DOE School Report Card was discussed. Academics are the biggest area of growth. The school must get K - 2 right to allow the impact to be felt throughout the school. Part of the report card is the scholar, staff, and family survey data. Scholar satisfaction is strong. Family satisfaction is strong. Teacher satisfaction is mixed. The report is another indicator that we continue to focus on quality instruction for scholars.

Ms. Shiman presented. The emphasis of her work is with the K - 2 program, starting at the ground and working the way up. She elaborated on the Foundations program which is a phonemic approach to getting scholars reading-ready. This is coupled with Reading Ready. She also shared assessment data, including NWEA but also a K - 2 specific literacy data tool (mCLASS) which also has an intervention component. This is part of a three-year plan.

A. Bothner made a motion to Approve Ashlee Danielle Doyle to join the MetLCS K - 8 Team as a Specials Teacher.

K. Brisseau seconded the motion.

The board **VOTED** unanimously to approve the motion.

B. 9 - 11 Update

MetCPA 9 - 11 Principal Tyra Williams shared her report. The School Quality Snapshot data for the high school is very similar to the K - 8. Scholars take the survey in grades 6 - 12.

Principal Williams discussed the approach of scholars taking the Regents early in the 9th grade. All but one scholar were asked to take college courses. The school has a partnership with Hostos Community College.

This week is Regents week. January Regents is typically when a scholar has failed one or more Regent. This can be a challenging time of year to give the Regents again. The

English Regents was an 85% pass rate. Scoring is currently taking place so Principal Williams will have this data to provide at the February meeting.

During the Ed Committee call Principal Williams explained one of the hardest things to do is to get scholars who are already struggling to continue to persevere. Struggling learners are not always taking intervention work seriously. The NWEA data is available. The challenge with this is that 11th graders not having an RIT goal. Programs such as Read 180 and Math 180 allow the school to closely explore performance and needs for all scholars in grades 9 - 11. The Principal speaks with scholars about doing their best via avenues such as Town Hall meetings. Scholars have been paired with adult mentors in the building which aligns with College, Career, and Life Readiness. Principal Williams is considering expanding the mentoring program to reach more scholars.

Principal Williams is into a program called Co-op Tech. This provides options for scholars who may be interested in exploring various career paths.

Board Member Tim Bryan inquired about the NYC School Survey and asked the Principals to further explain about the School Leadership ratings on the survey. Curriculum and instruction is well-coordinated at different grade levels was discussed. Principal Davidson shared that curricula and systems have not changed but have been made better over time. Another element was around "The Principal knows what is going on in my classroom". Principal Davidson shared his thoughts on perception versus reality and also his leadership team and work that is being done with Karin McGuire in reviewing and responding to the survey results. Principal Williams discussed survey results about culture in the high school. A committee has been proposed to work on areas that were frustrating teachers around school culture; only one teacher has signed up to date. Principal Williams has chats with her teachers, this serves as a touch point with teachers at least twice a year.

Aaron shared if there are further comments on the survey to reach out to him so he can direct the feedback to the right committee.

III. Education Committee

A. Education Committee Report

Board Member Anuj Khatiwada encouraged all Board members to thoroughly review the dashboard in advance of the Board meeting. Questions should be directed to the Education Committee Chair Ellen Chen.

Karin McGuire sent an email about the computer lab. Board Member Ellen Chen spoke to this and the physical space for the computer lab. Principal Williams shared based on where the school is in terms of space for next year, they are considering next steps. All laptops are being programmed and will be on the 5th floor so they are accessible to teachers as a mobile lab.

IV. LHA Updates

A. Enrollment Update

Manager, Operations Melissa Alston provided the first in a series of updates regarding lottery applications for the 2020 - 2021 school year. She prepared a packet via the school's lottery platform, School Mint, to provide various data to the Board. Melissa shared various methods the school is using to recruit scholars such as an iHeartRadio ad, the operations team going out into the community and actively recruiting, and more.

B. Principal MOY Evaluations

Principal self-reflections are due to Karin McGuire on January 29. Karin's evaluations will then be sent to the Board for review. She will discuss this on the MetLCS Leadership call on February 11. The debrief with Karin will take place the week of February 10. Finally, Principals will have the ability to revise their school action plans by February 21.

Jessica Boulet and Aaron Bothner will discuss the evaluation of Lighthouse Academies.

V. Public Comments

VI. School Operations

A. Financial Report

Mary Beth Rousseau provided an update around school finances.

The financials for the month of December were discussed. The current assets are 8.4 million and total assets of 9.9 million. Liabilities are at 2.8 million. That gives the school strong ratios of 3.01 meaning there are three assets for every one liability. The debt to asset ratio is very small, 0.28. Cash on hand in operating and investment accounts is 8.3 million, expenses per day are 31 - 32,000 which gives 264 days cash on hand. This is a very strong cash position. The debt service coverage ratio is strong. Net income is at \$800,000 with income for debt service over 2 million with a strong debt ratio. The school is in very good strong position all around.

The statement of activities was presented. The net surplus on a budgetary basis has increased from November to December. This is due to the timing of the expenses, this trend is not expected to continue.

\$500,000 of the 1.2 million dollar budget has been spent for the rooftop project. The facilities committee will review and respond to Brent's email.

B. Quarterly Investment Update

The school has gained approximately \$100,000 which includes unrecognized gains of \$17,000.

Approximately 21% is in the money market fund, 12% in short-term investments, and 57% in long-term investments.

The asset allocation is in compliance with the investment policy that the Board adopted.

One thing to note at this point of the year is that the school reallocated, the investments were in corporate-backed funds that did not align with the Investment Policy. These funds were allocated into government securities.

In February the Board will have its annual meeting to approve the Investment Committee; a call will also be scheduled with the Financial Advisor at JP Morgan Chase.

Ellen Chen and Kamaria Brisseau requested to join the call with JP Morgan in February.

C. MetLCS Audit RFP

Brent Elliott discussed the RFP process, the applicants, and the scoring process. The LHA Finance Team has recommended proceeding with MMB to be considered.

The MetLCS Board will vote at the February meeting.

D. Facilities

Courtney Russell provided Monica Rivera's report in her absence.

She discussed the rooftop gymnasium, the elevator requirements, and the potential space for the MetCPA.

The rooftop project is scheduled to be completed in the Spring; there have been slight delays due to approvals needed from the city and some materials being delayed.

LHA and the school are working diligently with Kone to meet the requirement for all NYC buildings with elevators.

Finally, Courtney reviewed the progress made on the potential 9 - 12 space. The lease will be presented and voted upon in February.

Aaron Bothner shared the questions of how we can do this in a way that is revenue neutral and is everyone (LHA, Principals, Board, etc.) bought into this? Aaron shared that the Board would want a budget projection through the length of the lease before signing the lease, and may include more Board involvement than typical.

E. Lottery Preferences

There are no updates at this time. Courtney Russell reached out to the NYC DOE but a response has not yet been received.

Aaron Bothner highlighted that all Board members need to review and approve the minutes each month. He emphasized that it is useful for record keeping and future reference.

Aaron suggested that we make this a standing agenda item at each monthly meeting.

Courtney clarified that the Chair of each committee is responsible for ensuring that this happens but that this can be delegated, and sometimes should be delegated.

Jessica Boulet explained that the Charter Board Partners resource was included in the Board packet as an example of a good practice for committees to memorialize and share out key decision-making processes with the rest of the Board. She emphasized that this was good practice for internal communication and record-keeping as well as transparency with the public.

C. Review the Agenda

Aaron Bothner reviewed the agenda for the October 24, 2019 MetLCS Board of Trustees meeting.

II. Staff Presentation

A. Staff Presentation

Keely Webb, MetCPA Counselor, introduced herself. She is in her first year at MetCPA but has an extensive background in education. Thus far, she has focused on college fairs and tours. Her goal is to get students comfortable with questions that will be asked and the language that is used. With the 9th and the 10th graders, the school is focusing on teaching tolerance.

Liz Hillin, K - 8 Director of School Culture, introduced herself. She is in her fifth year at MetLCS and this is her first year in the role. Leigh Fisher-Troche, K - 8 Social Worker, introduced herself. She is in her third year at MetLCS. The team presented the "Met Behavior Intervention and House System 2.0" PowerPoint, which included the school's two culture initiatives for the year. Ramapo for Children's 3R's (Respond, Reflect, Reintegrate) was share along with other key components of the school's efforts around approaches to scholar culture (house system, Met bucks, etc.).

Board members and guests asked questions about the K - 8 presentation (parent buy-in, tracking of referrals and systems, key performance indicators, etc.)

III. Principal's Report

A. K - 8 Update

K - 8 Principal Kurt Davidson briefly discussed the parent complaint received. Lighthouse Academies is in the process of investigating the complaint.

He discussed the school's enrollment (489) which is 21 above the budgeted enrollment. For the month of September 94.73% is the attendance average. The Family Coordinator, Michael Guzman, is working to put various interventions in place around attendance. Two holidays in September and one holiday in October that were not shared with the DOE impacted attendance. There have been some staffing changes since the beginning of the year which Principal Davidson discussed. They are actively looking to fill these positions. In the meantime the Principal is working closely with the Special Education team and the Director, Regional Operations to meet compliance standards.

The academic goals of MetLCS are included in the handout. Baseline data is now available in relation to grade level reading expectations for K - 2. The Kindergarten scholars are coming in stronger than they have in the past. The K - 2 team is very strong. They will possibly come to the next board meeting. NWEA is a nationally normed test. We use this test as a growth metric. Some data is confirming and some data we are diving into more as a team. Anuj Khatiwada asked about the cohort of scholars taking the test from one year to the next. Principal Davidson explained it's not an apples to apples comparison because of the fall out of scholars year over year. Yesterday was the first District Collaborative meeting. We are continuing to build relationships with the DOE. Davidson also attended an NYU event today to partner with NYU for future teacher talent. Davidson feels very confident about the

partnership potential for the 2020-2021 school year. More to come with details around the partnership. Jessica Boulet, (pending) board member asked about the Kindergarten results. Davidson talked about the proficiency/access to the testing format. They are better with touch screens/ipads/phones at this age and need to learn how to utilize chrome book. While there is a learning curve, the team is aware of this and that is why they ensure a lot of support for those scholars when the tests are taken.

J. Boulet arrived late.

B. 9 - 11 Update

Principal Tyra Williams shared that MetCPA is still under-enrolled in the high school (five scholars short). The school is making a concerted effort to communicate with parents and get them to come to the school. Chronic tardiness has been a challenge for the school. The school has created an incentive in order to track this metric. The children love to dress down and they are utilizing that (sneakers) to dress down and motivate scholars for strong attendance (4/4 days on time and present, pass to dress down on Friday). We have three staff vacancies. Two positions are in the process of being filled, one vacancy remains and there is a candidate coming in for a demo lesson. The school expects to be fully staffed in the near future.

NWEA data - below 40% is the low average and what we norm against. Each student is given the RIT score and normed by grade in Reading and Math. The school is trending higher with students who are above average and average. However, there are some scholars below 40% which causes Principal Williams and the school concern. Interventions are in place for Reading and Math (Reading 180 and Math 180) wherein all scholars who scored below proficiency have an intervention period. This takes place via an elective where they earn zero credits but can work to increase their proficiency in these key areas.

The NYC DOE is requiring 75% of scholars to earn a 75 or higher on the English Regents and at least one Math Regents which are college readiness scores. Principal Williams and her team have a plan in place for scholars to receive support and retest. There are two students who are considering graduating as juniors. Parents are being engaged in the decision and process. Scholars at the MetCPA take more credits than are required by the city.

Board Member Ellen Chen inquired about the school's charter goals. Principal Williams discussed NWEA and its alignment (or lack thereof) to charter goals. She clarified that the city looks closely to Regents passing rates.

(Pending) Board Member Jessica Boulet inquired about missing information on the Principal's report as related to English Language Learners and Students with Disabilities. Principal Williams shared this was missing from the report and she will bring it to the November meeting.

IV. Education Committee

A. Education Committee Report

The Dashboard is in progress. Anuj Khatiwada reached out to Jillian who worked on this previously. If Jillian is unable to provide support around unlocking the Dashboard, MetLCS staff member Megan Whitehead will be able to support. Principals Davidson and Williams will continue as is with the Principal's report and the Education Committee will ensure all Board members have access to the Dashboard. The Principals should reach out to the Board with any major updates made to the Dashboard's data.

The team will meet with Karin McGuire (Lighthouse Academies) next week to discuss the process and begin a draft. The Board/ school expects to have this done in advance of the January 31, 2020 NYC DOE deadline. S. Pressley arrived late. S. Nesterova arrived late.

VII. School Operations

A. Financial Report

Mary Beth Rousseau (LHA Finance) shared that the school is in a strong financial position. There was \$6.8 million in cash. \$70,000 is restricted in the dissolution fund (Charter requirement). The market value of investment accounts was just shy of \$5.1 million. The school is getting a good return on investments.

The debt service projected ratio for the year based on current spending and revenue that is visible will be 1.35.

The financial report now includes the % of the budget spent to date which was a recommendation from Jessica Haber.

There was a bit of a dip in the per pupil revenue for July, August, and September. That has to do with the timing of the funds, it will go down based on the District Billing cycle.

Interest income is very high, higher than budgeted at \$50,000.

Expenses are running a bit high in some areas such as Dues and Subscriptions. There are some coding errors, there will be additional support and training provided regarding this matter. The rooftop project is also running above the budget. The projection includes using reserves for the project. A budget amendment was completed. The school is also heavy around supplies and equipment which is mostly typical beginning of the year spend such as textbooks, technology, etc.

The FY19 Budget vs. Actual report was reviewed. These are the preliminary figures for the audit. The net income is \$483,000 for the year in the BvA. Board Member Aaron Bothner inquired as to where that money is. Mary Beth Rousseau shared the \$168,000 in other income (Turner settlement) will be devoted to the rooftop project funding. The other monies will go into the operating reserves.

Brent Elliot (LHA Finance) presented the investment update. We identified the school was not in compliance with the investment policy. Brent is working closely with JP Morgan to reallocate these investments to be in line with the policy in Treasury Bonds and Notes. Brent will update the Board by early next week around the current portfolio standings.

Aaron Bothner shared that the November review of the investment policy would better align in February (quarterly update, annual update, etc.). He proposed to amend the investment policy to include the first update in February of 2020 and on a calendar basis moving forward.

A. Bothner made a motion to move the investment plan review from November to February annually..

A. Khatiwada seconded the motion.

The board **VOTED** unanimously to approve the motion.

A. Bothner made a motion to approve the September financials.

E. Chen seconded the motion.

The board **VOTED** unanimously to approve the motion.

C. Facilities

Monica Rivera provided an update regarding the rooftop gym. The project is on schedule. When you go up to the roof the work that has taken place is very impressive. We are looking to have the roof installed around the Thanksgiving break/early December. Once the roof is up, the interior will be focused on (HVAC, etc.).

There have been significant leaks on the 5th floor. The team has been working hard to address all of the issues that have arisen. Improvements have been seen but water is still trickling in. Monica walked the space earlier today. They will be monitoring the incoming rain this weekend.

On Monday some of the scaffolding will begin to come down. This should help with the leaks in the building. Once the roof is relaid that is the permanent solution to the leaks.

Monica provided an update regarding the bathrooms on the 5th floor. These were not included in the original design so that the requirements of a regulation gym could be met. Therefore, bathrooms were not (and will not) be included on the 5th floor.

Monica is still working with Kone to get the locking mechanisms installed in the elevators. This is due in January of 2020 and is a city requirement.

D. Lottery Preferences

The school submitted the non-material amendment to the NYC DOE and is awaiting an update/approval.

E. LHA Board PD

Courtney Russell provided an update regarding the LHA/MetLCS Board retreat. The available dates are January 11 or January 25. The Board requested that Board on Track facilitate and that they have input over the agenda in advance. Courtney will send out a Doodle, along with a sample agenda (from the LHA NWI schools).

With the new service agreement, in November, we will be conducting a budget amendment. The Principals and LHA will go through the current budget and communicate out to the board what is needed to successfully complete the rest of the school year with the budget.

C. MetLCS Board Bylaws

Aaron Bothner shared that an annual review of the bylaws took place. During the September meeting it was decided the Board should take some additional time to review the revisions.

(Pending) Board member Jessica Boulet flagged Section 9 and provided feedback around emeritus trustee members. Aaron shared that the school's lawyer advised the language as is. The Board discussed nominating Jessica Haber to the Trustee Emeritus position. Additionally she shared around the Governance Committee and description of the officers (pages 9 and 10) there are committees that these positions should be associated with except for the secretary. Jessica shared she thought that the Secretary could lead the Governance Committee. The Board agreed that this revision should be made in the future.

The Board needs to now vote on their recommendation to adopt the recommendation. The review will be communicated back to the party that filed the complaint as well as with the NYC DOE.

A. K - 8 Principal Update

Kurt Davidson prepared his K - 8 Principal presentation. The school is tracking multiple metrics around success. The school is steady with participation and attendance. Approximately 75% of students are attending 100% of live zoom sessions during the week; average daily attendance is at 86%. 10% of scholars are on a "red flag" list where additional supports are needed for scholars and families.

B. 9 - 11 Principal Update

Tyra Williams presented her 9 - 11 Principal report. The CPA has been trending at 70 - 75% of scholars who are actively attending Zoom sessions. There has been a dip. The school has been putting a number of supports in place for scholars in need and their families. Tyra described her leadership team and how they are dividing responsibilities to speak to individual scholars and their families and why this time is so critical in their educational career.

Last month, virtual Interim Assessments were administered. These were Regents based. The results were strong. In terms of reliability and validity the school hopes these are a good indication of how scholars would perform on the Regents exams.

The class with the lowest pass rate is the project-based Algebra class. These are struggling scholars. The school is dedicated to ensuring all scholars have what they need. Scholars are participating in small group sessions for additional support. All teachers offer these groups on Mondays, Wednesdays, and Fridays.

The school will host a virtual summer school this summer, Monday through Thursday.

C. Education Committee Report

Ellen Chen provided an update on behalf of the Education Committee. The team continues to do a great job collecting and recording as much data as possible during this time. III. LHA Updates

A. Enrollment Update

Melissa Alston provided an update regarding scholar enrollment for 20 - 21. Things are progressing as expected. 51 Kindergarten scholars are enrolled and registered; three more are needed to hit the budget number of 54. There is a robust wait list. Intent to return processes are underway. This helps to inform numbers to open up seats for, particularly in 9th grade. There are currently eight confirmed eighth graders who will not be returning for 9th grade. There is also one second grader leaving.

Lottery preferences for scholars with IEPs and scholars who may be English Language Learners are being accounted for. The school will continue to make progress towards meeting the DOE's goals around these subpopulations.

The team is currently ahead of schedule.

B. LHA Network Update

The team has created and will maintain a 30/60/90 day plan to plan for and document efforts around ensuring each major section of the Service Agreement is covered for the current and future months. Categories for use include areas such as payroll, mortgage interest, utilities, and more. The treasury announced there will be a good faith stipulation for those organizations accepting less than 2 million which MetLCS falls under. Kurt reported that this week there was parent/scholar pick ups for summer reading. Approximately 90% of the K-8 came in to get their bags this week.

Kurt reported that it looks as though the K-8 will end with 87% overall teacher retention rate and a 12 month retention of 80%.

Kurt gave the board an introduction to the K-8's new dance teacher. Her resume is provided in the board packet. She will be able to teach many different types of dance.

Kurt gave a brief update on the re-entry plan and the steps that the leaders have taken to ensure we are on top of planning with multiple options.

Aaron Bothner asked if there is anything that the board should know to support the school with re-entry. Kurt responded that as of right now, 3 plans are in place: However the conversation right now is premature as there is no direction from the city.

Aaron Bothner requested for the next board meeting that attendance numbers are in the board packet. Kurt agreed.

Jessica Boulet asked about summer school numbers. Kurt reported that about 20%-25% of scholars are mandated to attend. However, the summer school program is open to the entire K-8. Jessica then asked how the number compares to other years. Kurt reported that it is just a slight increase. Kurt stated that having families come in this week allowed for personalized conversations with families.

B. 9 - 11 Principal Update

Tyra Williams that the last few weeks have been very hectic with final grades.

Summer school classes will take place this summer for the five regents classes that are needed to graduate. Admin and culture teams will follow up on this program weekly. Summer school will be conducted virtually through Apex. The program gives the scholars a pre-test to see what they have mastered so the program is very targeted. Apex is a credit recovery program.

Tyra introduced the new social worker that was hired by the CPA. Her resume is in the packet for the board's review.

Tyra updated on the other positions that are open. She feels confident in the interviews that are scheduled for the technology teacher and science/math teacher positions.

Anuj Khatiwada provided recognition to both principals for the retention of teachers over the last 2 years.

Jessica Boulet asked how many scholars chose to enroll in summer school. Tyra stated that she would be able to get the numbers and follow up with Jessica. Tyra also stated that the program is two fold: credit recovery and regents classes program. Tyra reported that her estimate on CPA participation in summer school are about 50%. The program for the summer is mandatory. Tyra also reported about Co-op tech/Hostos, scholars will certification as the programs will continue.

Jessica then asked how the number compares to other years. Tyra reported that it is a huge increase for the CPA. She reported the number was about 10%-15% previously and because it was so low, summer school programs were outsourced as the need wasn't great.

A. Bothner made a motion to approve all resumes.

A. Khatiwada seconded the motion.
