Entry 9 Enrollment & Retention

Completed Jul 28 2022

Instructions for submitting Enrollment and Retention Efforts

Required of ALL Charter Schools

Describe the good faith efforts the charter school has made in 2021-2022 toward meeting targets to attract and retain the enrollment of Students with Disabilities (SWDs), English Language Learners (ELLs), and students who are economically disadvantaged. In addition, describe the school's plans for meeting or making progress toward meeting its enrollment and retention targets in 2022-2023.

Entry 9 Enrollment and Retention of Special Populations

Recruitment/Attraction Efforts Toward Meeting Targets

- All Uncommon Schools in New York City worked together on community outreach and enrollment efforts. By combining our efforts and sharing information about all of our schools at one time, we were able to reach far more students in New York City than if our schools worked independently.
- Uncommon Schools NYC hosted a network-wide Community Day, in which all Uncommon Schools have come together to canvass across Brooklyn, while simultaneously partnering with community organizations to host events in some of our biggest Community School Districts.
- The School used a combined Uncommon Schools application that allowed families to apply to multiple Uncommon Schools with just one application. This made it easier for a family to learn about and access all of our schools and allows our schools to reach a broader population of students.
- In addition to the combined Uncommon Schools application, the School participated in the New York City Charter School Center's Common Application for all charter schools in NYC. By continuing to offer our application as part of the common application for all charter schools, we are able to reach an even broader population of students.
- The School sent out multiple

mailings to prospective students throughout the year through Vanguard Direct, Inc., focusing on the zip codes near our schools that have the highest number of FRPL and ELL students. Materials were sent out in English and Spanish, and included a self-addressed, stamped envelope to limit the barrier to return the completed application.

- The School ran both English and Spanish language ads in the New York City Housing Authority Journal. On their website, the NYCHA Journal says they are "hand-delivered to each of the 178,000 apartments in NYCHA's 334 public housing developments throughout the five boroughs." It was also be distributed to more than 10,000 NYCHA employees, and mailed to elected officials and community leaders. It was also available through email subscription.
- The School ran both online and in-print Spanish language ads in El Diario a Spanish language daily newspaper with high circulation throughout Brooklyn.
- The School partnered with El Diario to send a direct Spanishlanguage email to families that live within our school zip-codes and have school-aged children.
- The School ran advertisements for enrollment on buses with strategic routes throughout the CSDs we serve in Brooklyn.
- Additionally, we implemented an MTA bus shelter advertisement in high pedestrian traffic areas of the neighborhoods in which our

The school will continue the efforts at left to recruit economically disadvantaged students, and will also:

- Implement a more robust community canvassing plan that involves current families.
- Expand digital advertising efforts to reach a broader population.

Economically Disadvantaged

schools are located to reach families from within our community school district. The bus shelter advertisements included school-specific information as well as information about our schools, programs, and populations served.

- The School visited the NYCHA sites within our neighborhood on multiple occasions to hang flyers, leave applications and speak with residents to ensure that residents of these locations were aware of our school and have the necessary information and materials needed to apply.
- The School ran a digital advertisement campaign that targeted families that live in zip codes near our schools and that have a high number of FRPL eligible and ELL students.
- The School participated in education, health, and career fairs in our school neighborhoods to share information about individual schools and our admissions and application process.
- In order to continue efforts to widely disseminate information about our School to prospective families, this year, the School worked with broadcasting agency, Entercom to run advertisements on two popular NYC radio stations.

See the response to "economically disadvantaged students" above. In addition, the school:

Used Census tract data to

create maps showing the distributions of the populations of the top five most spoken languages after English.

- Using these maps, we created community canvassing walks for the School to take to travel through those neighborhoods. On the walks, school staff and families visited local stores, organizations, shelters, and apartment buildings and hung flyers and left brochures and applications in English and Spanish at each location. In addition, school staff spoke to residents along the way (in English and in Spanish) to spread the word about our schools.
- We will continue to translate all our outreach materials that are distributed by our schools.

 Materials were produced and disseminated in English and Spanish will include our enrollment website and online lottery and waitlist applications, paper lottery applications, full color brochures and flyers, posters, informational packets, and tear away information sheets.
- We utilized the New York City Charter School Center's Common Application, which is available to families in six different languages.
- We identified high priority local community organizations to reach out to, based on factors including location, age group served, and proximity to high non- English-speaking populations. Each organization received a call from the regional

admissions office by a fluent Spanish speaking staff member and a mailing including brochures, flyers and applications in all relevant languages.

- We met with the Committee for Hispanic Children, a non-profit referral service which helps Hispanic families find daycares, schools and enrichment programs for their students, to ensure that they were aware of our schools as an option for their families and provided them with outreach materials that they could share with the families that they serve.
- A Spanish speaking staff member was available at our admissions office by phone and email 40 hours a week during student recruitment season.
- We took advantage of the DOE's Over-the-phone Interpretation Services, which allowed our school staff members to communicate with a parent with the assistance of an interpreter on the phone. This service increased our capacity to connect with families who speak a wider range of languages.
- We also know that families of our current ELL students are our best resource to reach new ELL students. All families at our schools will continue to receive applications to distribute to family and friends in English and Spanish. Families of ELL students will continue to receive extra applications. In addition, we worked to identify ELL families interested in volunteering to

support student admissions efforts. These families met with a school staff member to learn about a variety of ways that they could get the word out about our schools and distribute applications to others. These families were encouraged to speak at their churches, or other local organizations to spread the word about our schools.

- We ran Spanish language ads with El Diario a Spanish publication with the largest readership increase than any other daily newspaper in New York. Uncommon Schools will also place bilingual advertisements in the NYCHA Journal and several neighborhood weekly publications throughout the student recruitment cycle.
- Uncommon Schools NYC ran Google and additional digital ads in Spanish so that families searching for information about schools in New York City in Spanish see ads for our school and be directed to our Spanish webpages and applications.
- Each applicant, whether they are selected in the lottery or placed on the waitlist, will receive a letter in both Spanish and English telling them the results of the lottery and the next steps to enrolling in the school.

See the response to "economically disadvantaged students" above. In addition, the school:

 Identified and targeted all preschools that are certified to offer services to students with disabilities in our school communities. Head Starts will be included in this search, as they are mandated to serve a student body with at least 10% students with disabilities.

- Identified a list of preschools, Pre-K programs, and early childhood development centers that are high priority for our schools due to their location and student population. These high priority sites received calls, visits, and recruitment materials for both elementary and middle school.
- Worked to build strong connections with our Committee on Special Education to ensure they know we are an option for students, should they wish to recommend students to join us.
- Reached out to related service agencies that we work with/have worked with in the past, to talk about the supports we offer students and asked if they had any students who could be recommended to apply.
- Confirmed that application materials clearly stated that all students, including those with disabilities, are eligible to apply. This language appeared on our enrollment websites,

Kindergarten and 5th grade lottery applications, waitlist applications for all grades, the brochures that were distributed to organizations and mail to 24,000 Brooklyn families, as well as in the presentations given at our information sessions.

Entry 10 - Teacher and Administrator Attrition

Completed Jul 28 2022

Form for "Entry 10 - Teacher and Administrator Attrition" Revised to Employee Fingerprint Requirements Attestation

A. TEACH System - Employee Clearance

Charter schools must ensure that all prospective employees[1] receive clearance through the NYSED Office of School Personnel Review and Accountability (OSPRA) prior to employment. This includes paraprofessionals and other school personnel who are provided or assigned by the district of location, or related/contracted service providers. After an employee has been cleared, schools are required to maintain proof of such clearance in the file of each employee. For the safety of all students, charter schools must take immediate steps to terminate the employment of individuals who have been denied clearance. Once the employees have been terminated, the school must terminate the request for clearance in the TEACH system.

In the Annual Report, charter schools are asked to confirm that all employees have been cleared through the NYSED TEACH system; and, if denied clearance, confirm that the individual or employee has been removed from the TEACH system, and is <u>not</u> employed by the school.

[1] Employees who must be cleared include, but are not limited to, teachers, administrative staff, janitors, security personnel and cafeteria workers, and other staff who are present when children are in the school building. This includes paraprofessionals and other school personnel that are provided or assigned by the district of location, as well as related/contracted service providers. See NYSED memorandum dated October 1, 2019 at http://www.nysed.gov/common/nysed/files/programs/charter-schools/employeefingerprintoct19.pdf or visit the NYSED website at: http://www.highered.nysed.gov/tsei/ospra/fingerprintingcharts.html for more information regarding who must be fingerprinted. Also see, 8 NYCRR §87.2.

B. Emergency Conditional Clearances

Emergency Conditional Clearances

Charter schools are **strongly discouraged** from using the emergency conditional clearance provisions for prospective employees. This is because the school must request clearance through NYSED TEACH, and the school's emergency conditional clearance of the employee terminates <u>automatically</u> once the school receives notification from NYSED regarding the clearance request. Status notification is provided for all prospective employees through the NYSED TEACH portal within 48 hours after the clearance request is submitted. Therefore, at most, a school's emergency conditional clearance will be valid for only 48 hours after approval by the board.

Schools are not permitted to renew or in any way re-establish a prospective employee's emergency conditional clearance after status notification is sent by NYSED through the TEACH portal.

Schools are asked to attest that they have reviewed and understand these requirements. More information can be found in the memo at NYSED CSO Employee Clearance and Fingerprint Memo 10-2019.

INDEPENDENT AUDITOR'S REPORT

Board of Trustees Uncommon New York City Charter Schools

Report on the Audit of the Financial Statements

Opinion

We have audited the accompanying financial statements of Uncommon New York City Charter Schools which comprise the statement of financial position as of June 30, 2022, and the related statements of activities and changes in net assets, functional expenses and cash flows for the year then ended, and the related notes to the financial statements.

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of Uncommon New York City Charter Schools as of June 30, 2022, and the changes in its net assets and its cash flows for the year then ended in conformity with accounting principles generally accepted in the United States of America.

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of Uncommon New York City Charter Schools, and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about Uncommon New York City Charter Schools ability to continue as a going concern for one year after the date that the financial statements are available to be issued.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are
 appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of
 Uncommon New York City Charter Schools internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about Uncommon New York City Charter Schools ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control–related matters that we identified during the audit.

Report on Summarized Comparative Information

We have previously audited Uncommon New York City Charter Schools' June 30, 2021 financial statements, and we expressed an unmodified opinion on those audited financial statements in our report dated October 28, 2021. In our opinion, the summarized comparative information presented herein as of and for the year ended June 30, 2021 is consistent, in all material respects, with the financial statements from which it has been derived.

Other Report Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated October 28, 2022 on our consideration of Uncommon New York City Charter Schools internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements, and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* and should be considered in assessing the results of our audit.

NOTE A: THE CHARTER SCHOOL AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The Charter School

Uncommon New York City Charter Schools (the "Charter School"), is an educational corporation operating as a group of charter schools in the borough of Brooklyn, New York City. The Charter School's mission is to ensure academic success for children in grades K through 12. The Charter School prepares students to excel in demanding high schools and colleges and to contribute to their communities as leaders. Through educational success, students earn opportunities in life for themselves and their communities.

Financial Statement presentation

The financial statements of the Charter School have been prepared on the accrual basis of accounting in conformity with accounting principles generally accepted in the United States of America (GAAP). The Charter School reports information regarding its financial position and activities according to two classes of net assets; net assets without donor restrictions and net assets with donor restrictions.

These classes of net assets are defined as follows:

<u>Net Assets With Donor Restrictions</u> – Net assets subject to donor (or certain grantor) imposed restrictions. Some donor-imposed restrictions are temporary in nature, such as those that will be met by the passage of time or other events specified by the donor. Other donor-imposed restrictions are perpetual in nature, where the donor stipulates that resources be maintained in perpetuity. Donor-imposed restrictions are released when a restriction expires, that is, when the stipulated time has elapsed, when the stipulated purpose for which the resource was restricted has been fulfilled, or both. There were no net assets with donor restrictions at June 30, 2022 and 2021.

<u>Net Assets Without Donor Restrictions</u> – The net assets over which the Governing Board has discretionary control to use in carrying on the Charter School's operations in accordance with the guidelines established by the Charter School. The Board may designate portions of the current net assets without donor restrictions for specific purposes, projects or investment.

Revenue recognition

Revenue from Exchange Transactions: The Charter School recognizes revenue in accordance with Financial Accounting Standards Board (FASB) Accounting Standards Update (ASU) 2014-09, Revenue from Contracts with Customers, as amended. ASU 2014-09 applies to exchange transactions with customers that are bound by contracts or similar arrangements and establishes a performance obligation approach to revenue recognition. The Charter School's public school district resident student enrollment and student with disabilities revenue qualifies as exchange transactions and the revenues are recognized over time.

Public school district revenue

The Charter School recognizes revenue as educational programming is provided to students throughout the year. The Charter School earns public school district revenue based on the approved per pupil tuition rate of the public school district in which the pupil resides. The amount received each year from the resident district is the product of the approved per pupil tuition rate and the full-time equivalent student enrollment of the School. Each NYS school district has a fixed per pupil tuition rate which is calculated annually by NYSED in accordance with NYS Education Law. Amounts are billed in advance every other month and payments are typically received in six installments during the year. At the end of each school year, a reconciliation of actual enrollment to billed enrollment is performed and any additional amounts due or excess funds received are agreed upon between the Charter School and the district(s) and are paid or recouped. Additional funding is available for students requiring special education services. The amount of additional funding is dependent upon the length of time and types of services provided by the Charter School to each student, subject to a maximum amount based upon a set rate for each district as calculated by NYSED.

The following table summarizes contract balances at their respective statement of financial position dates:

| | June 30, | | | | | |
|---------------------|----------|--------|----|-------|----|-----------|
| | | 2022 | | 2021 | | 2020 |
| | | | | | | _ |
| Accounts receivable | \$ | 91,900 | \$ | 7,449 | \$ | 1,763,857 |

Contributions

The Charter School recognizes contributions when cash, securities or other assets, an unconditional promise to give, or a notification of a beneficial interest is received. Conditional promises to give, that is, those with a measurable performance or other barrier, and a right of return, are not recognized until the conditions on which they depend have been substantially met.

Contributions received are recorded in the appropriate class of net assets depending on the existence of any donor restrictions. A contribution that is received and expended in the same year for a specific purpose is classified as revenue without donor restrictions.

Contributions are recorded as restricted support if they are received with donor stipulations that limit the use of the donated assets. When a donor restriction expires, that is, when a stipulated purpose restriction is accomplished, net assets with donor restrictions are reclassified to net assets without donor restrictions and reported in the statement of activities and changes in net assets as net assets released from restrictions.

Cash

Cash balances are maintained at financial institutions located in New York and are insured by the Federal Deposits Insurance Corporation up to \$250,000 at each institution. In the normal course of business, the cash account balances at any given time may exceed insured limits. However, the Charter School has not experienced any losses in such accounts and does not believe it is exposed to significant risk in cash.

Grant revenue

Some of the Charter School's revenue is derived from cost-reimbursable federal and state contracts and grants, which are conditioned upon certain performance requirements and/or the incurrence of allowable qualifying expenses. Amounts received are recognized as revenue when the Charter School has incurred expenditures in compliance with specific contract or grant provisions. Certain grants are subject to audit and retroactive adjustments by its funders. Any changes resulting from these audits are recognized in the year they become known. Qualifying expenditures that have been incurred but are yet to be reimbursed are reported as grants receivable in the accompanying statement of financial position. Amounts received prior to incurring qualifying expenditures are reported as deferred revenue in the accompanying statement of financial position. The amount reported as deferred revenue at June 30, 2022 amounted to \$1,823,536. There were no amounts reported as deferred revenue at June 30, 2021. The Organization received cost-reimbursement grants of approximately \$52,000 and \$122,000 that have not been recognized at June 30, 2022 and 2021, respectively, because qualifying expenditures have not yet been incurred.

Investments

Investments are maintained in accordance with the Charter School's Cash Management and Investment Policy. The goals of this policy are the preservation of principal, the maintenance of liquidity, and to obtain a competitive return on investment subject to prevailing market conditions and safe and sound investment practices. The policy was adopted by the Board in March 2019 and, as of June 30, 2022 and 2021, all funds are held in a money market fund. As the policy is put into place, the funds will be separated into the following three portfolios:

- The operating portfolio will be invested in short-term instruments to fund the daily operating needs of the Charter School and fund any capital outlays anticipated in the next 2 months. This portfolio will consist of no less than two months' worth of operating expenses and shall be continuously invested in readily available funds such as money market funds or bank deposits.
- The reserve portfolio, if sufficient funds are available, will be invested in short-term instruments to fund daily operating needs and capital outlays within the next twelve months. Assets within this portfolio will be permitted to have investments maturing in one year or less.
- The strategic portfolio, if sufficient funds are available, will be invested to fund operating needs anticipated over the next three years. This portfolio allows for investments with stated maturities of up to three years from the purchase date. Maturities are to be laddered to ensure flexibility of and access to funds in this portfolio.

Grants and other receivables and accounts receivable

Grants and other receivables and accounts receivable are stated at the amount management expects to collect from outstanding balances. Management provides for probable uncollectible amounts based on its assessment of the current status of individual receivables from grants, agencies and others. Balances that are still outstanding after management has used reasonable collection efforts are written off against the allowance for doubtful accounts. There was no allowance for doubtful accounts at June 30, 2022 or 2021.

Property and equipment

Property and equipment are recorded at cost. Depreciation is computed using the straight-line method on a basis considered adequate to depreciate the assets over their estimated useful lives, which range from three to ten years.

Major renewals and betterments are capitalized, while repairs and maintenance are charged to operations as incurred. Upon sale or retirement, the related cost and allowances for depreciation are removed form the accounts and the related gain or loss is reflected in operations.

Cash in escrow

Cash is held by the Charter School as an escrow account in accordance with the terms of their charter agreement. The amount in escrow as of June 30, 2022 and 2021 was \$384,253 and \$383,524, respectively. The escrow account is restricted to fund legal and other costs should the Charter School cease operations and dissolve.

Tax exempt status

The Charter School is a tax-exempt organization under section 501(c)(3) of the Internal Revenue Code and applicable state regulations and, accordingly, is exempt from federal and state taxes on income.

The Charter School files Form 990 tax returns in the U.S. federal jurisdiction. The tax returns for the years ended June 30, 2019 through June 30, 2022 are still subject to potential audit by the IRS. Management of the Charter School believes it has no material uncertain income tax positions and, accordingly it will not recognize any liability for unrecognized tax benefits.

Contributed services

The Charter School receives contributed services from volunteers to develop its academic program and to serve on the board of trustees. These services are not valued in the financial statements because they do not require "specialized skills" and would typically not be purchased if they were not contributed.

Use of estimates in the preparation of financial statements

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenue and expenses during the reporting period. Actual results could differ from those estimates.

<u>Functional allocation of expenses</u>

The financial statements report certain categories of expenses that are attributed to more than one program or supporting function. Therefore, expenses require allocation on a reasonable basis that is consistently applied. All expenses that are allocated to more than one program or supporting function are allocated on the basis of estimates of time and effort.

Adoption of new accounting standard - gifts-in-kind

In September 2020, the FASB issued a new accounting update to improve transparency in the reporting of contributed nonfinancial assets, also known as gifts-in-kind. The update requires not-for-profit entities to present contributed nonfinancial assets separately on the statement of activities, apart from contributions of cash and other financial assets. In addition, the update requires not-for-profit entities to disclose in the notes to the financial statements a breakout of the different types of gifts-in-kind recognized, any donor restrictions associated with the gift, the valuation technique(s) used to arrive at the fair value measure, whether or not the gift-in-kind was monetized, and any policies on monetization. The update is effective for fiscal years beginning after June 15, 2021 and will be applied on a retrospective basis. The Charter School adopted this standard during the year ended June 30, 2022. See Note B.

New accounting pronouncement - leases

In February 2016, the FASB issued a new standard related to leases to increase transparency and comparability among entities by requiring the recognition of right-of-use ("ROU") assets and lease liabilities on the statement of financial position. Most prominent among the changes in the standard is the recognition of ROU assets and lease liabilities by lessees for those leases classified as operating leases under current U.S. GAAP. For nonpublic entities, the FASB voted on May 20, 2020, to extend the guidance in this new standard to be effective for fiscal years beginning after December 15, 2021, and interim periods within fiscal years beginning after December 15, 2022. The Charter School is currently evaluating the provisions of this standard to determine the impact the new standard will have on the Charter School's financial position or results of operations.

Reclassifications

Certain prior year amounts have been reclassified to conform with present year presentation.

Subsequent events

The Charter School has conducted an evaluation of potential subsequent events occurring after the statement of financial position date through October 28, 2022 which is the date the financial statements are available to be issued. No subsequent events requiring disclosure were noted.

NOTE C: COMMITMENTS AND RELATED PARTY TRANSACTIONS

Uncommon Schools, Inc. ("USI"), a not-for-profit organization dedicated to helping start and run charter schools, provides management and other administrative support services to the Charter School. In July 2019, the Charter School entered into a new five-year agreement with USI terminating on June 30, 2024. Under this agreement the Charter School pays USI a service fee which is calculated as 13.5% of the sum of recurring public revenue less facilities expenses. Recurring public revenue is defined as annual public entitlement aid including core and tuition which includes general, SPED and State special funding and all ESSA funding which includes Title I, Title IIA, IID, III, IV, V and IDEA funding. Facilities expense includes building expenses (leases, taxes), utilities, maintenance and furniture and fixtures, and excludes building related expenditures which are capitalized and amortized/depreciated. The fee incurred for the years ended June 30, 2022 and 2021 was approximately \$21,566,000 and \$21,002,800. Included in accounts payable and accrued expenses at June 30, 2022 and 2021 was approximately \$4,335,000 and \$4,106,000, respectively, related to this fee and other expenses incurred by USI on behalf of the Charter School, due to USI.

USI applied for and was awarded a multi-year grant from the Department of Education for the replication and expansion of high-quality charter schools. USI passed through funding of \$95,200 and \$181,338 related to this federal program to the Charter School during the years ended June 30, 2022 and 2021, respectively. Included in accounts receivable at June 30, 2022 was approximately \$95,200, which represented reimbursable expenditures incurred by the Charter School for which they have yet to receive payment. There were no amounts related to this included in accounts receivable at June 30, 2021. For the year ended June 30, 2021, USI applied for and was awarded a multi-year grant from a foundation for the growth of high schools and music programs. USI passed through funding of approximately \$999,000 related to this grant program during the year ended June 30, 2021, which \$27,000 was included in receivables from USI at June 30, 2021. During the year ended June 30, 2022, no additional funding related to this grant was passed through to the Charter School.

In November 2013, a wholly-owned subsidiary of USI was created, Uncommon Crown Heights, LLC ("Crown Heights"), to manage a high school facility shared between an unrelated charter school and the Charter School. All schools located in the shared high school entered into an administrative costs management agreement and advanced Crown Heights funds to operate the location. The Schools will be charged an annual service fee of 0.5% of the combined facility budget by Crown Heights. The Charter School was charged approximately \$6,500 and \$5,300 related to this fee for the years ended June 30, 2022 and 2021, respectively. Actual expenses are tracked and allocated to each party based on metrics developed by management. Depending on the actual expenses incurred, a prepaid balance or payable could exist at any given time. At June 30, 2022 approximately \$329,000 and \$57,000, was included in accounts payable and accrued expenses and accounts receivable, respectively, related to Crown Heights. At June 30, 2021 approximately \$70,000 was included in accounts receivable related to Crown Heights.

NOTE D: LIQUIDITY AND AVAILABILITY

The Charter School regularly monitors liquidity required to meet its operating needs and other contractual commitments. The Charter School's main source of liquidity is its cash accounts.

For purposes of analyzing resources available to meet general expenditures over a 12-month period, the Charter School considers all expenditures related to its ongoing activities of teaching, and public service, as well as the conduct of services undertaken to support those activities, to be general expenditures.

In addition to financial assets available to meet general expenditures over the next 12 months, the Charter School operates with a balanced budget and anticipates collecting sufficient revenue to cover general expenditures not covered by donor-restricted resources. Refer to the statement of cash flows which identifies the sources and uses of the Charter School's cash and shows positive cash generated by operations for fiscal years 2022 and 2021.

Financial assets available for general expenditure, that is, without donor or other restrictions limiting their use, within one year of the statement of financial position date, comprise the following:

NOTE F: FAIR VALUE MEASUREMENTS

Accounting principles establishes a frame work for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 Measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy are described below:

- Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets.
- Level 2 Inputs to the valuation methodology include:
 - Quoted prices for similar assets or liabilities in active markets;
 - Quoted prices for identical or similar assets or liabilities in inactive markets;
 - Inputs other than quoted prices that are observable for the asset or liability;
 - Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 - Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at June 30, 2022 and 2021.

Mutual Funds: Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are actively traded open-end mutual funds that are registered with the U.S. Securities and Exchange Commission. These funds are required to report their daily net asset value and to transact at that price.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

JUNE 30, 2022 (With Comparative Totals for 2021)

NOTE I: RETIREMENT PLAN

The Charter School participates in a defined contribution 403(b) plan covering most employees through a USI plan. For employees who have less than 2 years of service, the Charter School matches employees' contributions up to the lesser of 3% of gross payroll or \$3,500. For employees who have 2 to 3 years of service, the Charter School will match up to the lesser of 4% of gross payroll or \$4,000. For employees who have 4 years of service or more, the Charter School will match up to the lesser of 5% of gross payroll or \$5,000. The Charter School's total contribution to the Plan for the years ended June 30, 2022 and 2021 approximated \$1,015,000 and \$1,110,000, respectively.

NOTE J: CONTINGENCY

Certain grants and contracts may be subject to audit by funding sources. Such audits might result in disallowance of costs submitted for reimbursement by the Charter School. Management is of the opinion that such disallowances, if any, will not have a material effect on the accompanying financial statements. Accordingly, no amounts have been provided in the accompanying financial statements for such potential claims.

NOTE K: CONCENTRATIONS

At June 30, 2022 and 2021, approximately 94% and 93%, respectively, of total grants and accounts receivables are due from New York State and federal government agencies regarding certain grants.

During the years ended June 30, 2022 and 2021, approximately 71% and 75%, respectively, of total revenue, gains and other support came from per-pupil funding provided by New York State. The per-pupil rate is set annually by the State based on the school district in which the Charter School is located.

NOTE L: ACCOUNTING IMPACT OF COVID-19 OUTBREAK

On January 30, 2020, the World Health Organization ("WHO") announced a global health emergency because of a new strain of coronavirus (the "COVID-19 outbreak") and the risks to the international community as the virus spreads globally beyond its point of origin. In March 2020, the WHO classified the COVID-19 outbreak as a pandemic, based on the rapid increase in exposure globally. The full impact of the COVID-19 outbreak continues to evolve as of the date of this report. As such, it is uncertain as to the full magnitude that the pandemic will have on the Charter School's financial condition, liquidity, and future results of operations. Management is actively monitoring the global situation on its financial condition, liquidity, operations, suppliers, industry, and workforce. Given the daily evolution of the COVID-19 outbreak and the global responses to curb its spread, the Charter School is not able to estimate the effects of the COVID-19 outbreak on its results of operations, financial condition, or liquidity for fiscal year 2023.

In response to the COVID-19 outbreak, the Federal Government passed several COVID relief acts which include funding for elementary and secondary education. The Elementary and Secondary School Emergency Relief Fund (ESSER Fund) was established to award grants to state and local educational agencies. The Charter School has recognized approximately \$12,807,000 and \$2,872,000 of revenue relative to ESSER grants during the years ended June 30, 2022 and 2021, respectively. The Charter School has approximately \$27,116,000 of ESSER grants still available through September 30, 2024 as of June 30, 2022.
