

Group:

NYS P-12 Science Learning Standards Implementation Roadmap - Activity 2

Template II: Within your group share the top three activities for each key component area. From the initial rankings, identify the priority activities from the local, regional and state levels in each of the key component areas to establish a collective group ranking indicating at least the top three priorities for local, regional and state activities within each key component area. Please note the activities write the code from the Roadmap in the left column and provide a brief explanation that supports the ranking in the right column.
