<p>Description of the purpose(s) for which Contractor will receive/access PII</p>	<p>PwC has identified key PII, as defined in 34 CFR § 99.3, that it must receive to provide contracted services to youth and families. These PII will allow us to properly record program enrollment and attendance data and facilitate counseling; PII will be gathered through the program’s informed consent application and will include [REDACTED]. [REDACTED] will be utilized to record attendance and safe sign-outs from program each day. This information is key to ensuring our program remains a safe, secure environment for students and that all youth are signed-out to authorized caretakers. Staff will use this data to ensure students who sign-in remain in the care of the program throughout the entire duration of programming each day. Attendance data will also inform several program outcomes, including the number of students who participate in services for 15+ and 30+ hours as well as attendance performance indicators for specific services. Due to the nature of the service, it is possible that [REDACTED] will include PII as defined as “Other information that, alone or in combination, is linked or linkable to a specific student that would allow a reasonable person in the school community, who does not have personal knowledge of the relevant circumstances, to identify the student with reasonable certainty.”.
