

Calling All Families!

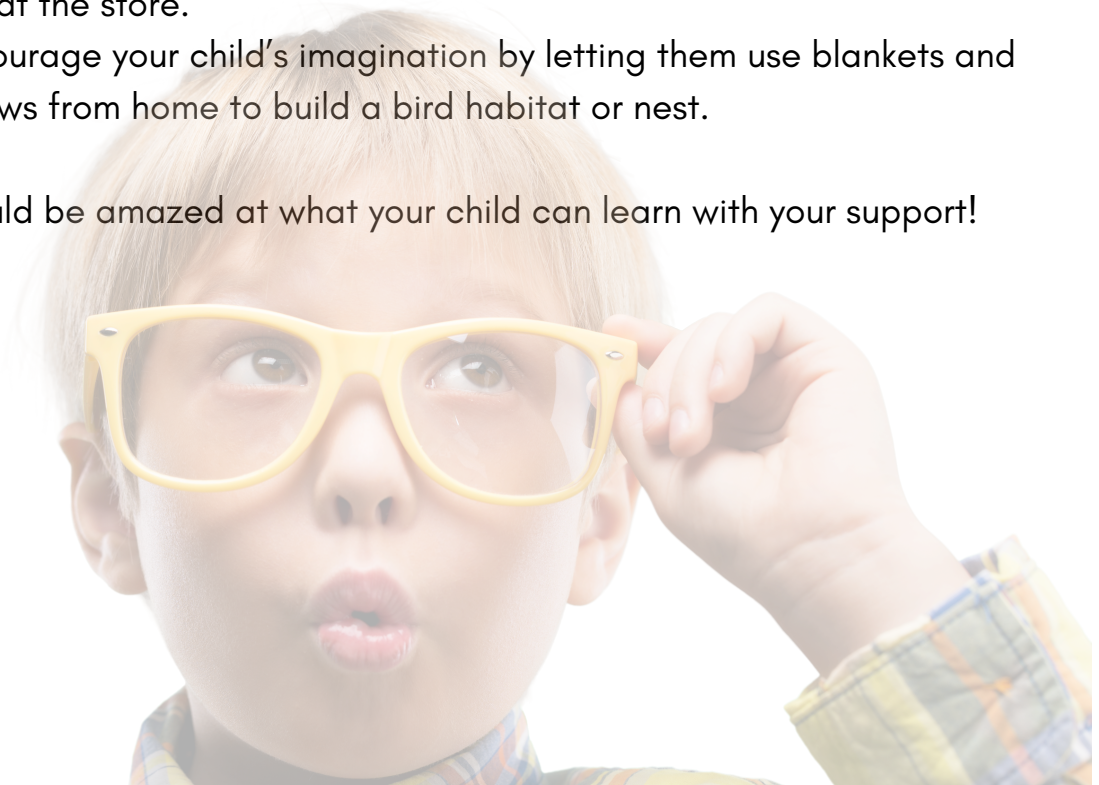

Get ready for a feathered adventure! Our class is about to take flight into the fascinating world of birds – from their habitats to their diets, and everything in between. We want to inspire our little nature-explorers to investigate the wonders of birds, using the power of language, math, art, and technology. And we need your help to make it happen!

Ways to Encourage Learning at Home

Here are some fun ways to spark your child's interest in birds:

- Take a walk and try to spot some birds. Ask your child what makes birds so unique.
- Share your favorite childhood bird tales and ask them to share theirs.
- Get those little minds buzzing with some "I wonder" questions:
 - "I wonder why birds make nests?"
 - "I wonder how long it takes a bird to grow inside their egg?"
- Take a trip to the local library and borrow books on birds.
- Look up different birds together on your personal device while waiting in line at the store.
- Encourage your child's imagination by letting them use blankets and pillows from home to build a bird habitat or nest.

You would be amazed at what your child can learn with your support!

Bird Exploration Materials Request

Hello Families!

We are about to begin studying our feathered friends (Birds) and we are looking for some materials. If you would like to donate any of the items below, please check off the box to the left and write the quantity. Please send in the items by

_____.

Thank you!

- ☐ Birdseed/Dried Chickpeas/Rice
- ☐ Newspaper
- ☐ Feathers
- ☐ Sticks
- ☐ Paper towel Rolls
- ☐ Shredded paper
- ☐ Plastic Eggs
- ☐ Egg cartons
