Data Collection and Reporting

Reporting Requirements Related to Education Law §3012-d

All LEAs are required to submit 2023-24 school year data to SIRS that include staff evaluation ratings used for evaluation. Please share this information with personnel in your organization who have responsibility for data collection and reporting.

For Educator Evaluation plans under Education Law §3012-d approved prior to 2020, scores in each subcomponent and an overall rating should be reported for all educators subject to evaluation under Education Law §3012-d. Original SLOs must be the basis of the required student performance subcomponent for all educators whose evaluation measures per the LEA's approved evaluation plan DO NOT incorporate the results of the grades 3-8 ELA/Math State assessments and/or State-provided growth scores. Alternate SLOs must be the basis of the required student performance subcomponent for all educators whose original evaluation measures per the LEA's approved evaluation plan incorporate the results of the grades 3-8 ELA/Math State assessments

and/or State-provided growth scores¹. *Please note, for educators who have required a transition evaluation in prior years, this evaluation will now replace the original evaluation and, therefore, the original, advisory evaluations no longer need to be provided.*

For Educator Evaluation plans under Education Law §3012-d approved prior to January 1, 2020 with an accompanying approved Supplemental Removal form, scores in each subcomponent and an overall rating should be reported for all educators subject to evaluation under Education Law §3012-d. Original SLOs must be the basis of the required student performance subcomponent for all educators whose evaluation measures per the LEA’s approved evaluation plan DO NOT incorporate the results of the grades 3-8 ELA/Math State assessments and/or State-provided growth scores. Alternate SLOs must be the basis of the required student performance subcomponent for all educators whose original evaluation measures per the LEA’s approved evaluation plan incorporate the results of the grades 3-8 ELA/Math State assessments and/or State-provided growth scores. **The measures and assessments included in the approved Supplemental Removal form shall replace original or alternate SLOs, as applicable.** *Please note, for educators who have required a transition evaluation in prior years, this evaluation will now replace the original evaluation and, therefore, the original, advisory evaluations no longer need to be provided.*

For Educator Evaluation plans under Education Law §3012-d, as amended in 2019, scores in each subcomponent and an overall rating based on the contents of the approved evaluation plan should be reported for all educators subject to evaluation under Education Law §3012-d.

For Educator Evaluation variances, scores in each subcomponent and an overall rating based on the contents of the approved evaluation variance must be reported for all educators subject to evaluation under Education Law §3012-d. The measures included in the evaluation plan for any subcomponent not included in the approved variance should be used as the basis of the evaluation.

The table below summarizes the data elements that are required to be submitted for Educator Evaluation under Education Law §3012-d via the Staff Evaluation Rating Template for the 2023-24 school year, exported from your local data systems for each teacher and principal. *Please note, If an LEA is unable to complete one of the subcomponents of Educator Evaluation, the complete subcomponent may be submitted with no overall rating for applicable educators.*

Educator Evaluation Summaries for LEAs

To assist LEAs with the calculation, distribution, and data submission of evaluation scores and ratings, the Office of Educator Quality and Professional Development has prepared **updated** Educator Evaluation summaries applicable to the approved evaluation plan for the 2023-24 school year, which will be made available for each LEA through [SED Monitoring](#) in the Educator Quality portal. Regional Information Centers will also receive an updated Educator Evaluation summary for all LEAs in their area. This Educator Evaluation summary provides information from the approved Educator Evaluation plan on measures and assessments, HEDI scoring ranges for

observations and principal school visits, and subcomponent weighting, as applicable. The Educator Evaluation summary is broken into groups of educators based on the selected measures. Each summary also provides a description of the items that should be distributed to educators as their final evaluation and those that should be submitted to the Department for the October 18, 2024 educator evaluation data submission deadline. Questions regarding the Educator Evaluation summaries can be directed to EvalData@nysed.gov.
