**Description:** Pre and Post Assessments are directly aligned to either the NYS Standards for the subject area or to the NYS Common Core Standards. Assessments mirror models provided in the NYS assessments.

**How administered:** Administered in single or double periods during the first week of school. Test mods are provided to students in an alternate location.

**How scores are reported:** Scores are reported on the SLO data sheets that are shared with administrators. Scores may be placed on School Tool, our student management system.

**How implemented:** Assessments are implemented using the same criteria found in the Examination Administration documents from NYSED. All exams are secured until administration day.

**Please provide an overview of the student-level growth model or target setting model for SLOs for districts and BOCES, along with how student-level growth scores are aggregated to create teacher-level scores, and how those teacher-level scores are converted to New York State's 0-20 metric.**

At the beginning of the year, students are given a pre assessment which contains content from the course. Targets are set for each student. Their targets are based on a variety of data points to include student's previous grades; NYS test scores, attendance, and discipline histories as baseline data. Teachers set growth targets for performance on end of course summative assessment. Principals will approve growth targets. Highly Effective: 90%-100% of students meet SLO target (18-20), Effective: 75%-89% of students meet SLO target (15-17), Developing: 60%-74% of students meet SLO target (13-14), Ineffective 0-59% of students meet SLO target (0-12)

**New York State Next Generation Assessment Priorities**  
 Please provide detail on how the proposed supplemental assessment I or assessment to be used with SLOs addresses each of the Next Generation Assessment Priorities below

<b>Characteristics of Good ELA and Math Assessments (only applicable to ELA and math assessments):</b>	Aligned based on Common Core Standards
<b>Assessments Woven Tightly Into the Curriculum:</b>	Reviewed by administrators to insure alignment. Assessments are locally developed and assess both the content and priorities of the curriculum taught. Even though they are generally summative they reflect the day to day academic goals of the teacher.
<b>Performance Assessment:</b>	Whenever possible, students are asked to perform authentic tasks. However, it is difficult to do this for all subjects based on limited resources and the regulations regarding scoring assessments.
<b>Efficient Time-Saving Assessments:</b>	Except for performance based assessments, assessments are administered in one period or a double period.
<b>Technology:</b>	Examples used are calculators, Fitbit, phones for timing, computers
<b>Degree to which the growth model must differentiate across New York State's four levels of teacher effectiveness (only applicable to supplemental assessments):</b>
