The assessments used for any Student Learning Objective (SLO) are aligned to the appropriate content area standards and New York State Common Core Learning Standards (CCLS).

All subject area assessments, as well as alternate assessments, were locally developed through collaboration with content area experts and instructional specialists. The design of the assessments are modeled after New York State assessments in the corresponding content areas. Pre-assessments and post-assessments are administered in each course. Teachers of record are prohibited from scoring their own students' assessments. The assessments are reviewed and scored by educators who are not vested in the outcome of the assessment. Content area experts and instructional specialists score the assessments and submit the scores to the program administrators.

**Please provide an overview of the student-level growth model or target setting model for SLOs for districts and BOCES, along with how student-level growth scores are aggregated to create teacher-level scores, and how those teacher-level scores are converted to New York State's 0-20 metric.**

The classroom teacher will use relevant baseline data generated through pre-assessments as appropriate and/or through the analysis of historical data provided by the home district to determine individual targets for each student. The percentage of students meeting their individual target will be determined and the percentage will be converted to a HEDI rating using the State-provided chart.

**New York State Next Generation Assessment Priorities**

Please provide detail on how the proposed supplemental assessment I or assessment to be used with SLOs addresses each of the Next Generation Assessment Priorities below.

<b>Characteristics of Good ELA and Math Assessments (only applicable to ELA and math assessments):</b>	All ELA and math assessments developed for use in Student Learning Objectives (SLOs) will be aligned to the New York State Common Core Learning Standards (CCLS). All teachers involved in the development of the assessments have had professional development in the implementation of the CCLS.
<b>Assessments Woven Tightly Into the Curriculum:</b>	Assessment is an integral part of the instructional process and, thus, the assessments are seamlessly administered in conjunction with classroom curriculum and instruction.
<b>Performance Assessment:</b>	Some assessments have performance components, as appropriate. Performance assessment components will be used to provide teachers relevant information about individual student targets and job readiness skills.
<b>Efficient Time-Saving Assessments:</b>	Protocols and schedules are developed to ensure minimal disruption to instructional time and to ensure consistency across programs. Technology is used to aid in the scoring of assessments, as appropriate, to maximize efficiency.
<b>Technology:</b>	Technology and/or adaptive devices are available for use in accordance with the design of the assessment and as necessary according to students' needs.
<b>Degree to which the growth model must differentiate across</b>	N/A

**FORM H**

**APPLICANT CERTIFICATION FORM –ASSESSMENTS FOR USE WITH STUDENT  
LEARNING OBJECTIVES**

Please read each of the items below and check the corresponding box to ensure the fulfillment of the technical criteria.

PLEASE SUBMIT ONE “FORM H” FOR EACH APPLICANT. CO-APPLICANTS SHOULD SUBMIT SEPARATE FORMS.

The Applicant makes the following assurances:

<b>Assurance</b>	<b>Check each box:</b>
The assessment is rigorous, meaning that it is aligned to the New York State learning standards or, in instances where there are no such learning standards that apply to a subject/grade level, alignment to research-based learning standards.	<input checked="" type="checkbox"/>
To the extent practicable, the assessment must be valid and reliable as defined by the Standards of Educational and Psychological Testing.	<input checked="" type="checkbox"/>
The assessment can be used to measure one year’s expected growth for individual students.	<input checked="" type="checkbox"/>
For K-2 assessments, the assessment is not a “Traditional Standardized Assessment” as defined in Section 1.3 of this RFQ.	<input checked="" type="checkbox"/>
For assessments previously used under Education Law §3012-c, the assessment results in differentiated student-level performance. If the assessment has not produced differentiated results in prior school years, the applicant assures that the lack of differentiation is justified by equivalently consistent student results based on other measures of student achievement.	<input checked="" type="checkbox"/>
For assessments not previously used in teacher/principal evaluation, the applicant has a plan for collecting evidence of differentiated student results such that the evidence will be available by the end of each school year.	<input checked="" type="checkbox"/>
At the end of each school year, the applicant will collect evidence demonstrating that the assessment has produced differentiated student-level results and will provide such evidence to the Department upon request. <sup>3</sup>	<input checked="" type="checkbox"/>

<sup>3</sup> Please note, pursuant to Section 2.3 of this RFQ, an assessment may be removed from the approved list if such assessment does not comply with one or more of the criteria for approval set forth in this RFQ
