All assessments were developed as a region that consists of 25 school districts and 5 Special Education sites. All assessments are administered during the final exam schedule that is established by each school. The assessment is scored by teachers other than those being evaluated by the results. The teacher sets targets for the assessments for all students and yeses the results of the scoring to report whether the targets was successfully or unsuccessfully attained.

Please provide an overview of the student-level growth model or target setting model for SLOs for districts and BOCES, along with how student-level growth scores are aggregated to the create teacher-level scores, and how those teacher-level scores are converted to New York State’s 0-20 metric.

The target setting model for SLOs involves the teacher and administrator(s) collaboratively working to analyze multiple sets of data such as pre-assessment data and NYS data. Additionally, other factors such as special education, ELL, and past performance are considered as part of the process to set targets for each student. Once the assessment is scored by someone other than the teacher being evaluated, the data is analyzed for the percentage of students who met their target, and the percentage is then placed in the NYS 3012-d SLO scale to be converted to 0-20 then HEDI rating.

New York State Next Generation Assessment Priorities

Please provide detail on how the proposed supplemental assessment I or assessment to be used with SLOs addresses each of the Next Generation Assessment Priorities below.

Characteristics of Good ELA and Math Assessments (only applicable to ELA and math assessments):	Wayne-Finger Lakes BOCES defines a high quality assessment as one that is aligned to the NYS NGLS, provides data and actionable feedback to inform instruction and curricular decisions. Professional development and best practices on quality assessment design and the Achieve the Core Assessment Evaluation Tool for both ELA and Math, ensures that assessments include: rigor, balance, developmentally appropriate texts and questions, have questions that are of high quality, focus on Major Work and Reflect Coherence (Math), and are aligned to the NYS NGLS.
Assessments Woven Tightly Into the Curriculum:	As indicated from the assessment maps from above, all assessments have test specs and a test map. Additionally, all items are aligned to the standards and curriculum. All formative assessments used throughout the year are aligned to scaffold student success on the final assessment.
Performance Assessment:	The Secondary Art assessment requires the students to perform an authentic task (demonstration and perform a task) to show their understanding. The Applied Science, DDP and Tech Core I assessments have students demonstrating his/her knowledge in application of skills scenario, in addition to providing actionable feedback. Written responses measure skills in synthesizing text from multiple sources and responding to prompts using evidence from the text.
Efficient Time-Saving Assessments:	The assessments are administered during the final exam schedule developed by the school or during part of the instructional day.
Technology:	Wayne-Finger Lakes BOCES is in the process of creating and building an infrastructure that will accommodate computer based assessments. Upon completion, assessments will be involving technology or available online.
Degree to which the growth model must differentiate across	N/A

FORM H

**APPLICANT CERTIFICATION FORM –ASSESSMENTS FOR USE WITH STUDENT
LEARNING OBJECTIVES**

Please read each of the items below and check the corresponding box to ensure the fulfillment of the technical criteria.

PLEASE SUBMIT ONE "FORM H" FOR EACH APPLICANT. CO-APPLICANTS SHOULD SUBMIT SEPARATE FORMS.

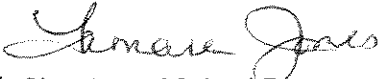

The Applicant makes the following assurances:

Assurance	Check each box:
The assessment is rigorous, meaning that it is aligned to the New York State learning standards or, in instances where there are no such learning standards that apply to a subject/grade level, alignment to research-based learning standards.	<input checked="" type="checkbox"/>
To the extent practicable, the assessment must be valid and reliable as defined by the Standards of Educational and Psychological Testing.	<input checked="" type="checkbox"/>
The assessment can be used to measure one year's expected growth for individual students.	<input checked="" type="checkbox"/>
For K-2 assessments, the assessment is not a "Traditional Standardized Assessment" as defined in Section 1.3 of this RFQ.	<input checked="" type="checkbox"/>
For assessments previously used under Education Law §3012-c, the assessment results in differentiated student-level performance. If the assessment has not produced differentiated results in prior school years, the applicant assures that the lack of differentiation is justified by equivalently consistent student results based on other measures of student achievement.	<input checked="" type="checkbox"/>
For assessments not previously used in teacher/principal evaluation, the applicant has a plan for collecting evidence of differentiated student results such that the evidence will be available by the end of each school year.	<input checked="" type="checkbox"/>
At the end of each school year, the applicant will collect evidence demonstrating that the assessment has produced differentiated student-level results and will provide such evidence to the Department upon request. ⁴	<input checked="" type="checkbox"/>

⁴ Please note, pursuant to Section 2.3 of this RFQ, an assessment may be removed from the approved list if such assessment does not comply with one or more of the criteria for approval set forth in this RFQ
