#### **About the Report**

The *SIRS-108 College, Career, and Civic Readiness Accountability Report* allows districts and schools to view data they reported in the Student Information Repository System (SIRS) that will be used to determine outcomes for the College, Career, and Civic Readiness (CCCR) indicator for making secondary-level accountability status determinations under New York

State's State Plan to comply with the Every Student Succeeds Act (ESSA). For more information about the State Plan, the New York State accountability system, and how each of the accountability indicators is used to determine school and district accountability statuses, please see the [Office of Accountability's website](#).

This report does not need to be certified; however, it should be reviewed for accuracy. The underlying data used to create this report are in the SIRS-321 Student Class Grade Detail, SIRS-201 Total Cohort – Summary, SIRS-302 Tested/Not Tested Confirmation All Assessments Report, SIRS-321 Student Class Grade Verification Report, and SIRS-308 Annual Graduation & Post Graduation Plans Report. These reports are required to be certified. The data in these reports used to make accountability determinations that cannot be viewed in other verification reports are scores of 3 or higher on an AP exam; scores of 4 or higher on an IB exam; high school credits earned through participation in an AP, IB, or dual enrollment course; Regents diplomas with CDOS endorsement, Seal of Biliteracy, and Smart Scholars. **The Department strongly encourages you to review these data in the SIRS-108 College, Career, and Civic Readiness (CCCR) Accountability Report.**

This report includes a **summary report** that shows counts of students in the four-year graduation rate cohort as of June 30<sup>th</sup> of the reporting year by the weight by which they will be included in the CCCR Index (used to determine the CCCR outcome), aggregated by student subgroup. This report also includes a **detail report** that shows student-level demographic data as well as the achievement earned by each student as used in the CCCR Index calculation.

### **College, Career, and Civic Readiness (CCCR) Index**

The CCCR Index is calculated using the achievements earned in the table on the following pages and the formula below:

**Denominator** = students in the four-year total cohort as of June 30<sup>th</sup> of the reporting year plus students not in the cohort but who in the current reporting year were reported with a Regents diploma with a Seal of Biliteracy.

**Numerator** =  $2.0 \times (\text{students in \#1-12 in the order of precedence table below}) + 1.5 \times (\text{students in \#13-15 in the order of precedence table below}) + 1.0 \times (\text{students in \#16-18 in the order of precedence table below}) + 0.5 \times (\text{students in \#19-20 in the order of precedence table below}) + 0.0 \times (\text{students in \#21 in the order of precedence table below})$

**CCCR Index** =  $(\text{Numerator/Denominator}) \times 100$

Students are counted only once in the numerator. Some students may have more than one achievement in the order of precedence table below. The achievement associated with the lowest number in the Order of Precedence column will be the one used in numerator when calculating the CCCR Index. The “Weight” associated with that achievement will be the number added to the numerator for that student. For example, a student in the cohort who earned a Regents Diploma with Advanced Designation (#1) as well as course credit for an AP course (#13) will be counted in the numerator as “2.0,” as this is the “Weight” associated with the smallest number in the order of precedence earned by the student (#1 Regents with Advanced Designation). If the student in the cohort only earned a Regents diploma and course credit for an AP course, the student would be counted in the numerator as “1.5,” as this is the “Weight” associated with achievement earned by the student (#13 Regents diploma and course credit for an AP or IB course).

## **HSE Clarification**

Students 1) whose last enrollment was in the school in the current reporting year or one of the previous two reporting years, and 2) earned an HSE in the current reporting year or one of the previous two reporting years and did not have that HSE count towards the CCCR Index in a previous year are included in the numerator with a weight of 0.5 but not in the denominator, even if the student happens to be in the cohort. These students are also not included in the cohort count in the summary report.

## DETAIL REPORT

This report includes student data as reported in the Student Information Repository System (SIRS).

- ❖ **Student ID:** Local unique identifier assigned to the student by the Local Education Agency (LEA) in which the student is enrolled, as reported in the School District Student ID field of most templates.
- ❖ **NYSSIS ID:** Unique statewide student identifier assigned by the New York State Student Identifier System (NYSSIS).
- ❖ **Student Name:** Student name as reported in the Student Lite template.

- ❖ **Location:** School where the student was enrolled, as indicated by the BEDS of location reported for the student. For students who are placed out-of-district, this may be a school or BOCES outside the district.
- ❖ **Grade:** Instructional (“grade”) level for the student, as determined by the school district and as reported in the Grade Level field of the Student Lite and School Entry/Exit templates. See “Grade Level Codes and Descriptions” in the *SIRS Manual*.
- ❖ **Year of Grade 9 Entry:** Year the student first entered grade 9 anywhere, as reported in the First Date of Entry into Grade 9 field of the Student Lite template.
- ❖ **NYSAA Eligible:** Student reported with program service code 0220 (Eligible for Alternate Assessment) in the Program Service Code field of the Programs Fact template, indicating that the student is eligible to take the NYSAA to fulfill the participation and performance requirements for ELA and mathematics accountability. These students must also be reported as ungraded and with at least one Challenge Code.
- ❖ **CCCR Achievement:** Achievement used for the student in the CCCR Index calculation. See hierarchy table above for a list of achievements with which students can be credited.
- ❖ **Weight:** Number included in the numerator based on the CCCR Achievement earned by the student, as indicated in the hierarchy table above.

If you select “Yes” for “Display Ancillary Data” on the summary report, the following data will also be available in the detail report:

- ❖ **Gender:** Student’s gender (Male, Female, Nonbinary), as reported in the Gender Description field of the Student Lite template.
- ❖ **Ethnicity:** The student’s racial or ethnic affiliation (Asian, Black or African American, Hispanic or Latino, American Indian or Alaska Native, Multiracial, Native Hawaiian/Other Pacific Islander, White). Students reported with ‘Yes’ in the Hispanic/Latino Ethnicity Indicator field in the Student Lite template are counted as Hispanic. Students reported with ‘No’ in the Hispanic/Latino Ethnicity Indicator field are included in the ethnicity group as indicated by the Race Code reported in the Student Lite template. If multiple Race Codes are reported for a non-Hispanic/Latino student, the student is counted in the Multiracial group.
