<b>Teaching and Learning: Middle School</b>				
The District carefully review the data for sixth grade students, some of whom are in the elementary schools and some of whom are in the Middle School to determine if there are differences in the performance of students related to the grade configuration of the school the student attends. The District should then use the data to consider an appropriate configuration for the sixth grade.	<b>GREEN</b>	In reviewing the IREADY data and the data from the 2018-19 Math/ELA grade 6 assessment, it was noted that the students who attended grade 6 in the elementary school did slightly better on the assessment than students who attended grade 6 in the middle school. As a result, the District has decided to remove all grade 6 students from the middle school and revert to a self-contained model starting in 2021-22.	A Resolution will be placed before the Board of Education at its Feb.'s regular Board meeting to change the schools' grade configuration as follows starting 2021-22 SY: ABGS Middle School – grades 7-8, only. Front Street – grades 5 and 6; D. Paterson School and Joseph A. McNeil Schools – grades 1 – 6.  <u>5/15</u> 1. <p>To ensure consistency of instruction during the pandemic teachers and students should be routinely taught how to effectively use each device and all the software used to support instruction.</p>	<p><b>GREEN</b></p>	<p>The District has taken on the leadership ensuring all teachers receive training on how to use the technology needed (both hardware and software) to support a virtual learning environment. Teachers are responsible for students use of devices; however, any parent experiencing issues with how to use and access platforms have been aided either by the Tech Depart, a building administrator, or the Tech Coach in each building.</p>	<p>The District since March of 2020 has had ongoing training with staff on how to utilize the various platforms, inclusive of Learning Management System. Teachers have received training on Microsoft Teams, Zoom, Schoology, Google Classroom, creating of teacher page, etc. Teachers will also start receiving training on how to effectively utilize their Smartboards. The District has also placed at least one Tech Coach in every school to</p>	

			provide technical support and training for staff/parents as needed. <b>5/15 – The District will continue to make this recommendation a priority over the next few years.</b>	
The school should complete this school year the process to become a registered and accredited IB school.	<b>GREEN</b>	ABGS Middle School has a Coordinator of IB MYP to oversee the implementation and training of teachers in transforming teaching and learning as prescribed by IB. Currently, the Coordinator and the IB Committee are completing the application process. Within the next two weeks, the application will be ready for submission.	All teachers and administrators have received ongoing professional development in the area of IB. Administrators conduct walkthroughs to capture evidence of teachers' change in practice aligned with IB. Grade 8 students have been assigned their end of year required Community Project. All teachers have access to Atlas where they store their Units of Inquiry and Programs of Inquiry aligned to Next Generational Standards. School's website is being updated to denote the current IB practices of the school. <b>5/15</b>

<p>The performance of students needs to improve significantly. The I ready tests in reading and math should be offered in the first quarter of this school year to gather baseline data on each student. All teachers should be conversant in the data to assist them in the language arts component of every subject.</p>	<b>YELLOW</b>	<p>Unfortunately, students did not receive the I Ready assessment in the beginning of the school year. This will be corrected for 2021-22. The school experienced some challenges in this area, but is being addressed to ensure the assessment will be administered in September of 2021 to collect the necessary baseline data. Students in the middle school grades 6 – 8 were administered I Ready in December/January. However, All students grades 6 – 8 will take the end of year IREADY assessment in June to analyze growth and determine summer school program.</p>	<p>Training for staff on how to effectively administer the I Ready assessment, as well as how to use the results to drive instruction is now taking place. <p>Staff development needs to focus on student engagement and assessment. Teachers need to be able to generate and interpret student performance data that enables them to routinely modify and improve instruction online and in the classroom.</p>	<p><b>GREEN</b></p>	<p>In the past, teachers were provided with student data from 3-8 assessments to analyze and plan for instruction. We are now using data from I Ready assessments and math/science Regents tests to determine the academic needs of students. One area of concentration for professional development for staff has focused on data-driven standards-based instruction. Teachers are also working together and with their Instructional Coaches to use the data to create their intervention plans for students. Students who are experiencing gaps in learning are placed on the Accellus platform in their area of need. Students have also been invited to attend after school and Saturday AIS programs. Training for staff on how to effectively administer the I Ready assessment, as well as how to use the results to drive instruction is now taking place. Teaching and Learning: High School

The Regents graduation rate needs to continue incremental growth even though achieving in the mid-seventies is a laudable change.

**GREEN**

High School leadership team continue to monitor the Regents graduation rate. Although, the high school has demonstrated an increase in the number of students receiving Regents diplomas and Regents Diplomas with Distinction has slightly increase each year, the percentage of students meeting this goal has fallen short of the school's target.

To assist the high school in increasing the number of students graduating in 4-years with a Regent diploma, we are implementing Regents classes in Math and Science at the middle school level. The schools have held articulation meetings to align curriculum and train teachers on how to successfully prepare students for Regents. Students at both the middle and high school are provided with AIS services to support their academic needs and increase their chances on passing the Regents classes.
