

Mack High Superstars!!! Our goal is 83% graduation rate!!!

The Senior Class (Cohort 2016) is off to a great start! One of the best I have seen in our 7 years together! Out of 258 students, we have 146 student ready to graduate right now!! Our focus needs to assure those 146 students graduate, really push the 64 students that need exams to graduate, and push the 28 students that need exams and classes.

Attached you will find a spreadsheet with all of our seniors and their current standing:

- Students marked in green are ready to graduate as long as they pass all of their classes Senior year. These students have passed all of the required exams.
- Students marked in yellow need to pass exams in order to graduate.
- Students marked in red need a combination of exams and classes in order to graduate.

In order to make our 83% graduation rate, the following interventions have been put in place:
