Audiology at New York State School for the Deaf

New York State School for the Deaf
401 Turin Street
Rome NY 13340
315.337.8400

Audiologist

Audiologists have training in anatomy and physiology, hearing aids, cochlear implants, electrophysiology, acoustics, neurology, and counseling. They are the primary healthcare provider who evaluate, diagnose, treat and manage hearing loss and balance disorders in patients of all ages.

Education: Audiologists must hold a doctoral degree.

Audiologists are required to hold and maintain a NYS license. To maintain the licensing, Continuing Education Units need to be maintained by completing educational trainings related to the field of Audiology. Many Audiologists in NYS also hold a license to dispense hearing aids.
