1. **Describe the devices you intend to purchase and their compatibility with existing or planned platforms or systems.**

   Every classroom has an interactive whiteboard. They are used extensively for instruction. It is the intention of the district to repalce the 5 oldest units. The new versions will still be compatible with the existing network.

2. **Describe how the proposed technology purchases will improve teaching and learning inside or outside of the classroom.**

   The teachers at MPB have been very successful in integrating the use of interactive whiteboards into their instruction. They have found that technology increases active student responses by facilitating the use of assistive technology and providing for scaffolding to ensure that all students benefit from the instruction. The first interactive boards are almost 10 years old and desperately need to be replaced.

3. **To ensure the sustainability of technology purchases made with Smart Schools funds, schools must have a plan to maintain and support technology purchases reimbursed with Smart Schools funds. This sustainability plan should support recurring costs of use that are ineligible for Smart Schools funding such as device maintenance, technical support, Internet and wireless fees, maintenance of hotspots, staff professional development, building maintenance and the replacement of incidental items.**

   ☑ By checking this box, you certify that the school has a sustainability plan as described above.

4. **Schools must ensure that devices purchased with Smart Schools funds will be distributed, prepared for use, maintained and supported appropriately. Schools must maintain detailed device inventories in accordance with generally accepted accounting principles.**

   ☑ By checking this box, you certify that the school has a distribution and inventory management plan and system in place.
