Smart Schools Investment Plan - Revised - Classroom Learning Technology Devices SSIP

SSIP Overview

Page Last Modified: 01/07/2025

Institution ID

800000050877

1.   **Please enter the name of the person to contact regarding this submission.**

Genevieve Brauner

  1B.   **Please enter their phone number for follow up questions.**

  315-363-2550

  1C.   **Please enter their e-mail address for follow up contact.**

  gbrauner@oneidacsd.org

2.   **Please indicate below whether this is the first submission, a new or supplemental submission or an amended submission of an approved Smart Schools Investment Plan.**

  Supplemental submission

3.   All New York State public school districts are required to complete and submit a District Instructional Technology Plan survey to the New York State Education Department in compliance with Section 753 of the Education Law and per Part 100.12 of the Commissioner's Regulations. Districts that include investments in high-speed broadband or wireless connectivity and/or learning technology equipment or facilities as part of their Smart Schools Investment Plan must have a submitted and approved Instructional Technology Plan survey on file with the New York State Education Department.

  By checking this box, you certify that the school district has an approved District Instructional Technology Plan survey on file with the New York State Education Department.

  ☑ District Educational Technology Plan Submitted to SED and Approved

4.   **Pursuant to the requirements of the Smart Schools Bond Act, the planning process must include consultation with parents, teachers, students, community members, other stakeholders and any nonpublic schools located in the district.**

  By checking the boxes below, you are certifying that you have engaged with those required stakeholders.

  ☑ Parents

  ☑ Teachers

  ☑ Students

  ☑ Community members

5.   **Did your district contain nonpublic schools in 2014-15?**

  ☑ Yes

  ☐ Yes, but they have all since closed, moved out of district or are declining use of SSBA funds

  ☐ No

6.   **Certify that the following required steps have taken place by checking the boxes below:**

  ☑ The district developed and the school board approved a preliminary Smart Schools Investment Plan.

  ☑ The preliminary plan was posted on the district website for at least 30 days. The district included an address to which any written comments on the plan should be sent.

  ☑ The school board conducted a hearing that enabled stakeholders to respond to the preliminary plan. This hearing may have occured

Smart Schools Investment Plan - Revised - Classroom Learning Technology Devices SSIP

SSIP Overview

Page Last Modified: 01/07/2025

as part of a normal Board meeting, but adequate notice of the event must have been provided through local media and the district website for at least two weeks prior to the meeting.

☑ The district prepared a final plan for school board approval and such plan has been approved by the school board.

☑ The final proposed plan that has been submitted has been posted on the district's website.

6B. **Please upload the proposed Smart Schools Investment Plan (SSIP) that was posted on the district's website, along with any supporting materials. Note that this should be different than your recently submitted Educational Technology Survey. The Final SSIP, as approved by the School Board, should also be posted on the website and remain there during the course of the projects contained therein.**

6C. **Enter the webpage address where the final Smart Schools Investment Plan is posted. The Plan should remain posted for the life of the included projects.**

7. **Please enter an estimate of the total number of students and staff that will benefit from this Smart Schools Investment Plan based on the cumulative projects submitted to date.**

1,717

8. **An LEA/School District may partner with one or more other LEA/School Districts to form a consortium to pool Smart Schools Bond Act funds for a project that meets all other Smart School Bond Act requirements. Each school district participating in the consortium will need to file an approved Smart Schools Investment Plan for the project and submit a signed Memorandum of Understanding that sets forth the details of the consortium including the roles of each respective district.**

9. **Please enter the name and 6-digit SED Code for each LEA/School District participating in the Consortium.**

Partner LEA/District	SED BEDS Code

10. **Please upload a signed Memorandum of Understanding with all of the participating Consortium partners.**

11. **Your district's Smart Schools Bond Act Allocation is:**

12. **Final 2014-15 BEDS Enrollment to calculate Nonpublic Sharing Requirement**

	Public Enrollment	Nonpublic Enrollment	Total Enrollment	Nonpublic Percentage
Enrollment				

13. This table compares each category budget total, as entered in that category's page, to the total expenditures listed in the category's expenditure table. Any discrepancies between the two <u>must</u> **be resolved before submission.**

	Sub-Allocations	Expenditure Totals	Difference
School Connectivity

Smart Schools Investment Plan - Revised - Classroom Learning Technology Devices SSIP

School Connectivity

Page Last Modified: 09/27/2024

1. **In order for students and faculty to receive the maximum benefit from the technology made available under the Smart Schools Bond Act, their school buildings must possess sufficient connectivity infrastructure to ensure that devices can be used during the school day. Smart Schools Investment Plans must demonstrate that:**

   • sufficient infrastructure that meets the Federal Communications Commission's 100 Mbps per 1,000 students standard currently exists in the buildings where new devices will be deployed, or
   • **is a planned use of a portion of Smart Schools Bond Act funds, or**
   • **is under development through another funding source.**

   Smart Schools Bond Act funds used for technology infrastructure or classroom technology investments must increase the number of school buildings that meet or exceed the minimum speed standard of 100 Mbps per 1,000 students and staff within 12 months. This standard may be met on either a contracted 24/7 firm service or a "burstable" capability. If the standard is met under the burstable criteria, it must be:

   1. Specifically codified in a service contract with a provider, and

   2. Guaranteed to be available to all students and devices as needed, particularly during periods of high demand, such as computer-based testing (CBT) periods.

   Please describe how your district already meets or is planning to meet this standard within 12 months of plan submission.

   (No Response)

   1B. **If a district believes that it will be impossible to meet this standard within 12 months, it may apply for a waiver of this requirement, as described on the Smart Schools website. The waiver must be filed and approved by SED prior to submitting this survey.**

   ☐ By checking this box, you are certifying that the school district has an approved waiver of this requirement on file with the New York State Education Department.

2. Connectivity Speed Calculator (Required). If the district currently meets the required speed, enter "Currently Met" in the last box: Expected Date When Required Speed Will be Met.

	Number of Students	Required Speed in Mbps	Current Speed in Mbps	Expected Speed to be Attained Within 12 Months	Expected Date When Required Speed Will be Met
Calculated Speed	(No Response)	0.00	(No Response)	(No Response)	(No Response)

3. **Describe how you intend to use Smart Schools Bond Act funds for high-speed broadband and/or wireless connectivity projects in school buildings.**

   (No Response)

4. **Describe the linkage between the district's District Instructional Technology Plan and how the proposed projects will improve teaching and learning. (There should be a link between your response to this question and your responses to Question 1 in Section IV - NYSED Initiatives Alignment: "Explain how the district use of instructional technology will serve as a part of a comprehensive and sustained effort to support rigorous academic standards attainment and performance improvement for students."**

Page Last Modified: 09/27/2024

Your answer should also align with your answers to the questions in Section II - Strategic Technology Planning and the associated Action Steps in Section III - Action Plan.)
(No Response)

5. **If the district wishes to have students and staff access the Internet from wireless devices within the school building, or in close proximity to it, it must first ensure that it has a robust Wi-Fi network in place that has sufficient bandwidth to meet user demand.**

Please describe how you have quantified this demand and how you plan to meet this demand.
(No Response)

6. **Smart Schools plans with any expenditures in the School Connectivity category require a project number from the Office of Facilities Planning. Districts must submit an SSBA LOI and receive project numbers prior to submitting the SSIP. As indicated on the LOI, some projects may be eligible for a streamlined review and will not require a building permit.**
Please indicate on a separate row each project number given to you by the Office of Facilities Planning.

Project Number
(No Response)

7. **Certain high-tech security and connectivity infrastructure projects may be eligible for an expedited review process as determined by the Office of Facilities Planning.**

Was your project deemed eligible for streamlined review?
(No Response)

8. **Include the name and license number of the architect or engineer of record.**

Name	License Number
(No Response)	(No Response)

9. Public Expenditures – Loanable (Counts toward the nonpublic loan calculation)

Select the allowable expenditure type. Repeat to add another item under each type.	**PUBLIC** Items to be Purchased	Quantity	Cost Per Item	Total Cost
(No Response)	(No Response)	(No Response)	(No Response)	0.00
		0	**0.00**	**0**

10. Public Expenditures – Non-Loanable (Does not count toward nonpublic loan calculation)

Community Connectivity (Broadband and Wireless)

Page Last Modified: 09/27/2024

1. **Describe how you intend to use Smart Schools Bond Act funds for high-speed broadband and/or wireless connectivity projects in the community.**

2. **Please describe how the proposed project(s) will promote student achievement and increase student and/or staff access to the Internet in a manner that enhances student learning and/or instruction outside of the school day and/or school building.**

   (No Response)

3. **Community connectivity projects must comply with all the necessary local building codes and regulations (building and related permits are not required prior to plan submission).**

4. **Please describe the physical location of the proposed investment.**

5. **Please provide the initial list of partners participating in the Community Connectivity Broadband Project, along with their Federal Tax Identification (Employer Identification) number.**

Project Partners	Federal ID #

6. **Please detail the type, quantity, per unit cost and total cost of the eligible items under each sub-category.**

Select the allowable expenditure type. Repeat to add another item under each type.	Item to be purchased	Quantity	Cost per Item	Total Cost
		0	0.00	0

7. **If you are submitting an allocation for Community Connectivity, complete this table.**
   Note that the calculated Total at the bottom of the table must equal the Total allocation for this category that you entered in the SSIP Overview overall budget.

	Sub-Allocation
Network/Access Costs	(No Response)
Outside Plant Costs	(No Response)
Tower Costs	(No Response)
Customer Premises Equipment	(No Response)
Professional Services	(No Response)
Testing	(No Response)

Smart Schools Investment Plan - Revised - Classroom Learning Technology Devices SSIP

Classroom Learning Technology

Page Last Modified: 12/13/2024

1. In order for students and faculty to receive the maximum benefit from the technology made available under the Smart Schools Bond Act, their school buildings must possess sufficient connectivity infrastructure to ensure that devices can be used during the school day. Smart Schools Investment Plans must demonstrate that sufficient infrastructure that meets the Federal Communications Commission's 100 Mbps per 1,000 students standard currently exists in the buildings where new devices will be deployed, or is a planned use of a portion of Smart Schools Bond Act funds, or is under development through another funding source.

Smart Schools Bond Act funds used for technology infrastructure or classroom technology investments must increase the number of school buildings that meet or exceed the minimum speed standard of 100 Mbps per 1,000 students and staff within 12 months. This standard may be met on either a contracted 24/7 firm service or a "burstable" capability. If the standard is met under the burstable criteria, it must be:

1. Specifically codified in a service contract with a provider, and

2. Guaranteed to be available to all students and devices as needed, particularly during periods of high demand, such as computer-based testing (CBT) periods.

Please describe how your district already meets or is planning to meet this standard within 12 months of plan submission.

The Oneida City School district currently has 1 GB between all school buildings and has recently upgraded its wireless system to meet latest standards with higher speed and increased reliability. One access point per classroom throughout the district and multiple access points in common areas have been added for a stronger and more secure coverage to accommodate for the district's 1:1 iLearning Initiative.

1B. **If a district believes that it will be impossible to meet this standard within 12 months, it may apply for a waiver of this requirement, as described on the Smart Schools website. The waiver must be filed and approved by SED prior to submitting this survey.**

☐ By checking this box, you are certifying that the school district has an approved waiver of this requirement on file with the New York State Education Department.

2. Connectivity Speed Calculator (Required). If the district currently meets the required speed, enter "Currently Met" in the last box: Expected Date When Required Speed Will be Met.

	Number of Students	Required Speed in Mbps	Current Speed in Mbps	Expected Speed to be Attained Within 12 Months	Expected Date When Required Speed Will be Met
Calculated Speed	1,717	171.70	1,000	(No Response)	Currently Met

3. **If the district wishes to have students and staff access the Internet from wireless devices within the school building, or in close proximity to it, it must first ensure that it has a robust Wi-Fi network in place that has sufficient bandwidth to meet user demand.**

Please describe how you have quantified this demand and how you plan to meet this demand.

The Oneida City School district currently has 1 GB within all school buildings and has recently upgraded its wireless system to meet latest standards with higher speed and increased reliability. One access point per classroom throughout the district and multiple access points in common areas have been added for a stronger and more secure coverage to accommodate for the district's 1:1 iLearning

Initiative. The district has sufficient bandwidth and robust wireless network to meet the increased demands.

4. All New York State public school districts are required to complete and submit an Instructional Technology Plan survey to the New York State Education Department in compliance with Section 753 of the Education Law and per Part 100.12 of the Commissioner's Regulations.

Districts that include educational technology purchases as part of their Smart Schools Investment Plan must have a submitted and approved Instructional Technology Plan survey on file with the New York State Education Department.

☑ By checking this box, you are certifying that the school district has an approved Instructional Technology Plan survey on file with the New York State Education Department.

5. **Describe the devices you intend to purchase and their compatibility with existing or planned platforms or systems. Specifically address the adequacy of each facility's electrical, HVAC and other infrastructure necessary to install and support the operation of the planned technology.**

OCSD plans to use SSBA funds to purchas, Chromebooks, Laptops and iPads to support the current 1:1 iLearning Initiative. Incoming students and replacement devices are provided throughout the school year. Devices purchased during the closure are being replaced as they come end of life. Chromebooks, laptops, and iPads are currently in use throughout the district and align with the updated technology plan to have more devices for students and teachers to integrate into everyday classroom instruction. Adequate electrical connections will be supplied, if necessary, in conformance with all applicable building and fire codes.

6. **Describe how the proposed technology purchases will:**
   > enhance differentiated instruction;
   > expand student learning inside and outside the classroom;
   > benefit students with disabilities and English language learners; and
   > contribute to the reduction of other learning gaps that have been identified within the district.

The expectation is that districts will place a priority on addressing the needs of students who struggle to succeed in a rigorous curriculum. Responses in this section should specifically address this concern and align with the district's Instructional Technology Plan (in particular Question 2 of E. Curriculum and Instruction: "Does the district's instructional technology plan address the needs of students with disabilities to ensure equitable access to instruction, materials and assessments?" and Question 3 of the same section: "Does the district's instructional technology plan address the provision of assistive technology specifically for students with disabilities to ensure access to and participation in the general curriculum?")

In addition, describe how the district ensures equitable access to instruction, materials and assessments and participation in the general curriculum for both SWD and English Language Learners/Multilingual Learners (ELL/MLL) students.

Please note: If this plan has been identified as a Remote Learning Plan to be submitted and reviewed on an expedited basis, the district should explain how this plan will facilitate remote and hybrid learning, in lieu of responding to the question above.

Differentiated Instruction

Page Last Modified: 12/13/2024

Mobile devcies such as Chromebooks, laptops and iPads empower educators to differentiate instruction by providing flexible tools, adaptive content, and opportunities for collaboration. Teachers can tailor settings, apps, and extensions to meet diverse learning needs. For example, students with visual impairments can adjust font sizes or enable screen readers. For English language learners, extensions can be added to provide visual cues, dictionaries, and comprehension.

Chromebooks and laptops provide access to a wealth of digital resources, including e-books, videos, and interactive simulations. Teachers can curate content to match students' readiness levels and learning styles. Chromebooks and laptops can facilitate flipped learning models, where students engage with instructional content at their own pace outside of class. In-class time is then used for deeper discussions, collaborative activities, and individualized support. Students can collaborate on documents, presentations, and projects in real time. Peer feedback and cooperative learning are enhanced.

iPads have the ability to host interactive educational apps that cater to various learning styles, preferences and abilities. For English language learners, translations apps with visual cues can be downloaded. Specialized communication apps allow non-verbal students to express themselves using symbols, pictures, or text-to-speech. iPads offer apps for targeted skill development. Students can practice math, language, or other subjects at their own pace, receiving instant feedback.

Inside/ Outside the Classroom

Chromebooks, laptops and iPads facilitate collaboration among teachers and students by sharing documents, calendars, and classroom related subject matter as it relates to curriculum. These devices can provide real-time updates on assignments, events, and student progress. Parents can access this information with guardian access, fostering better communication between the student, school and guardian.

Chromebooks, laptops and iPads can support distance learning initiatives. Students can access educational content remotely, bridging geographical gaps. Students can participate in virtual learning courses fostering regional collaboration. Video conferencing tools are available on both platforms in the event that classroom instruction needs to be remote.

ELLs / Disability

Chromebooks, laptops and iPads come with various accessibility features such as screen readers, high-contrast mode, and select to speak features. Chromebooks allow the teachers and district to install apps and extensions to meet the specific needs of students in their class with various learning styles. One example is Google Read and Write for Chrome which provides a screen reader, picture dictionary, translation tools, screen masking and read aloud practice. Chromebook apps and extensions can help enhance digital literacy and comprehension skills, helping students navigate the online world creatively and confidently.

iPads provide additional support to our students with disabilities or English language learners who need to learn through visual and auditory modalities. iPads offer language learning apps that help English language learners improve vocabulary, pronunciation, and language skills. Students can use translation apps to bridge language gaps and communicate effectively. iPads host adaptive apps that adjust difficulty levels based on student performance, ensuring personalized learning experiences.

Chromebooks, laptops and iPads empower students by providing accessibility features, personalized learning opportunities, and innovative tools for collaboration and engagement. These devices play a crucial role in supporting diverse learners and fostering inclusive education.

7. **Where appropriate, describe how the proposed technology purchases will enhance ongoing communication with parents and other stakeholders and help the district facilitate technology-based regional partnerships, including distance learning and other efforts.**

Chromebooks, laptops, and iPads can support communication through mobile apps designed for schools. These apps allow teachers to share general announcements, news, and engage in personalized two-way communication with individual parents. Video conferencing

Page Last Modified: 12/13/2024

tools are available on both platforms in the event that classroom instruction needs to be remote.

Chromebooks, laptops and iPads facilitate collaboration among teachers and students by sharing documents, calendars, and classroom related subject matter as it relates to curriculum. These devices can provide real-time updates on assignments, events, and student progress. Parents can access this information with guardian access, fostering better communication between the student, school and guardian.

Chromebooks, laptops and iPads can support distance learning initiatives. Students can access educational content remotely, bridging geographical gaps. Students can participate in virtual learning courses fostering regional collaboration.

iPads and laptops can run specialized educational applications for specific subjects or skills for students who are unable to use Chromebooks.

Chromebooks, laptops and iPads offer powerful tools for communication, stakeholder engagement, and regional collaboration.

8.   **Describe the district's plan to provide professional development to ensure that administrators, teachers and staff can employ the technology purchased to enhance instruction successfully.**

Note: This response should be aligned and expanded upon in accordance with your district's response to Question 1 of F. Professional Development of your Instructional Technology Plan: "Please provide a summary of professional development offered to teachers and staff, for the time period covered by this plan, to support technology to enhance teaching and learning. Please include topics, audience and method of delivery within your summary."

Please note: If this plan has been identified as a Remote Learning Plan to be submitted and reviewed on an expedited basis, the district should provide a statement confirming that the district has provided or will provide professional development on these devices to its staff, in lieu of responding to the question above.

The district currently participates in a region-wide RIC service with a Model Schools Integration Specialist. This on-site specialist provides weekly technology related professional development trainings individually, in small groups, and in large group sessions. These sessions include online trainings, classroom technology integration workshops and boot camps. In addition to the on-site integration specialist, the district provides the opportunity for teachers and staff to sign up for courses offered outside of the district listed within catalog offerings through Frontline or any approved outside educational institution.

9.   **Districts must contact one of the SUNY/CUNY teacher preparation programs listed on the document on the left side of the page that supplies the largest number of the district's new teachers to request advice on innovative uses and best practices at the intersection of pedagogy and educational technology.**

☑   By checking this box, you certify that you have contacted the SUNY/CUNY teacher preparation program that supplies the largest number of your new teachers to request advice on these issues.

9B.   Please enter the name of the SUNY or CUNY Institution that you contacted.
SUNY Cortland

9C.   Enter the primary Institution phone number.
607-753-5433

9D.   Enter the name of the contact person with whom you consulted and/or will be collaborating with on innovative uses of technology and best practices.
Dr. Andrea Lachance

10. **To ensure the sustainability of technology purchases made with Smart Schools funds, districts must demonstrate a long-term plan to maintain and replace technology purchases supported by Smart Schools Bond Act funds. This sustainability plan shall demonstrate a district's capacity to support recurring costs of use that are ineligible for Smart Schools Bond Act funding such as device maintenance, technical support, Internet and wireless fees, maintenance of hotspots, staff professional development, building maintenance and the replacement of incidental items. Further, such a sustainability plan shall include a long-term plan for the replacement of purchased devices and equipment at the end of their useful life with other funding sources.**

11. **Districts must ensure that devices purchased with Smart Schools Bond funds will be distributed, prepared for use, maintained and supported appropriately. Districts must maintain detailed device inventories in accordance with generally accepted accounting principles.**

    ☑   By checking this box, you certify that the district has a distribution and inventory management plan and system in place.

12. **Please detail the type, quantity, per unit cost and total cost of the eligible items under each sub-category.**

Pre-Kindergarten Classrooms

Page Last Modified: 09/27/2024

1. **Provide information regarding how and where the district is currently serving pre-kindergarten students and justify the need for additional space with enrollment projections over 3 years.**

(No Response)

2. Describe the district's plan to construct, enhance or modernize education facilities to accommodate pre-kindergarten programs. Such plans must include:

- **Specific descriptions of what the district intends to do to each space;**
- **An affirmation that new pre-kindergarten classrooms will contain a minimum of 900 square feet per classroom;**
- **The number of classrooms involved;**
- **The approximate construction costs per classroom; and**
- **Confirmation that the space is district-owned or has a long-term lease that exceeds the probable useful life of the improvements.**

(No Response)

3. **Smart Schools Bond Act funds may only be used for capital construction costs. Describe the type and amount of additional funds that will be required to support ineligible ongoing costs (e.g. instruction, supplies) associated with any additional pre-kindergarten classrooms that the district plans to add.**

(No Response)

4. **All plans and specifications for the erection, repair, enlargement or remodeling of school buildings in any public school district in the State must be reviewed and approved by the Commissioner. Districts that plan capital projects using their Smart Schools Bond Act funds will undergo a Preliminary Review Process by the Office of Facilities Planning.**

Please indicate on a separate row each project number given to you by the Office of Facilities Planning.

Project Number

5. **Please detail the type, quantity, per unit cost and total cost of the eligible items under each sub-category.**

Select the allowable expenditure type. Repeat to add another item under each type.	Item to be purchased	Quantity	Cost per Item	Total Cost

High-Tech Security Features

Page Last Modified: 09/27/2024

1. **Describe how you intend to use Smart Schools Bond Act funds to install high-tech security features in school buildings and on school campuses.**

(No Response)

2. **All plans and specifications for the erection, repair, enlargement or remodeling of school buildings in any public school district in the State must be reviewed and approved by the Commissioner. Smart Schools plans with any expenditures in the High-Tech Security category require a project number from the Office of Facilities Planning. Districts must submit an SSBA LOI and receive project numbers prior to submitting the SSIP. As indicated on the LOI, some projects may be eligible for a streamlined review and will not require a building permit.**
Please indicate on a separate row each project number given to you by the Office of Facilities Planning.

Project Number
(No Response)

3. **Was your project deemed eligible for streamlined Review?**

☐ Yes

☐ No

4. **Include the name and license number of the architect or engineer of record.**

Name	License Number
(No Response)	(No Response)

5. **Please detail the type, quantity, per unit cost and total cost of the eligible items under each sub-category.**

Select the allowable expenditure type. Repeat to add another item under each type.	Item to be purchased	Quantity	Cost per Item	Total Cost
(No Response)	(No Response)	(No Response)	(No Response)	0.00
		0	0.00	0

6. **If you have made an allocation for High-Tech Security Features, complete this table.**

Enter each Sub-category Public Allocation based on the the expenditures listed in Table #5.

	Sub-Allocation
Capital-Intensive Security Project (Standard Review)	(No Response)
Electronic Security System	(No Response)
Entry Control System	(No Response)
Approved Door Hardening Project	(No Response)
Other Costs	(No Response)
Totals:	**0.00**

Smart Schools Investment Plan - Revised - Classroom Learning Technology Devices SSIP

Non-Public Schools

Page Last Modified: 12/13/2024

1. **Describe your plan to utilize SSBA funds to purchase devices and loan to the nonpublic schools within your district. Please specify what devices have been requested by the nonpublic schools. If the nonpublic schools have not finalized requests, the district should provide the date nonpublic schools will submit the request by.**

   Please note: If this plan has been identified as a Remote Learning Plan to be submitted and reviewed on an expedited basis, the district should state that they will reach out to the nonpublic schools upon submission of the application, in lieu of responding to the question above.

   The Oneida City School district has two non-pubilc schools within our district, St. Patrick's and Holy Cross. Both non-public schools requested Chromebooks.

2. **A final Smart Schools Investment Plan cannot be approved until school authorities have adopted regulations specifying the date by which requests from nonpublic schools for the purchase and loan of Smart Schools Bond Act classroom technology must be received by the district.**

   ☑ By checking this box, you certify that you have such a plan and associated regulations in place that have been made public.

   2B. **Please enter the date each year nonpublic schools must request loanable items from the school district. This date cannot be earlier than June 1 of the previous school year.**

   May 10, 2024

3. **Final 2014-15 BEDS Enrollment to calculate Nonpublic Sharing Requirement (no changes allowed.)**

	Public Enrollment	Nonpublic Enrollment	Total Enrollment	Nonpublic Percentage
Enrollment	2,149	176	2,325.00	7.57

4. **Nonpublic Loan Calculator**

	Loanable School Connectivity	Loanable Classroom Technology	Additional Nonpublic Loan (Optional)	Estimated Per Pupil Amount - This Plan	Previously Approved Per Pupil Amount(s)	Cumulative Per Pupil Loan Amount	Final Per Pupil Loan Amount - This Plan	Final Total Loan Amount - This Plan
Required Nonpublic Loan	0.00	223,566.61		96.16	48.27	144.42	96.16	16,923.75
Final Adjusted Loan - (If additional loan funds)	0.00	223,566.61	(No Response)	96.16	48.27	144.42	96.16	16,923.75

5. **Nonpublic Share**

	Final Per Pupil Amount	Final Nonpublic Loan Amount
Pending and Previously Approved Plans	48.27	8,495.01
This Plan	96.16	16,923.75
Total	144.42	25,418.76

6. **Distribution of Nonpublic Loan Amount by School**
