School Connectivity

Page Last Modified: 09/12/2016

1. **Describe how you intend to use Smart Schools funds for high-speed broadband and/or wireless connectivity projects in school buildings.**

   (No Response)

2. **Describe how the school plans to use digital connectivity and technology to improve teaching and learning.**

   (No Response)

3. **Does your School Connectivity project require new construction or substantially altered space and result in capitalized cost in excess of $100,000?**

   (No Response)

4. **If you are submitting an allocation for School Connectivity complete this table.**
   Note that the calculated Total at the bottom of the table must equal the Total allocation for this category that you entered in the SSIP Overview overall budget.

	Sub-Allocation
Network/Access Costs	(No Response)
Outside Plant Costs	(No Response)
School Internal Connections and Components	(No Response)

1. **Describe the devices you intend to purchase and their compatibility with existing or planned platforms or systems.**

   Smart School Funds will be used to enhance teaching and learning on a sustainable basis through the installation of interactive whiteboards in individual classrooms. We will purchase 14 units of 65" Smartboard 4000 LCD Panel and 8 MacBook Air Laptop computers. The school currently uses Mac computers in the classrooms and labs and we also have Smartboard Interactive Whiteboards in several shared locations. The planned expenditures will seamlessly integrate with platforms and systems currently in place and make them available to all students and staff.

2. **Describe how the proposed technology purchases will improve teaching and learning inside or outside of the classroom.**

   For students with autism and other neurological impairments, which is our primary student population, the use of Smartboard Interactive Whiteboards increases attention to task, accuracy of response, social interaction and language development. Being able to manipulate items on a screen rather than a static worksheet is beneficial to our students who need multi sensory learning approaches. Having an interactive Smartboard in the classroom as a focal point also allows for the board to be used for environmental structure, visual supports and schedules. In addition, many of the curriculum solutions and software we use are all enhanced by the use of an interactive whiteboard and are optimized for such use. The ability to have a Smartboard Interactive Whiteboard in each classroom will: enhance differentiated instruction and enhance learning beyond the classroom; ensure equal access with these improved educational services and learning opportunities for all of our students; leverage technology to provide additional technology related learning opportunities for our students; promote a framework that recognizes the strengths, needs and skills of diverse learners; and advance Wildwood School's short and long term educational goals. The laptops are used to run the curriculum software to teach on the Interactive Whiteboards and will be afixed to the boards for shared use. We are purchasing 8 with this grant but we will purchase 6 more from our school funds so every whiteboard has a laptop afixed for use.

3. **To ensure the sustainability of technology purchases made with Smart Schools funds, schools must have a plan to maintain and support technology purchases reimbursed with Smart Schools funds. This sustainability plan should support recurring costs of use that are ineligible for Smart Schools funding such as device maintenance, technical support, Internet and wireless fees, maintenance of hotspots, staff professional development, building maintenance and the replacement of incidental items.**

   ☑ By checking this box, you certify that the school has a sustainability plan as described above.

4. **Schools must ensure that devices purchased with Smart Schools funds will be distributed, prepared for use, maintained and supported appropriately. Schools must maintain detailed device inventories in accordance with generally accepted accounting principles.**

   ☑ By checking this box, you certify that the school has a distribution and inventory management plan and system in place.
