Agenda

Introduction to Indicator : How Do We Measure Parent Satisfaction?

Is Our Sampling Method Representative of Our Families and Fair to All Districts?

Are Parents Given Response Options that Are Accessible to All Families?

Should We Consider Additional Improvement Activities?

Are Our Targets Reasonable and Appropriate?

Frequently Used Terms in the Presentation

Term	Description
State Performance Plan or SPP	Evaluates the state's efforts to implement the requirements and purposes of the IDEA and describes how the state will improve its implementation.
Sample	A subset of a population whose characteristics are studied to gain information about the entire population.
Survey	A data collection activity involving observation or questionnaires for a sample of a population.
Representativeness	Refers to the extent to which the demographics of the children and youth whose parents provided data are representative of the demographics of all children and youth receiving special education services in the state.

Frequently Used Terms in the Presentation

Term	Description
Baseline	Data starting point to measure improvement over time.
Targets	Performance objectives set for each SPP indicator measurement.
Potsdam Institute of Applied Research (PIAR)	An independent research firm that is working with the New York State Education Department to survey parents of children who are receiving special education services.
Parent	A birth or adoptive parent, a legally appointed guardian generally authorized to act as the child’s parent or authorized to make educational decisions for the child.

A large green graphic element consisting of a white circle on the left, connected to a horizontal green bar on the right. Two thin green lines extend from the top and bottom of the circle, curving outwards.

Introduction to Indicator : How Do We Measure Parent Satisfaction?

INDICATOR 8 PARENT INVOLVEMENT

Measures the percent of parents with a child receiving special education services who report that schools facilitated parent involvement as a means of improving services and results for children with disabilities.

Parent Survey Options

Federal Office of Special Education Programs

1. Use state-developed survey or model survey
2. Survey all parents versus sample of parents

New York State Education Department Parent Survey

1. Modified model survey developed by the National Center for Special Education Accountability Measures (NCSEAM)
2. Sample Size
3. Random sampling of parents
4. Survey distribution

Potsdam Institute of Applied Research (PIAR)

- PIAR receives, inputs and tracks the responses electronically.
- Each fall, non-responders are contacted via email and again asked to submit the survey, which can now be made electronically.

Reporting Parent Satisfaction Among Different Demographics

The New York State 25-question survey contains questions that would enable reporting data on race, age, disability category, geographic location and data by question. Reporting on this data and disaggregating it would better inform and target improvement strategies.

Dear Parent:

Our school district is working with the New York State Education Department (NYSED) to collect information on how we help you and other parents of students with disabilities to be involved in their children's education. Parents from school districts throughout the State are completing the same survey. NYSED is working with the Potsdam Institute for Applied Research (PIAR) at SUNY Potsdam, an independent research firm, to collect the information.

Your answers to the survey are very important to us. They will help us identify how well we work with parents in order to improve services and results for all our students with disabilities. No one from our school district will see how you answered the questions. PIAR will compile the results of the surveys from all our parents and the results will be available to you in a public report issued by NYSED for our school district.

To complete the questionnaire on the Internet, go to <http://parentsurvey.potsdam.edu> or you may fill out the enclosed paper survey and mail it to PIAR in the postage-paid envelope. Please take the time to complete the survey as soon as you receive it.

Additional Feedback

Does the letter convey the importance
of the survey?

Is it understandable to families of varied cultural
and linguistic backgrounds and literacy levels?

Are improvements needed in the content of the survey or the way it is given to parents?

2 Targeted Skills/Support Groups

3 Support Plans

Trainings on Meaningful Parent Involvement

Current NYSED Improvement Activities

Workshops for families on early childhood or postsecondary transition

Providing NYSED materials such as Procedural Safeguards in English and the six identified high frequency languages.

Dissemination of relevant NYSED materials and resources to established community networks that can reach stakeholders, community groups, developers, government workers (and the agencies they represent), business owners, medical community, neighborhood leaders, etc.

Potential NYSED Improvement Activities

Improving survey distribution methods

Improving district follow up with survey parents

Technical assistance to districts with low response rates or low satisfaction levels

Follow up post-survey to evaluate nonresponse bias

Target large districts and outlier districts with the lowest response rates to provide technical assistance on the method of survey distribution and follow up, including discussion of what staff will be used for follow up

Use a web portal or electronic submission as the initial/main responder submission method

Potential Improvement Activities For Consideration

IDEA STATE PERFORMANCE PLAN STAKEHOLDER ENGAGEMENT

What are your thoughts about the current improvement activities?

Do you feel that new improvement activities are needed in any of these areas: survey distribution, monitoring of response rates, or improving the percent of positive response rates?

INDICATOR 8 RESULTS

Current Data & Trend Data – Targets and Actual (FFY 2015-2019)

Proposed Targets for Indicator 8 for the 2020-2025 SPP/APR Reporting Period

Baseline 2005	FFY	2020	2021	2022	2023	2024	2025
87.80%	Target >=	93.75%	94.00%	94.25%	94.50%	94.75%	95.00%

The NYSED SPP 8 parent satisfaction rate is currently at 93.62%, a percentage that has stayed very flat over six years with only slight fluctuations (standard deviation of 0.47%, variance of only 0.22%, 93.36% mean, 93.40% median). NYSED recommends continuing to use the 2005 baseline of 87.80%.

At the top, there is a navigation bar with links for COUNTIES, BOCES, DISTRICTS (highlighted), SCHOOLS, HIGHER EDUCATION, DOWNLOADS, and PARENTS. A search bar is also present. Below the navigation, a message asks the user to select a district. A letter navigation bar (A-Z) is visible. The main content area displays a grid of district data cards. The visible cards are for ADDISON CSD, ADIRONDACK CSD, AFTON CSD, AKRON CSD, ALBANY CITY SCHOOL DISTRICT, and ALBION CSD. Each card features a year selector (2019-20, 2018-19, Archive) and two main data categories: STUDENT DATA and SCHOOL DATA. Under STUDENT DATA, there are links for Enrollment Data, English Language Learners Data, and Special Education Data. Under SCHOOL DATA, there are links for School Report Card, High School Graduation Rate, High School Graduation Pathways Data, and AP & IB Report.

Share Your Voice in our Online Survey

Each SPP Indicator has an online survey to collect input on NYS's target-setting and/or improvement activities

The online surveys are intended to collect feedback from interested stakeholders. They are available for those who are not attending a virtual meeting or for those who have additional information to share beyond the virtual meetings

Please visit the [SPP/APR webpage](#) to submit your survey
