

The CLASS[™] Rubric: Grades K-3

The Classroom Assessment Scoring System[™] (CLASS[™]) measures the quality, intensity, and frequency of teacherstudent interactions that are proven to support and extend student learning. These interactions are organized into three domains:

- **Emotional Support** refers to specific teaching behaviors that help students and teachers develop supportive relationships, experience enjoyment and excitement about learning, feel comfortable in the classroom, and experience appropriate levels of independence.
- **Classroom Organization** describes specific teaching behaviors that help students develop skills to regulate their own behavior, get the most learning out of each day, and maintain interest in learning activities.
- Instructional Support refers to the specific teaching behaviors that support children's cognitive development and language growth.

Each CLASS[™] domain contains of several dimensions. The dimensions included for grade levels K-3 are shown below.

Grade Level	Emotional Support Domain	Classroom Organization Domain	Instructional Support Domain
K-3	 Positive Climate Negative Climate Teacher Sensitivity Regard for Student Perspectives 	Behavior ManagementProductivityInstructional Learning Formats	Concept DevelopmentQuality of FeedbackLanguage Modeling

Note: CLASS[™] observers, trained and certified to score reliably using the CLASS[™] tool, use specific, evidence-based indicators and protocols to score each dimension.
